# Adult Nursing

## Acute and Ongoing Care

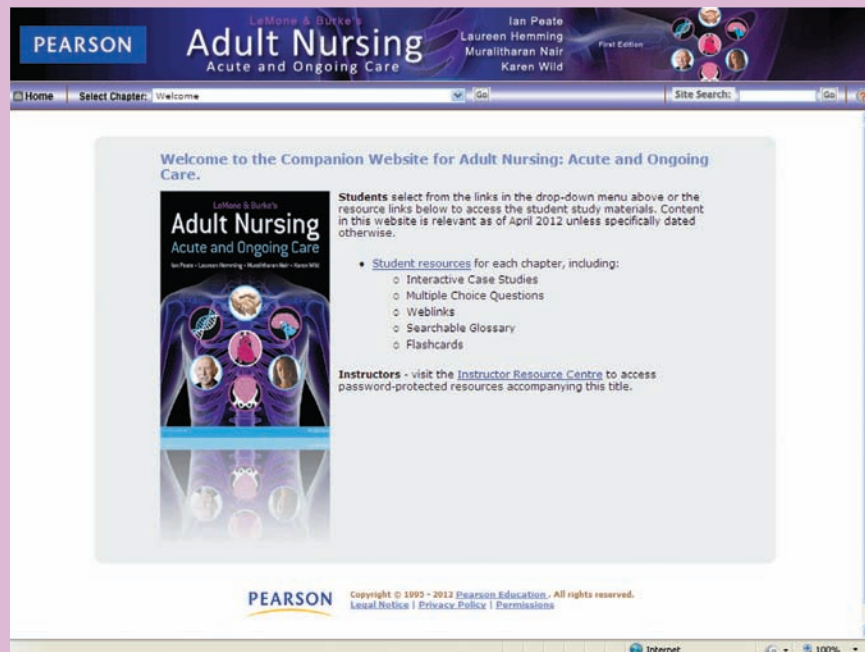

Ian Peate • Muralitharan Nair • Lauren Hemming • Karen Wild

# LeMone & Burke's Adult Nursing

Visit the *Adult Nursing* Companion Website at [www.pearsoned.co.uk/lemone](http://www.pearsoned.co.uk/lemone) to find valuable **student** learning material including:

- Interactive Case Studies
- Multiple Choice Questions
- Weblinks
- Searchable Glossary
- Flashcards

# LeMone & Burke's Adult Nursing

## Table of Contents

Cover

Adult Nursing

Brief contents

Contents in detail

List of figures

Preface

About the authors

Guided tour

List of acronyms

Acknowledgements

The Role and Function of the Adult Nurse in Health and Illness

Learning outcomes

Clinical competencies

Case study

Introduction

The Nurse in Acute and Ongoing Nursing Practice

The Nursing Process

Critical Thinking and Evidence-based Care in Adult Nursing

Applying Ethics to Nursing Practice

Legal and Ethical Dilemmas in Nursing

Models of Care Delivery

Nurses and Quality Assurance

Health and Illness

Disease and Illness

Meeting the Health Needs of Adults

The Family

The Person Undergoing Surgical Intervention

Chapter Highlights

# **Table of Contents**

Test Yourself

Further Resources

Bibliography

## **Caring for People with Cancer**

Learning outcomes

Clinical Competencies

Case Studies

Introduction

Incidence and Mortality

Risk Factors

Pathophysiology

Aetiology of Cancer

Physiological and Psychological effects of Cancer

Interdisciplinary Care for the Person with Cancer

Making a Cancer Diagnosis

Cancer Treatment

Oncological Emergencies

Nursing Care for the Person with Cancer

Health Promotion

Rehabilitation and Survivorship

Palliative Care

End-of-life Care

Bereavement Care

Case study summaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Altered Fluid, Electrolyte, Acidbase Balance and Shock**

Learning outcomes

Clinical Competencies

Case Studies

# **Table of Contents**

Introduction

Body Fluid Compartments

Acidbase Balance

Shock

Cellular Homeostasis and Haemodynamics

Disorders of Fluid Balance

The Person with Fluid Volume Deficit (FVD)

