Chapter 1 Installing Linux

Do I Know This Already? Quiz

Understanding Your Hardware

Peripheral Compatibility

Enumerating Your Peripherals

The Proc Filesystem

Friends of procs

Dealing with Integrated Peripherals

Laying Out the Hard Drive

Partitions and Devices

The Root Filesystem

Logical Volume Manager (LVM)

Commonly Used Mounts

Swap Files

Working with Boot Managers

Table of Contents

GRUB Legacy

GRUB2

Installing GRUB2

Using the GRUB2 Command Line

Configuring GRUB2

Summary

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Review Questions

Chapter 2 Boot Process and Runlevels

Do I Know This Already? Quiz

The Linux Boot Process

What Is the Boot Process?

Boot Loaders

Common Commands at Boot Time

Boot Sequence from BIOS to Fully Running System

SysVinit

systemd

Units in systemd

systemd Targets and Runlevels

Wants and Requires

Bootting with systemd

Upstart

Managing System Runlevels

Determining the Default Runlevel

Setting the Default Runlevels

Changing Runlevels

Shut Down and Reboot from the Command Line

Table of Contents

Alerting Users

Properly Terminating Processes

kill and killall

Reloading or Hanging Up Processes

Logging Boot Events

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Review Questions

Chapter 3 Package Install and Management

Do I Know This Already? Quiz

Software in a Linux System

Shared Libraries

Working with Shared Libraries

Determining Required Libraries

Looking for Libraries in Other Places

Debian Package Management

Managing Local Debian Packages

Installing Packages with dpkg

Removing Packages

Dependency Issues

Querying Packages

Reconfiguring Packages

Using Remote Repositories

Installing Remote Packages

Working with the Cache

Upgrading the System

Removing Packages

Graphical Managers

Table of Contents

RPM and YUM Package Management

- The RPM Database
- RPM Package Files
- Package Name Conventions
- The rpm Command
- Validation of Packages
- Installation of Packages
- Additional Installation Options
- Verifying a Packages Integrity
- Freshening Versus Upgrading
- Removing Packages
- Other Removal Options
- Querying Packages
- Package Management with YUM
- Installing Packages
- Fetching Updates
- Finding Packages to Install
- Configuring Yum

Summary

Exam Preparation Tasks

- Review All Key Topics
- Define Key Terms
- Review Questions

Chapter 4 Basic Command Line Usage

Do I Know This Already? Quiz

What Is a Shell?

Global and User Settings

- Sourcing Versus Executing
- Executing a Script

Table of Contents

Sourcing a Script

A Login Shell Session

A Non-Login Shell Session

Using the Command Line

There Are Commands and, Well, Commands

Structuring Commands

Breaking Long Command Lines

Command Completion

Special Characters in the Shell

Controlling Command Execution

Possible Exit Statuses

Environment Variables and Settings

The Path

Getting \$HOME

bashs History Feature

Important History Variables

Setting Options in bash

Important bash Options

Review Questions

Chapter 5 File Management

Do I Know This Already? Quiz

Filesystem Overview

What Belongs Where

The Root of the System

Classifying Data

Where Programs Live

Table of Contents

File Management Commands

Tips for Working with Linux Files

Basic Navigation

Advanced Navigation

Listing Files and Directories

Determining File Types

Touching Files

Copying Files and Directories

Moving Objects

Transforming Data Formats

Creating and Removing Directories

Removing Objects

Where Are Those Files?

Locating Files with Locate

Finding Files

Which Command Will Run?

