Beyond Software Architecture

Beyond Software Architecture: Creating and Sustaining Winning Solutions

Table of Contents

Contents

Foreword

Foreword

Preface

Chapter 1 Software Architecture

Defining Software Architecture

Alternative Thoughts on Software Architecture

Subsystems Are Designed to Manage Dependencies

Subsystems Are Designed According to Human Motivations and Desires

Give in to Great Architectures

Beauty Is in the Eye of the Beholder!

Why Software Architecture Matters

Longevity

Stability

Degree and Nature of Change

Profitability

Social Structure

Boundaries Defined

Sustainable, Unfair Advantage

Creating an Architecture

Patterns and Architecture

Architectural Evolution and Maturation: Features versus Capabilities

Architectural Care and Feeding

Table of Contents

Technological Currency

Technological Debt

Known Bugs

License Compliance

Principles First, Second, and Third

Encapsulation

Interfaces

Loose Coupling

Appropriate Granularity

High Cohesion

Parameterization

Deferral

Creating Architectural Understanding

The Team

Chapter Summary

Check This

Try This

Chapter 2 Product Development Primer

What Is Product Management?

Why Product Management Matters

Product Development Processes: Creating Release 1.0

Concept Proposal

Product Proposal/Business Plan

Development Plan

Development

Final Quality Assurance

Prelaunch

Launch

It Isn't Like That

Table of Contents

It Is a Waterfall Process and Those Dont Work

It Presents All Stages as If They Were of Equal Importance

It Doesnt Detail Any Time

Where Is the Iteration?

It Doesnt Prescribe a Development Process

It Doesnt Identify the Level of Collaboration Between Groups within Stages

The Business Plan

Product Development Processes: Creating Release n.n.n

Augmenting the Product Development Process

Successive Freezing

Change Management Protocols

Recycle Bin

Crucial Product Management Concepts

The Four Ps of Marketing

Total Available Market, Total Addressable Market, and Market Segmentation

The S-Shaped Curve of Adoption

The Whole Product

Technical versus Market Superiority

Position and Positioning

Brand

The Main Message

Chapter Summary

Check This

Try This

Chapter 3 The Difference between Marketecture and Tarchitecture

Who Is Responsible for What?

Early Forces in Solution Development

Creating Results in the Short Run while Working in the Long Run

Table of Contents

Projecting the Future

Harnessing Feedback

Generating Clarity

Working in Unison

Reaching Agreements

Making Data Available

Context Diagrams and Target Products

Chapter Summary

Check This

Try This

Chapter 4 Business and License Model Symbiosis

Common Software Business Models

Time-Based Access or Usage

Transaction

Metering

Hardware

Services

Revenue Obtained/Costs Saved

Rights Associated with Business Models

Tarchitectural Support for the Business Model

General Issues

Time-Based Access or Usage

Transaction

Metering

Hardware

Enforcing Licensing Models

The Honor System

Home-Grown License Managers

Table of Contents

Third-Party or Professional License Managers

The Client

Market Maturity Influences on the Business Model

Choosing a Business Model

Chapter Summary

Check This

Try This

Chapter 5 Technology In-Licensing

Licensing Risks/Rewards

ContractsWhere the Action Is

Contract Basics

License Terms

When Business Models Collide, Negotiations Ensue

Honoring License Agreements

Managing In-Licensed Technology

Open-Source Licensing

License Fees

Licensing Economics

Chapter Summary

Check This

Try This

Chapter 6 Portability

The Perceived Advantages of Portability

The Business Case for Portability

Creating Portable Applications

Use an Interpreted Language

Use Standards-Based Persistent Storage

Table of Contents

Make Business Logic Portable

Closer to the User Means Less Portability

Use XML for Standardized, Interoperable Communications between Subsystems

Avoid Hiding The Power of a Specific Platform in the Name of Portability

The Matrix of Pain

Step 1: Remove Configurations

Step 2: Rank-Order Configurations

Step 3: Make the Final Cut

Beware the Promises You Make

Chapter Summary

Try This

Chapter 7 Deployment Architecture

Deployment Choices

Customer Site

Application Service Provider

Managed Service Provider

Transactional (Web Service)

