Introduction

Part I: Understanding Computers

1 How Personal Computers Work

What Your Computer Can Do

Good for Getting Online

Good for Social Networking

Good for Communicating

Good for Sharing Photos and Home Movies

Good for Entertainment

Good for Keeping Informed

Good for Work

Good for Play

Inside a Personal Computer

The Motherboard: Home to Almost Everything

Microprocessors: The Main Engine

Computer Memory: Temporary Storage

Hard Disk Drives: Long-Term Storage

Solid-State Drives: Faster Long-Term Storage

Keyboards: Fingertip Input

Table of Contents

Mice and Touchpads: Point-and-Click Input Devices

Network Connections: Getting Connected

Sound Cards and Speakers: Making Noise

Video Cards and Monitors: Getting the Picture

Other Parts of Your Computer System

Providing Additional Functionality with Peripherals

Doing What You Need to Do with Software and Apps

Making Everything Work with Windows

Different Types of Computers

Traditional Desktop PCs

All-in-One Desktops

Laptop PCs

Tablet PCs

2-in-1 PCs

Which Type of PC Should You Choose?

Dont Worry, You Cant Screw It Up Much

2 Setting Up and Using Different Types of Computers

Before You Get Started

Setting Up a Laptop or 2-in1 PC

Understanding the Elements of a Laptop PC

Getting Connected

Setting Up an All-in-One Desktop PC

Understanding the Parts of an All-in-One System

Getting Connected

Setting Up a Traditional Desktop PC

Understanding the Components of a Desktop System

Getting Connected

Turning It On for the First Time

Getting the Right Order

Powering On

Part II: Using Windows

Table of Contents

3 Getting to Know Windows 11

Say Hello to Windows 11

Starting and Logging In to Windows

Exploring the Windows Desktop

Learning Basic Operations

Pointing and Clicking

Double-Clicking

Right-Clicking

Dragging and Dropping

Mouse Over

Moving and Resizing Windows

Maximizing, Minimizing, and Closing Windows

Snapping Windows into Position

Scrolling Through a Window

Peeking at the Desktop

Using the Start Menu

Navigating the Start Menu

Launching a Program

Using the Taskbar

Deciphering Taskbar Icons

Opening Applications and Switching Between Windows

Using Jump Lists

Managing Taskbar Buttons

Switching Between Programs

Adjusting Quick Settings

Viewing Notifications

Learning Important Windows Shortcuts

Using Windows with a Touchscreen Display

Shutting Down Windows and Your Computer

4 Working with Files, Folders, and Online Storage

Understanding Files and Folders

Using File Explorer

Table of Contents

- Launching File Explorer
- Exploring the File Explorer Window
- Displaying File Contents and Details

Navigating the Folders on Your PC

Viewing Files and Folders

- Changing the Way Files Display
- Sorting Files and Folders
- Grouping Files and Folders
- Searching for Files

Performing Basic File and Folder Operations

- Creating New Folders
- Renaming Files and Folders
- Copying Files
- Moving (Cutting and Pasting) Files
- Deleting Files

Working with the Recycle Bin

- Restoring Deleted Files
- Emptying the Recycle Bin

Working with Compressed Folders

- Compressing a File
- Extracting Files from a Compressed Folder

Copying Files to Another Computer

- Copying Files over a Network
- Copying Files with a Portable Drive
- Copying Files via Email

Working with Cloud-Based Storage

- Accessing OneDrive from File Explorer
- Using Microsoft OneDrive
- Syncing Files on Your PC to OneDrive

