

DON POULTON
DAVID CAMARDELLA

Cert Guide

Learn, prepare, and practice for exam success

- ▶ Master MCSA 70-410 exam topics for Windows Server 2012 R2 installation and configuration
- ▶ Assess your knowledge with chapter-opening quizzes
- ▶ Review key concepts with exam preparation tasks
- ▶ Practice with realistic exam questions on the CD

MCSA 70-410

Installing and Configuring
Windows Server® 2012 R2

Introduction

Chapter 1 Introducing Windows Server 2012 R2

Do I Know This Already? Quiz

Foundation Topics

Whats New in Windows Server 2012 and Windows Server 2012 R2

Whats New in Windows Server 2012 R2

Windows Server 2012 R2 Editions

Windows Server 2012 R2 User Interface

Server Manager

Adding Roles and Features

Planning for Server Installation and Upgrades

Identifying Hardware Requirements

Choosing an Install Method

Considering Upgrades

Table of Contents

Server Roles and Role Migration

- Windows Server 2012 R2 Server Roles

- Role Migration

Features on Demand

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 2 Installing and Configuring Windows Server 2012 R2

Do I Know This Already? Quiz

Foundation Topics

Windows Server 2012 R2 Hardware Requirements

Installing Windows Server 2012 R2

- Installing a Windows Server Core Computer

- Installing the Full GUI Server

- Upgrading a Windows Server 2008 Computer

- Converting Between Core and GUI

Delegation of Server Administration

- Preparing for a Delegation Model

- Establishing Delegate Access

- Leveraging Active Directory

- Identifying Administration Tools

- Windows PowerShell Desired State Configuration

Configuring Offline Server Images

- Deployment Image Servicing and Management

- Using DISM to Enable Remote Desktop Services

Configuring Remote Server Roles

Table of Contents

Configuring Windows Server 2012 R2 Services

- Services.msc

- SC Commands

Configuring NIC Teaming

- Configure NIC Teaming via GUI

- Configure Basic NIC Teaming via PowerShell

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 3 Configuring Windows Server 2012 R2 Local Storage

Do I Know This Already? Quiz

Foundation Topics

Designing Storage Spaces

Optimal Storage Allocation

Improved Administrative Control

Scalability

- High Availability

- Configuring Basic and Dynamic Disks

Configuring MBR and GPT Disks

- Managing Volumes

Converting Disks

RAID Volumes

- Creating a RAID 0 Volume

- Creating a Spanned Volume

- Creating a Mirrored Volume

- Creating a RAID-5 Volume

Creating and Mounting Virtual Hard Disks

Table of Contents

Creating VHDs

- Mounting VHDs

Configuring Storage Pools and Disk Pools

- Creating Storage Spaces

- Creating and Managing Volumes

- Using PowerShell

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 4 Configuring Access to Files and Shares

Do I Know This Already? Quiz

Foundation Topics

Shared Folders in Windows Server 2012 R2

- Understanding the File and Storage Services Role in Windows Server 2012 R2

- Creating a Shared Folder

Offline Files

- Configuring Servers for Offline Files

- Configuring Client Computers

- Configuring Offline File Policies

- Using the Always Offline Mode

- Configuring Transparent Caching of Offline Files

Creating and Configuring Work Folders

- Enabling and Configuring Work Folders

- Configuring Client Computers for Work Folders

NTFS Permissions

- NTFS File and Folder Permissions

- Effective Permissions

- Copying and Moving Files and Folders

Table of Contents

Practical Guidelines on Sharing and Securing Folders

Access-Based Enumeration of Files and Folders

Configuring Volume Shadow Copy Service

Configuring Shadow Copies of Shared Folders

Guidelines for Using VSS

Configuring NTFS Quotas

Using File Explorer to Enable Disk Quotas

Using FSRM to Create Quota Templates

Some Guidelines for Using Quotas

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 5 Configuring and Monitoring Print and Document Services