Customer Influences on Deployment Architectures

Control and Integration

Data Security/Privacy and Peak Loads

Costs and Vendor Confidence

Customer Skills and Experiences and Geographic Distribution

Corporate Influences on Deployment Architecture

Sales Cycle

Infrastructure Investment

Cash Flow

Flexibility

Geographic Distribution

Table of Contents

Service, Not Price

Choosing a Software Deployment Architecture

Deployment Architectures and the Distribution of Work

The Information Appliance

Deployment Choice Influences on Software Architecture

Flexible, Parameterized, or No Integration Options

Upgrade Policies

Data Protection and Access

Migration Options

The Future of Consumer Software

Chapter Summary

Check This

Try This

Chapter 8 Integration and Extension

Customer ControlThe Driving Force

Motivations for Integration/Extension

Layered Business Architectures: Logical Structures

The User Interface Layer

The Services Layer

The Domain Model Layer

The Persistent Data Layer

Variations on a Theme

Creating Layered Business Architectures

Integration and Extension at the Business Logic Layers

Technologies and Locus of Control

Integration through APIs

Extension through Registration

Integration and Extension of Persistent Data

Table of Contents

Views

User Fields

Hook Tables

Spreadsheet Pivot Tables

Extract, Transform, and Load Scripts

Tell Them Whats Going On

Business Ramifications

Professional Services

Training Programs

Certification

User Community

License Agreements

Managing APIs Over Multiple Releases

Techniques

Chapter Summary

Check This

Try This

Chapter 9 Brand and Brand Elements

Brand Elements

Names

Graphics, Slogans, and Other Brand Elements

When to Use the Trademark (TM) Symbol

Managing In-License Brands

Brand Element Customizations

Changing Brand Elements

Product Areas to Change

QA and Change

Chapter Summary

Check This

Table of Contents

Try This

Chapter 10 Usability

Usability Is about Money

Mental Models, Metaphors, and Usability

Tarchitectural Influences on User Interface Design

Areas of Influence

The Need for Speed

Lets Be Clear on What Were Talking About

What a Marketect Really Wants with Respect to Performance

Responding to the User

Performance And Tarchitectural Impact

Chapter Summary

Check This

Try This

Chapter 11 Installation

The Out of Box Experience

Ouch! That Might Hurt

Customer Fears

Installation and Architecture

Forces and Choices

How to Install

Installation Data Collection and Precondition Verification

Installation

Postinstallation Confirmation

Finishing Touches

They Dont Read the Manual

Test the Install and Uninstall

Chapter Summary

Table of Contents

Check This

Try This

Chapter 12 Upgrade

Like Installation, Only Worse

Upgrade Fears

Making Upgrades Less Painful

Choices for Painless Upgrades

Market Maturity and Upgrades

Chapter Summary

Check This

Try This

Chapter 13 Configuration

ConfigurabilityAn Element of Usability

The System Context

Contextual Information

Initialization versus Execution

Setting the Value

Setting the Right Value

Configuration Parameter Heuristics

Chapter Summary

Check This

Try This

Chapter 14 Logs

I Want to Know Whats Happening

Not Just the Facts

Log Format and Management

Log Format

Table of Contents

Log Management

Logging Standards and Libraries

Postprocessing Log Data

Logging Services

Chapter Summary

Check This

Try This

Chapter 15 Release Management

Yes, You Really Need This

Establishing a Baseline

Release Management

What You're Releasing

Who You're Targeting

Why They Want It

Release Identification

Full or Complete Releases

Partial Releases

Patch Releases

Variations

SKUs and Serial Numbers

SKU Management

Serial Numbers, Registration, and Activation

Release Management Influences on Architecture

Chapter Summary

Check This

Try This

Chapter 16 Security

Viruses, Hackers, and Pirates

Table of Contents

Managing Risk

See No Evil, Speak No Evil

Digital Identity Management

AuthorizationDefining Who Can Do What

AuthenticationProof of Identity

Transaction Security

AuditabilityProof of Activity

IntegrityPreventing Tampering and Alteration of Data

ConfidentialityKeeping Data Away from Those Not Entitled to It

AccountabilityHolding People Responsible for Their Actions

Software Security

Software Security Techniques

Software Security Costs/Benefits

Information Security

Secret Algorithms or Secret Keys?

Back Doors

Security and Marketecture

Areas of Interaction

Chapter Summary

Check This

Try This

Appendix A: Release Checklist

Appendix B: A Pattern Language for Strategic Product
Management

Applying The Patterns

Capturing the Result

Market Map

Market Events/Market Rhythms

Table of Contents

Feature/Benefit Map

The Tarchitecture Roadmap
