From Design Into Print: Preparing Graphics and Text for Professional Printing

Table of Contents

Table of Contents

Introduction

- The Non-Designer's Books
- The Non-Designer's Scan and Print Book
- Showing its age
- Updating for the twenty-first century
- How to read this book
- Quizzes and projects
- From Design Into Print: The podcast
- Thanking those who have helped

SECTION I: START AT THE END

Chapter 1: Know Where You're Going

- What are the questions?
- What kind of job is it?
- Who's printing it?
- What's the size of the paper?
- How many pieces of paper?
- How many folds?
- How many copies?
- How many colors?
- Using any graphics?
- What kind of paper?

Table of Contents

What holds it together?

Project preparation list

Chapter 2: Desktop Printing

General printer considerations

Types of printers

Summary

Printer quiz

Printer quiz answers

Chapter 3: The Basics of Commercial Printing

Print shops, copy shops, and online printing

To copy or to print?

Different printing processes

How to find a print shop

Printing on a budget

Commercial printing projects

SECTION II: WHAT IS THE COMPUTER DOING?

Chapter 4: Understanding the Types of Computer Applications

Choose your software

Word processing applications

Spreadsheet applications

Presentation programs

Image editing programs

Vector drawing programs

Page layout programs

Installing and managing fonts

Summary of applications

Chapter 5: Computer Color Modes

Bit depth

Table of Contents

Bitmap color mode

Grayscale mode

RGB mode

CMYK mode

Which modes for photography and scanning?

Converting from color to grayscale

Color mode and depth chart

Chapter 6: Raster Images and Resolutions

Monitor resolution

Image resolution

Output resolution

Print resolution for grayscale or color images

Resolution for specialty printers

Resolution for 1-bit raster images

Changing resolution

Finding and fixing missing pixels

Can you have too much resolution?

Chapter 7: Vector Images

Types of vector art

Advantages of vector art

Challenges of vector art

Transparent and opaque shapes in vector art

Placing vector images in layouts

Vector/pixel quiz

Vector/pixel quiz answers

Chapter 8: File Formats

Native file formats

Non-native file formats

TIFF files

Table of Contents

- EPS files (vector)
- DCS files
- PICT files (Macintosh)
- BMP files (Windows)
- WMF files (Windows)
- GIF files
- PNG files
- JPEG files
- PDF files
- PostScript files
- Which format to choose?
- Format quiz
- Format quiz answers

SECTION III: THE WORLD OF COLOR

Chapter 9: Process Color Printing

- What are process colors?
- What are separations?
- Choosing screen angles
- Tints of process colors
- 4-color black and other colors
- Process color projects
- Color quiz
- Color quiz answers

Chapter 10: Spot Colors and Duotones

- Why use spot colors?
- Using spot color guides
- Spot color effects
- Colorizing photos
- Spotting spot colors

Table of Contents

Duotones

Spot color projects

Chapter 11: How Many Colors to Print

Number of colors on a printing press

Separations

Counting color projects

SECTION IV: GETTING STUFF INTO THE COMPUTER

Chapter 12: Digital Cameras

How digital cameras work

Types of digital cameras

Resolution of digital cameras

Types of image sensors

File size and compression

Viewing and sorting digital images

Digital camera projects

Chapter 13: Scanners and Scanning

Principles of scanners

Types of scanners

Preparing to scan

Scanner software

Scanning printed artwork

Descreening printed art

A legal note about scanning

Scanning projects

Chapter 14: Stock Photos and Clip Art

History of stock photos and clip art

How to get them

Comp images

Table of Contents

Stock photo formats

Clip art

Legal stuff

Stock photo and clip art projects

Chapter 15: Fonts, Strokes, and Outlines

Font formats

Styling fonts

Coloring text

Converting text to outlines

Hairlines

Scaling vector lines

Fonts and outlines projects

SECTION V: GETTING YOUR WORK PRINTED AND PUBLISHED

Chapter 16: High-Resolution Output

What is a print service provider?

How to find a print service provider

What to send to the print shop

Trapping

Imposing your files

Sending Acrobat files (PDF) for output

Sending files for advertising

High-resolution quiz

High-resolution quiz answers

Chapter 17: Acrobat and PDF Files

Glossary of Acrobat terms

A little background

Benefits of creating PDF files

Ways to create PDF files

Setting the PDF controls for print

Table of Contents

Non-printable PDF elements

Chapter 18: Output Specifications

Filling out the form

Client information

Job details

Delivery options

Page information

Output details

Separations (colors) details

Production details

Proof details

Delivery details

Output project

Chapter 19: Trapping

What is it and why do it?

Color knockouts

Trapping the color

Avoiding the need for trapping

Should you trap?

Trapping quiz

Trapping quiz answers

Chapter 20: Preflight and Proofing

Spelling, prices, and proofreading

Preflight

Monitor proofing

Proofing text

Proofing separations

Digital color proofs

Overlay proofs

Table of Contents

Blueline proofs

Laminate proofs

Press proofs and press checks

Proofing direct-to-plate

Fixing film and plates

And after it's printed?

Appendix A: Preflight Checklist

Your preflight checklist

Materials to be sent

Page layout file

Colors

Placed or inserted images

Text and outlines