5 Personalizing Windows

Personalizing the Windows Desktop

- Changing the Desktop Background

Table of Contents

Changing to Light or Dark Mode

Changing the Accent Color

Choosing a Windows Theme

Customizing the Start Menu

Pinning Apps to the Taskbar

Customizing the Taskbar

Personalizing Widgets

Customizing the Widgets Panel

Adding a New Widget to the Widgets Panel

Customizing Your News Feed

Personalizing the Lock Screen

Changing the Lock Screen Background

Displaying a Slideshow on the Lock Screen

Changing Your Account Picture

Setting Up Additional User Accounts

Creating a New User Account

Switching Users

Signing Out

Signing In with Multiple Users

Configuring Other Windows Settings

Part III: Setting Up the Rest of Your System

6 Connecting Printers and Other Devices to Your PC

Getting to Know the Most Popular Peripherals

Adding New Hardware to Your System

Understanding USB

Connecting via USB

Connecting and Using a Printer

Understanding Different Types of Printers

Connecting a Printer via USB

Connecting a Wireless Printer to Your Computer

Sharing a Network Printer

Printing to Your Systems Printer

Table of Contents

Connecting Portable Devices to Your PC

Connecting Your PC to Your Living Room TV

Connecting via HDMI

Wirelessly Mirroring Your Computer Screen

7 Using Your PC with Your Mobile Phone

Linking Your Phone to Your Windows 11 PC

Texting and Calling from Your PC

Receiving Text Messages

Sending Text Messages

Making a Phone Call

Doing More with Your Phone and Your Windows PC

Sharing a Web Page from Your Phone to Your PC

Sharing a Web Page from Your PC to Your Phone

Viewing Photos from Your Phone on Your PC

Running Android Apps on Your PC

8 Adding Storage and Backup

Understanding External Storage

Connecting an External Drive

Backing Up Your Important Files

Backing Up to an External Drive

Backing Up Online

9 Setting Up a Home Network

How Networks Work

Wired Networks

Wireless Networks

Setting Up a Wireless Network in Your Home

How It Works

What You Need

Making the Connections

Connecting Your Computer to Your New Network

Connecting via Ethernet

Table of Contents

Connecting Wirelessly

Accessing Computers on Your Network

Part IV: Using the Internet

10 Connecting to the Internet at Home and Away

Different Types of Home Internet

Understanding Internet Hardware

Connecting to a Public Wi-Fi Hotspot

11 Browsing and Searching the Web

Understanding the Web

Using Microsoft Edge

Browsing the Web with Edge

Revisiting History

Opening Multiple Pages in Tabs

Saving Your Favorite Pages

Returning to a Favorite Page

Displaying the Favorites Bar

Displaying a Page with Immersive Reader

Browsing in Private

Setting a Different Start Page

Using Google Chrome

Searching the Web with Google

Using Google Search

Constructing a Query

Fine-Tuning Your Search Results

12 Buying and Selling Online

How to Shop Online

Step 1: Find an Online Store

Step 2: Find a Product

Step 3: Examine the Product (Virtually)

Step 4: Order the Product

Step 5: Check Out

Table of Contents

Step 6: Confirm the Order

How to Shop Safely

Ordering Meal and Grocery Delivery Online

Ordering Meals Online

Ordering Groceries Online

Buying and Selling on Online Marketplaces

Craigslist

eBay

Etsy

Facebook Marketplace

Reverb

Part V: Communicating Online

13 Sending and Receiving Email

How Email Works

POP/IMAP Email

Web-Based Email

Using the Windows Mail App

Navigating the Mail App

Adding Another Email Account

Reading and Replying to Messages

Viewing Attachments

Sending a New Message

Attaching a File

Using Web-Based Email

Using Outlook Online

Using Gmail

14 Video Chatting with Friends and Family

Video Chatting with Zoom

Getting to Know Zoom

Accepting a Meeting Invitation

Joining a Meeting Manually

Switching Views

Table of Contents

- Applying a Virtual Background
- Leaving a Meeting
- Starting a New Instant Meeting
- Scheduling a Meeting in Advance
- Starting and Ending a Meeting

Video Chatting with Microsoft Teams

- Accepting a Meeting Invitation
- Blurring Your Background
- Launching a New Teams Meeting

15 Social Networking with Facebook, Twitter, and Other Social Media

Using Facebook

- Signing Up with and Signing In to Facebook
- Getting to Know Facebook
- Searching for Friends
- Viewing a Friends Profile Page
- Posting Status Updates
- Determine Who Can or Can't See a Status Update
- Viewing Friends Updates in Your Feed
- Managing Your Privacy on Facebook

Using Twitter

- Joining Twitter
- Navigating Twitter
- Tweeting with Twitter
- Following Other Users
- Customizing Your Profile

Using Pinterest

- What Pinterest Is and What It Does
- Navigating the Pinterest Site
- Viewing Boards and Pins
- Following Other Users
- Repinning Existing Items
- Pinning Items from the Web
- Creating New Boards

Table of Contents

Using LinkedIn

- Personalizing Your Profile
- Finding New Connections
- Contacting Other LinkedIn Members

Using Social Networks Smartly and Safely

- Protecting Your Children
- Protecting Yourself

Part VI: Getting Productive

16 Installing and Using Desktop Applications

Finding and Installing New Apps

- Downloading Apps from the Microsoft Store
- Purchasing Apps from Your Local Retailer
- Finding and Installing Apps Online
- Understanding Web-Based Apps

Managing Your Apps

- Finding Your Installed Apps
- Pinning Apps to the Start Menu
- Pinning Apps to the Taskbar
- Adding App Shortcuts to the Desktop

Working with Applications

- Using Toolbars and Ribbons
- Using Menus
- Closing an Open App

17 Doing Office Work

Getting to Know Microsoft Office

- Using Office on the Desktop
- Using Office on the Web
- Which Version of Office Should You Use?

