Foreword

Introduction

Part I: Introducing IT as a Service

Chapter 1 The Case for IT Transformation and IT as a Service (ITaaS)

The Drivers for IT Transformation

Digitization

Digital Disruption

The Internet of Things

IT Transformation Challenges

Historical Challenges Facing IT Organizations

Aligning IT Services and Value to Customer Requirements

Understanding the Customer Perspective of Service Performance

Accurately Communicating the Total Costs of Delivering IT Services

# **Table of Contents**

Understanding Organizational, Operational, and Procedural Challenges

Emerging Challenges for IT Organizations

Shadow IT

The Cloud

## **The Purpose and Culture of IT Organizations**

Getting Back to the Basics of Business

Obligations to the Enterprise Business

A Reminder About the Nature of Service Providers and Customers

A Candid Look at the Culture of Today's IT Organization

Customer Perceptions of IT

## **The Implications for Today's IT Organizations**

Considerations for Services Transformation

Summary

## **Chapter 2 Introducing Cisco ITaaS Framework and Services Transformation Program**

### **IT Operating Models**

IT Technical Operations

IT Service Delivery

Enterprise Architecture

Service Architecture and Enterprise Architecture

Making Capabilities Available as a Service

### **Introducing Cisco IT as a Service Framework**

Service Delivery Roles and Responsibilities

IT Services

Service Design, Delivery, and Management

Service Value Communications

### **Introducing Cisco Services Transformation Program**

Program and Workstream Governance

Services Transformation Change Leadership

Discovery and Design Phase

Transformation Phase 1

Transformation Phase 2

# **Table of Contents**

Transformation Phase 3

Summary

## **Chapter 3 Change Leadership and Ensuring a Successful Transformation**

Building the Change Leadership Team

Identifying Services Transformation Critical Success Factors

Executive Sponsorship

Championing a New Culture of IT

Engaging the Business

Top-Down/Business-First Services Design

Complete/End-to-End IT Services Transformation

Centralized Transformation Authority

Employing Change Leadership Strategies and Tactics

Managing Services Transformation Messaging Strategies

Optimizing Stakeholder Engagement

Changing the Culture of IT

Evaluating the Culture of the IT Organization Today

Envisioning the Future Culture of IT

Using Strategies and Tactics to Facilitate the Cultural Shift to an ITaaS

Services Transformation Program Best Practices and Lessons Learned

Show Value Early

Show Value Often

Engage the Business Early

General Transformation Program Best Practices

Respect the Realities of Theory versus Practice

Adopt the 80/20 Rule and Avoid Analysis Paralysis

Be Willing to Engage at All Levels

Remain Open to New Ideas

Embrace, Don't Fear, Service Review Pilots with Business Stakeholders

Stick to the Program

Summary

## **Part II: The IT as a Service Framework**

# **Table of Contents**

## **Chapter 4 Service Delivery Taxonomy and Definition of a Service**

- Service Definition Considerations

- A Step-by-Step Approach to Defining a Service

  - The ITaaS Frameworks Definition of a Service

- Considerations for IT Services

  - IT Services as a Layer of Abstraction

  - IT Service-Types

  - Service Hierarchies and Service Chains

  - Service Ownership

  - Impact of Services

- The IT Service Delivery Taxonomy

  - The Benefits of a Taxonomy

  - Taxonomy Considerations

- The ITaaS Frameworks Reference Taxonomy

  - Strategic Service Groups

  - Service Categories (Service Architecture Groups)

  - Services

  - Service Offerings

  - Service Assets

  - The Reference Taxonomy in Practice

  - Tailoring a Taxonomy

  - Sample Tailored Taxonomy

- Summary

## **Chapter 5 Mapping Enterprise Technical Capability Requirements**

- The Purpose and Value of a Technical Capabilities Map

- Considerations for Mapping Technical Capabilities

- Creating the Enterprise Technical Capabilities (ETC) Map

  - Designing the Enterprise Technical Capabilities Map

  - Building the ETC Map

- Service Capability Roadmaps

- Summary

## **Chapter 6 Service Design and Building the IT Service Portfolio**

# **Table of Contents**

## **Service Portfolio Overview**

- Purpose and Value of the Service Portfolio
- Service Portfolio Considerations
- Portfolio Design Considerations
- Portfolio Design Inputs
- Portfolio Development Workflow
- Structuring the Service Portfolio
- Vetting the Portfolio
- Identifying Service Chains
- Finalizing the Portfolio

