C Programming in One Hour a Day, Sams Teach Yourself

Table of Contents

Table of Contents

Introduction

PART I: Fundamentals of C

LESSON 1: Getting Started with C

A Brief History of the C Language

Why Use C?

Preparing to Program

The Program Development Cycle

Your First C Program

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 2: The Components of a C Program

A Short C Program

The Programs Components

A Review of the Parts of a Program

Summary

Q&A

Workshop

Quiz

Table of Contents

Exercises

LESSON 3: Storing Information: Variables and Constants

Understanding Your Computers Memory

Storing Information with Variables

Numeric Variable Types

Constants

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 4: The Pieces of a C Program: Statements, Expressions, and Operators

Statements

Understanding Expressions

Operators

The if Statement

Evaluating Relational Expressions

The Logical Operators

More on True/False Values

Operator Precedence Revisited

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 5: Packaging Code in Functions

Understanding Functions

Table of Contents

How a Function Works

Functions and Structured Programming

Writing a Function

Passing Arguments to a Function

Calling Functions

Where the Functions Belong

Working with Inline Functions

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 6: Basic Program Control

Arrays: The Basics

Controlling Program Execution

Nested Loops

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 7: Fundamentals of Reading and Writing Information

Displaying Information Onscreen

Inputting Numeric Data with scanf()

Using Trigraph Sequences

Summary

Q&A

Workshop

Table of Contents

Quiz

Exercises

PART II: Putting C to Work

LESSON 8: Using Numeric Arrays

What Is an Array?

Naming and Declaring Arrays

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 9: Understanding Pointers

What Is a Pointer?

Pointers and Simple Variables

Pointers and Variable Types

Pointers and Arrays

Pointer Cautions

Array Subscript Notation and Pointers

Passing Arrays to Functions

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 10: Working with Characters and Strings

The char Data Type

Using Character Variables

Using Strings

Table of Contents

Strings and Pointers

Strings Without Arrays

Displaying Strings and Characters

Reading Strings from the Keyboard

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 11: Implementing Structures, Unions, and TypeDefs

Working with Simple Structures

Using Structures That Are More Complex

Arrays of Structures

Initializing Structures

Structures and Pointers

Understanding Unions

Creating Synonyms for Structures with typedef

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 12: Understanding Variable Scope

What Is Scope?

Creating External Variables

Creating Local Variables

Local Variables and the main() Function

Which Storage Class Should You Use?

Table of Contents

Local Variables and Blocks

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 13: Advanced Program Control

Ending Loops Early

The goto Statement

Infinite Loops

The switch Statement

Exiting the Program

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 14: Working with the Screen, Printer, and Keyboard

Streams and C

Using Cs Stream Functions

Accepting Keyboard Input

Controlling Output to the Screen

When to Use fprintf()

Summary

Q&A

Workshop

Quiz

Exercises

Table of Contents

PART III: Advanced C

LESSON 15: Pointers to Pointers and Arrays of Pointers

- Declaring Pointers to Pointers
- Pointers and Multidimensional Arrays
- Working with Arrays of Pointers
- Summary
- Q&A
- Workshop
- Quiz
- Exercises

LESSON 16: Pointers to Functions and Linked Lists

- Working with Pointers to Functions
- Understanding Linked Lists
- Summary
- Q&A
- Workshop
- Quiz
- Exercises

LESSON 17: Using Disk Files

- Relating Streams to Disk Files
- Understanding the Types of Disk Files
- Using Filenames
- Opening a File
- Writing and Reading File Data
- File Buffering: Closing and Flushing Files
- Understanding Sequential Versus Random File Access
- Detecting the End of a File
- File Management Functions

Table of Contents

Using Temporary Files

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 18: Manipulating Strings

Determining String Length

Copying Strings

Concatenating Strings

Comparing Strings

Searching Strings

String-to-Number Conversions

Character-Test Functions

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 19: Getting More from Functions

Passing Pointers to Functions

Type void Pointers

Using Functions That Have a Variable Number of Arguments

Functions That Return a Pointer

Summary

Q&A

Workshop

Quiz

Table of Contents

Exercises

LESSON 20: Exploring the C Function Library

Mathematical Functions

Dealing with Time

Error-Handling

Searching and Sorting

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 21: Working with Memory

Type Conversions

Allocating Memory Storage Space

Manipulating Memory Blocks

Working with Bits

Summary

Q&A

Workshop

Quiz

Exercises

LESSON 22: Advanced Compiler Use

Programming with Multiple Source-Code Files

The C Preprocessor

Predefined Macros

Using Command-Line Arguments

Summary

Q&A

Table of Contents

Workshop

Quiz

Exercises

PART 4: Appendixes

APPENDIX A: ASCII Chart

APPENDIX B: C/C++ Reserved Words

APPENDIX C: Common C Functions

APPENDIX D: Answers

Index
