Introduction

CHAPTER 1 Video Fundamentals

Introduction

1 The One Overriding Rule of Media

Final Cut Pro Basics

2 Is It Final Cut Pro or Final Cut Pro X?

3 Basic Final Cut Pro Concepts

4 Why Is It Called a Library, Not a Project?

Video Basics

5 Final Cut Uses Three Types of Video

6 Why Do We Need to Compress Video?

7 Formats, Codecs What Are These Things?

8 Whats the Best Format for Still Images?

9 Not All Codecs Need Optimization

10 I-frame vs. Long-GOP: Two Ways to Compress Media

11 Which to Pick: HEVC vs. H.264

12 ProRes Was Invented by Apple for Video

13 Meet the ProRes Family

14 Which Version of ProRes Should You Use?

15 What Is Raw Video?

Table of Contents

- 16 What Is ProRes RAW?
- 17 What Is Log Video?
- 18 Whats a LUT?
- 19 Apples ProRes White Papers Are a Great Resource
- 20 Media Is Stored in Containers
- 21 Standard Video Frame Sizes
- 22 Standard Video Frame Rates
- 23 A Note on Cinema Quality
- 24 What Is Aspect Ratio?
- 25 Whats a Color Space?
- 26 What Is HDR?
- 27 Which to Choose: SDR vs. HDR Media?
- 28 Monitoring HDR
- 29 What Does Video Bit Depth Determine?
- 30 Whats 4:2:0, 4:2:2, and 4:4:4 Color?

Computer Basics

- 31 Whats the Best Computer for Video Editing?
- 32 What Stresses Your Computer During Editing?
- 33 Optimizing Your Computer for Video Editing
- 34 Which to Choose: Mouse, Trackball, or Trackpad?

Storage Basics

- 35 What Type of Storage Hardware Do You Need?
- 36 Internal, Direct- and Network-Attached Storage
- 37 What About Storing Media in the Cloud?
- 38 Storage Specs to Consider
- 39 How Much Storage Capacity Do You Need?
- 40 How Much Speed Do You Need?
- 41 Why Use Proxies?
- 42 Multicam Editing Is a Special Case

Table of Contents

- 43 Where to Store Stuff
- 44 Final Cut Creates Lots of Files
- 45 Whats Interlaced vs. Progressive Video?
- 46 Deinterlacing Degrades Video Image Quality
- 47 A Fast Way to Deinterlace a Clip
- 48 When to Deinterlace Interlaced Video

Command Set Basics

- 49 Understand Keyboard Shortcuts
- 50 Create a Custom Command Set
- 51 Create Custom Keyboard Shortcuts
- 52 A Fast Way to Switch Shortcuts
- 53 Find a New Favorite Shortcut

Chapter 1 Video Fundamentals Shortcuts

CHAPTER 2 The Final Cut Pro Interface

Introduction

- 54 Download the Final Cut Pro User Guide

The Final Cut Pro Interface

Get to Know the Interface

- 55 Modify the Final Cut Interface
- 56 WorkspacesHidden Enablers of Productivity
- 57 What Can You Put in a Workspace?
- 58 Create Your Own Custom Workspace
- 59 Create a Custom Workspace Keyboard Shortcut
- 60 Expand the Interface with Two Computer Monitors
- 61 Play Video on a Calibrated Video Monitor
- 62 The Background Tasks Window
- 63 Interface Icon Colors Are Significant
- 64 There Is One Inspectorwith Multiple Faces