Do I Know This Already? Quiz

Foundation Topics

Printing Terminology in Windows Server 2012 R2

The Printing Process

New Features of Print and Document Services in Windows Server 2012 R2

Installing, Sharing, and Publishing Printers

Installing the Print and Document Services Role

Installing Printers

Sharing Printers

Publishing Printers in Active Directory

Using Group Policy to Deploy Printer Connections

Branch Office Direct Printing

Configuring Drivers Including the Easy Print Driver

Table of Contents

Printer Driver Challenges

Easy Print Driver

Managing and Troubleshooting Printers

Using the Printer Properties Dialog box

Migrating Print Queues and Printer Settings

Isolating Printer Drivers

Configuring Location-Aware Printer Settings

Delegating Print Management

Troubleshooting Printer Problems

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 6 Configuring Remote Management of Servers

Do I Know This Already? Quiz

Foundation Topics

Configuring WinRM

Installation and Configuration of WinRM

Windows Remote Shell

Configuring Down-level Server Management

Preparing Down-level Server Core Installations

Configuring Multiple Server Management

Using Server Manager for Remote Management

Remote Management of Server Core Machines

Remote Server Administration Tools

Microsoft Management Console

Windows PowerShell

Configuring Daily Management Tasks

Task Scheduler

Table of Contents

Active Directory Administrative Center

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 7 Configuring Hyper-V

Do I Know This Already? Quiz

Foundation Topics

Introduction to Hyper-V

 Whats New in Hyper-V Server

 Installing the Hyper-V Server Role

 Install Hyper-V Using PowerShell

 Creating and Configuring Virtual Machine Settings

 Configuring a Virtual Machine

 Additional Virtual Machine Components

 Managing Virtual Machines

Configuring Dynamic Memory

Configuring Smart Paging

Configuring Resource Metering

Configuring Guest Integration Services

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 8 Creating and Configuring Virtual Machine Storage

Do I Know This Already? Quiz

Foundation Topics

Creating and Configuring Virtual Hard Disks and Differencing Drives

Table of Contents

Fixed-Size Disks

Dynamically Expanding Disks

Differencing Disks

Virtual Hard Disk Management

Hard Disk Sharing

Storage Quality of Service

Importing, Exporting, Migrating, and Replicating Virtual Machines

Configuring Pass-Through Disks

Managing Checkpoints

Creating and Reverting to a Previous Checkpoint

Managing Multiple Checkpoints

Implementing Virtual Fibre Channel Adapters

Virtual SAN Support

Advanced Fibre Channel Adapter Features

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 9 Creating and Configuring Virtual Networks

Do I Know This Already? Quiz

Foundation Topics

Network Virtualization Using Hyper-V

Planning for Network Virtualization

Network Virtualization Components

Configuring Virtual Network Switches

Optimizing Virtual Network Performance

Configuring MAC Addresses

Dynamic MAC Addresses

Static MAC Addresses

Table of Contents

MAC Address Spoofing

Configuring Network Isolation

Virtual Switch Trunking

Using PVLANS for Isolation

Configure PVLAN Ports

Configuring Virtual Network Adapters

Configuring an Emulated (Legacy) Network Adapter

Configuring a Network Adapter

Configure a Virtual NIC Team

Advanced Adapter Features

Hyper-V Network Virtualization PowerShell Cmdlets

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 10 Configuring IPv4 and IPv6 Addressing

