Introduction

Being stuck: what it means to have a problem

Welcome to your brain: nature's problem-solver
and how it works (sort of)

What's your style?: your problem-solving profile
and what it means

Am I bothered? Blame, resistance and the call to
ownership

Puzzle, headache, plan, dream: four types of
problem

Closing the gap: solving puzzles

Treating headaches: what to do when problems
become wicked

Table of Contents

Design thinking: planning the way forward

Dreaming the future: creative problem-solving

Making it happen: deciding wisely

Towards collaboration: solving problems with
other people

Afterword
