About the Author

1 Relational Databases

History of Databases

Hierarchical Model

Network Model

The Introduction of the Relational Model

The Relational Model

Relation

Properties of a Relation

Relationships

Relational Languages

Relational Algebra

Relational Calculus

Database Languages

ALPHA

QUEL

SEQUEL

Table of Contents

Summary

2 An Introduction to SQL

Data Definition Language

Tables

Indexes

Views

Triggers

Data Manipulation Language

INSERT

UPDATE

DELETE

Queries

ORDER BY

Joins

Summary

3 An Introduction to SQLite

SQLite Characteristics

SQLite Features

Foreign Key Support

Full Text Search

Atomic Transactions

Multithread Support

What SQLite Does Not Support

Limited JOIN Support

Read-Only Views

Limited ALTER TABLE Support

SQLite Data Types

Table of Contents

Storage Classes

Type Affinity

Summary

4 SQLite in Android

Data Persistence in Phones

Android Database API

SQLiteOpenHelper

SQLiteDatabase

Strategies for Upgrading Databases

Rebuilding the Database

Manipulating the Database

Copying and Dropping Tables

Database Access and the Main Thread

Exploring Databases in Android

Accessing a Database with adb

Using Third-Party Tools to Access Android Databases

Summary

5 Working with Databases in Android

Manipulating Data in Android

Inserting Rows into a Table

Updating Rows in a Table

Replacing Rows in a Table

Deleting Rows from a Table

Transactions

Using a Transaction

Transactions and Performance

Running Queries

Table of Contents

Query Convenience Methods

Raw Query Methods

Cursors

Reading Cursor Data

Managing the Cursor

CursorLoader

Creating a CursorLoader

Starting a CursorLoader

Restarting a CursorLoader

Summary

6 Content Providers

REST-Like APIs in Android

Content URIs

Exposing Data with a Content Provider

Implementing a Content Provider

Content Resolver

Exposing a Remote Content Provider to External Apps

Provider-Level Permission

Individual Read/Write Permissions

URI Path Permissions

Content Provider Permissions

Content Provider Contract

Allowing Access from an External App

Implementing a Content Provider

Extending `android.content.ContentProvider`

`insert()`

`delete()`

`update()`

Table of Contents

query()

getType()

When Should a Content Provider Be Used?

Content Provider Weaknesses

Content Provider Strengths

Summary

7 Databases and the UI

Getting Data from the Database to the UI

Using a Cursor Loader to Handle Threading

Binding Cursor Data to a UI

Cursors as Observers

registerContentObserver (ContentObserver)

registerDataSetObserver (DataSetObserver)

unregisterContentObserver (ContentObserver)

unregisterDataSetObserver (DataSetObserver)

setNotificationUri (ContentResolver, Uri uri)

Accessing a Content Provider from an Activity

Activity Layout

Activity Class Definition

Creating the Cursor Loader

Handling Returned Data

Reacting to Changes in Data

Summary

8 Sharing Data with Intents

Sending Intents

Explicit Intents

Implicit Intents

Starting a Target Activity

Table of Contents

Receiving Implicit Intents

Building an Intent

Actions

Extras

Extra Data Types

What Not to Add to an Intent

ShareActionProvider

Share Action Menu

Summary

9 Communicating with Web APIs

REST and Web Services

REST Overview

REST-like Web API Structure

Accessing Remote Web APIs

Accessing Web Services with Standard Android APIs

Accessing Web Services with Retrofit

Accessing Web Services with Volley

Persisting Data to Enhance User Experience

Data Transfer and Battery Consumption

Data Transfer and User Experience

Storing Web Service Response Data

Android SyncAdapter Framework

AccountAuthenticator

SyncAdapter

Manually Synchronizing Remote Data

A Short Introduction to RxJava

Adding RxJava Support to Retrofit

Using RxJava to Perform the Sync

Table of Contents

Summary

10 Data Binding

Adding Data Binding to an Android Project

Data Binding Layouts

Binding an Activity to a Layout

Using a Binding to Update a View

Reacting to Data Changes

Using Data Binding to Replace Boilerplate Code

Data Binding Expression Language

Summary

Index