Word Processing with Microsoft Word

- Exploring the Word Workspace
- Working with Documents
- Entering Text

Table of Contents

Editing Text

Formatting Text

Checking Spelling and Grammar

Printing Your Document

Number Crunching with Microsoft Excel

Exploring the Excel Workspace

Entering Data

Inserting and Deleting Rows and Columns

Adjusting Column Width

Calculating with Formulas

Including Other Cells in a Formula

Quick Addition with AutoSum

Using Functions

Formatting Your Spreadsheet

Creating a Chart

Giving Presentations with Microsoft PowerPoint

Exploring the PowerPoint Workspace

Applying a Theme

Inserting New Slides

Adding and Formatting Text

Start the Show!

Exploring Google Docs

Using Google Docs Word Processor

Using Google Sheets Spreadsheet

Using Google Slides Presentations

Using the Windows Calendar App

Displaying Different Views

Creating a New Event

18 Working with Digital Photos

Transferring Pictures from Your Camera, Smartphone, or Tablet

Downloading from the Internet

Transferring Photos from a Smartphone or Tablet via USB

Transferring Pictures from a Digital Camera via USB

Table of Contents

Transferring Pictures from a Memory Card

Scanning a Picture

Viewing Your Photos with the Windows Photos App

Editing Your Photos with the Photos App

Opening Editing Mode

Cropping or Rotating a Photo

Applying Filters

Adjusting Brightness

Adjusting Color

Printing and Sharing Your Photos

Choosing the Right Printer and Paper

Making the Print

Printing Photos Professionally

Sharing Your Photos

Part VII: Exploring Online Entertainment

19 Watching Movies and TV Shows Online

Watching Streaming Video Services

Watching Amazon Prime Video

Watching Apple TV+

Watching Discovery+

Watching Disney+

Watching HBO Max

Watching Hulu

Watching Netflix

Watching Paramount+

Watching Peacock

Watching Other Streaming Video Services

Watching Live TV Online

Buying and Renting Movies Online

Watching Videos on YouTube

20 Listening to Music and Podcasts Online

Table of Contents

Listening to Streaming Music Online

- Listening to Pandora

- Listening to Spotify

- Listening to Other Streaming Music Services

- Listening to Traditional Radio Stations Online

Purchasing and Downloading Digital Music

- Examining Online Music Stores

- Playing Downloaded Music on Your PC

Listening to Podcasts Online

Part VIII: Keeping Your System Up and Running

21 Protecting Your PC from Computer Attacks, Malware, Spam, and More

Safeguarding Your System from Computer Viruses

- Watching for Signs of Infection

- Catching a Virus

- Practicing Safe Computing

- Disinfecting Your System with Antivirus Software

Hunting Down Spyware

Fighting Email Spam

- Protecting Your Email Address

- Blocking Spammers in Your Email Programs

Resisting Phishing Scams

Shielding Your Children from Inappropriate Content

- Using Content-Filtering Software

- Encouraging Safe Computing

22 Performing Preventive Maintenance and Dealing with Common Problems

Maintaining Your Computer

- Cleaning Up Unused Files

- Removing Unused Programs

- Optimizing Your Disk Storage

Table of Contents

Updating Windows

Keeping Your Hardware in Tip-Top Condition

System Unit

Keyboard

Display

Printer

Maintaining a Laptop PC

Using the Windows Mobility Center

Conserving Battery Life

Securing Your Laptop

Troubleshooting Computer Problems

Troubleshooting in Safe Mode

Reacting When Windows Freezes or Crashes

What Causes Windows to Freeze?

Dealing with Frozen Windows

Dealing with a Frozen Program

Dealing with a Major Crash

Refreshing or Resetting Your System

Refreshing System Files

Resetting Your System to Its Original Condition

Index
