About the Author

Introduction

Chapter 1: The Problem with IT Service Delivery

Approach #1: Reduce Delivery Friction

The Downsides of Targeting Delivery Friction

Approach #2: Managing Service Delivery Risk

The Downsides of Targeting Service Delivery Risk

The Essence of Delivery

Beginning the DevOps Journey

Summary

Chapter 2: How We Make Decisions

Examining the Decision-Making Process

Boyd and the Decision Process

Table of Contents

The OODA Loop

The Ingredients of Decision Making

- Ingredient 1: The Target Outcome

- Delivering Measures over Outcomes

- Ingredient 2: Friction Elimination

- Ingredient 3: Situational Awareness

- The Challenge of Trust

- The Fragility of Mental Models and Cognitive Biases

- Ingredient 4: Learning

- Failing to Learn

- The Pathway to Improved Decision Making

- Summary

Chapter 3: Mission Command

The Origins of Mission Command

- Learning How to Lead Effectively the Hard Way

Managing Through Unpredictability

- Knowledge and Awareness Weaknesses

- Misalignments

- Misjudgment of Ecosystem Complexity

The Anatomy of Mission Command

Commanders Intent

- Brief

- Situational Overview

- Statement of the Desired Outcome or Overall Mission Objective

- Execution Priorities

- Anti-Goals and Constraints

Backbriefing

Einheit: The Power of Mutual Trust

Table of Contents

Creating Einheit in DevOps

Continual Improvement

Staff Rides

After Action Reviews

Organizational Impacts of Mission Command

Summary

Chapter 4: Friction

Understanding Ohnos Forms of Waste

Muda (Pure Waste)

Muri (Overburden)

Mura (Fluctuation and Irregularity)

See the Whole

Summary

Chapter 5: Risk

Cynefin and Decision Making

Ordered Systems

Unordered Systems

Reimagining Risk Management

Have Clear and Understood Target Outcomes

Make the Best Choice the Easiest Choice

Continually Improve Ecosystem Observability

Summary

Chapter 6: Situational Awareness

Making Sense of Our Ecosystem

The Mental Model

The Problems with Mental Models

Cognitive Bias

Gaining Better Situational Awareness

Table of Contents

Framing

- Finding and Fixing Framing Problems

Information Flow

- Why Ecosystem Dynamics Matter

- Meeting Your Information Flow Needs

Analysis and Improvement

Summary

Chapter 7: Learning

The Emergence of Skills Attainment Learning

- The Rise of the One Right Way

Outcome-Directed Learning

Creating a Learning Culture

- Day-to-Day Kata

- Improvement and Problem-Solving Kata

- The Coaching Practice

Summary

Chapter 8: Embarking on the DevOps Journey

The Service Delivery Challenge

- Traditional Delivery Fog in the Service World

- The Challenge of the ilities

The Path to Eliminating Service Delivery Fog

- The Role of Managers in Eliminating Service Delivery Fog

- Identifying What You Can or Cannot Know

- Ways the Team Can Eliminate Service Delivery Fog

Summary

Chapter 9: Service Delivery Maturity and the Service Engineering

Lead

Table of Contents

Modeling Service Delivery Maturity

- The Example of Measuring Code Quality
- Service Delivery Maturity Model Levels
- Service Delivery Maturity Areas of Interest
- Configuration Management and Delivery Hygiene
- Supportability
- Single Point of Failure Mitigation and Coupling Management
- Engagement

The Service Engineering Lead

- Why Have a Separate Rotating Role?
- How the SE Lead Improves Awareness
- Organizational Con?gurations with the SE Lead

Challenges to Watch Out For

- Incentivizing Collaboration and Improvement
- Developers Running Production Services
- Overcoming the Operational Experience Gap

Summary

Chapter 10: Automation

Tooling and Ecosystem Conditions

Building Sustainable Conditions

- 5S
- Seeing Automation 5S in Action

Tools & Automation Engineering

- Organizational Details
- Workflow and Sync Points

Summary

Chapter 11: Instrumentation and Observability

Determining the Right Data

Table of Contents

Know the Purpose and Value

Know the Audience

Know the Source

Making the Ecosystem Observable

Instrumenting for Observability

Instrumenting Development

Instrumenting Packaging and Dependencies

Instrumenting Tooling

Instrumenting Environment Change and Configuration Management

Instrumenting Testing

Instrumenting Production

Queryable/Reportable Live Code and Services

Presenting Task, Change, Incident, and Problem Records Together

Environment Configuration

Logging

Monitoring

Security Tracking and Analysis

Service Data

Pulling It All Together

Instrumenting a Wastewater Ecosystem

Instrumenting an IT Ecosystem

Summary

Chapter 12: Workflow

Workflow and Situational Awareness

Managing Work Through Process

Managing Work Organically

The Tyranny of Dark Matter

Learning to See the Disconnects in Action

Resolving Disconnects by Building Context

Table of Contents

Visualizing the Flow

- Workflow Board Basics

- State Columns

- State Columns for Operations

- Swim Lanes

Task Cards

- Preventing Dark Matter

- Using the Board

- Seeing the Problems

- Limiting Work in Progress

- The Limits of a Workflow Board

- Managing the Board

- Managing Flow and Improvement

- Summary

Chapter 13: Queue Master

- An Introduction to the Queue Master

- Role Mechanics

- Follow the Sun Queue Mastering

- Queue Master Rollout Challenges

- Team Members Dont See the Value

- More Traditionally Minded Managers Thwarting Rollout

- Pushy Queue Masters

- Junior Team Members as Queue Masters

- Queue Masters Who Struggle to Lead Sync Points

- Summary

Chapter 14: Cycles and Sync Points

- Inform, Align, Reflect, and Improve

Table of Contents

Top-Down Alignment Control Approach

Alignment Through Iterative Approaches

Service Operations Synchronization and Improvement

The Tactical Cycle

Important Differences Between Kickoffs and Sprint Planning

Daily Standup

Retrospective

General Meeting Structure

The Learning and Improvement Discussion

The Strategic Cycle

Strategic Review

General Review Structure

A3 Problem Solving for the Strategic Review

Summary

Chapter 15: Governance

Factors for Successful Governance

Meeting Intent

No Target Outcome Interference

Maintain Situational Awareness and Learning

Common Governance Mistakes

Poor Requirement Drafting and Understanding

Using Off-the-Shelf Governance Frameworks

Out-of-the-Box Process Tooling and Workflows

Tips for Effective DevOps Governance

Understand Governance Intent

Make It Visible

Propose Reasonable Solutions

Automation and Compliance

Be Flexible and Always Ready to Improve

Table of Contents

Summary