Researching a Command

Linking Files

Symbolic Links

Hard Links

Backup Commands

Using tar

Taking Pity on the Unarchiver

Useful Creation Options

Listing Archive Files

Using cpio

Compression Utilities

Summary

Chapter 6 Text Processing/Advanced Command Line

Do I Know This Already? Quiz

Working with Input/Output Streams

Standard In

Standard Out

Standard Error

Redirection of Streams

Redirecting Standard Input

Redirecting Standard Output

Redirecting Standard Error

Redirection Redux

Pipes

Executing Multiple Commands

Multiple Command Operators

Command Substitution

Splitting and Processing Streams

Splitting Streams with the tee Command

Processing Output with the xargs Command

Filters

Sorting

Numbering Lines

Tabs

Cutting Columns

Pasting and Joining

Unique Data

Heads or Tails?

Table of Contents

Splitting Files

When cat Goes Backward

Viewing Binary Files Safely

Formatting Commands

Translating Files

He sed, She sed

Getting a grep

Examples of Using grep

Expanding grep with egrep and fgrep

Using Regular Expressions and grep

Summary

Exam Preparation Tasks

Review All Key Topics

Define Key Terms

Chapter 7 Process Management

Do I Know This Already? Quiz

Managing Processes

Viewing Processes

Whats the Diff?

The free Command

Blocks and Buffers

Pages, Slabs, and Caches

Interpreting Displayed Information from free

System Uptime

Sending Signals to Processes

Killing Processes by PID

Killing Processes by Other Criteria

Job Control

Table of Contents

Managing Process Priorities

Leaving Programs Running after Logout

- Using screen for Multiple Console Sessions

- Taking Control-a of screen Windows

- Creating Windows in screen

- Detaching and Reattaching from screen

- Locking Your Console via screen

Summary

Exam Preparation Tasks

- Review All Key Topics

- Define Key Terms

- Review Questions

Chapter 8 Editing Text

Do I Know This Already? Quiz

A Tour of the vim Editor

- The Message Line

- Editing in vi

- Opening a File for Editing

- Navigating Within a File

- Force Multipliers

- Undo Operations

- Saving Files

- Quitting vi

- Changing or Replacing Text

- Deleting Text and Lines

- The Cut, Copy, and Paste Commands

- Named and Unnamed Buffers

- Searching in vi

- Searching and Replacing

Table of Contents

- Regular Expression Searches
- Options in vi
- Advanced vi
- Running External Commands in vi
- Joining Lines
- Split Windows

Exam Preparation Tasks

- Review All Key Topics
- Review Questions

Chapter 9 Partitions and Filesystems

- Do I Know This Already? Quiz

Creating Partitions

- Partitions
- Swap
- Disk Partitioning Tools
- fdisk
- gdisk
- Parted

Filesystems

- Filesystem Types
- Superblocks
- Inodes and Files
- Inodes and Directories
- Inodes and Disk Space
- Creating Filesystems
- The mkfs Command
- Filesystem Creation Options
- Advanced Filesystem Commands
- Filesystem Checker

Table of Contents

- Tuning Filesystems
- XFS Commands
- Debugging Filesystems
- Mounting and Unmounting
- The Filesystem Table
- Manually Mounting Filesystems
- Automatically Mounting Filesystems
- Unmounting Filesystems

Space Utilization

- Using du
- Using df
- Using Disk Quotas
- Quota Commands and Files
- Quota Concepts
- Configuring Quotas
- Hard and Soft Limits
- Setting the Grace Period
- Getting Quota Information

