About the Author

Contents

Preface

1 Development Tools

    Android Studio

        Installing Android Studio

        Using Android Studio

        Starting a New Project

    Standalone SDK Tools

    Android Device Emulation

        Android Virtual Device

        GenyMotion

        Xamarin Android Player

    Version-Control Systems

        Subversion

        Git

        Mercurial

# **Table of Contents**

Summary

## **2 Testing and Debugging**

Unit Testing

Integration Testing

Debugging

Profiling

Tracing

Messaging

Summary

## **3 Application Structure**

Manifests

Java

Res (Resources)

Drawable

Layout

Menu

Values

Other Resources

Gradle

Summary

## **4 Components**

Intents

Intent Filters

Broadcast Receivers

Activities

Creating an Activity

Activity Lifecycle

# Table of Contents

## Fragments

- Creating a Fragment

- Communicating with Fragments

- Loaders

## Summary

## 5 Views

### The View Class

- The AnalogClock Subclass

- The ImageView Subclass

- The KeyboardView Subclass

- The MediaRouteButton Subclass

- The ProgressBar Subclass

- The Space Subclass

- The SurfaceView Subclass

- The TextView Subclass

- The TextureView Subclass

- The ViewGroup Subclass

- The ViewStub Subclass

### Creating a Custom View

## Summary

## 6 Layout

### Layout Basics

- Layout Measurements

- Layout Coordinates

### Layout Containers

- Linear Layout

- Relative Layout

- Table Layout

# Table of Contents

Frame Layout

WebView

Summary

## 7 App Widgets

App Widget Layouts

The AppWidgetProviderInfo Object

App Widget Sizing

Update Frequency

Preview Image

Widget Category

Widget Category Layout

Resizable Mode

Sample AppWidgetProviderInfo Object

The AppWidgetProvider Class

Application Manifest Entries

Summary

## 8 Application Design: Using MVC

Model

View

Controller

Working Asynchronously

AsyncTask

Summary

## 9 Drawing and Animation

Graphics

Bitmaps

NinePatch

# Table of Contents

Drawables

OpenGL ES

## Animation

View Animation

Property Animation

Drawable Animation

Transition Framework

## Summary

## 10 Networking

### Accessing the Internet

Network Detection

Using an HTTP Client

### Parsing XML

### Handling Network Operations Asynchronously

### Volley

## Summary

## 11 Working with Location Data

### Permissions

### Google Play Services Locations API

## Summary

## 12 Multimedia

### Working with Audio

Audio Playback

Audio Recording

### Working with Video

Video Playback

## Summary

# **Table of Contents**

## **13 Optional Hardware APIs**

### **Bluetooth**

- Enabling Bluetooth
- Discovering Devices with Bluetooth
- Connecting via Bluetooth Classic
- Communicating with BLE

### **Near Field Communication**

- ACTION\_NDEF\_DISCOVERED
- ACTION\_TECH\_DISCOVERED
- ACTION\_TAG\_DISCOVERED

### **Device Sensors**

- Detecting the Available Sensors
- Reading Sensor Data

### **Summary**

## **14 Managing Account Data**

### **Getting Accounts**

### **Android Backup Service**

### **Using Google Drive Android API**

### **Using Google Play Games Services**

- Working with Saved Games

### **Summary**

## **15 Google Play Services**

### **Adding Google Play Services**

### **Using Google API Client**

### **Google Fit**

- Enable API and Authentication
- App Configuration and Connection

# **Table of Contents**

## Nearby Messages API

- Enabling Nearby Messages

- Sending and Receiving Messages

- Summary

## **16 Android Wear**

- Android Wear Basics

- Screen Considerations

- Debugging

- Connecting to an Emulator

- Connecting to a Wear Device

- Communicating with Android Wear

- Notifications

- Sending Data

- Summary

## **17 Google Analytics**

- Adding Google Analytics

- Google Analytics Basics

- Events

- Goals

- Ecommerce

- Custom Timings

- Custom Dimensions

- Custom Metrics

- Summary

## **18 Optimization**

- Application Optimization

- Application First

# **Table of Contents**

Application Logging

Application Configuration

## **Memory Management**

Garbage Collection Monitoring

Checking Memory Usage

## **Performance**

Working with Objects

Static Methods and Variables

Enhanced for Loops

float, double, and int

Optimized Data Containers

## **Summary**

## **19 Android TV**

### **The Big Picture**

Ten-Foot View

TV Capabilities

Text, Color, and Bitmaps

### **Building an App**

### **Emulation and Testing**

### **Summary**

## **20 Application Deployment**

### **Preparing for Deployment**

### **Production Checklist**

Certificate Keys

Contact Email

App Website

External Services or Servers

Application Icon

# **Table of Contents**

Licensing

Appropriate Package Name

Verifying Permissions and Requirements

Log and Debug Removal

Removal of Excess Unused Assets

## **Preparing for Google Play**
