Foreword

Preface

About the Author

Chapter 1 The Art of Agile Analysis and Planning

1.1 Objectives

1.2 On Art and Agile Analysis

1.3 I Work for a Mainstream Company! Whats This Got to Do with Me?

1.4 Story 1: Its Not My Problem

1.4.1 Conclusions

1.5 Story 2: The Cantankerous Customer

1.5.1 Conclusions

1.6 Chapter Summary

1.7 Whats Next?

Chapter 2 Agile Analysis and Planning: The Value Proposition

# **Table of Contents**

2.1 Objectives

2.2 What Is Agile Analysis and Planning?

2.3 Who Is a Business Analyst?

2.4 Why Agile Analysis and Planning?

2.5 The Parallel Histories of Agile and Business Analysis

2.5.1 A Brief History of Business Analysis

2.5.2 A Brief History of Agile Development

2.6 Two Diagnoses for the Same Problem

2.7 The Business Analysis Diagnosis

2.8 The Business Analysis Track Record

2.9 The Agile Diagnosis

2.10 The Agile Track Record

2.11 Why Agile Teams Should Include an Effective BA Competency

2.12 Chapter Summary

2.13 Whats Next?

## **Chapter 3 Fundamentals of Agile Analysis and Planning**

3.1 Objectives

3.2 What the Agile Manifesto Means for Business Analysis

3.2.1 Agile Manifesto

3.2.2 The Impact of the First Value on Analysis

3.2.3 The Impact of the Second Value on Analysis

3.2.4 The Impact of the Third Value on Analysis

3.2.5 The Impact of the Fourth Value on Analysis

3.3 What the Twelve Principles Mean for Business Analysis

3.4 Practices, Standards, and Frameworks

3.4.1 Business Analysis Standards

3.4.2 Requirements-Related Terminology

3.4.3 Agile Planning

# **Table of Contents**

## 3.4.4 Agile Frameworks

## **3.5 Overview of Agile Roles and the Business Analyst**

### 3.5.1 The Product Owners BA Responsibilities

### 3.5.2 The Agile Team Analyst

### 3.5.3 The ScrumMasters BA Responsibilities

### 3.5.4 Proxy User

### 3.5.5 BA Responsibilities of the Product Champion (Director)

### 3.5.6 Coach

### 3.5.7 When Are Dedicated Business Analysts Advised?

### 3.5.8 Business Analysts Provide Requirements Leadership

### 3.5.9 The Distinction between Business Analysts and Business Systems Analysts

## **3.6 Soft Skills of the Agile Business Analyst**

### 3.6.1 Making the Unconscious Conscious

### 3.6.2 Curiosity

### 3.6.3 Agent of Change

### 3.6.4 Political Intelligence

### 3.6.5 Works Well with Difficult People

### 3.6.6 Negotiation Skills

### 3.6.7 Facilitation

### 3.6.8 Adaptability

### 3.6.9 Not Afraid to Ask Questions

### 3.6.10 Sense of Humor

## **3.7 13 Key Practices of Agile Analysis and How They Differ from Waterfall**

### 3.7.1 A Competency, Not a Role

### 3.7.2 A Facilitator, Not a Messenger

### 3.7.3 Changes to Requirements Are Welcomed

### 3.7.4 Collaboration with Developers vs. Contractual Relationship

### 3.7.5 Just-In-Time Requirements Analysis

# **Table of Contents**

- 3.7.6 Conversation versus Documentation
- 3.7.7 Specification by Example: Acceptance TestDriven Development
- 3.7.8 Small Requirements Units
- 3.7.9 Vertical Slices of Functionality
- 3.7.10 Lightweight Tools
- 3.7.11 Business Analyst and Business Stakeholder Engagement across the Complete Development Lifecycle
- 3.7.12 Mix of BA Classic and Agile BA Tools
- 3.7.13 Meet Them Where They Are
- 3.8 Agile Business Analysis Rules of Thumb
- 3.9 Chapter Summary
- 3.10 Whats Next?