Table of Contents

65 Change the Height of the Inspector

66 A Shortcut to Sharing

67 The Hidden Extensions Icon

Optimize Preferences

68 Optimize General Preference Settings

69 A Quick Note on Measurements

70 Optimize Editing Preferences

71 Optimize Playback Preferences

72 What Do Dropped Frame Errors Mean?

73 Use a High-Quality Audio Monitor

74 Optimize Import Preferences

75 Optimize Destination Preferences

The Browser

76 The Browser Settings Menu

77 Eight Ways to Sort Browser Clips

78 Group Clips in the Browser

79 Display Audio Waveforms in the Browser

80 The Hidden Meaning of Clip Color Lines

81 Turn Off Those Color Lines in the Browser

82 Deleted Browser Clips Are Not Actually Deleted

83 Browser BadgesExplained

84 Even Browser Clip Edges Share Secrets

85 The Skimmer: A Tool I Love to Hate

86 Top-Secret Hidden Browser Clip Menu

87 A Hidden Project Menu

88 View Clip Labels (Metadata) in Browser

89 Hidden Browser Metadata Fields

90 Different Ways to View the Browser

91 The Photos, Music, Apple TV & Audio Sidebars

Table of Contents

92 The Sound Effects Sidebar

The Timeline

93 Why Doesnt the Timeline Scroll?

94 Manage Projects with This Hidden Menu

95 Switch Projects Faster Using Timeline History Chevrons

96 Timeline Control Icons

97 Timecode Displays Location

98 The Timecode Display Holds Secrets

99 Two Floating Timecode Windows

100 Moving Around the Timeline

The Viewer

101 Even the Viewer Has a View Menu

102 Enlarge the Viewer Full Screen

103 Display Action Safe and Title Safe Zones

104 Better Quality vs. Better Performance

105 Custom Viewer Overlays

106 How to Enable Proxies

107 How to View Transparency

108 Make the Viewer Background Transparent

109 The Little Red Box in the Viewer

Hidden Viewers

110 The Event Viewer

111 The Comparison View

Troubleshooting

112 Four Troubleshooting Techniques

113 When Final Cut Pro Unexpectedly Quits

114 How to Trash Third-Party Plug-ins

115 Fix a Yellow Alert

116 Does Zapping PRAM Still Work?

Table of Contents

- 117 Saving Is Automatic So Are Backups
- 118 Restoring from a Backup
- 119 How to Change Where Final Cut Stores Backups
- 120 Monitor Your Mac Using Activity Monitor
- 121 Archive Active Versions of Final Cut
- 122 The Dock Holds Secrets
- 123 But Wait There's More!

CHAPTER 3 Libraries & Media

Introduction

- 124 Library Strategy

Libraries, Events & Projects

- 125 Create, Rename, and Close a Library
- 126 The Library List Menu
- 127 Create a New Library from an Event
- 128 Change Library Storage Locations
- 129 Final Cut Pro Statistics
- 130 How Big Is Your Library?
- 131 Consolidate Library Media
- 132 Final Cut Library Manager
- 133 Create, Rename, and Modify an Event
- 134 Create as Many Events as You Need
- 135 Copy Events Between Libraries
- 136 Move Events Between Libraries
- 137 Store the Same Media in Multiple Events
- 138 An Empty Library Simplifies Collaboration
- 139 Another Collaboration Option: Proxy Libraries
- 140 Consolidate Motion Templates

Table of Contents

- 141 Create a New Project for SDR Media
- 142 Dont Duplicate a Project Create a Snapshot
- 143 The Fastest Way to Format a New Project
- 144 Modify an Existing Project
- 145 Create an HDR Project
- 146 Be Careful Changing File Names

Import Media

- 147 Before You Import Media
- 148 Drag Clips into Final Cut Pro
- 149 Import Media Using the Media Import Window
- 150 Multiple Ways to Play a Clip
- 151 Import Photoshop Files with Layers
- 152 Import PDF Files
- 153 Import Media Display Options
- 154 How to View Timecode During Import

Manage Media

- 155 Create Favorite Import Locations
- 156 Choose the Right Media Import SettingsPart 1
- 157 Choose the Right Media Import SettingsPart 2
- 158 Choose the Right Media Import SettingsPart 3
- 159 Choose the Right Media Import SettingsPart 4
- 160 Assign Custom Audio Roles During Import
- 161 Record the FaceTime Camera
- 162 Create Proxies After Importing Media
- 163 A Fast Media Check
- 164 What a File with a Broken Link Looks Like
- 165 Relink Missing Media
- 166 Create Render Files
- 167 Delete Generated Media