The Person with Fluid Volume Excess (FVE)

Disorders of Electrolyte Balance

The Person with Sodium Imbalance (hypernatraemia)

The Person with Sodium Imbalance (hypernatraemia)

The Person with Potassium Imbalance (hypokalaemia)

The Person with Potassium Imbalance (hyperkalaemia)

The Person with Calcium Imbalance (hypocalcaemia)

The Person with Calcium Imbalance (hypercalcaemia)

The Person with Shock

Case Study Summaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Immune Problems**

Learning Outcomes

Clinical Competencies

Case Studies

Introduction

Anatomy, Physiology and Functions of the Immune System

Disorders of the Immune System

The Person with a Primary Immunodeficiency

Secondary Immunodeficiencies

The Person with HIV Infection

Hypersensitivity

Autoimmune Disease

# **Table of Contents**

Infection

Infectious Diseases

Primary and Secondary Response to Infection

Immunisations

Case Study Sumaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Altered Skin Function**

Learning Outcomes

Clinical competencies

Case Studies

Introduction

Anatomy, Physiology and Function of the Skin, Hair and Nails

Types of Altered Skin Function

Assessing Skin Function

Common Skin Problems and Lesions

The Person with Pruritus

The Person with Dry Skin (xerosis)

The Person with a Benign Skin Lesion

The Person with Psoriasis

Infections and Infestations of the Skin

The person with a bacterial infection of the skin

The Person with a Parasitic Infestation of the Skin

The Person with a Viral Infection of the skin

Inflammatory Disorders of the Skin

The Person with Dermatitis

The Person with Acne

The Person with Pemphigus Vulgaris

The Person with Lichen Planus

Malignant Skin Disorders

The Person with Actinic Keratosis

# **Table of Contents**

The Person with Non-melanoma skin cancer  
The Person with Malignant Melanoma  
Wounds  
Wound Healing  
The Person with a Minor Injury  
The Person with a Surgical Wound  
The Person with a Burn or a Scald  
Factitious Wounds  
The Person with a Pressure Ulcer  
The Person with a Leg Ulcer  
The Person with Diabetic Foot  
Other Therapies for Persons with Altered Skin Function  
Case Study Sumaries  
Chapter Highlights  
Test Yourself  
Further Resources  
Bibliography

## **Caring for People with Endocrine Problems**

Learning Outcomes  
Clinical Competencies  
Case Studies  
Introduction  
Anatomy, Physiology and Functions of the Endocrine System  
Disorders of the Endocrine System  
The person with hyperthyroidism  
The Person with Hypothyroidism  
The Person with Cancer of the Thyroid  
Disorders of the Pituitary Gland  
The Person with a Disorder of The Anterior Pituitary Gland  
The Person with a Disorder of the Posterior Pituitary Gland  
Diabetes Melitus (DM)  
The Person with DM  
Case Study Summaries

# **Table of Contents**

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Gastrointestinal Problems**

Learning Outcomes

Clinical Competencies

Case Studies

Introduction

Nutrients

Anatomy, Physiology and Functions of the Gastrointestinal (GI) System

The Person with Obesity

The Person with Malnutrition

Disorders of the Stomach and Duodenum

The Person with Peptic Ulcer Disease (PUD)

The Person with Cancer of the Stomach

The Person with Hepatitis

The Person with Pancreatitis

The Person with Pancreatic Cancer

The Person with Constipation

The Person with Inflammatory Bowel Disease (IBD)

The Person with Colorectal Cancer

Case Study Summaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Urinary Elimination and Kidney Problems**

Learning Outcomes

Clinical Competencies

Case Studies

Introduction

Anatomy, Physiology and Functions of the Urinary System

# **Table of Contents**

The Person with a Urinary Tract Infection (UTI)

The Person with Urinary Calculi

The Person with Bladder Cancer

The Person with a Renal Tumour

Renal Failure

The Person with Acute Kidney Injury (AKI)

The Person with Chronic Kidney Disease (CKD)