## **Chapter 4 Analysis and Planning Activities across the Agile Development Lifecycle**

- 4.1 Objectives
- 4.2 Overview of the Agile Analysis and Planning Map
- 4.3 The Zones
- 4.4 The Lanes
- 4.5 A Story in Three Acts
- 4.6 Act 1: The Short Lane
  - 4.6.1 Initial Preparation and Planning
  - 4.6.2 Seeding the Backlog
  - 4.6.3 Daily Activities
  - 4.6.4 Feature Closeout: Prepare for GA
  - 4.6.5 Quarterly Inception, Iteration Inception
  - 4.6.6 Iteration Closeout
  - 4.6.7 Quarterly Closeout
- 4.7 Act 2: The Long Lane

# **Table of Contents**

## **4.8 Act 3: The Grand Lane**

- 4.8.1 Scale the Organization
- 4.8.2 Scaled Quarterly Planning
- 4.8.3 Scaled Iteration Planning
- 4.8.4 Daily Planning and Analysis
- 4.8.5 Iteration Closeout
- 4.8.6 Quarterly Closeout

## **4.9 Chapter Summary**

## **4.10 Whats Next?**

## **Chapter 5 Preparing the Organization**

### **5.1 Objectives**

### **5.2 This Chapter on the Map**

### **5.3 What Is Initiation and Planning?**

### **5.4 How Long Should You Spend Up Front on Initiation and Planning?**

- 5.4.1 The Greater the Anticipated Risks, the Greater the Need for Upfront Planning
- 5.4.2 Whats Past Is Prologue

### **5.5 The Purpose Alignment Model**

- 5.5.1 Differentiating Quadrant (Top Right)
- 5.5.2 Parity Quadrant (Bottom Right)
- 5.5.3 Partner Quadrant (Top Left)
- 5.5.4 Who Cares? Quadrant (Bottom Left)

### **5.6 Preparing the Infrastructure**

- 5.6.1 Transitioning from Manual to Automated Testing
- 5.6.2 Timing the Automation of the Build and Distribution Processes

### **5.7 Organizing Development Teams**

- 5.7.1 Guidelines for Forming Agile Teams
- 5.7.2 Organize around Value
- 5.7.3 Feature Teams versus Generic Teams

# **Table of Contents**

- 5.7.4 The Extended Team
- 5.7.5 Why Organizing by Competency Is Bad for the Business
- 5.8 Managing Stakeholder Expectations about Agile Development
  - 5.8.1 The Negative Expectation That Requirements Delayed Are Requirements Denied
  - 5.8.2 Productivity Expectations
- 5.9 Preparing the CustomerDeveloper Relationship
  - 5.9.1 Customers Bill of Rights and Responsibilities
  - 5.9.2 Developers Bill of Rights and Responsibilities
- 5.10 Agile Financial Planning
  - 5.10.1 Measuring Success
  - 5.10.2 Discovery-Driven Financial Planning
- 5.11 Preparing the Marketing and Distribution Teams
- 5.12 Preparing Channels and Supply Chains
- 5.13 Preparing Governance and Compliance
  - 5.13.1 Challenge Compliance Assumptions
  - 5.13.2 Do Compliance After Process Design
  - 5.13.3 Focus on Goals, Not Means
  - 5.13.4 One-Time Experiments
- 5.14 Preparing for Increased Demand on Resources
- 5.15 Preparing an Enterprise for Agile Development
  - 5.15.1 Agile Fluency Model
  - 5.15.2 Transitioning the Team
  - 5.15.3 Transition Activities at the Enterprise Level
  - 5.15.4 Transition Timeline
  - 5.15.5 Communications Plan
  - 5.15.6 Agile Enterprise Transition Team
- 5.16 Determine Organizational Readiness
  - 5.16.1 Organizational Readiness Checklist

