Chapter Goals

Working in ACR Before Elements 2021

Opening Files in the Raw Editor

Using the Basic Panel

Working on 16-Bit Images

Editing Multiple Images in the Raw Editor

Applying Multiple Raw Edits to a Single Image

Working in ACR in Elements 2021 and After

Launching the Camera Raw Editor

Becoming Familiar with Tools and Buttons

Sharpening and Reducing Noise

Using the Calibration Panel

Working with Filmstrips

Synchronizing Edits

Synchronizing Defaults

Working with Profiles

Working with XML Files and Preferences

Changing Program Defaults

Using Save Options

Using Sidecar Files

Using Elements+ Camera Raw

PART II: SELECTIONS AND LAYERS

3 Making Selections

Chapter Goals

Using Selection Tools

Creating Geometric Selections

Using Lasso Tools

Using Miscellaneous Selection Tools

Using the Select Menu

Table of Contents

Working with Selections

Refining Selections

Transforming Selections

Saving, Loading, and Deleting Selections

Creating Selections with Elements+

Using Color Range

Loading Selections from Channels

Creating Selections from Paths

Working with Shapes

Pasting into Selections

4 Working with Layers

Chapter Goals

Understanding Layers

Examining the Layers Panel

Creating New Layers

Creating Fill Layers

Creating Solid Color Fills

Creating Gradient Fills

Creating Pattern Fills

Using the Layers Panel Menu

Creating Composite Layers

Working with Adjustment Layers

Creating Brightness Adjustment Layers

Creating Hue/Saturation Adjustment Layers

Creating Gradient Maps

Using Photo Filters

Inverting Images

Using Threshold

Posterizing Photos

Using Elements+ Adjustment Layers

Using Elements+ Curves

Editing Elements+ Adjustment Layers

Table of Contents

Adjusting Color Balance

Using the Channel Mixer

Using Selective Color

Working with Color Lookup

Working with Smart Objects

Placing Photos

Using Elements+ with Smart Objects

Blending Layers

Understanding Blend Modes

Working with the Normal Modes

Working with the Darken Modes

Working with the Lighten Modes

Working with Contrast Blend Modes

Working with the Inversion Group

Working with the Component Group

Knowing the Most Important Blend Modes

Using Keyboard Shortcuts with Blend Modes,

Managing Layers

Using Keyboard Shortcuts with Layers

Reordering Layers

Deleting Layers

5 Masking Photos

Chapter Goals

Understanding Layer Masks Basics

Getting Familiar with Layer Masks Essentials

Creating Layer Masks

Creating Negative Masks

Creating Empty Layer Masks

Creating Adjustment Layers

Creating Layer Masks from Selections

Showing and Hiding Layer Masks

Linking and Unlinking Layer Masks

Inverting a Layer Mask

Table of Contents

Painting on Layer Masks

Changing Background Colors

Copying Layer Masks

Deleting Layer Masks

Copying a Layer Mask to Another Document

Creating Clipping Masks

Creating Luminosity Masks

Adjusting Highlights and Shadows Using a Luminosity Mask

Adjusting Midtones

PART III: SHARPENING AND EFFECTS

6 Sharpening Photos

Chapter Goals

Using Camera Raw Sharpening

Working with the High Pass Filter

Sharpening an Image with the High Pass Filter

Sharpening Different Areas of an Image

Using Photoshop Elements Sharpening Tools

Using the Menu Options

Using Unsharp Mask

Using Sharpening Tools

7 Using Effects

Chapter Goals

Working with Effects

Creating a Painterly Image

Creating a Watercolor Effect

Creating an Oil Painting Effect

Adding Depth of Field to Photos

Creating Picture Edges Effects

Working with Picture Frame Effects

Creating Vignettes

Creating Custom Borders

Table of Contents