Case Study Summaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Cardiovascular Problems**

Learning Outcomes

Clinical Competencies

Case Studies

Introduction

Anatomy, Physiology and Functions of the Heart

Cardiovascular Disease

Disorders of Myocardial Perfusion

The Person with Coronary Heart Disease (CHD)

The Person with Stable Angina

The Person with Acute Coronary syndrome (ACS)

The Person with Myocardial Infarction (MI)

Sudden Cardiac Death (SCD)

Acute and Chronic Heart Failure

The Person with Acute Heart Failure (AHF)

The Person with Chronic Heart Failure (CHF)

The Person with a Structural Problem of the Heart

The Person with Peripheral Vascular Disease (PVD)

End-of-life Care

Case Study Summaries

Chapter Highlights

# **Table of Contents**

Test Yourself

Further Resources

Bibliography

## **Caring for People with Haematological Problems**

Learning Outcomes

Clinical Competencies

Case studies

Introduction

Anatomy, Physiology and Functions of the Haematological System

Disorders of the Red Blood Cells (erythrocytes)

The Person with Anaemia

The Person with Myelodysplastic Syndrome (MDS)

The Person with Polycythaemia Vera

Disorders of the White Blood Cells and Lymphoid Tissues

The Person with a Leukaemia

The Person with Malignant Lymphoma

The Person with Multiple Myeloma (MM)

Haemostatic Disorders

The Person with Thrombocytopenia

The Person with a Hereditary Coagulation Disorder

Case Study Summaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Respiratory Problems**

Learning outcomes

Clinical competencies

Case Studies

Introduction

Anatomy, Physiology and Functions of the Respiratory System

Assessing Respiratory Function

Problems of Ventilation

# **Table of Contents**

The Person with Sinusitis  
The Person with Obstructive Sleep Apnoea  
The Person with Influenza  
The Person with Acute Bronchitis  
The Person with Pneumonia  
The Person with Tuberculosis (TB)  
Disorders of the Pleura  
The Person with Pleuritis (pleurisy)  
The Person with Pleural Effusion  
The Person with Pneumothorax  
The Person with Lung Cancer  
Gas Exchange Problems  
The Person with Asthma  
The Person with Chronic Obstructive Pulmonary Disease (COPD)  
The Person with Pulmonary Embolism  
The Person with Acute Respiratory failure  
Case Study Summaries  
Chapter Highlights  
Test Yourself  
Further Resources  
Bibliography

## **Caring for People with Musculoskeletal Problems**

Learning Objectives  
Clinical Competencies  
Case Studies  
Introduction  
Anatomy, Physiology and Functions of the Musculoskeletal System  
Traumatic Injuries of the Muscles, Ligaments and Joints  
The person with a contusion, strain or sprain  
The Person with a Joint Dislocation  
Traumatic Injuries of the Bones  
The person with a fracture  
The Person Having an Amputation

# **Table of Contents**

The Person with Repetitive Strain Injury (RSI)  
Metabolic Bone Disorders  
The Person with Osteoporosis  
The Person with Pagets Disease  
The Person with Gout  
The Person with Osteoarthritis (OA)  
Autoimmune and inflammatory disorders  
The Person with Rheumatoid Arthritis (RA)  
The Person with Systemic Lupus Erythematosus (SLE)  
The Person with Osteomyelitis  
Neoplastic Disorders  
The Person with a Bone Tumour  
The Person with Spinal Cord Compression  
Connective Tissue and Structural Disorders  
The Person with Scleroderma  
The Person with Fibromyalgia  
The Person with Low Back Pain  
Case Study Sumaries  
Chapter Highlights  
Test Yourself  
Further Resources  
Bibliography

## **Caring for People with Neurological Problems**

Learning Outcomes  
Clinical Competencies  
Case Studies  
Introduction  
Anatomy, Physiology and Functions of the Nervous System  
Assessing the Person with Neurological Problems  
Intracranial Disorders  
The Person with Altered Level of Consciousness (LOC)  
The Person with Increased Intracranial Pressure  
The Person with a Headache