# **Table of Contents**

5.17 Chapter Summary

5.18 Whats Next?

## **Chapter 6 Preparing the Process**

6.1 Objectives

6.2 This Chapter on the Map

6.3 Process Preparation

6.4 Tailoring the Agile Practice to the Context

6.4.1 Costs of Agile Development

6.4.2 Benefits of Agile Development

6.4.3 Finding the Best Trade-Off of Costs and Benefits

6.4.4 Determining the Framework

6.5 Tuning the Process

6.5.1 Business Analysis Information Artifacts and Events

6.5.2 Checklist of Agile BA Information Artifacts

6.5.3 Defining Requirements Types

6.5.4 Tuning the Backlog

6.5.5 Determining Requirements Granularity Levels

6.5.6 Tracing Requirements and Other Configuration Items

6.5.7 Setting Process Parameters

6.6 Optimizing the Process Using Value Stream Mapping

6.7 Determining Process Readiness

6.8 Chapter Summary

6.9 Whats Next?

## **Chapter 7 Visioning**

7.1 Objectives

7.2 This Chapter on the Map

7.3 Overview of Product Visioning and Epic Preparation

# **Table of Contents**

- 7.3.1 An Example of Product Visioning and Why Its Important
- 7.3.2 Visioning Checklist
- 7.3.3 Initial Stakeholder Identification
- 7.3.4 Facilitation Tips
- 7.4 Root-Cause Analysis
  - 7.4.1 Five Whys
  - 7.4.2 CauseEffect Diagrams
  - 7.4.3 CauseEffect Trees
- 7.5 Specifying a Product or Epic
- 7.6 The Problem or Opportunity Statement
- 7.7 The Product Portrait
  - 7.7.1 The Product Portrait Template
- 7.8 Crafting the Product and Epic Vision Statements
  - 7.8.1 The Product Vision Statement
  - 7.8.2 The Epic Vision Statement
  - 7.8.3 Properties of Well-Crafted Product and Epic Vision Statements
  - 7.8.4 Vision versus Mission Statements
- 7.9 Stakeholder Analysis and Engagement
  - 7.9.1 Identify and Analyze Stakeholders
  - 7.9.2 Plan Stakeholder Collaboration
  - 7.9.3 Plan Stakeholder Communication
  - 7.9.4 Facilitate and Conduct Ongoing Engagement and Analysis
- 7.10 Analyzing Goals and Objectives
  - 7.10.1 Use Circumstance-Based Market Segmentation as a Basis for Goals and Objectives
  - 7.10.2 Representing Goals and Objectives within the Story Paradigm
- 7.11 Analyze Leap of Faith Hypotheses
  - 7.11.1 What Is a Lean Startup?
  - 7.11.2 What Are Leap of Faith Hypotheses?

# **Table of Contents**

7.11.3 Value Hypotheses

7.11.4 Growth Hypotheses

7.11.5 Specifying Metrics

7.11.6 Hypotheses in Discovery-Driven Planning

7.11.7 Assumption Checklist

7.11.8 Using a Milestone Planning Chart to Plan Assumption Testing

7.12 Chapter Summary

7.13 Whats Next?

## **Chapter 8 Seeding the BacklogDiscovering and Grading Features**

8.1 Objectives

8.2 This Chapter on the Map

8.3 Overview: Seeding the Backlog

8.3.1 Definitions: Epics and Stories

8.3.2 How Many Features Should You Seed Up Front?

8.3.3 Whom to Invite to Backlog Seeding

8.4 Circumstance-Based Market Segmentation for Feature Discovery

8.5 Other Ways to Discover Initial Features

8.6 Feature Independence

8.7 Using the Role-Feature-Reason Template to Represent Epics and  
Features

8.8 Specifying Emergent Features

8.9 Physical Representation of Features

8.10 Feature Attributes

8.11 Determining Customer and User Value with Kano Analysis

8.11.1 Select the Target Features

8.11.2 Select the Customers

8.11.3 Create the Questions

# **Table of Contents**

- 8.11.4 Create Prototypes
- 8.11.5 Test the Questionnaire Internally
- 8.11.6 Conduct the Survey
- 8.11.7 Grade the Features
- 8.11.8 Interpreting the Kano Grades
- 8.11.9 Satisfaction versus Fulfillment Graph
- 8.11.10 The Natural Decay of Delight (and Its Opposite)
- 8.11.11 Continuous Analysis

## **8.12 Sequencing Epics and Features in the Backlog**

- 8.12.1 Determining Cost of Delay
- 8.12.2 Determining WSJF
- 8.12.3 Prioritization Tips

## **8.13 Writing Feature Acceptance Criteria**

## **8.14 Analyzing Nonfunctional Requirements and Constraints**

- 8.14.1 Do NFRs Go in the Backlog?
- 8.14.2 NFRs and Constraints Checklist

## **8.15 Chapter Summary**

## **8.16 Whats Next?**

# **Chapter 9 Long-Term Agile Planning**

## **9.1 Objectives**

## **9.2 This Chapter on the Map**

## **9.3 Overview of Long-Term Planning, Epic Planning, and MVP**

## **9.4 The Full-Potential Plan**

- 9.4.1 Phase 1: Define Bold Targets
- 9.4.2 Phase 2: Create a Detailed Plan
- 9.4.3 Phase 3: Deliver Quick Wins
- 9.4.4 The Business Analysts Contribution to a Successful Full-Potential Plan

