Introduction

- Organization of this book

- Preparing for the exam

- Microsoft certifications

- Access the Exam Updates chapter and online references

- Errata, updates, & book support

- Stay in touch

Chapter 1 Develop an Azure Infrastructure as a Service solution

- Skill 1.1: Implement containerized solutions

 - Create and manage container images for solutions

 - Publish an image to the Azure Container Registry

 - Run containers by using an Azure Container Instance

 - Create solutions by using Azure Container Apps

- Skill 1.2: Implement Azure App Service web apps

 - Create an Azure App Service web app

 - Enable diagnostics logging

 - Deploy code to a web app

Table of Contents

Configure web app settings including Secure Sockets Layer, API settings, and connection strings

Implement autoscaling rules, including scheduled autoscaling, and scaling by operational or system metrics

Configure deployment slots

Skill 1.3: Implement Azure Functions

Create and configure an Azure Function App

Implement input and output bindings for a function

Implement function triggers by using data operations, timers, and webhooks

Chapter summary

Thought experiment

Thought experiment answers

Chapter 2 Develop for Azure storage

Skill 2.1: Develop solutions that use Cosmos DB storage

Perform operations on containers and items by using the SDK

Set the appropriate consistency level for operations

Implement change feed notifications

Skill 2.2: Develop solutions that use Blob Storage

Set and retrieve properties and metadata

Interact with data using the appropriate SDK

Implement storage policies and data life cycle management

Implement static site hosting

Chapter summary

Thought experiment

Thought experiment answers

Chapter 3 Implement Azure security

Skill 3.1: Implement user authentication and authorization

Authenticate and authorize users by using the Microsoft Identity platform

Table of Contents

Authenticate and authorize users and apps by using Microsoft Entra ID

Create and implement shared access signatures

Implement solutions that interact with Microsoft Graph

Skill 3.2: Implement secure cloud solutions

Secure app configuration data by using App Configuration or Azure Key Vault

Develop code that uses keys, secrets, and certificates stored in Azure Key Vault

Implement Managed Identities for Azure resources

Chapter summary

Thought experiment

Thought experiment answers

Chapter 4 Monitor, troubleshoot, and optimize Azure solutions

Skill 4.1: Implement caching for solutions

Configure cache and expiration policies for Azure Cache for Redis

Implement secure and optimized application cache patterns including data sizing, connections, encryption, and expiration

Implement Azure Content Delivery Network endpoints and profiles

Skill 4.2: Troubleshoot solutions by using Application Insights

Configure an app or service to use Application Insights

Monitor and analyze metrics, logs, and traces

Implement Application Insights Web Test and Alerts

Chapter summary

Thought experiment

Thought experiment answers

Chapter 5 Connect to and consume Azure services and third-party services

Skill 5.1: Implement API Management

Create an APIM instance

Create and document APIs

Table of Contents

Configure authentication for APIs

Implement policies for APIs

Skill 5.2: Develop event-based solutions

Implement solutions that use Azure Event Grid

Implement solutions that use Azure Event Hub

Skill 5.3: Develop message-based solutions

Implement solutions that use Azure Service Bus

Implement solutions that use Azure Queue Storage

Chapter summary

Thought experiment

Thought experiment answers

Chapter 6 AZ-204 developing solutions for Microsoft Azure exam updates

The purpose of this chapter

About possible exam updates

Impact on you and your study plan

News and commentary about the exam objective updates

Updated technical content

Objective mapping
