Introduction

Chapter 1 Interdomain Routing and Internet Multicast

Introduction to Interdomain Multicast

What Is a Multicast Domain? A Refresher

PIM Domain Design Types

Domains by Group, or Group Scope

Domains by RP Scope

Overlapping Domains and Subdomains

Forwarding Between Domains

Autonomous System Borders and Multicast BGP

Configuring and Verifying MBGP for Multicast

Domain Borders and Configured Multicast Boundaries

Multicast Source Discovery Protocol

Table of Contents

Understanding Source Actives (SA) and MSDP Mechanics

Configuring and Verifying MSDP

Basic MSDP Deployment Use Case

Intradomain versus Interdomain Design Models

Intra-AS Multidomain Design

Inter-AS and Internet Design

Protecting Domain Borders and Interdomain Resources

Firewalling IP Multicast

Controlling Domain Access through Filtering

Service Filtering at the Edge

Interdomain Multicast Without Active Source Learning

SSM

IPv6 with Embedded RP

Summary

References

Chapter 2 Multicast Scalability and Transport Diversification

Why Is Multicast Not Enabled Natively in a Public Cloud Environment?

Enterprise Adoption of Cloud Services

Cloud Connectivity to an Enterprise

Virtual Services in a Cloud

Service Reflection Feature

Use Case 1: Multicast-to-Multicast Destination Conversion

Use Case 2: Unicast-to-Multicast Destination Conversion

Use Case 3: Multicast-to-Unicast Destination Conversion

Multicast Traffic Engineering

Unicast Spoke-to-Spoke Intra-regional Communication

Unicast Spoke-to-Spoke Interregional Communication

Unicast Spoke-to-Central Hub Communication

Traffic Path of a Multicast Stream Sourced at the Central Hub

Table of Contents

Intra-regional Multicast Flow Between Two Spokes

Enabling Multicast to the CSP Use Case 1

Point-to-Point VC Provided by the NSP

MPLS Layer 3 VPN Services for the NSP

Enabling Multicast to the CSP Use Case 2

Summary

Chapter 3 Multicast MPLS VPNs

Multicast in an MPLS VPN Network

Multicast Distribution Tree (MDT)

Default MDT

Data MDT

Multicast Tunnel Interface (MTI)

Multicast Signaling in the Core

Default MDT in Action

Data MDT Traffic Flow

Default MDT Example

MTI Example

Data MDT Example

Multicast LDP (MLDP)

FEC Elements

In-Band Signaling Operation

Out-of-Band (Overlay) Signaling Operation

Default MDT MLDP

Default MDT MLDP Root High Availability

MLDP in Action

Default MDT MLDP Example

Data MDT MLDP Example

Profiles

Migrating Between Profiles

Table of Contents

- Provider (P) Multicast Transport
- PECE Multicast Routing
- CECE Multicast Routing
- PEPE Ingress Replication
- Multicast Extranet VPNs
- Route Leaking
- VRF Fallback
- VRF Select
- Fusion Router
- VRF-Aware Service Infrastructure (VASI)

IPv6 MVPN

- Bit Index Explicit Replication (BIER)

- Summary

- References

Chapter 4 Multicast in Data Center Environments

- Multicast in a VPC Environment

 - Multicast Flow over a VPC

VXLAN

VTEP

 - VXLAN Flood and Learn
 - VXLAN with EVPN
 - Spine 1 Configuration
 - Leaf Configuration
 - Ingress Replication
 - Host-to-Host Multicast Communication in VXLAN
 - Layer 2 Communication Within the Boundary of the VNI
 - Layer 3 Multicast Communication

- Multicast in ACI Data Center Networks

Table of Contents

ACI Fabrics and Overlay Elements

Layer 2 IGMP Snooping in ACI

Layer 3 Multicast in ACI

Summary

Chapter 5 Multicast Design Solutions

Multicast-Enabled Clinical Networks

Accommodating Medical Device Communications Through Multicast

Multicast Considerations for Wireless Networks

Multicast in Multitenant Data Centers

ACI Multitenant Multicast

Multicast and Software-Defined Networking

LISP Map Resolver (MR)/Map Server (MS)

LISP PETRs/PITRs

LISP and Multicast

Multicast in Utility Networks

PMU

Radio over IP Design

Multicast-Enabled Markets

Multicast Design in a Market Data Environment

FSP Multicast Design

Brokerage Multicast Design

Service Provider Multicast

Service Provider PIM-Type Selection and RP Placement

IPTV Delivery over Multicast

Summary

References

Chapter 6 Advanced Multicast Troubleshooting

Troubleshooting Interdomain Multicast Networks

Table of Contents

Troubleshooting PIM with Traffic Engineering

Troubleshooting MVPN

Verifying Multicast in VXLAN

Summary
