Foreword

About this Book

### **CHAPTER 1: PICK YOUR REALITY**

The tech behind the acronyms

You are already using extended reality

Prosthetic knowledge

Looking ahead

### **CHAPTER 2: TECHNOLOGY CHECK**

Is any of this actually new?

The world in the palm of your hand

Projection mapping

Head-mounted displays

Spatial computing

Reality check

### **CHAPTER 3: THE IMMERSIVE EXPERIENCE**

# **Table of Contents**

The world in 3D

Affordances

Multimodal experiences

Experience design

## **CHAPTER 4: IDEATION**

Identify the why

Innovation and practicality

Outside influence

Keep it human

The answer to your questions

## **CHAPTER 5: CREATING THE PROTOTYPE**

Fake it til you make it

Sketch transparently

The power of prototypes

Use what you know

Process work

## **CHAPTER 6: THE UX OF XR**

Approachable design

Seamless user flow

Know thy audience

Making reality accessible

UX challenge

## **CHAPTER 7: THE UI OF XR**

The z-axis

3D interface metaphors

Time and space

# **Table of Contents**

Microinteractions

Inspiration is all around you

## **CHAPTER 8: HUMAN FACTORS**

Designing the whole experience

Theories of perception

Creating hierarchy in 3D

Human centered

## **CHAPTER 9: THE UNCONTROLLABLE BACKGROUND**

Expecting the unexpected

Figure-ground

Location, location, location

Getting emotional

Control is overrated

## **CHAPTER 10: AUGMENTED TYPOGRAPHY**

Legibility and readability

Creating visual contrast

Take control

Design with purpose

## **CHAPTER 11: COLOR FOR XR**

Color appearance models

Light interactions

Dynamic adaptation

Reflection

## **CHAPTER 12: SOUND DESIGN**

Hearing what you see

Spatial sound

# Table of Contents

Augmented audio

Voice experiences

Power of sound

## CHAPTER 13: BRINGING IT TO LIFE

To code or not to code

Keep it agile

Try, and try again

User experience research

Privacy and ethical considerations

Keep it super

## CHAPTER 14: UP NEXT

Where to go from here

Breaking out of rectangles

Why we need XR right now

Extend our physical space