# **Table of Contents**

The Person with Epilepsy  
The Person with a Traumatic Brain Injury (TBI)  
The Person with a CNS Infection  
The Person with an Intracranial Tumour  
The Person with a Cerebrovascular Disorder  
The Person with a Spinal Cord Tumour (SCT)  
Degenerative Neurological Disorders  
The Person with Multiple Sclerosis (MS)  
The Person with Parkinsons Disease (PD)  
The Person with Dementia  
Case Study Sumaries  
Chapter Highlights  
Test Yourself  
Further Resources  
Bibliography

## **Caring for People with Eye and Ear Problems**

Learning Outcomes  
Clinical Competencies  
Case Studies  
Introduction  
Anatomy, Physiology and Functions of the Eyes  
Assessing the Eyes  
Eye and Vision Assessments  
Disorders of the Eye  
The Person with Conjunctivitis  
The Person with a Corneal Disorder  
The Person with Eye Trauma  
The Person with Cataracts  
The Person with Glaucoma  
The Person with Diabetic Retinopathy  
Anatomy, Physiology and Functions of the Ears  
Assessing the Ears  
Ear and Hearing Assessments

# **Table of Contents**

Disorders of the Ear

The Person with Otitis Externa

The Person with Impacted Cerumen or a Foreign Body

The Person with Otitis Media

The Person with Chronic Otitis Media

The Person with an Inner Ear Disorder

The Person with Hearing Loss

Case Study Sumaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for Women with Reproductive Problems**

Learning outcomes

Clinical competencies

Case Studies

Introduction

The Female Reproductive System

Anatomy, Physiology and Functions of the Female Reproductive System

Assessing the Female Reproductive system

The Woman with Sexual Dysfunction

The Perimenopausal Woman

Menstrual Disorders

The Woman with Premenstrual Syndrome (PMS)

The Woman with Dysmenorrhoea

The Woman with Dysfunctional Uterine Bleeding (DUB)

Structural Disorders

The Woman with a Uterine Displacement

The Woman with a Vaginal Fistula

Disorders of Female Reproductive Tissue

The Woman with Cysts or Polyps

The Woman with Leiomyoma

The Woman with Endometriosis

# **Table of Contents**

The Woman with Cervical Cancer  
The Woman with Endometrial Cancer  
The Woman with Ovarian Cancer  
The Woman with Cancer of the Vulva  
Disorders of the Breast  
The Woman with a Benign Breast Disorder  
The Woman with Breast Cancer  
Case Study Sumaries  
Chapter Highlights  
Test Yourself  
Further Resources  
Bibliography

## **Caring for Men with Reproductive Problems**

Learning Outcomes  
Clinical Competencies  
Case Studies  
Introduction  
The Male Reproductive Tract  
Anatomy, Physiology and Functions of the Male Reproductive System  
Assessing the Male Reproductive system  
The Man with Erectile Dysfunction (ED)  
Disorders of the Penis  
The Man with Phimosis or Priapism  
The Man with Cancer of the Penis  
Disorders of the Testis and Scrotum  
The Man with a Benign Scrotal Mass  
The Man with Epididymitis  
The Man with Orchitis  
The Man with Testicular Cancer  
Disorders of the Prostate Gland  
The man with prostatitis  
The Man with Benign Prostatic Hyperplasia (BPH)  
The Man with Prostate Cancer

# **Table of Contents**

Male Breast Disorders

The Man with Gynaecomastia

The Man with Breast Cancer

Case Study Summaries

Chapter Highlights

Test Yourself

Further Resources

Bibliography

## **Caring for People with Sexually Transmitted Infections**

Learning Outcomes

Clinical Competencies

Case Studies

Introduction

Overview of Sexually Transmitted Infections

The Person with Genital Herpes

The Person with Genital Warts

The Woman with a Vaginal Infection

The Person with Chlamydia

The Person with Gonorrhoea

The Person with Syphilis

The Woman with Pelvic Inflammatory Disease (PID)

Case Study Summaries

Chapter Highlights

Test Yourself

Further Resources
