# VoIP Performance Management and Optimization

## Table of Contents

Contents

Foreword

Introduction

Part I: VoIP Networks Today

Chapter 1 Voice over IP (VoIP) and Network Management

VoIP Technology

VoIP Overview

Common Network Problems in VoIP Networks

Common Voice Quality Problems in IP Networks

Strategic Importance of VoIP and Management

Network Management Methodologies

Comprehensive Network Management Methodology

Summary

Reference

Chapter 2 A Metrics-Based Approach for Managing the VoIP  
Network

VoIP Networks Require a Layered Management Approach

Proactive Monitoring Concept

KPIs

VoIP Network Segments and VoIP Service Flows

Service-Level Agreement (SLA) Management

Summary

Reference

Part II: VoIP Deployment Models

# **Table of Contents**

## **Chapter 3 VoIP Deployment Models in Service Provider Networks**

Service Provider Voice Implementation Models

Residential Applications: Voice over Broadband

Small/Medium Business Applications (Voice over T1/E1/PRI/CAS)

IP Trunks

Session Border Controller (SBC) Models

Voice Security in Service Provider Networks

Common Issues and Problems When Deploying IP-Based Telephony Services

Summary

References

## **Chapter 4 Internet Telephony**

Internet Telephony Deployment Model

Wholesale VoIP Solution

Common Issues and Problems with Internet Telephony

Summary

References

## **Chapter 5 VoIP Deployment Models in Enterprise Networks**

Unified Communication Solution Components in Enterprise Networks

Common Enterprise Deployment Models

Common Issues and Problems

Summary

References

## **Part III: Performance and Optimization of VoIP Networks**

### **Chapter 6 Managing VoIP Networks**

Requirements for Enabling Voice in IP Networks

Effectively Monitoring the Network

How to Effectively Poll the Network

Using the Syslog/Trace Logs for Deep Analysis

Alarm and Event Audit and Correlation

Effectively Monitoring the PSTN Bearer Traffic

# **Table of Contents**

QoS in VoIP Networks

Trouble Ticketing (TT) Systems

Summary

References

## **Chapter 7 Performance Analysis and Fault Isolation**

Proactive Monitoring Through Performance Counters

Performance Analysis from a Transit Network Perspective

Enterprise Case StudyAnalyzing Network Performance

Performance Analysis from Call Agent Perspective

Performance Analysis from a DOCSIS Network

Trace Log Monitoring on Softswitch and Network Devices

Tools and Scripts

Software Maintenance

Summary

References

## **Chapter 8 Trend Analysis and Optimization**

Trend Analysis Through Key Metrics

Call Detail RecordBased Trend Analysis

Resource Optimization and Capacity Planning

Summary

References

## **Part IV: Appendixes**

A: Scripts and Tools for Monitoring and Troubleshooting VoIP Networks

B: Detailed Call Flows

C: VoIP Dashboard

D: Debugs, Traces, and Logs
