Release D.2.2.1

# Swift Programming: The Big Nerd Ranch Guide

## Table of Contents

Swift Programming

Table of Contents

Introduction

Learning Swift

Why Swift?

Whither Objective-C?

Prerequisites

How This Book Is Organized

How to Use This Book

Challenges

For the More Curious

Typographical Conventions

Necessary Hardware and Software

Before We Begin

Part I. Getting Started

Chapter 1 Getting Started

Getting Started with Xcode

Playing in a Playground

Varying Variables and Printing to the Console

You Are on Your Way!

Bronze Challenge

Chapter 2 Types, Constants, and Variables

Types

Constants vs Variables

String Interpolation

# Table of Contents

Bronze Challenge

## Part II. The Basics

### Chapter 3 Conditionals

if/else

Ternary Operator

Nested ifs

else if

Bronze Challenge

### Chapter 4 Numbers

Integers

Creating Integer Instances

Operations on Integers

Integer division

Operator shorthand

Overflow operators

Converting Between Integer Types

Floating-Point Numbers

Bronze Challenge

### Chapter 5 Switch

What Is a Switch?

Switch It Up

Ranges

Value binding

where clauses

Tuples and pattern matching

switch vs if/else

Bronze Challenge

Silver Challenge

### Chapter 6 Loops

for-in Loops

where

A Quick Note on Type Inference

while Loops

repeat-while Loops

# Table of Contents

Control Transfer Statements, Redux

Silver Challenge

## Chapter 7 Strings

Working with Strings

Unicode

Unicode scalars

Canonical equivalence

Counting elements

Indices and ranges

Bronze Challenge

Silver Challenge

## Chapter 8 Optionals

Optional Types

Optional Binding

Implicitly Unwrapped Optionals

Optional Chaining

Modifying an Optional in Place

The Nil Coalescing Operator

Bronze Challenge

Silver Challenge

## Part III. Collections and Functions

### Chapter 9 Arrays

Creating an Array

Accessing and Modifying Arrays

Array Equality

Immutable Arrays

Documentation

Bronze Challenge

Silver Challenge

Gold Challenge

### Chapter 10 Dictionaries

Creating a Dictionary

Populating a Dictionary

# Table of Contents

Accessing and Modifying a Dictionary

Adding and Removing Values

Looping

Immutable Dictionaries

Translating a Dictionary to an Array

Silver Challenge

Gold Challenge

## Chapter 11 Sets

What Is a Set?

Getting a Set

Working with Sets

Unions

Intersections

Disjoint

Bronze Challenge

Silver Challenge

## Chapter 12 Functions

A Basic Function

Function Parameters

Parameter names

Variadic parameters

Default parameter values

In-out parameters

Returning from a Function

Nested Functions and Scope

Multiple Returns

Optional Return Types

Exiting Early from a Function

Function Types

Bronze Challenge

Silver Challenge

For the More Curious: Void

## Chapter 13 Closures

Closure Syntax

# Table of Contents

- Closure Expression Syntax
- Functions as Return Types
- Functions as Arguments
- Closures Capture Values
- Closures Are Reference Types
- Functional Programming
  - Higher-order functions
    - `map(_:_)`
    - `filter(_:_)`
    - `reduce(_:_:_)`
- Bronze Challenge
- Bronze Challenge
- Gold Challenge

## Part IV. Enumerations, Structures, and Classes

### Chapter 14 Enumerations

- Basic Enumerations
- Raw Value Enumerations
- Methods
- Associated Values
- Recursive Enumerations
- Bronze Challenge
- Silver Challenge

### Chapter 15 Structs and Classes

- A New Project
- Structures
- Instance Methods
  - Mutating methods
- Classes
  - A Monster class
  - Inheritance
    - A Zombie subclass
    - Preventing overriding
    - Your town has a zombie problem