Summary

Exam Preparation Tasks

- Review All Key Topics
- Define Key Terms
- Review Questions

Chapter 10 Permissions and Ownership

- Do I Know This Already? Quiz

Working with Permissions

- Permission Trio Bits

Manipulating Permissions

- Numeric Mode

Table of Contents

Symbolic Mode

Special File Permissions

Special Bit Permissions

Setting the SUID Bit on Files

Setting the SGID Bit on Files

Setting the SGID Bit on Directories

Setting the Sticky Bit

Finding Files by Permission

Default Permissions

Changing User Ownership

Changing Group Ownership

Chapter 16 Schedule and Automate Tasks

Table of Contents

Do I Know This Already? Quiz

The Cron System

- Configuring crontabs

- Using the crontab Command

- Matching Times

- Spelling Out Month and Day Names

- Making Multiple Matches

- Step Values

- Putting the crontab Together

- Issues About Path

- Dealing with Output

- Nicknames

- Other Files

- System crontabs

- Convenience crontabs

- Restricting Access

Anacron

Running Ad-hoc Jobs

- The at Command

- The batch Command

Summary

Chapter 17 Configuring Print and Email Services

Do I Know This Already? Quiz

Managing Printers and Printing

- The Print Spooler

Table of Contents

Network Printing Protocols

The CUPS Daemon

The CUPS Pipeline

Configuring CUPS

CUPS Maintenance

Printer State

Maintenance and Administration Pull-downs

Administration Menu

Jobs List

Command Line Tools

Legacy Tools

lp/lpr

lpstat

lpq

lprm

CUPS Tools

cupsaccept/cupsreject

cupsenable/cupsdisable

cupsctl

Configuration Files

Troubleshooting Printing

Try Printing from the Command Line

Was the Job Queued?

Can CUPS Send the Job to the Printer?

Turn On Debugging

Mail Transfer Agent Basics

How Email Flows

Mail User Agent

Mail Transfer Agent

The Language of Email

Table of Contents

- Linux MTAs
- Domain Name System
- Mail Delivery Agent
- Mail Server
- Creating Aliases and Forwarding Email
- Committing Changes
- Other Types of Aliases
- User-Defined Forwarding
- Managing Queues

Summary

Exam Preparation Tasks

- Review All Key Topics
- Define Key Terms

Chapter 18 Logging and Time Services

Do I Know This Already? Quiz

Maintain System Time

- Not One, But Two Clocks
- Working with the System Clock
- Working with the Hardware Clock
- The hwclock Command
- Synchronizing Time Between Clocks
- Network Time Protocol
- Setting the Time from the Command Line
- The pool.ntp.org Servers
- Configuring ntpd
- Monitoring ntpd

System Logging

- systemd and syslog

Table of Contents

syslog

The logger Command

Configuring syslogd

Other syslog Implementations

systemd Logging

Querying the Log

Configuring journald

Rotating Logs

Configuring Log Rotation

Dealing with Open Files

Chapter 19 Networking Fundamentals

Do I Know This Already? Quiz

Conceptual Overview of Networking

Necessary Configuration Information

IP Addresses

Networks and Hosts

Address Class Ranges

Using the Bits to Determine Class

Network Masks

Using Default Network Masks

Gateway Addresses, or Do I Dial with the Area Code?

Broadcast Addresses

Custom Network Masks

Determining a Custom Network Mask

Table of Contents

Additional Protocols

Common Ports

IPv6

Managing Interfaces

Viewing IP Information

Red Hat Interface Configuration

Debian Interface Configuration

Viewing and Configuring Gateway Addresses

Viewing the Default Gateway

Configuring a Default Gateway

Local Name Configuration

Network Configuration Utilities

Network Utility Examples

The ifconfig Command

The route Command

DHCP Client Tools

The host, getent, and dig Commands

Hostname Utilities

Using netstat

The ping Command

Using traceroute

Using tcpdump

Chapter 20 System Security

Do I Know This Already? Quiz

Table of Contents

Gaining Access to the root Account

- The su Command

- The sudo Command

Providing Services on Demand

- Using inetd and xinetd

- inetd Configuration Files

- xinetd Configuration Files

Using TCP Wrappers for Securing Services

- inetd and TCP Wrappers

- xinetd and TCP Wrappers

- The hosts.allow and hosts.deny Files

- Wrapper Read Order

- Format of hosts.allow and hosts.deny

- Sample Configurations

- Using Rule Options

Understanding Permission Problems

- Finding Files by Permissions

GnuPG Keys

Secure Shell

- SSH Components

- Using SSH Client Utilities

Additional Security Features