## **9.5 Using MVPs to Validate the Assumptions behind the Plan**

# **Table of Contents**

9.5.1 Overview

9.5.2 What Is an MVP?

9.5.3 The MVP Process

## **9.6 Capabilities for Effective MVP Implementation**

9.6.1 Technical Capabilities

9.6.2 Deployment and Delivery Approach

9.6.3 Deployment Options and Potential Issues

## **9.7 Overview of the Product Roadmap**

## **9.8 Planning the Interim Periods**

9.8.1 Specify the Interim Timeline

9.8.2 Craft Interim Goals and Objectives

9.8.3 Specify Assumptions and Metrics

9.8.4 Specify Events and Milestones

9.8.5 Specify Features

## **9.9 Using the Product Roadmap for Shorter Planning Horizons**

## **9.10 Chapter Summary**

## **9.11 Whats Next?**

# **Chapter 10 Quarterly and Feature Preparation**

## **10.1 Objectives**

## **10.2 This Chapter on the Map**

## **10.3 Overview of Features**

10.3.1 Examples of Feature-Length Change Initiatives

## **10.4 Benefits of Feature Preparation**

## **10.5 Feature Preparation Activities**

## **10.6 Timing of Feature Preparation**

## **10.7 Assessing Readiness**

10.7.1 Using the Feature Definition of Ready (Feature DoR)

## **10.8 Accounting for Preparation Work: Tasks and Spikes**

# **Table of Contents**

## **10.9 Specifying Features and Their Acceptance Criteria**

- 10.9.1 Specifying Epic Acceptance Criteria
- 10.9.2 Specifying Feature Acceptance Criteria
- 10.9.3 The Analyst Contribution
- 10.9.4 Analyze AC During Triad Meetings
- 10.9.5 Specifying AC in the BDD Gherkin Syntax
- 10.9.6 Specifying UAT for End-to-End Workflows

## **10.10 Context Analysis**

## **10.11 Stakeholder Analysis**

## **10.12 Persona Analysis**

- 10.12.1 History of Personas
- 10.12.2 Persona Examples
- 10.12.3 Creating Personas
- 10.12.4 Documenting Personas
- 10.12.5 Working with Personas

## **10.13 Overview of Journey, Process, and Value Stream Maps**

## **10.14 Journey Mapping**

- 10.14.1 Overview of the Customer Journey Map
- 10.14.2 Customer Journey Map: Mortgage Example
- 10.14.3 Components of a Journey Map
- 10.14.4 Using the Journey Map
- 10.14.5 More on Journey Maps

## **10.15 Value Stream Mapping**

- 10.15.1 Developing a Value Stream Map

## **10.16 Business Process Modeling**

- 10.16.1 Bring Process Participants Together
- 10.16.2 What Situations Call for Process Modeling?
- 10.16.3 Screenshots Do Not a Process Model Make
- 10.16.4 Do Just Enough Analysis for Your Purposes

