

"For Drupal to succeed, we need books like this."

—DRIES BUYTAERT, Drupal founder and project lead

An illustration in a flat, stylized style. A person with short hair and glasses is shown in profile, looking at a laptop. The person is wearing a dark jacket. The laptop is open and sits on a desk. The background consists of warm, orange-toned shapes suggesting an office or indoor setting. The overall aesthetic is clean and modern.

DESIGNING, THEMING, SCRIPTING

EMMA JANE HOGGIN
KONSTANTIN KÄFER

Praise for *Front End Drupal*

“Overall, a great book, jam-packed with lots of learning. Congrats to Emma and Konstantin for producing another great book in the Drupal library.”

—Addison Berry, documentation team lead for Drupal

“If you’re looking to create themes for the current version of Drupal, this is a good book to have.”

—Zoltan Hunt, editor, YYYtech.ca

“With its extensive coverage of all the key technologies and its wealth of valuable tips, *Front End Drupal* is an essential resource for learning how to create Drupal themes, and it fills a long-standing gap in the Drupal literature better than any other book currently available.”

—Michael J. Ross, Web developer, www.ross.ws

“*Front End Drupal* is a book the Drupal world has needed for years...”

—Jeff Eaton, Drupal core developer and coauthor of *Using Drupal*

“I can’t say enough good things about this book...If you are only going to buy two or three Drupal books, make sure this one is always handy while you are working.”

—Victor Kane, awebfactory.com.ar
