Use coupon code CPVIDEO40 during checkout.

## Video Instruction from Technology Experts

### Advance Your Skills

Get started with fundamentals, become an expert, or get certified.

### Train Anywhere

Train anywhere, at your own pace, on any device.

### Learn

Learn from trusted author trainers published by Cisco Press.

## Try Our Popular Video Training for FREE!

[ciscopress.com/video](http://ciscopress.com/video)

Explore hundreds of **FREE** video lessons from our growing library of Complete Video Courses, LiveLessons, networking talks, and workshops.

Introduction

Chapter 1 Introduction to Cloud

Evolution of the Data Center

Data Center Architecture Building Blocks

Introduction to Virtualization in the Data Center

Evolution of Virtualization

Conceptual Architecture of Virtualization

Types of Virtualization Technologies

Server Virtualization

Types of Server Virtualization

Storage Virtualization

Types of Storage Virtualization

Network Virtualization

Network Virtualization Evolution

Types of Network Virtualization

Service Virtualization

Introduction to the Multitenant Data Center

# **Table of Contents**

## Introduction to Cloud Services

- Infrastructure as a Service (IaaS)
- Platform as a Service (PaaS)
- Software as a Service (SaaS)
- Cloud Deployment Models
- Cloud Design Considerations
- Domain 1: Infrastructure and Environmental
- Domain 2: Abstraction and Virtualization
- Domain 3: Automation and Orchestration
- Domain 4: Customer Interface
- Domains 5 and 6: Service Catalog and Financials
- Domains 7 and 8: Platform and Application
- Domain 9: Security and Compliance
- Domain 10: Organization, Governance, and Process
- Enterprise Connectivity to the Cloud
- Internet for Transport
- Direct Connectivity to a Cloud Provider
- Enterprise Cloud Adoption Challenges
- Software-Defined Networking
  - Open Networking Foundation
  - OpenDaylight Project
  - Network Function Virtualization
  - OpenStack
- Summary

## Chapter 2 Software Evolution of the CSR 1000

### IOS Software Architecture

### IOS XE Architecture

- The IOS XE Kernel
- The IOS Daemon
- The Forwarding Manager

# **Table of Contents**

The Interface Manager

The Platform Manager

## **Cisco ASR 1000 System Architecture Overview**

Route Processor

Embedded Service Processor

SPA Interface Processor

## **Cloud Service Router 1000V Overview**

### **Deployment Requirements**

### **Elastic Performance and Scaling**

### **Rapid Deployment and Routing Flexibility in the Cloud**

### **CSR 1000V Deployment Examples**

Secure Cloud VPN Gateway

Network Extension from Premises to Cloud

Segmentation Within a Cloud

### **CSR 1000V Key Features**

### **Summary**

## **Chapter 3 Hypervisor Considerations for the CSR**

### **Understanding Operating Systems**

Operating System Design

Physical Resource Management

Software Access to Physical Resources

Kernels

Microkernels

Hybrid Kernels

The Cisco IOS Kernel

The Boot Process

Linux Memory Management

Linux Swap Space and Memory Overcommit

# **Table of Contents**

Linux Caching

## **Understanding Hypervisors**

How Does a Hypervisor Compare to an Operating System?

Type 1 Hypervisor Design

Monolithic Architecture

Microkernel Architecture

Core Partitioning

## **ESXi Hypervisor**

Architectural Components of ESXi

The VMkernel

Components of the VMkernel

Processes Running on the VMkernel

Device Drivers

File Systems

Management

## **KVM**

Architectural Components of KVM/QEMU

Guest Emulator (QEMU)

Management Daemon (Libvirt)

User Tools (virsh, virt-manager)

## **Hyper-V**

Xen

Summary

## **Chapter 4 CSR 1000V Software Architecture**

### **System Design**

Virtualizing the ASR 1001 into the CSR 1000V

CSR 1000V Initialization Process

CSR 1000V Data Plane Architecture

CSR 1000V Software Crypto Engine

# **Table of Contents**

## Life of a Packet on a CSR 1000V: The Data Plane

- Netmap I/O

- Packet Flow

- Device Initialization Flow

- TX Flow

- RX Flow

- Unicast Traffic Packet Flow

## Installing the CSR 1000V on a VMware Hypervisor

- Bringing Up the VM with the CSR 1000V on ESXi

## Installing the CSR 1000V on a KVM Hypervisor

- Bring Up the CSR 1000V as a Guest

## Performance Tuning of the CSR 1000V

## Summary

# Chapter 5 CSR 1000V Deployment Scenarios

## VPN Services

- Layer 2 VPNs

- Layer 3 VPNs

- Site-to-Site VPNs

- Remote Access VPNs

## Use Cases for the CSR 1000V as a VPN Service Gateway

- Enterprise Data Center Network Extension

- The CSR 1000V as a VPN Gateway

- CSR for Secure Inter-Cloud Connectivity

- Remote VPN Access into the Cloud

## BGP Route Reflector Use Case for the CSR

- The CSR 1000V in a Hierarchical Route Reflector Use Case

## Planning for Future Branch Design with the CSR 1000V

- Evolution of Branch Virtualization

# **Table of Contents**

## **LISP and CSR**

- LISP Terminology
- The LISP Data Plane
- The LISP Control Plane
- Typical LISP Use Cases
- IP Mobility
- IPv6 Migration
- Network-to-Network Connectivity
- Network-to-Network Interconnection Topology and Configuration

## **Summary**

## **Chapter 6 CSR Cloud Deployment Scenarios**

### **CSR in a Multitenant Data Center**

#### **Cloudburst**

- Direct Access Model
- Redirection Access Model
- The Cisco Inter-Cloud Fabric

### **Private Cloud Deployment with CSR in OpenStack**

- Introduction to OpenStack
- Primary Use Case for OpenStack
- OpenStack Components
- CSR Within OpenStack
- CSR 1000V as a Neutron Router
- CSR 1000V as a Tenant Router

### **CSR 1000V in a Public Cloud**

- Amazon Web Services Deployment for the CSR
- Amazon Web Service Solutions
- Routing in AWS Clouds
- CSR 1000V Deployment in AWS
- Instantiate a CSR in AWS

# **Table of Contents**

Summary

## **Chapter 7 CSR in the SDN Framework**

Deploying OpenStack

CSR as an OpenStack Tenant Deployment

Instantiate CSR Plugin to OpenStack

Summary

## **Chapter 8 CSR 1000V Automation, Orchestration, and Troubleshooting**

Automation

BDEO

NSO (Tail-f)

NSO Example for NFV Orchestration with OpenStack (Service Chain)

Orchestration

Virtual Managed Services (VMS)

Cisco Prime Network Services Controller (PNSC)

### **CSR 1000V Troubleshooting**

Architecture Overview

I/O Configuration

vSwitch

PCI Passthrough

SR-IOV (Single Root I/O Virtualization)

Host Configurations

Debugging Packet Loss

High-Level Packet Flow

ESXi Packet Debugging

Summary

## **Appendix A: Sample Answer File for Packstack**

Index