- What Should I Use?
- Bronze Challenge

# Table of Contents

Silver Challenge

For the More Curious: Type Methods

For the More Curious: Mutating Methods

## Chapter 16 Properties

Basic Stored Properties

Nested Types

Lazy Stored Properties

Computed Properties

A getter and a setter

Property Observers

Type Properties

Access Control

Controlling getter and setter visibility

Bronze Challenge

Silver Challenge

Gold Challenge

## Chapter 17 Initialization

Initializer Syntax

Struct Initialization

Default initializers for structs

Custom initializers for structs

Initializer delegation

Class Initialization

Default initializers for classes

Initialization and class inheritance

Automatic initializer inheritance

Designated initializers for classes

Convenience initializers for classes

Required initializers for classes

Deinitialization

Failable Initializers

A failable Town initializer

Initialization Going Forward

Silver Challenge

Gold Challenge

# **Table of Contents**

For the More Curious: Initializer Parameters

## **Chapter 18 Value vs Reference Types**

Value Semantics

Reference Semantics

Constant Value and Reference Types

Using Value and Reference Types Together

Copying

Equality vs Identity

What Should I Use?

For the More Curious: Copy on Write

## **Part V. Advanced Swift**

### **Chapter 19 Protocols**

Formatting a Table of Data

Protocols

Protocol Conformance

Protocol Inheritance

Protocol Composition

Mutating Methods

Silver Challenge

Gold Challenge

### **Chapter 20 Error Handling**

Classes of Errors

Lexing an Input String

Catching Errors

Parsing the Token Array

Handling Errors by Sticking Your Head in the Sand

Swift Error-Handling Philosophy

Bronze Challenge

Silver Challenge

Gold Challenge

### **Chapter 21 Extensions**

Extending an Existing Type

Extending Your Own Type

# Table of Contents

Using extensions to add protocol conformance

Adding an initializer with an extension

Nested types and extensions

Extensions with functions

Bronze Challenge

Bronze Challenge

Silver Challenge

## Chapter 22 Generics

Generic Data Structures

Generic Functions and Methods

Type Constraints

Associated Type Protocols

Type Constraint where Clauses

Bronze Challenge

Silver Challenge

Gold Challenge

For the More Curious: Understanding Optionals

For the More Curious: Parametric Polymorphism

## Chapter 23 Protocol Extensions

Modeling Exercise

Extending Exercise

Protocol Extension where Clauses

Default Implementations with Protocol Extensions

Naming Things: A Cautionary Tale

Bronze Challenge

Gold Challenge

## Chapter 24 Memory Management and ARC

Memory Allocation

Strong Reference Cycles

Breaking Strong Reference Cycles with weak

Reference Cycles in Closures

Escaping and Non-escaping Closures

Bronze Challenge

# Table of Contents

Silver Challenge

For the More Curious: Can I Retrieve the Reference Count of an Instance?

## Chapter 25 Equatable and Comparable

Conforming to Equatable

Interlude: infix operators

Buy one method, get another free!

Conforming to Comparable

Comparables Inheritance

Bronze Challenge

Gold Challenge

Platinum Challenge

For the More Curious: Custom Operators

## Part VI. Event-Driven Applications

### Chapter 26 Your First Cocoa Application

Getting Started with VocalTextEdit

Model-View-Controller

Setting Up the View Controller

Setting Up Views in Interface Builder

Adding the Speak and Stop buttons

Adding the text view

Auto Layout

Making Connections

Setting target-action pairs for VocalTextEdits buttons

Connecting the text view outlet

Making VocalTextEdit Vocal

Saving and Loading Documents

Type casting

Saving documents

Loading documents

MVC cleanup

Swift in the real world

Silver Challenge

Gold Challenge

### Chapter 27 Your First iOS Application

# Table of Contents

Getting Started with iTahDoodle

Laying Out the User Interface

Wiring up your interface

Modeling a To-Do List

Setting Up the UITableView

Saving and Loading TodoList

Saving TodoList

Loading TodoList

Bronze Challenge

Silver Challenge

Gold Challenge

## Chapter 28 Interoperability

An Objective-C Project

Creating a contacts app

Adding Swift to an Objective-C Project

Adding contacts

Adding an Objective-C Class

Silver Challenge

Gold Challenge

## Chapter 29 Conclusion

Where to Go from Here?

Shameless Plugs

An Invitation

Index