# **Table of Contents**

10.16.5 Models with and without Swimlanes

10.16.6 BPMN

## **10.17 Use-Case Modeling**

10.17.1 Use-Case Modeling Example: Claims

10.17.2 Use-Case Modeling Elements

## **10.18 User-Role Modeling Workshops**

10.18.1 Agenda

## **10.19 Review the Architecture**

10.19.1 Context Diagram

10.19.2 UML Communication Diagram

10.19.3 Data Flow Diagrams

10.19.4 Architecture (Block) Diagrams

## **10.20 Chapter Summary**

10.21 Whats Next?

## **Chapter 11 Quarterly and Feature Planning**

### **11.1 Objectives**

### **11.2 This Chapter on the Map**

### **11.3 Overview of Quarterly Planning**

### **11.4 Overview of Flow-Based Feature Planning**

### **11.5 When Is Planning at This Level Advised and Not Advised?**

### **11.6 When to Use Quarterly Planning versus Flow-Based Feature Planning**

### **11.7 How to Conduct Quarterly Planning with Agility**

11.7.1 Create a Culture of Change

11.7.2 Use Data-Informed Decisioning

11.7.3 Specify Outcomes, Not Outputs

11.7.4 View the Plan as a Hypothesis, Not a Contract

### **11.8 XPs Planning Game Guidelines**

# **Table of Contents**

11.8.1 Overview of the Planning Game

11.8.2 Overview of Roles

11.8.3 Overview of Planning Principles

11.9 Quarterly Planning: Timing Considerations

11.10 Preparing for the Planning Event

11.10.1 Verify Entry Conditions

11.10.2 Prepare Invitation List

11.10.3 Determine the Planning Horizon

11.10.4 Prepare Inputs and Deliverables

11.10.5 Refine Features and Acceptance Criteria Incrementally

11.11 Planning Topics (Agenda)

11.11.1 Overview

11.11.2 Exploration

11.11.3 Commitment

11.11.4 Planning Retrospective

11.12 Reviewing the Quarterly Plan, Once the Quarter Is Underway

11.12.1 Start of an Iteration

11.12.2 Velocity Corrections

11.12.3 New Features

11.12.4 The Plan Becomes Obsolete

11.13 Chapter Summary

11.14 Whats Next?

## **Chapter 12 MVPs and Story Maps**

12.1 Objectives

12.2 This Chapter on the Map

12.3 MVPs and Story Mapping: How the Tools Complement Each Other

12.4 MVP Planning

12.4.1 What Is an MVP?

# **Table of Contents**

12.4.2 MVP Case Study: Trint

12.4.3 Venues for MVP Experiments

12.4.4 MVP Types

12.4.5 MVPs Iterative Process

12.4.6 The Pivot

12.4.7 Incrementally Scaling the MVP

12.4.8 Using MVPs to Establish the MMP

## **12.5 Story Mapping**

12.5.1 Jeff Pattons Story Map

12.5.2 Benefits of a Story Map

12.5.3 The Anatomy of a Story Map

12.5.4 Dependency Relationships on the Map

12.5.5 Story Map Example

12.5.6 Tips for Writing Stories on the Map

12.5.7 Constructing the Backbone

12.5.8 Constructing the Ribs

12.5.9 Other Forms of Story Maps

## **12.6 Chapter Summary**

## **12.7 Whats Next?**

# **Chapter 13 Story Preparation**

## **13.1 Objectives**

## **13.2 This Chapter on the Map**

## **13.3 Overview of Story Preparation**

## **13.4 Story Fundamentals**

13.4.1 What Is a Story?

13.4.2 Alternative Terminology

13.4.3 Size Taxonomy

13.4.4 Whats in a Name?

13.4.5 User Story Examples

# **Table of Contents**

## **13.5 The Three Cs of Stories**

13.5.1 Card

13.5.2 Conversation

13.5.3 Confirmation

## **13.6 Who Is Responsible for User Stories?**

13.6.1 Who Writes Stories?

13.6.2 The Analyst Value Added

13.6.3 The Triad

## **13.7 Physical versus Electronic Stories**

## **13.8 Specifying Values for Story Attributes**

## **13.9 Writing the Story Description**

13.9.1 When to Use a Story Template (and When Not To)

13.9.2 Role-Feature-Reason (Connextra) Template

## **13.10 Specifying Story Acceptance Criteria**

13.10.1 Examples of Story Acceptance Criteria

13.10.2 Who Writes Acceptance Criteria?

13.10.3 When to Create and Update Acceptance Criteria

13.10.4 Specification by Example

13.10.5 How Extensive Should the Acceptance Criteria Be?

13.10.6 How Many Acceptance Criteria per Story?

13.10.7 Characteristics of Well-Formed Acceptance Criteria

13.10.8 Emergent Acceptance Criteria

13.10.9 Using the Behavior-Driven Development (BDD) Gherkin Format

13.10.10 Who Tests Acceptance Criteria and When?

## **13.11 Stories That Arent User Stories**

13.11.1 What Is a Spike or Enabler Story?

13.11.2 Functional Spike

13.11.3 Technical Spike

13.11.4 Compliance Story

# **Table of Contents**

13.11.5 Bug-Repair Stories

## **13.12 Guidelines for Writing High-Quality Stories**

13.12.1 INVEST

13.12.2 INVEST IN CRUD

## **13.13 Patterns for Splitting Stories**

13.13.1 How to Use the Patterns

13.13.2 Tie-Breakers

13.13.3 The Patterns

## **13.14 Analyzing Business Rules and AC with Decision Tables**

13.14.1 Behavioral Business Rules

13.14.2 Decision Table Example

13.14.3 Benefits of a Decision Table

13.14.4 How to Elicit Rules Using the Table

## **13.15 Chapter Summary**

## **13.16 Whats Next?**

# **Chapter 14 Iteration and Story Planning**

## **14.1 Objectives**

## **14.2 This Chapter on the Map**

## **14.3 Overview of Iteration and Story Planning**

## **14.4 Attendees**

## **14.5 Duration**

## **14.6 Inputs for Iteration Planning**

## **14.7 Deliverables of Iteration Planning**

14.7.1 The Iteration Goal and Iteration Backlog

14.7.2 The Developer Task Board

14.7.3 The Increment

## **14.8 Planning Rules**

## **14.9 Part 1: Forecast What Will Be Accomplished**

# **Table of Contents**

- 14.9.1 Update
- 14.9.2 Forecast Capacity
- 14.9.3 Review Ready and Done Definitions
- 14.9.4 Craft the Iteration Goal
- 14.9.5 Discuss Stories
- 14.9.6 Forecast the Stories That Will Be Delivered

