Exam Ref 70-410 Installing and Configuring Windows Server 2012 R2 (MCSA)

Table of Contents

Cover

Table of Contents

Introduction

- Microsoft certifications

- Errata & book support

- We want to hear from you

- Stay in touch

Preparing for the exam

Chapter 1: Installing and configuring servers

- Objective 1.1: Install servers

 - Planning for a server installation

 - Choosing installation options

 - Upgrading servers

 - Migrating roles

 - Objective summary

 - Objective review

- Objective 1.2: Configure servers

 - Completing postinstallation tasks

 - Using Server Manager

 - Configuring services

 - Delegating server administration

 - Using Windows PowerShell Desired State Configuration (DSC)

Table of Contents

Objective summary

Objective review

Objective 1.3: Configure local storage

Planning server storage

Understanding Windows disk settings

Working with disks

Objective summary

Objective review

Answers

Chapter 2: Configuring server roles and features

Objective 2.1: Configure file and share access

Creating folder shares

Assigning permissions

Configuring Volume Shadow Copies

Configuring NTFS quotas

Configuring Work Folders

Objective summary

Objective review

Objective 2.2: Configure print and document services

Deploying a print server

Sharing a printer

Managing documents

Managing printers

Using the Print and Document Services role

Objective summary

Objective review

Objective 2.3: Configure servers for remote management

Using Server Manager for remote management

Table of Contents

Using Remote Server Administration Tools

Working with remote servers

Objective summary

Objective review

Answers

Chapter 3: Configuring Hyper-V

Objective 3.1: Create and configure virtual machine settings

Virtualization architectures

Hyper-V implementations

Installing Hyper-V

Using Hyper-V Manager

Configuring resource metering

Objective summary

Objective review

Objective 3.2: Create and configure virtual machine storage

Virtual disk formats

Creating virtual disks

Configuring pass-through disks

Modifying virtual disks

Creating checkpoints

Configuring Storage Quality of Service (QoS)

Connecting to a storage area network (SAN)

Objective summary

Objective review

Objective 3.3: Create and configure virtual networks

Creating virtual switches

Creating virtual network adapters

Configuring NIC teaming in a virtual network environment

Table of Contents

Creating virtual network configurations

Objective summary

Objective review

Answers

Chapter 4: Deploying and configuring core network services

Objective 4.1: Configure IPv4 and IPv6 addressing

IPv4 addressing

IPv6 addressing

Subnetting IPv6 Addresses

Planning an IP transition

Objective summary

Objective review

Objective 4.2: Configure servers

Understanding DHCP

Deploying a DHCP server

Deploying a DHCP relay agent

Objective summary

Objective review

Objective 4.3: Deploy and configure the DNS service

Understanding the DNS architecture

Deploying a DNS server

Objective summary

Objective review

Answers

Chapter 5: Installing and administering Active Directory

Objective 5.1: Install domain controllers

Deploying Active Directory Domain Services

Objective summary

Table of Contents

Objective review

Objective 5.2: Create and manage Active Directory users and computers

Creating user objects

Creating computer objects

Managing Active Directory objects

Objective summary

Objective review

Objective 5.3: Create and manage Active Directory groups and organizational units (OUs)

Working with groups

Objective summary

Objective review

Answers

Chapter 6: Creating and managing Group Policy

Objective 6.1: Create Group Policy Objects

Understanding Group Policy Objects

Configuring a Central Store

Using the Group Policy Management Console

Managing starter GPOs

Configuring Group Policy settings

Creating multiple local GPOs

Objective summary

Objective review

Objective 6.2: Configure security policies

Defining local policies

Using security templates

Configuring local users and groups

Table of Contents

Understanding User Account Control (UAC)

Objective summary

Objective review

Objective 6.3: Configure application restriction policies

Using software restriction policies

Using AppLocker

Objective summary

Objective review

Objective 6.4: Configure Windows Firewall

Understanding Windows Firewall settings

Working with Windows Firewall

Using the Windows Firewall control panel applet

Using the Windows Firewall With Advanced Security console

Objective summary

Objective review
