Table of Contents

Introduction

1 Relational Databases and SQL

What Is SQL?

Microsoft SQL Server, MySQL, and Oracle

Relational Databases

Primary and Foreign Keys

Datatypes

NULL Values

The Significance of SQL

Looking Ahead

2 Basic Data Retrieval

A Simple SELECT

Syntax Notes

Comments

Specifying Columns

Column Names with Embedded Spaces

Preview of the Full SELECT

Table of Contents

Looking Ahead

3 Calculated Fields and Aliases

Literal Values

Arithmetic Calculations

Concatenating Fields

Column Aliases

Table Aliases

Looking Ahead

4 Using Functions

What Is a Function?

Character Functions

Composite Functions

Date/Time Functions

Numeric Functions

Conversion Functions

Looking Ahead

5 Sorting Data

Sorting in Ascending Order

Sorting in Descending Order

Sorting by Multiple Columns

Sorting by a Calculated Field

Sort Sequences

Looking Ahead

6 Selection Criteria

Applying Selection Criteria

WHERE Clause Operators

Table of Contents

Limiting Rows

Limiting Rows with a Sort

Pattern Matching

Wildcards

Looking Ahead

7 Boolean Logic

Complex Logical Conditions

The AND Operator

The OR Operator

Using Parentheses

Multiple Sets of Parentheses

The NOT Operator

The BETWEEN Operator

The IN Operator

Boolean Logic and NULL Values

Looking Ahead

8 Conditional Logic

The CASE Expression

The Simple CASE Format

The Searched CASE Format

Conditional Logic in ORDER BY Clauses

Conditional Logic in WHERE Clauses

Looking Ahead

9 Summarizing Data

Eliminating Duplicates

Aggregate Functions

Table of Contents

The COUNT Function

Grouping Data

Multiple Columns and Sorting

Selection Criteria on Aggregates

Conditional Logic in GROUP BY Clauses

Conditional Logic in HAVING Clauses

Ranking Functions

Partitions

Looking Ahead

10 Subtotals and Crosstabs

Adding Subtotals with ROLLUP

Adding Subtotals with CUBE

Creating Crosstab Layouts

Looking Ahead

11 Inner Joins

Joining Two Tables

The Inner Join

Table Order in Inner Joins

An Alternate Specification of Inner Joins

Table Aliases Revisited

Looking Ahead

12 Outer Joins

The Outer Join

Left Joins

Testing for NULL Values

Right Joins

Table of Contents

Table Order in Outer Joins

Full Joins

Cross Joins

Looking Ahead

13 Self Joins and Views

Self Joins

Creating Views

Referencing Views

Benefits of Views

Modifying and Deleting Views

Looking Ahead

14 Subqueries

Types of Subqueries

Using a Subquery as a Data Source

Using a Subquery in Selection Criteria

Correlated Subqueries

The EXISTS Operator

Using a Subquery as a Calculated Column

Common Table Expressions

Looking Ahead

15 Set Logic

Using the UNION Operator

Distinct and Non-Distinct Unions

Intersecting Queries

Looking Ahead

16 Stored Procedures and Parameters

Table of Contents

- Creating Stored Procedures
- Parameters in Stored Procedures
- Executing Stored Procedures
- Modifying and Deleting Stored Procedures
- Functions Revisited
- Looking Ahead

17 Modifying Data

- Modification Strategies
- Inserting Data
- Deleting Data
- Updating Data
- Correlated Subquery Updates
- Looking Ahead

18 Maintaining Tables

- Data Definition Language
- Table Attributes
- Table Columns
- Primary Keys and Indexes
- Foreign Keys
- Creating Tables
- Creating Indexes
- Looking Ahead

19 Principles of Database Design

- Goals of Normalization
- How to Normalize Data
- The Art of Database Design

Table of Contents

Alternatives to Normalization

Looking Ahead

20 Strategies for Displaying Data

Crosstab Layouts Revisited

Excel and External Data

Excel Pivot Tables

Looking Ahead

A: Getting Started with Microsoft SQL Server

Installing SQL Server 2016 Express

Installing SQL Server 2016 Management Studio Express

Using SQL Server 2016 Management Studio Express

B: Getting Started with MySQL

Installing MySQL on Windows

Installing MySQL on a Mac

Using MySQL Workbench

C: Getting Started with Oracle

Installing Oracle Database Express Edition

Using Oracle Database Express Edition

Index
