Praise for *The Naked Presenter*

“Many books about presentation delivery cover simple topics like eye contact and gestures. Garr’s book goes much deeper, highlighting Zen concepts that address meaningful ways to connect credibly with an audience. It’s a must-read for anyone who has to give presentations.”

“You can capture the essence of Garr and his work in three words: beauty/logic/Asia. A true original, and a voice worth listening to.”

—**Seth Godin**, author of *Linchpin*

“I do between 80 and 100 speaking events per year. That’s a full-time job in and of itself, but it’s a sure-fire business development tool for our agency. The only reason this model works so well for us is because I take everything Garr Reynolds says to heart. I don’t read his books, I devour them from the inside out. From the structure of the presentation to how to make the slides brilliant, nobody beats Garr. *The Naked Presenter* is a book whose time has come. Shedding everything to focus on the audience and the content is the true secret to great presentations. Now, Garr is sharing that secret (and how to do it) with the world. Thank you, Garr!”

author of *Six Pixels of Separation*

“You’ve probably watched a TED Talk, or seen someone who just owns the stage like Tom Peters and has the audience gasping for more, but did you know that you too can deliver presentations that get great reviews? You can by being a Naked Presenter. I’ve used these techniques to be a better presenter and they work. Use them and your audience will rave about your presentations. Heck, they might even stop Twittering during your presentations. Imagine that.”

and coauthor of *Naked Conversations*