## **Designing IT Services**

- Basic IT Service Design
- Service Design by Type
- Enterprisewide Service Design Considerations

## **Designing the Service Portfolio**

- Designing Service Offerings
- Capturing Service Asset References
- Designing Strategic Service Groups
- Designing Service Categories

## **Summary**

## **Chapter 7 Service Delivery Roles and Responsibilities**

### **Purpose and Value of Service Roles**

- Structuring Service Delivery
- Establishing Accountability
- Cultivating IT and Business Relationships
- Sustaining the Cultural Shift of the IT Organization

### **Challenges and Considerations for Service Delivery Roles**

- Considerations for ITaaS Service Roles and Responsibilities
- How to Identify Strong Service Delivery Resources
- Challenges for Service Delivery Roles and Responsibilities
- Change Leadership Recommendations

### **How to Design and Tailor Service Delivery Roles**

# **Table of Contents**

## **Service Delivery Roles and Responsibilities**

- Service Owners
- The General Manager of a Service
- Service Owner Responsibilities
- Service Owners and Service Types
- Service Delivery Support Roles
- Service Executives
- Service Architects
- Service Offering Managers
- Service Management Office

## **Summary**

## **Chapter 8 Measuring IT Service Performance**

### **Service Performance Considerations**

- Service Metrics Considerations
- Prioritizing Both Consistency and Customization
- Managing an End-to-End Service Performance Strategy

### **Overview of the ITaaS Service Performance Strategy**

- Service Metric Categories
- Quality
- Leverage
- Speed
- Risk
- Customer Experience

### **Best Practices for Measuring Service Metrics**

- How Service Metrics Translate to Business Outcomes
- Reasons to Chain Service Metrics
- End-to-End Service Metrics Interpretation
- Dashboards and Scorecards
- Tactics for Reporting and Presenting Service Performance
- Service Performance Change Leadership Strategies
- Service Performance Strategy Management

## **Summary**

# **Table of Contents**

## **Chapter 9 Modeling the Total Costs of IT Service Delivery**

Purpose and Goals for IT Service Cost Modeling

Considerations for IT Service Costing

IT Service Costs versus Cloud Services Costing

Essential IT Finance Concepts

The Different Views of an IT Budget

Chargeback versus Showback Policies

Bottom-up versus Direct + Chained Costs Models

Cost Distributions

IT Service Cost Modeling

Direct Service Costs

Run the Business Costs

Change the Business Costs

Indirect Service Costs

Overview of Cost-Chaining Processes

Service Costing Strategies

Summary

## **Part III: Bringing the Framework Together and Optimizing the Transformation**

### **Chapter 10 Communicating IT Service Value**

Considerations for IT Service Value

A Strategy for Communicating IT Service Value

Structuring a Service Review

Establishing a Process for Service Reviews

Service Review Best Practices

Winning Early Support Through Service Reviews

Guidance for Service Owners

Guidance for IT Leaders

General Service Review Guidance

Evolving Service Value Conversations

Summary

# **Table of Contents**

## **Chapter 11 Completing the Services Transformation**

The Final Phase of Services Transformation

Overview of a Complete IT Service Delivery Model

Service Catalogs and Customer Request Portals

Corporate E-Store Design Best Practices

Strategies for Optimizing IT Service Delivery

Leveraging Vendors for Value

Delivering to External IT Customers

Preparing the Cloud Strategy for an ITaaS and Fast IT

Embracing and Driving Self-Provisioning

Embracing Shadow IT

Considerations for the Completed Service Delivery Framework

Summary

## **Part IV: The Future**

## **Chapter 12 Fast ITThe Mandatory Future for Enterprise IT Organizations**

The Purpose and Goals of Fast IT

The Concept of Fast IT

Moving from Shadow IT to Customer-Initiated IT

Uncovering Fast IT

The Building Blocks of Fast IT

The Mechanics of Fast IT

Continuous Delivery

Taking Services Beyond the IT Organization

Summary

## **Appendix**

Appendix A: Cisco ITaaS Framework Reference Portfolio

## **Index**
