Contents at a Glance

Table of Contents

Introduction

CHAPTER 1: Understanding Databases and Data Warehouses

Databases and Database Management Systems

Database Management System (DBMS)

Relational Database

Non-relational Database

Data Warehouses and Data Lakes

Data Warehouses

Data Lakes

OLTP and OLAP

Online Transactional Processing (OLTP)

Online Analytical Processing (OLAP)

What Next?

CHAPTER 2: Understanding Database Schemas and Dimensions

Schema Concepts

Table of Contents

Star and Snowflake Schemas

- Star Schema

- Snowflake Schema

Slowly Changing Dimensions, Keeping Historical Information, and Keeping Current Information

- Keeping Current and Historical Information

- Slowly Changing Dimensions

What Next?

CHAPTER 3: Data Types and Types of Data

Introduction to Data Types

- Storage Sizes of Various Data Types

- Character

- Integer

- Float and Double

- Array

- String

Comparing and Contrasting Different Data Types

- Date

- Alphanumeric

- Numeric

- Text

- Currency

Categorical vs. Dimension and Discrete vs. Continuous Data Types

- Categorical/Dimension Data Types

- Discrete vs. Continuous Data Types

Types of Data: Audio, Video, and Images

- Audio

Table of Contents

Video

Images

What Next?

CHAPTER 4: Understanding Common Data Structures and File Formats

Structured vs. Unstructured Data

Structured vs. Unstructured Data

Structured Data

Rows and Columns

Unstructured Data

Semi-structured Data

Metadata

Data File Formats

Text/Flat File

Tab Delimited File

Comma-Delimited File

JavaScript Object Notation (JSON)

Extensible Markup Language (XML)

Hypertext Markup Language (HTML)

What Next?

CHAPTER 5: Understanding Data Acquisition and Monetization

Integration

Data Integration

Extract, Transform, and Load (ETL)

Extract, Load, and Transform (ELT)

Delta Load

Application Programming Interfaces (APIs)/Web Services

Table of Contents

Data Collection Methods

- Web Scraping

- Public Databases

- Surveys

- Sampling

- Observation

What Next?

CHAPTER 6: Cleansing and Profiling Data

Profiling and Cleansing Basics

- Duplicate Data

- Redundant Data

- Missing Values

- Invalid Data

- Non-parametric Data

- Data Outliers

- Specification Mismatches

- Data Type Validation

What Next?

CHAPTER 7: Understanding and Executing Data Manipulation

Data Manipulation Techniques

- Recoding Data

- Derived Variables

- Data Merges

- Data Blending

- Concatenation

- Data Appending

- Imputation

Table of Contents

- Data Reduction
- Data Transposition
- Normalizing Data
- Parsing/String Manipulation
- Filtering
- Sorting
- Date Functions
- Logical Functions
- Aggregate Functions
- System Functions

What Next?

CHAPTER 8: Understanding Common Techniques for Data Query Optimization and Testing

Query Optimization

- Execution Plans
- Parameterization
- Indexing
- Temporary Table in a Query Set
- Subsets of Records

What Next?

CHAPTER 9: The (Un)Common Data Analytics Tools

Data Analytics Tools

- Structured Query Language (SQL)
- Python
- Microsoft Excel
- R
- Rapid Miner
- IBM Cognos

Table of Contents

IBM SPSS Modeler

SAS

Tableau

Power BI

Qlik

MicroStrategy

BusinessObjects

Apex

Datorama

Domo

AWS QuickSight

Stata

Minitab

What Next?

CHAPTER 10: Understanding Descriptive and Inferential Statistical Methods

Introduction to Descriptive and Inferential Analysis

Measures of Central Tendency

Measures of Dispersion

Range

Frequencies

Percent Change and Percent Difference

Inferential Statistical Methods

Confidence Intervals

Z-score

t-tests

p-values

Chi-Square Test

Table of Contents

Hypothesis Testing

Simple Linear Regression

Correlation

What Next?

CHAPTER 11: Exploring Data Analysis and Key Analysis Techniques

Process to Determine Type of Analysis

Determining Data Needs

Review/Refine Business Questions

Data Collection Sources

Gap Analysis

Types of Analysis

Trend Analysis

Performance Analysis

Exploratory Data Analysis

Link Analysis

What Next?

CHAPTER 12: Approaching Data Visualization

Business Reports

Report Content

Filters

Views

Date Range

Frequency

Audience for Reports

What Next?

CHAPTER 13: Exploring the Different Types of

Table of Contents

Reports and Dashboards

Report Cover Page and Design Elements

Report Cover Page

Design Elements

Documentation Elements

Version Number

Reference Data Sources and Dates

FAQs and Appendix

Dashboard Considerations, Development, and Delivery Process

Dashboard Considerations

Development Process

Delivery Considerations

What Next?

CHAPTER 14: Data-Driven Decision Making: Leveraging Charts, Graphs, and Reports

Types of Data Visualizations

Line Charts

Pie Charts

Bubble Charts

Scatter Plots

Bar Charts

Histograms

Waterfall Charts

Heat Maps

Geographic Maps

Tree Maps

Stacked Charts

Table of Contents

Infographics

Word Clouds

Reports

Static Reporting

Dynamic Reports

Ad Hoc/One-Time Reports

Self-Service/On-Demand Reports

Recurring Reports

Tactical/Research Reporting

What Next?

CHAPTER 15: Data Governance Concepts: Ensuring a Baseline

Access and Security Requirements

Access Requirements

Security Requirements

Storage Environment Requirements

Shared Drives

Local Storage

Cloud-Based Storage

Use and Entity Relationship Requirements

Use Requirements

Entity Relationship Requirements

Data Classification, Jurisdiction Requirements, and Data Breach Reporting

Data Classification

Jurisdiction Requirements

Data Breach Reporting

What Next?

Table of Contents

CHAPTER 16: Applying Data Quality Control

Data Quality Dimensions and Circumstances to Check for Quality

Data Quality

Circumstances to Check for Quality

Final Product, Reports, and Dashboards

Data Quality Rules and Metrics, Methods to Validate Quality, and Automated Validation

Data Quality Rules and Metrics

Methods to Validate Data Quality and Automated Validation

Automated Validation

What Next?

CHAPTER 17: Understanding Master Data Management (MDM) Concepts

Processes

Consolidation of Multiple Data Fields

Standardization of Data Field Names

Data Dictionary

Circumstances for MDM

Mergers and Acquisitions

Compliance with Policies and Regulations

Streamline Data Access

What Next?

CHAPTER 18: Getting Ready for the CompTIA Data+ Exam

Getting Ready for the CompTIA Data+ Exam

Tips for Taking the Real Exam

Table of Contents

Beyond the CompTIA Data+ Certification

Index