## **14.10 Part 2: Plan the Implementation**

- 14.10.1 Should You Invite the PO to Part 2?
- 14.10.2 Overview of Part 2
- 14.10.3 Part 2 Steps

## **14.11 Setting Up the Kanban Board**

- 14.11.1 Columns on the Kanban Board

## **14.12 Scaling Iteration Planning**

## **14.13 Feature Preview Meeting**

- 14.13.1 Feature Preview Objectives
- 14.13.2 Timing Considerations
- 14.13.3 Why Two Iterations Ahead?

## **14.14 Chapter Summary**

## **14.15 Whats Next?**

# **Chapter 15 Rolling Analysis and PreparationDay-to-Day Activities**

## **15.1 Objectives**

## **15.2 This Chapter on the Map**

## **15.3 Overview of Rolling Analysis**

- 15.3.1 A Day in the Life of the Agile Analyst
- 15.3.2 Overview of Analysis Tasks

## **15.4 Updating Task Progress**

## **15.5 Triad Guideline**

## **15.6 Actions That May Be Taken against a Developer Task**

# **Table of Contents**

## **15.7 Monitoring Progress**

- 15.7.1 The Daily Standup
- 15.7.2 Follow-Up Meeting
- 15.7.3 Updating the Developer Task Board
- 15.7.4 Updating the Kanban Board
- 15.7.5 Monitoring Progress with a Daily Burndown Chart
- 15.7.6 Burnup Charts
- 15.7.7 What Should You Use: Burndown or Burnup Charts?
- 15.7.8 Cumulative Flow Diagrams

## **15.8 Story Testing and Inspection (Analyze-Code-Build-Test)**

- 15.8.1 Overview of the Analyze-Code-Build-Test Cycle
- 15.8.2 Validating Value

## **15.9 Managing Scope Change during the Iteration**

- 15.9.1 When Progress Is Lower or Higher than Expected
- 15.9.2 When the PO Wants to Add Stories After the Iteration Begins

## **15.10 Updating Business Analysis Documentation**

- 15.10.1 Persisting Stories
- 15.10.2 Feature Documentation: Organize by Features, Not Stories
- 15.10.3 Updating the Use-Case Model
- 15.10.4 Other Analysis Documentation
- 15.10.5 Tracing Analysis Artifacts

## **15.11 Ongoing Analysis of Upcoming Epics, Features, and Stories**

- 15.11.1 How Long Should You Spend on Preparation?
- 15.11.2 Overview of Rolling Preparatory Analysis
- 15.11.3 Feature Preparation
- 15.11.4 Story Preparation
- 15.11.5 Pruning and Ordering

