AGILE TESTING

Foreword

Foreword

Preface

Acknowledgments

About the Authors

Part I: Introduction

Chapter 1 What Is Agile Testing, Anyway?

Agile Values

What Do We Mean by Agile Testing?

A Little Context for Roles and Activities on an Agile Team

How Is Agile Testing Different?

Whole-Team Approach

Summary

Chapter 2 Ten Principles for Agile Testers

Whats an Agile Tester?

The Agile Testing Mind-Set

Applying Agile Principles and Values

Adding Value

Summary

Part II: Organizational Challenges

Chapter 3 Cultural Challenges

Organizational Culture

Barriers to Successful Agile Adoption by Test/QA Teams

Introducing Change

Management Expectations

Table of Contents

Change Doesn't Come Easy

Summary

Chapter 4 Team Logistics

Team Structure

Physical Logistics

Resources

Building a Team

Summary

Chapter 5 Transitioning Typical Processes

Seeking Lightweight Processes

Metrics

Defect Tracking

Test Planning

Existing Processes and Models

Summary

Part III: The Agile Testing Quadrants

Chapter 6 The Purpose of Testing

The Agile Testing Quadrants

Knowing When a Story Is Done

Managing Technical Debt

Testing in Context

Summary

Chapter 7 Technology-Facing Tests that Support the Team

An Agile Testing Foundation

Why Write and Execute These Tests?

Where Do Technology-Facing Tests Stop?

What If the Team Doesn't Do These Tests?

Toolkit

Summary

Chapter 8 Business-Facing Tests that Support the Team

Driving Development with Business-Facing Tests

The Requirements Quandary

Thin Slices, Small Chunks

Table of Contents

How Do We Know We're Done?

Tests Mitigate Risk

Testability and Automation

Summary

Chapter 9 Toolkit for Business-Facing Tests that Support the Team

Business-Facing Test Tool Strategy

Tools to Elicit Examples and Requirements

Tools for Automating Tests Based on Examples

Strategies for Writing Tests

Testability

Test Management

Summary

Chapter 10 Business-Facing Tests that Critique the Product

Introduction to Quadrant 3

Demonstrations

Scenario Testing

Exploratory Testing

Usability Testing

Behind the GUI

Testing Documents and Documentation

Tools to Assist with Exploratory Testing

Summary

Chapter 11 Critiquing the Product Using Technology Facing Tests

Introduction to Quadrant 4

Who Does It?

When Do You Do It?

ility Testing

Performance, Load, Stress, and Scalability Testing

Summary

Chapter 12 Summary of Testing Quadrants

Review of the Testing Quadrants

A System Test Example

Tests Driving Development

Table of Contents

- Automation
- Critiquing the Product with Business-Facing Tests
- Documentation
- Using the Agile Testing Quadrants
- Summary

Part IV: Automation

Chapter 13 Why We Want to Automate Tests and What Holds Us Back

- Why Automate?
- Barriers to Automation Things that Get in the Way
- Can We Overcome These Barriers?
- Summary

Chapter 14 An Agile Test Automation Strategy

- An Agile Approach to Test Automation
- What Can We Automate?
- What Shouldnt We Automate?
- What Might Be Hard to Automate?
- Developing an Automation Strategy Where Do We Start?
- Applying Agile Principles to Test Automation
- Supplying Data for Tests
- Evaluating Automation Tools
- Implementing Automation
- Managing Automated Tests
- Go Get Started
- Summary

Part V: An Iteration in the Life of a Tester

Chapter 15 Tester Activities in Release or Theme Planning

- The Purpose of Release Planning
- Sizing
- Prioritizing
- Whats in Scope?
- Test Planning
- Test Plan Alternatives
- Preparing for Visibility

Table of Contents

Summary

Chapter 16 Hit the Ground Running

Be Proactive

Advance Clarity

Examples

Test Strategies

Prioritize Defects

Resources

Summary

Chapter 17 Iteration Kickoff

Iteration Planning

Testable Stories

Collaborate with Customers

High-Level Tests and Examples

Summary

Chapter 18 Coding and Testing

Driving Development

Tests that Critique the Product

Collaborate with Programmers

Talk to Customers

Completing Testing Tasks

Dealing with Bugs

Its All about Choices

Facilitate Communication

Regression Tests

Resources

Iteration Metrics

Summary

Chapter 19 Wrap Up the Iteration

Iteration Demo

Retrospectives

Celebrate Successes

Summary

Table of Contents

Chapter 20 Successful Delivery

- What Makes a Product?
- Planning Enough Time for Testing
- The End Game
- Customer Testing
- Post-Development Testing Cycles
- Deliverables
- Releasing the Product
- Customer Expectations
- Summary

Part VI: Summary

Chapter 21 Key Success Factors

- Success Factor 1: Use the Whole-Team Approach
- Success Factor 2: Adopt an Agile Testing Mind-Set
- Success Factor 3: Automate Regression Testing
- Success Factor 4: Provide and Obtain Feedback
- Success Factor 5: Build a Foundation of Core Practices
- Success Factor 6: Collaborate with Customers
- Success Factor 7: Look at the Big Picture
- Summary