Table of Contents

Organize Media

- 168 Quick Specs Check
- 169 Use Favorites to Flag Shots You Like
- 170 Find Unused Media
- 171 Add Notes to One or More Clips
- 172 The Highly Efficient Search Box
- 173 Metadata Goldmine
- 174 Edit Metadata Fields
- 175 Keywords Allow More Flexible Organization
- 176 A Faster Way to Add Keywords
- 177 Keywords Create Keyword Collections
- 178 Two Keyword Speed Tips
- 179 Keywords Enable a Very Powerful Search
- 180 More Search Options
- 181 Find Missing Media
- 182 Secret Search Icons
- 183 Smart Collections
- 184 Its OK to Rename Clips in Final Cut
- 185 Rename Clips in Batches

Customize the Timeline

- 186 Customize the Timeline
- 187 A Super-Fast Way to Zoom In to the Timeline
- 188 Hide the Sidebar
- 189 What If Frame Rates Dont Match
- 190 How to Change the Frame Rate of a Project
- 191 Correct the Aspect Ratio of a Clip

CHAPTER 5 Advanced Editing

Introduction

Definitions for This Chapter

Ingenious Techniques

241 Modify a Source Clip

242 Reframe Clips Using Smart Conform

243 Auditions Preview Possibilities

244 Create Auditions in the Timeline

Compound Clips

245 Whats a Compound Clip?

246 Use Compound Clips to Organize Clips

247 Compound Clips Are Dynamic

248 Make a Compound Clip Independent

249 Caution: Compound Clip Audio

250 Caution: Compound Clips Hide Markers

251 Create a Transition Between Compound Clips

252 Create Oversized Compound Clips

253 Apply Effects to Compound Clips

Multicam Editing

254 Multicam Clips Are for Editing

255 Multicam Clips Require Lots of Bandwidth

256 Prep Multicam Clips Before You Start

257 Sync Multicam Clips the Easy Way

258 Advanced Multicam Syncing

259 The Multicam Angle Editor

260 Change the Display Order of Multicam Clips

261 Set a Multicam Clip for Editing

262 Change the Multicam Viewer Display

263 Editing a Multicam Clip

Table of Contents

- 264 Trim a Multicam Edit Point
- 265 Dont Flatten a Multicam Clip
- 266 Put Multiple Clips in One Multicam Angle
- 267 Modify a Multicam Clip After Its Built
- 268 Add Effects to a Multicam Clip
- 269 Access Audio Channels Inside a Multicam Clip

Closed Captions

- 270 Not All Captions Are Alike
- 271 Two Ways to Import Captions
- 272 Enable Captions Using the Timeline Index
- 273 Start with the Right Role
- 274 Modify Captions
- 275 Easily Edit SRT Captions
- 276 Caption Translation Tip

Color Basics & Video Scopes

- 277 Grayscale, Even More Than Color, Drives Emotions
- 278 Color Is Like a Grapefruit
- 279 Colors, Like Grayscale, Are Defined Using Regions
- 280 Intro to Video Scopes
- 281 The Waveform Monitor
- 282 The Vectorscope
- 283 Display Video Scopes on a Second Monitor
- 284 The Video Scope View Menu
- 285 Video Scope Icon

Chapter 5Advanced Editing Shortcuts

CHAPTER 6 Audio

Introduction

Definitions for This Chapter

Table of Contents

Audio Prep

- 286 Human Hearing and Sample Rate
- 287 What Does Audio Bit Depth Determine?
- 288 Which to Pick: Speakers or Headphones
- 289 Whats a Waveform?
- 290 Supported Audio Formats
- 291 Audio Import Settings
- 292 Timeline Settings Affect Audio Display
- 293 What an iXML File Looks Like
- 294 Sync Double System Audio Automatically
- 295 Sync Double System Sound Manually
- 296 Manually Adjust Audio Clip Sync
- 297 Record a Voice-over