## **15.12 Accounting for Progress at the End of the Iteration**

- 15.12.1 Accounting for Stories That Are Not Done

# **Table of Contents**

15.12.2 Accounting for Progress When an Iteration Is Canceled

## **15.13 The Iteration Review**

15.13.1 Inputs and Deliverable

15.13.2 Topics/Agenda

15.13.3 Iteration Review Artifacts for Forecasting and Tracking Progress

## **15.14 The Iteration Retrospective**

15.14.1 Timing Considerations

15.14.2 Attendees

15.14.3 Inputs and Deliverables

15.14.4 Topics

15.14.5 Iteration Retrospective Games

## **15.15 Chapter Summary**

## **15.16 Whats Next?**

# **Chapter 16 Releasing the Product**

## **16.1 Objectives**

## **16.2 This Chapter on the Map**

## **16.3 Getting Stories to Done**

## **16.4 Releasing to the Market: Timing Considerations**

16.4.1 Should You Reserve a Hardening Iteration for Prerelease Activities?

## **16.5 Staging the Release**

16.5.1 Pre-Alpha

16.5.2 Alpha Testing

16.5.3 Beta Testing

16.5.4 General Availability

## **16.6 Quarterly (Release) Retrospective**

16.6.1 Facilitation Guidelines

16.6.2 Preparing the Timeline

16.6.3 Walkthrough of a Quarterly Retrospective

# **Table of Contents**

## **16.7 Pivot-or-Persevere Meeting**

16.7.1 Data-Informed/Not Data-Driven

16.7.2 Timing Considerations

16.7.3 Attendees

16.7.4 Walkthrough of a Pivot-or-Persevere Meeting

## **16.8 Chapter Summary**

## **16.9 Whats Next?**

## **Chapter 17 Scaling Agility**

### **17.1 Objectives**

### **17.2 This Chapter on the Map**

### **17.3 Why Do We Need a Scaled Agile Approach?**

17.3.1 Why Scaled Agile Teams Are Interdependent

17.3.2 Product Complexity

17.3.3 Shared Components

### **17.4 Planning: Choosing an Approach That Supports Inter-team Collaboration**

17.4.1 Review of the Two Approaches

17.4.2 Which Approach Should You Use at the Frontend?

17.4.3 Overview of the Analyst Contribution to Scaled Planning and Implementation

### **17.5 Continuous Delivery: Delivering Software Continuously, Safely, and Sustainably at Scale**

17.5.1 Overview of Automation in the Test-Build-Deploy Steps

17.5.2 DevOps, CI/CD

17.5.3 Test-Driven Development

17.5.4 ATDD and BDD

### **17.6 Scaled Agile Culture: Creating a Culture That Supports Innovation at Scale**

# **Table of Contents**

- 17.6.1 Effective Agile Leadership
- 17.6.2 Prioritize Quality
- 17.6.3 Remove Silos; Foster Collaboration
- 17.6.4 Foster a Culture of Rapid Learning

## **17.7 Scaling the Backlog**

- 17.7.1 Overview
- 17.7.2 One Top-Level Product
- 17.7.3 Multiple Subproducts
- 17.7.4 One Product-Level PO
- 17.7.5 One Backlog at the Whole-Product Level
- 17.7.6 Multiple Team Backlogs
- 17.7.7 Feature Teams
- 17.7.8 Component Teams
- 17.7.9 One Definition of Done (DoD)

## **17.8 Scaling the Agile Organization**

- 17.8.1 Scaling by Subproduct and Product Area: MyChatBot Case Study
- 17.8.2 Scaling the PO Role
- 17.8.3 Portfolio and Program Structure
- 17.8.4 Forming the Feature Teams
- 17.8.5 The Extended Team
- 17.8.6 Component Teams
- 17.8.7 Competency Groups
- 17.8.8 The Product Owner Council
- 17.8.9 User Task Force
- 17.8.10 Release Management Team

## **17.9 Scaling the Agile Process**

- 17.9.1 Scaled Agile Frameworks
- 17.9.2 Overview of Scaled Activities and Events
- 17.9.3 Initial Preparation

# **Table of Contents**

- 17.9.4 Scaled Quarterly and Feature Planning
- 17.9.5 Scaled Iteration (Sprint) Planning Meetings
- 17.9.6 Big Room Iteration Planning
- 17.9.7 Feature Preview
- 17.9.8 Integration Meetings
- 17.9.9 Daily Standup
- 17.9.10 Scrum of Scrums (SoS)
- 17.9.11 Product Owner Council Meeting
- 17.9.12 Scaled (Quarterly) Feature Preparation (Multiple Teams)
- 17.9.13 Team-Level Story Preparation
- 17.9.14 User Task Force Meetings
- 17.9.15 Scaled Iteration Review or Feature Review
- 17.9.16 Scaled Iteration Retrospective
- 17.9.17 Scaled Quarterly/Feature Retrospective
- 17.9.18 Open Space
- 17.9.19 Triad
- 17.10 Agile Requirements Management Software Tools
  - 17.10.1 Requirements Management Tool Checklist
  - 17.10.2 Overview of Agile Requirements Management Tools
- 17.11 Lightweight Tools for Supporting Inter-team Collaboration
  - 17.11.1 Team Structure
  - 17.11.2 Visualization
  - 17.11.3 Just Talk
  - 17.11.4 Scouts
  - 17.11.5 Roamers
  - 17.11.6 Shared Team Members
  - 17.11.7 Implement Work Items Sequentially, Not Concurrently
  - 17.11.8 Enforce a Definition of Ready
- 17.12 Potential Issues and Challenges in Scaling Agility

