Contents

CHAPTER 1 Get Started

Chapter Objectives

Introduction

Creating a First Sketch

The Undo Tool

Creating a Solid Model

Sample Problem SP1-1

Sample Problem SP1-2 Angular Shapes

Chapter Summary

Chapter Test Questions

Chapter Project

CHAPTER 2 Two-Dimensional Sketching

Chapter Objectives

Introduction

The Sketch Panel

Circle

Arc

Spline

Ellipse

Point

Table of Contents

Rectangle
Fillet
Chamfer
Polygon
Text
Geometry Text
Dimension
Constraints
PatternRectangular
PatternCircular
PatternMirror
Move
Copy
Rotate
Trim
Extend
Offset
Editing a Sketch
Sample Problem SP2-1
Chapter Summary
Chapter Test Questions
Chapter Project

CHAPTER 3 3D Models

Chapter Objectives
Introduction
Extrude
Taper
ViewCube
Revolve
Holes
Fillet
Full Round Fillet
Face Fillet

Table of Contents

Creating a Variable Fillet

Chamfer

Face Draft

Shell

Split

Mirror

Rectangular Pattern

Circular Pattern

Sketch Planes

Editing a 3D Model

Default Planes and Axes

Work Planes

Sample Problem SP3-1

Angled Work Planes

Offset Work Planes

Work Points

Ribs (WEBs)

Loft

Sweep

Coil

Model Material

Chapter Summary

Chapter Test Questions

Chapter Project

CHAPTER 4 Orthographic Views

Chapter Objectives

Introduction

Fundamentals of Orthographic Views

Orthographic Views with Inventor

Isometric Views

Section Views

Offset Section Views

Aligned Section Views

Table of Contents

Detail Views

Break Views

Auxiliary Views

ASME Y14.3-2003

Chapter Summary

Chapter Test Questions

Chapter Project

CHAPTER 5 Assembly Drawings

Chapter Objectives

Introduction

Bottom-Up and Top-Down Assemblies

Starting an Assembly Drawing

Degrees of Freedom

Free Move and Free Rotate Tools

Constrain

Presentation Drawings

Animation

Isometric Drawings

Assembly Numbers

Parts List

Title Block

Subassemblies

Drawing Sheets

Other Types of Drawing Blocks

Top-Down Assemblies

Editing a Part within an Assembly Drawing

Patterning Components

Mirroring Components

Copying Components

Chapter Summary

Chapter Test Questions

Chapter Project

CHAPTER 6 Threads and Fasteners

Table of Contents

Chapter Objectives
Introduction
Thread Terminology
Thread CalloutsMetric Units
Thread CalloutsANSI Unified Screw Threads
Thread Representations
Internal Threads
Threaded Blind Holes
Creating Threaded Holes Using the Hole Tool
Standard Fasteners
Sizing a Threaded Hole to Accept a Screw
Screws and Nuts
Types of Threaded Fasteners
Flat Head ScrewsCountersunk Holes
Counterbores
Drawing Fasteners Not Included in the Content Center
Sample Problem SP6-1
Washers
Setscrews
Rivets
Sample Problem SP6-2
Chapter Summary
Chapter Test Questions
Chapter Project

CHAPTER 7 Dimensioning a Drawing

Chapter Objectives
Introduction
Terminology and ConventionsANSI
Creating Drawing Dimensions
Drawing Scale
Units
Aligned Dimensions
Radius and Diameter Dimensions

Table of Contents

Dimensioning Holes
Sample Problem SP7-1
Dimensioning Counterbored, Countersunk Holes
Angular Dimensions
Ordinate Dimensions
Baseline Dimensions
Hole Tables
Locating Dimensions
Fillet and Rounds
Rounded ShapesInternal
Rounded ShapesExternal
Irregular Surfaces
Polar Dimensions
Chamfers
Knurling
Keys and Keyseats
Symbols and Abbreviations
Symmetrical and Centerline Symbols
Dimensioning to a Point
Dimensioning Section Views
Dimensioning Orthographic Views
3D Dimensions
Sample Problem SP7-2
Sample Problem SP7-3
Chapter Summary
Chapter Test Questions
Chapter Projects

CHAPTER 8 Tolerancing

Chapter Objectives
Introduction
Direct Tolerance Methods
Tolerance Expressions
Understanding Plus and Minus Tolerances

Table of Contents

Creating Plus and Minus Tolerances
Limit Tolerances
Angular Tolerances
Standard Tolerances
Double Dimensioning
Chain Dimensions and Baseline Dimensions
Tolerance Studies
Rectangular Dimensions
Hole Locations
Choosing a Shaft for a Toleranced Hole
Sample Problem SP8-1
Sample Problem SP8-2
Nominal Sizes
Standard Fits (Metric Values)
Hole and Shaft Basis
Visual Presentations of the Hole and Shaft Tolerances
Standard Fits (Inch Values)
Preferred and Standard Sizes
Surface Finishes
Surface Control Symbols
Geometric Tolerances
Tolerances of Form
Straightness
Straightness (RFS and MMC)
Circularity
Cylindricity
Geometric Tolerances Using Inventor
Tolerances of Orientation
Datums
Perpendicularity
Parallelism
Angularity
Profiles

Table of Contents

Runouts
Positional Tolerances
Virtual Condition
Floating Fasteners
Sample Problem SP8-3
Sample Problem SP8-4
Fixed Fasteners
Sample Problem SP8-5
Design Problems
Chapter Summary
Chapter Test Questions
Chapter Project

CHAPTER 9 Springs

Chapter Objectives
Introduction
Compression Springs
Extension Springs
Torsion Springs
Belleville Springs
Springs in Assembly Drawings
Chapter Summary
Chapter Test Questions
Chapter Project

CHAPTER 10 Shafts

Chapter Objectives
Introduction
Uniform Shafts and Chamfers
Shafts and Retaining Rings
Shafts and Keys
Square Keys
Pratt and Whitney Keys
Woodruff Keys
Shafts with Splines

Table of Contents

Collars

O-Rings

Drawing Shafts and Pins Using the Tools Under the Design Tab

Chapter Summary

Chapter Test Questions

Chapter Project

CHAPTER 11 Bearings

Chapter Objectives

Introduction

Plain Bearings

Ball Bearings

Thrust Bearings

Chapter Summary

Chapter Test Questions

Chapter Project

CHAPTER 12 Gears

Chapter Objectives

Introduction

Gear Terminology

Gear Formulas

Drawing Gears Using the Gear Tool

Gear Hubs

Gear Ratios

Gear Trains

Gears with Keyways

Gear Assemblies

Supports for Bevel Gears

Worm Gears

Supports for Worm Gears

Chapter Summary

Chapter Test Questions

Chapter Projects

CHAPTER 13 Sheet Metal Drawings

Table of Contents

- Chapter Objectives
- Introduction
- Sheet Metal Drawings
- Flat Patterns
- Punch Tool
- Chapter Summary
- Chapter Test Questions
- Chapter Projects

CHAPTER 14 Weldment Drawings

- Chapter Objectives
- Introduction
- Fillet Welds
- WeldmentsGroove Welds
- Sample Problem SP14-1
- Chapter Summary
- Chapter Test Questions
- Chapter Project

CHAPTER 15 Cams

- Chapter Objectives
- Introduction
- Displacement Diagrams
- Drawing a Cam Using Inventor
- Sample Problem SP15-1
- Cams and Followers
- Chapter Summary
- Chapter Test Questions
- Chapter Projects

Index

CHAPTER 16 Projects

- 16-1 Introduction
- 16-2 Project 1: Milling Vise
- 16-3 Project 2: Tenon Jig

APPENDIX