Do I Know This Already? Quiz

Foundation Topics

Concepts of TCP/IP

TCP/IP History in Brief

The TCP/IP Protocol Stack

The TCP/IP Component Protocols

New and Improved Networking Technologies in Windows Server 2012 R2

IPv4 Addressing

Static IPv4 Addressing

Subnetting and Supernetting in IPv4

Dynamic IP Addressing

Configuring IPv4 Address Options

Using the Command Line to Configure IPv4 Addressing Options

Table of Contents

IPv6 Addressing

- IPv6 Address Syntax

- Connecting to a TCP/IP Version 6 Network

- TCP/IPv6 PowerShell Cmdlets

Interoperability Between IPv4 and IPv6 Addresses

- Compatibility Addresses

- ISATAP Addresses

- 6to4 Addresses

- Teredo Addresses

- Using Group Policy to Configure IPv6 Transition Technologies

Resolving IPv4 and IPv6 Network Connectivity Issues

- Windows Server 2012 R2 Network Diagnostics Tools

- Using TCP/IP Utilities to Troubleshoot TCP/IP

- Troubleshooting IPv4 and IPv6 Problems

Exam Preparation Tasks

- Review All the Key Topics

- Complete the Tables and Lists from Memory

- Definitions of Key Terms

Chapter 11 Configuring Dynamic Host Configuration Protocol (DHCP)

- Do I Know This Already? Quiz

- Foundation Topics

- How DHCP Works

 - Whats New with DHCP in Windows Server 2012 and Windows Server 2012 R2

 - The Four-Phase DHCP IPv4 Leasing Process

 - Renewing an IPv4 Lease

 - How DHCPv6 Works

- Installing and Configuring a DHCP Server

 - Using Server Manager to Install DHCP

Table of Contents

Using Windows PowerShell to Install DHCP

DHCP Scopes and Options

Creating DHCP Scopes

Configuring DHCP Scope Properties

Configuring DHCP Options

Configuring PXE Boot

Configuring DHCP Options for PXE

Monitoring and Troubleshooting a DHCP Server

Managing and Authorizing DHCP Servers

Authorizing a DHCP Server in Active Directory

Configuring DHCP Relay Agents

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 12 Deploying and Configuring Domain Name System (DNS)

Do I Know This Already? Quiz

Foundation Topics

Introduction to DNS

The Hierarchical Nature of DNS

The DNS Name Resolution Process

Whats New in Windows Server 2012 R2?

Installing DNS in Windows Server 2012 R2

Using PowerShell to Install DNS

Using PowerShell for DNS Server Administration

Zone Types and Their Uses

DNS Zone Types

Configuring DNS Server Properties

Table of Contents

Interfaces Tab

Forwarders Tab

Advanced Tab

Root Hints Tab

Debug Logging Tab

Event Logging Tab

Monitoring Tab

Security Tab

Configuring Common Resource Records

New Host (A or AAAA) Records

New Alias (CNAME)

New Mail Exchanger (MX)

Additional New Resource Records

Deleting Resource Records

Using the Command Line to Create Resource Records

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 13 Installing Domain Controllers

Do I Know This Already? Quiz

Foundation Topics

The Building Blocks of Active Directory

Namespaces

Objects

Containers

Schemas

Global Catalogs

Partitions

Table of Contents

Naming Standards of X.500 and LDAP

Logical Components of Active Directory

Physical Components of Active Directory

New Features of Active Directory in Windows Server 2012 and Windows Server
2012 R2

Planning the Active Directory Namespace

Subdividing the Active Directory Namespace

Administrative or Geographical Organization of Domains

Use of Multiple Trees

Best Practices

Creating Forests and Domains

Requirements for Installing Active Directory Domain Services

Installing Active Directory Domain Services

Performing Unattended Installations of Active Directory

Untitled

Adding, Removing, and Upgrading Domain Controllers

Forest and Domain Functional Levels

The Adprep Utility

Upgrading a Windows Server 2008 Domain Controller

Removing Active Directory

Installing a Server Core Domain Controller

Using the Install from Media Option

Creating Installation Media

Deploying Domain Controllers Using the IFM Option

Configuring Global Catalog Servers

Planning the Placement of Global Catalog Servers

Promoting Domain Controllers to Global Catalog Servers

Deploying Active Directory Infrastructure as a Service in Windows Azure

Installing an AD DS Forest in Windows Azure

Table of Contents

Installing a Replica Domain Controller on Windows Azure

Troubleshooting Active Directory Installations

Verifying the Proper Installation of Active Directory

Resolving SRV Record Registration Issues

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 14 Active Directory User and Computer Accounts