# **Table of Contents**

- 17.12.1 Guidelines for Non-colocated Teams
- 17.12.2 Guidelines for Working with Waterfall Teams
- 17.12.3 Inability to Deploy Frequently and Reliably
- 17.12.4 Recurring Integration Errors and Dependency Issues
- 17.12.5 Conflicting Priorities
- 17.12.6 Insufficient Business Resources

## **17.13 Chapter Summary**

## **17.14 Whats Next?**

# **Chapter 18 Achieving Enterprise Agility**

## **18.1 Objectives**

## **18.2 This Chapter on the Map**

## **18.3 Overview of Enterprise Agility**

- 18.3.1 Definition of an Agile Enterprise
- 18.3.2 Why It Matters
- 18.3.3 The Business Analysis Contribution
- 18.3.4 Drivers for Enterprise Agility
- 18.3.5 Agility in Heavily Regulated Sectors

## **18.4 Foundational Practices**

- 18.4.1 Lean Startup/MVP
- 18.4.2 Full-Potential Plan
- 18.4.3 Circumstance-Based Market Segmentation
- 18.4.4 Disruptive Innovation

## **18.5 Overview of the Agile Process for Developing Innovative Products**

## **18.6 Agile Corporate Culture**

- 18.6.1 Definition of Corporate Culture
- 18.6.2 Definition of Agile Corporate Culture

## **18.7 Overview of Principles and Practices for an Agile Corporate Culture**

## **18.8 Three Principles for Applying Agile Practices**

# **Table of Contents**

18.8.1 Tailor the Approach to the Circumstance

18.8.2 Protect Islands of Innovation

18.8.3 Invest Aggressively in Enterprise Agility

## **18.9 The Thirteen Practices for an Agile Corporate Culture**

18.9.1 Iterative Experimentation (Fail Fast)

18.9.2 Embrace Change

18.9.3 Acceleration

18.9.4 Empathy

18.9.5 Responsible Procrastination (Last Responsible Moment)

18.9.6 Distributed Authority

18.9.7 Let Those Who Do the Work Estimate the Effort

18.9.8 Collaboration

18.9.9 Commit to Outcomes, Not Outputs

18.9.10 Transparency

18.9.11 Bust Silos

18.9.12 Data-Informed Innovation

18.9.13 Monitor Adjacent and Low-End Markets

## **18.10 Agile Financial Planning**

18.10.1 Real Options

18.10.2 Discovery-Driven Planning

18.11 Chapter Summary

## **Appendix A: Additional Resources and Checklists**

A.1: Mapping of Book Chapters to IIBA and PMI Guides

A.2: Rules of Thumb in Agile Analysis and Planning

A.3: Facilitation Tips

A.4: Visioning Checklist

A.5: Stakeholder Checklist

A.6: NFRs and Constraints Checklist

# **Table of Contents**

## **A.7: Readiness Checklist for Quarterly Planning**

A.7.1: Analysis Readiness

A.7.2: Logistics Readiness

## **A.8: Checklist of Invitees for Quarterly Planning**

## **A.9: Checklist of Quarterly and Feature Planning Inputs**

## **A.10: Checklist of Quarterly and Feature Planning Deliverables**

## **A.11: Checklist of Quarterly (Release) Retrospective Questions**

A.11.1: DevOps and Supporting Practices Perspective

A.11.2: Technology Perspective

A.11.3: Productivity Perspective

A.11.4: Quality Assurance (Testing) Perspective

A.11.5: Program/Portfolio Perspective

A.11.6: Marketplace Perspective

## **A.12: Checklist of Invitees for Scaled Quarterly and Feature Planning**

## **A.13: Overview of Agile Requirements Management Tools**

A.13.1: JIRA

A.13.2: Blueprint

A.13.3: JAMA Software

A.13.4: Other Requirements Management and Collaboration Tools

## **Appendix B: Discovery-Driven Planning Case Study: BestBots**

### **B.1: Background: BestBots Case Study**

### **B.2: Initial Market Analysis**

B.2.1: Market Estimates (Past and Future)

B.2.2: Compound Annual Growth Rate

B.2.3: Spreadsheet Fix

### **B.3: Determine Constraints (Required Outcomes)**

B.3.1: Constraints

### **B.4: Create Draft of Reverse Income Statement**

# **Table of Contents**

B.4.1: Conclusions from the Reverse Income Statement Draft

B.5: Create Pro Forma Operations Specifications

B.6: Create Assumptions Checklist

B.7: Revise Reverse Income Statement

B.8: Create Milestone Planning Chart
