# **Table of Contents**

Workspaces

## **Chapter 3 Digital Imaging Essentials**

Adjusting Resolution and Image Size

Channels

Color Modes

The Info Panel

Multiple Undo and the History Panel

## **Chapter 4 Crop and Straighten Images**

Cropping a Photo

Cropping with Content-Aware Fill

Straightening Images

Perspective Cropping

Rotating or Flipping an Entire Image

Changing the Canvas Size

Erasing Parts of an Image

## **Chapter 5 Selections**

Marquee Tools

Lasso Tools

Automated Selection Tools

Deselecting and Reselecting Selections

Working with Selections

Modifying Selections

Growing Selections

## **Chapter 6 Layers**

About Layers

The Background Layer vs. Regular Layers

# **Table of Contents**

Creating Layers

Copying and Pasting Layers

Selecting Layers

Moving, Aligning, and Transforming Layers

Merging and Flattening Layers

Layer Housekeeping

Layer Comps

## **Chapter 7 Layer Masks and Vector Masks**

About Masks

Adding Layer Masks

Editing Layer Masks

Painting a Layer Mask

Vector Masks

Creating a Simple Composition with Masks

Layer Masks and Adjustment Layers

Gradient Layer Masks

Managing Layer Masks

Masks on Smart Objects

Luminosity Masks

Combining Layer Masks and Vector Masks

## **Chapter 8 Further Selection Techniques**

Selecting a Color Range

Using Select Subject

Using the Object Selection Tool

Working with Select And Mask

Replacing Skies

# **Table of Contents**

Using Select Focus Area

Using Quick Masks

Saving Selections (Alpha Channels)

## **Chapter 9 Adjustment Layers and Image Adjustments**

Adjustment and Fill Layers

Making Brightness/Contrast Adjustments

Making Levels Adjustments

Making Curves Adjustments

Using the Channel Mixer

Exporting Color Lookup Tables

Limiting Adjustments with Clipping Masks

Using Hue/Saturation Adjustment Layers

Adjusting Color Balance

Making Vibrance Adjustments

Working with Photo Filter

Applying Black & White Adjustment Layers

Tinting with Gradient Map Adjustments

Adjusting Color with Selective Color

Using Fill Layers

Evaluating Images

Using Shadows/Highlights

## **Chapter 10 Blending Modes**

Blending Modes, Opacity, and Fill

Using Blending Modes

Default Modes

Darkening Blending Modes

# **Table of Contents**

Lightening Blending Modes

Contrast Blending Modes

Comparative Blending Modes

Color Blending Modes

Blend If Options

## **Chapter 11 Color**

Choosing Colors

Using Color Swatches

Sampling and Viewing Color Values

Working with Duotones

Working with Spot Colors and Spot Channels

Keeping Color Appearance Consistent

## **Chapter 12 Painting**

Working with Brushes

Using the History Brush Tool

Using the Art History Brush Tool

Using the Pattern Stamp Tool

Using the Gradient Tool

## **Chapter 13 Retouching**

Using the Spot Healing Brush Tool

Using the Healing Brush Tool

Using the Patch Tool

Using the Red Eye Tool

Using the Clone Stamp Tool

Using Content-Aware Fill

Using the Content-Aware Move Tool

# **Table of Contents**

Using Replace Color

## **Chapter 14 Smart Objects**

Creating Embedded Smart Objects

Creating Linked Smart Objects

Managing Linked Smart Objects

Editing Smart Objects

Duplicating Smart Objects

Exporting Smart Objects

Converting Smart Objects

Resetting Smart Object Transformations

Filtering the Layers Panel by Smart Objects

## **Chapter 15 Essential Transformations**

Using Free Transform

Using Perspective Warp

Using Puppet Warp

Using Content-Aware Scale

Align and Blend Layers

## **Chapter 16 Filters**

Applying Filters

Modifying Smart Filters

Using the Filter Gallery

Sharpening Images

Blurring Images

Using the Camera Raw Filter

Using Neural Filters

## **Chapter 17 Shape Layers and Paths**

# **Table of Contents**

Using the Shape Tools

Formatting Shapes

Modifying Shapes and Paths

Combining Shapes and Paths

Using Custom Shapes

Using the Pen Tools

Converting Paths into Selections and Masks