Do I Know This Already? Quiz

Foundation Topics

Creating User and Computer Accounts

Introducing User Accounts

Manually Creating User Accounts

Creating Computer Accounts

Using Template Accounts

Using Bulk Import to Automate Account Creation

Configuring the UPN

Configuring Contacts

Managing and Maintaining Accounts

Password Resets

Protected Admin

Offline Domain Join

Configuring User Rights

Inactive and Disabled Accounts

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Table of Contents

Chapter 15 Active Directory Groups and Organizational Units (OUs)

Do I Know This Already? Quiz

Foundation Topics

Creating and Managing Group Accounts

Creating Group Accounts

Configuring Group Membership

Creating Distribution Lists

AGDLP/AGUDLP

Local Versus Domain Groups

Enumerating Group Membership

Creating and Managing Organizational Units

Planning the OU Structure of Your Domain

Creating Organizational Units

Managing Organizational Units

Delegating Active Directory Object Management

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 16 Creating and Applying Group Policy Objects

Do I Know This Already? Quiz

Foundation Topics

Overview of Group Policy

Components of Group Policy

New Features of Group Policy in Windows Server 2012 and Windows Server 2012

R2

Creating and Applying GPOs

Using Starter GPOs

Shell Access Policies

Table of Contents

Managing GPOs and Their Links

- Linking GPOs

- Managing GPO Links

- Deleting a GPO

- Disabling GPOs or Portions of GPOs

- Specifying a Domain Controller

- Using Windows PowerShell

Configuring Multiple Local Group Policies

- MMC and Multiple Local Group Policies

- Using Multiple Local Group Policies

- Managing Restricted Groups

- Local Users and Groups Extension

- Configuring Group Policy Common Options

Configuring Security Filtering

- Denying the Application of a GPO

- Windows Management Instrumentation

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 17 Configuring Security Policies

Do I Know This Already? Quiz

Foundation Topics

Configuring User Rights Assignment

Configuring Security Options Settings

- Using Additional Security Configuration Tools

- Password and Account Lockout Policies

Auditing of Active Directory Services

- New Audit Functionality

Table of Contents

Active Directory Auditing

Using GPOs to Configure Auditing

Using Auditpol.exe to Configure Auditing

Configuring User Account Control

Using Control Panel to Configure UAC

Configuring UAC via Policy

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 18 Configuring Application Restriction Policies

Do I Know This Already? Quiz

Foundation Topics

Introducing Rule Enforcement

Configuring Software Restriction Policies

Configuring AppLocker Rules

Capabilities of AppLocker

Basic Configuration of AppLocker Policies

Creating Additional AppLocker Rules

Exam Preparation Tasks

Review All the Key Topics

Complete the Tables and Lists from Memory

Definitions of Key Terms

Chapter 19 Configuring Windows Firewall

Do I Know This Already? Quiz

Foundation Topics

Configuring Windows Firewall

Basic Windows Firewall Configuration

Table of Contents

Configuring Windows Firewall Using PowerShell

Using the Windows Firewall with Advanced Security Snap-in

Overview of Default Windows Firewall with Advanced Security Rules

Configuring Multiple Firewall Profiles

Configuring Security Rules

Configuring Inbound Rules or Outbound Rules

Configuring Connection Security Rules

Configuring Rule Properties

Configuring Notifications

Configuring Firewall Properties and Authenticated Exceptions

Creating Windows Firewall with Advanced Security Policies

Windows Firewall Group Policy Property Settings

Configuring Authenticated Bypass

Exporting and Importing Firewall Settings

Exam Preparation Tasks

Review All the Key Topics

Definitions of Key Terms