MORE AGILE TESTING

Foreword

Foreword

Preface

Acknowledgments

About the Authors

About the Contributors

Part I: Introduction

Chapter 1 How Agile Testing Has Evolved

Summary

Chapter 2 The Importance of Organizational Culture

Investing Time

The Importance of a Learning Culture

Fostering a Learning Culture

Transparency and Feedback Loops

Educating the Organization

Managing Testers

Summary

Table of Contents

Part II: Learning for Better Testing

Chapter 3 Roles and Competencies

- Competencies versus Roles
- T-Shaped Skill Set
- Generalizing Specialists
- Hiring the Right People
- Onboarding Testers
- Summary

Chapter 4 Thinking Skills for Testing

- Facilitating
- Solving Problems
- Giving and Receiving Feedback
- Learning the Business Domain
- Coaching and Listening Skills
- Thinking Differently
- Organizing
- Collaborating
- Summary

Chapter 5 Technical Awareness

- Guiding Development with Examples
- Automation and Coding Skills
- General Technical Skills
- Development Environments
- Test Environments
- Continuous Integration and Source Code Control Systems
- Testing Quality Attributes
- Test Design Techniques
- Summary

Chapter 6 How to Learn

- Learning Styles
- Learning Resources
- Time for Learning
- Helping Others Learn

Table of Contents

Summary

Part III: Planning So You Don't Forget the Big Picture

Chapter 7 Levels of Precision for Planning

Different Points of View

Planning for Regression Testing

Visualize What You Are Testing

Summary

Chapter 8 Using Models to Help Plan

Agile Testing Quadrants

Challenging the Quadrants

Using Other Influences for Planning

Planning for Test Automation

Summary

Part IV: Testing Business Value

Chapter 9 Are We Building the Right Thing?

Start with Why

Tools for Customer Engagement

More Tools or Techniques for Exploring Early

Invest to Build the Right Thing

Summary

Chapter 10 The Expanding Testers Mindset: Is This My Job?

Whose Job Is This Anyway?

Take the Initiative

Summary

Chapter 11 Getting Examples

The Power of Using Examples

Guiding Development with Examples

Where to Get Examples

Benefits of Using Examples

Potential Pitfalls of Using Examples

The Mechanics of Using Examples to Guide Coding

Summary

Table of Contents

Part V: Investigative Testing

Chapter 12 Exploratory Testing

- Creating Test Charters
- Generating Test Charter Ideas
- Managing Test Charters
- Exploring in Groups
- Recording Results for Exploratory Test Sessions
- Where Exploratory Testing Fits into Agile Testing
- Summary

Chapter 13 Other Types of Testing

- So Many Testing Needs
- Concurrency Testing
- Internationalization and Localization
- Regression Testing Challenges
- User Acceptance Testing
- A/B Testing
- User Experience Testing
- Summary

Part VI: Test Automation

Chapter 14 Technical Debt in Testing

- Make It Visible
- Work on the Biggest Problem and Get the Whole Team Involved
- Summary

Chapter 15 Pyramids of Automation

- The Original Pyramid
- Alternate Forms of the Pyramid
- The Dangers of Putting Off Test Automation
- Using the Pyramid to Show Different Dimensions
- Summary

Chapter 16 Test Automation Design Patterns and Approaches

- Involve the Whole Team
- Starting Off Right

Table of Contents

Design Principles and Patterns

Test Maintenance

Summary

Chapter 17 Selecting Test Automation Solutions

Solutions for Teams in Transition

Meeting New Automation Challenges with the Whole Team

Achieving Team Consensus for Automation Solutions

How Much Automation Is Enough?

Collaborative Solutions for Choosing Tools

Scaling Automation to Large Organizations

Other Automation Considerations

Summary

Part VII: What Is Your Context?

Chapter 18 Agile Testing in the Enterprise

What Do We Mean by Enterprise?

Scaling Agile Testing

Coordinating Multiple Teams

Consistent Tooling

Managing Dependencies

Advantages of Reaching Out beyond the Delivery Team

Summary

Chapter 19: Agile Testing on Distributed Teams

Why Not Colocate?

Common Challenges

Strategies for Coping

Offshore Testing

Tool Ideas for Distributed Teams

Summary

Chapter 20 Agile Testing for Mobile and Embedded Systems

Similar, Yet Different

Testing Is Critical

Agile Approaches

Summary

Table of Contents

Chapter 21 Agile Testing in Regulated Environments

The Lack of Documentation Myth

Agile and Compliance

Summary

Chapter 22 Agile Testing for Data Warehouses and Business

Intelligence Systems

What Is Unique about Testing BI/DW?

Using Agile Principles

Data the Critical Asset

Big Data

Summary

Chapter 23 Testing and DevOps

A Short Introduction to DevOps

DevOps and Quality

How Testers Add DevOps Value

Summary

Part VIII: Agile Testing in Practice

Chapter 24 Visualize Your Testing

Communicating the Importance of Testing

Visualize for Continuous Improvement

Visibility into Tests and Test Results

Summary

Chapter 25 Putting It All Together

Confidence-Building Practices

Create a Shared Vision

Summary

Appendix A: Page Objects in Practice: Examples

An Example with Selenium 2WebDriver

Using the PageFactory Class

Appendix B: Provocation Starters