Edit Audio

- 298 Audio Editing Basics
- 299 Edit Audio to the Timeline
- 300 Trim Audio Separately from Video
- 301 Expand vs. Detach Audio?
- 302 When Should You Break Apart Clip Items?
- 303 How to Sync Out-of-Sync Audio
- 304 Trim Audio Clips in the Primary Storyline
- 305 Split Trims Edit Audio Separately
- 306 Trim Connected Audio Clips
- 307 Unlike Video, Trim Audio to the Subframe
- 308 Audio Configuration Settings Affect Editing
- 309 Display Audio Components
- 310 Automatically Apply a Crossfade
- 311 Apply an Audio Transition Manually
- 312 A Faster Way to Create an Audio Fade
- 313 Change the Shape of an Audio Fade

Table of Contents

- 314 Enable Audio Skimming
- 315 Turn On Clip Skimming
- 316 Retime Audio to Match Dialogue
- 317 Retime Audio to Stretch a Closing Chord

Levels & Pan

- 318 Display and Read Audio Meters
- 319 Set Audio Levels
- 320 Absolute vs. Relative Audio Levels
- 321 Adjust Audio Levels with the Range Tool
- 322 A Shortcut to Change Audio Levels
- 323 Add and Modify Keyframes

Audio Inspector

- 324 Introducing the Audio Inspector
- 325 Set Audio Levels Faster
- 326 Pan Places a Sound in Space
- 327 How to Pan Audio
- 328 Convert Multichannel Audio to Dual Mono
- 329 Audio Configuration Does More
- 330 Automatic Audio Enhancements
- 331 Adjust Automatic Audio Enhancements
- 332 Improve Speech Clarity
- 333 Final Cut Pro Supports 5 Surround Sound

Roles

- 334 Understanding Roles
- 335 What Can You Do with Roles?
- 336 Assign Roles to Clips
- 337 Switch Languages Using the Timeline Index
- 338 Organize the Timeline Using Roles
- 339 Display Subroles Using the Timeline Index

Table of Contents

340 Focus on Specific Clips Using Roles

341 Create Audio Stems & Submixes

Audio Mixing & Effects

342 Audio Mixing in Final Cut Pro

343 Where to Set Audio Levels for a Final Mix

344 Apply, Modify, and Remove Audio Effects

345 Create a Default Audio Effect

346 The Stacking Order of Audio Effects Is Important

347 The Audio Animation Bar

348 Adjust Audio Pitch

349 Create a Voice Heard Over the Telephone Effect

350 Use EQ to Enhance Voice Clarity

351 The Graphic Equalizer Shapes Sound

352 Space Designer Creates the Sound of a Space

353 The Limiter Effect

Chapter 6 Audio Shortcuts

CHAPTER 7 Transitions & Titles

Introduction

Definitions for This Chapter

Transitions

354 The Three Types of Visual Transitions

355 Add a Dissolve

356 Handles Are Essential for Transitions

357 The Transitions Browser

358 Use Search to Find a Specific Transition

359 Apply a Transition from the Transitions Browser

360 Preview Transitions

361 Change the Transition Duration

Table of Contents

- 362 Trim a Clip Under a Transition
- 363 Modify Transitions
- 364 Hidden Dissolve Options
- 365 Create a New Default Transition
- 366 Flow Minimizes Jump Cuts
- 367 Heres What Those Yellow Dots Mean
- 368 Modify Transitions Using Motion
- 369 Create or Delete Custom Transitions

