Contents

INTRODUCTION

CHAPTER 1: The Tao of UXD

What Is User Experience Design?

The Broad Definition

Dont Forget the Tangible

Our Focus

About UX Designers

Where UX Designers Live

Lets Get Started!

CHAPTER 2: The Project Ecosystem

Identify the Type of Product

Brand Presence

Promotional Product

Content Source

Task-Based Application

E-Commerce Product

E-Learning Product

# Table of Contents

Social Network

## Consider Different Devices

Responsive Design

Web Apps vs. Native Apps

Hybrid and Cross-Platform Options

Interactions Across Devices

## Choose Your Hats

Information Architect

Interaction Designer

User Researcher

Other Roles You May Play

Taking On Many Roles

Building a Network of User Advocacy

## Understand the Company Culture

Company or Department Size

Design Maturity

Ops Teams

In-House vs. Agency

Project History

Hierarchy

Pace, Place, and Other Logistics

## Pulling It Together

## CHAPTER 3: DesignOps, ResearchOps, ContentOps, Oh My!

### Design Operations

The Role of DesignOps on a Design Team

### Research Operations

The Role of ResearchOps on a Design Team

### Content Operations

# **Table of Contents**

The Role of ContentOps on a Design Team

Bonus Operations

ConclusionOps

## **CHAPTER 4: Project Objectives and Approach**

Solidify Project Objectives

Understand the Project Approach

Waterfall Methodology

Agile Methodologies

Other Approaches a Designer Should Know

How Does the Approach Affect Me?

## **CHAPTER 5: Discovery**

Kickoff, Preparation, and Pre-Planning for Discovery

Identify Stakeholders

Create a Stakeholder Interview Guide

Interview Stakeholders

Perform Secondary Research

Analyze and Synthesize Stakeholder Interview Notes

Kickoff Workshop

Create Your Workshop Plan

Create Your Workshop Agenda

Facilitate the Workshop

Review Workshop Outcomes

Detailed Discovery Planning

Team Roles and Responsibilities

Defining Project Assumptions

Drafting a Project Brief

Crafting a User Research Plan

Delivering the Project Brief and Research Plan

# **Table of Contents**

Facilitating User Research

## **Prototyping**

Concept Design and Exploration

Internal Concept Review and Iteration

Usability Testing (and Iteration)

Prepare Prototype Presentation

## **Research Analysis and Findings**

Picking Your Analysis Method

Creating Your Research Report

## **Presenting Your Findings**

## **Discover Your Own Way**

# **CHAPTER 6: Workshops and Collaboration Activities**

## **Preparation**

Identify the Right Participants

Nail the Agenda and Schedule

Identify Supplies and Logistics

Set Expectations

## **Sample Activities**

Prioritization Activity

Affinity Diagram

Role Empathy Map

Sketch and Critique (Design Studio)

## **Follow-up Actions**

This Is a Lot of Work, and Its a Lot of Fun!

# **CHAPTER 7: User Research**

## **Basic Steps of User Research**

## **Define Your User Groups**

Create a List of Attributes

# **Table of Contents**

Prioritize and Define

## **Plan Your Research**

Qualitative Research vs. Quantitative Research

Product Analytics

Choose Your Research Method(s)

How Many Research Activities Can I Include?

## **Conduct the Research**

User Interviews

Contextual Inquiry

Focus Groups

Card Sorting

Surveys

Usability Testing

A/B Testing

Form and Share Findings

After the Research

## **CHAPTER 8: Personas**

What Are Personas?

Why Create Personas?

Finding Information for Personas

Creating Personas

(Fairly) Standard Content Considerations

Additional (Optional) Content

Ad Hoc Personas: The Empathy Map

Final Thoughts on Personas

## **CHAPTER 9: Mapping Methods**

Basic Elements of Mapping Methods

Page/Screen/View

# **Table of Contents**

Pagestack

Decision Point

Connectors and Arrows

Conditions

## **Common Mistakes**

Sloppy Connections

Misaligned and Unevenly Spaced Objects

Poorly Placed Text

Lack of Page Numbering

## **Simple and Complex Site Maps**

## **Process Maps**

## **Journey Maps**

Step 1: Level Set

Step 2: Brainstorm

Step 3: Analysis

Step 4: Create the Digital Artifact

## **Other Mapping Methods**

## **CHAPTER 10: Product Definition**

### **Structuring Ideas**

User Stories, Features, and Epics

### **Prioritization**

Prioritization Techniques

Roles in Prioritization

### **Feature Definition**

## **CHAPTER 11: Design Foundations**

### **Universal Principles**

Visual Design

Interaction

# Table of Contents

Psychology

Product Foundations

Product-Specific Design Principles

Design Systems and Standards

## CHAPTER 12: Content Strategy

Why Do You Need Content?

When Do You Need Content Strategy?

Who Does Content Strategy?

How Long Does Content Strategy Last?

This Sounds Familiar

Tools of the Trade

The Artifacts

What Is the One Artifact You Need?

Things to Look Out For

## CHAPTER 13: Wireframes and Prototypes

Who Are Your Wireframes and Prototypes For?

Collaborative Creation

Getting Started Creating Wireframes

Sketch First!

Design, Dont Draw

Happy Dog: A Wireframe Design Example

Gather Your Information

Think, Then Sketch

Into the Digital

Season with Documentation

Wireframes to User Interface

How Much Prototyping Do I Need?

Paper Prototyping

# Table of Contents

Digital Prototyping

Which Design Is Right?

What Happens After Prototyping?

## CHAPTER 14: Design Testing

Choosing a Design Testing Approach

In-Person Research vs. Remote Research

Remote Research Considerations

Moderated Techniques vs. Unmoderated Techniques

Exploring Visual Design Mock-Ups

Usability Testing

Planning the Research

Recruiting and Logistics

Writing Discussion Guides

Facilitating

Analyzing and Presenting Results

Creating Recommendations

## CHAPTER 15: Launch and Release

Almost Done?

Launch vs. Release

Full Releases: The Path to Growth

Dot Releases: The Cycle of Iteration

Common Threads: Analytics and Observation

Now What?

## INDEX