Titles & Text

- 370 Larrys 10 Rules for Titles
- 371 Fonts Wrap Text with Emotion
- 372 Preview a Title
- 373 Add a Title to the Timeline
- 374 Modify a Title
- 375 Modify Text Position More Precisely
- 376 A Simple Way to Add Depth to Text
- 377 Add Cast Shadows to Text
- 378 Format How Titles Look
- 379 Fonts Dont Need to Be White
- 380 Pick Your Color Picker
- 381 Kerning Improves Large Text Titles
- 382 Change the Default Titles
- 383 Review Timeline Titles Quickly
- 384 Theres a Hidden Shortcut for Titles
- 385 Add Emojis to Titles
- 386 Many Titles Include Animation
- 387 Access More Complex Animation
- 388 3D Text Is Just Like 2DAalmost
- 389 3D Textures Provide Stunning Versatility
- 390 Lighting 3D Text

Table of Contents

391 Modify Any Title in Motion

392 Remove a Custom Title (or Transition)

Generators

393 Whats a Generator?

394 Generator Backgrounds

395 Generator Elements

396 How to Burn Timecode into a Project

397 Generator Solids

398 Generator Textures

399 Modify the Default Generator

400 Add Texture to Text

401 Put Video Inside Text

402 Put Video Inside Text Over Video

Chapter 7 Transitions & Titles Shortcuts

Chapter Wrap

CHAPTER 8 Visual Effects

Introduction

Definitions for This Chapter

Video Inspector Effects

403 The Video Inspector

404 To Reset Any Effect

405 Timeline Stacking Matters

406 Blend Modes & Opacity Create Composite Images

407 Remove Pixels Using Crop or Trim

408 The Crop & Feather Effect

409 The Ken Burns Effect

410 The Distort Effect

411 Spatial Conform Fits Odd-Sized Clips

412 Resize Video Without Losing Image Quality

Table of Contents

413 Image Stabilization

414 Rolling Shutter Correction

415 Rate Conform Sets How Frame Rates Are Converted

Transform Effects

416 The Transform Settings

417 Create a Picture-in-Picture Effect

418 Enable Onscreen Viewer Controls

419 Two More Ways to Enable Onscreen Viewer Controls

420 Rotate a Clip in the Viewer

421 Two Quick Ways to Flip a Clip

422 Calculate Clip Positions

423 Change the Anchor Point

424 Copy Effects to Multiple Clips

425 Remove Effects from One or More Clips

426 Apply Video Keyframes

427 Whats a Motion Path?

428 Add or Modify a Motion Path

429 Keyframe Variations

430 Modify Clips in Drop Zones

431 Reframe Clips in a Drop Zone

432 Be Careful Moving a Generator

433 What Does Analysis Mean?

434 The Video Animation Bar

435 Use the Video Animation Bar to Adjust Opacity

Viewer Effects

436 Change Default Keyframe Acceleration

437 Create or Navigate Keyframes in the Viewer

The Effects Browser

438 The Effects Browser

Table of Contents

- 439 Effects Are Adjusted in the Video Inspector
- 440 Preview an Effect
- 441 Apply Effects Faster
- 442 The Timeline Index Finds Clips
- 443 Remove Effects vs. Remove Attributes
- 444 Effects Stacking Changes Results
- 445 Create a Default Video Effect
- 446 Some Effects Require Compound Clips
- 447 How to Remove Custom Plugins from Final Cut

Effects Cookbook

- 448 Gaussian Blur Effect
- 449 Use Pixelization to Hide Identities
- 450 Color Look Effects
- 451 Pick the Right Black & White Look
- 452 Create a Better Sepia Effect
- 453 Reduce Video Noise
- 454 Reduce Light Flickers
- 455 Add a Cast Shadow
- 456 Create an Adjustment Layer

Masks & Keys

- 457 Use Shape Masks
- 458 Draw Mask
- 459 Color Masks
- 460 Fast Track an Object
- 461 Track an Effect with Object Tracking
- 462 Adjust an Object Track
- 463 Track Two Objects Using One Track
- 464 Luma (Luminance) Key
- 465 Chroma Key Effect (aka Green-Screen Key)

Table of Contents

466 Advanced Chroma Key Settings
