Chapter 1 Introducing Money and the Financial System

Is Prosperity Just Around the Corner?

1.1 Key Components of the Financial System

Financial Assets

Financial Institutions

Making the Connection: Microlending Aids U.S. Small Businesses

Making the Connection: What Do People Do with Their Savings?

The Federal Reserve and Other Financial Regulators

What Does the Financial System Do?

Solved Problem 1.1: The Services Securitized Loans Provide

1.2 The Financial Crisis of 2007-2009

Origins of the Financial Crisis..

The Deepening Crisis and the Response of the Fed and Treasury

1.3 Key Issues and Questions About Money, Banking, and the Financial System

*Key Terms and Problems

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 2 Money and the Payments System

Who Hates the Federal Reserve?

Key Issue and Question

2.1 Do We Need Money?

Barter

The Invention of Money

Table of Contents

Making the Connection: Whats Money? Ask a Taxi Driver!

2.2 The Key Functions of Money

Medium of Exchange

Unit of Account

Store of Value

Standard of Deferred Payment

Distinguishing Among Money, Income, and Wealth

What Can Serve as Money?

The Mystery of Fiat Money

Making the Connection: Apple Didnt Want My Cash!

2.3 The Payments System

The Transition from Commodity Money to Fiat Money

The Importance of Checks

Electronic Funds and Electronic Cash

2.4 Measuring the Money Supply

Measuring Monetary Aggregates

Making the Connection: Show Me the Money!

Does It Matter Which Definition of the Money Supply We Use?

2.5 The Quantity Theory of Money: A First Look at the Link Between Money and Prices

Irving Fisher and the Equation of Exchange

The Quantity Theory Explanation of Inflation

Solved Problem 2.5: The Relationship Between Money and Income

How Accurate Are Forecasts of Inflation Based on the Quantity Theory?

The Hazards of Hyperinflation

What Causes Hyperinflation?

Making the Connection: Deutsche Bank During the German Hyperinflation

Should Central Banks Be Independent?

Answering the Key Question

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 3 Interest Rates and Rates of Return

Table of Contents

Will Investors Lose Their Shirts in the Market for Treasury Bonds?

Key Issue and Question

3.1 The Interest Rate, Present Value, and Future Value

Why Do Lenders Charge Interest on Loans?

Most Financial Transactions Involve Payments in the Future

Compounding and Discounting

Solved Problem 3.1A: Using Compound Interest to Select a Bank CD

Solved Problem 3.1B: How Do You Value a College Education?

Discounting and the Prices of Financial Assets

3.2 Debt Instruments and Their Prices

Loans, Bonds, and the Timing of Payments

Making the Connection: Interest Rates and Student Loans

3.3 Bond Prices and Yield to Maturity

Bond Prices

Yield to Maturity

Yields to Maturity on Other Debt Instruments

Solved Problem 3.3: Finding the Yield to Maturity for Different Types of Debt Instruments

3.4 The Inverse Relationship Between Bond Prices and Bond Yields

What Happens to Bond Prices When Interest Rates Change?

Making the Connection: Banks Take a Bath on Mortgage-Backed Bonds

Bond Prices and Yields to Maturity Move in Opposite Directions

Secondary Markets, Arbitrage, and the Law of One Price

Making the Connection: How to Follow the Bond Market: Reading the Bond Tables

3.5 Interest Rates and Rates of Return

A General Equation for the Rate of Return on a Bond

Interest-Rate Risk and Maturity

How Much Interest-Rate Risk Do Investors in Treasury Bonds Face?

3.6 Nominal Interest Rates Versus Real Interest Rates

Answering the Key Question

***Key Terms and Problems**

Key Terms, Review Questions

Problems and Applications, Data Exercises

Table of Contents

Chapter 4 Determining Interest Rates

Are There Any Safe Investments?

Key Issue and Question

4.1 How to Build an Investment Portfolio

The Determinants of Portfolio Choice

Making the Connection: Fear the Black Swan!

Diversification

Making the Connection: How Much Risk Should You Tolerate in Your Portfolio?

4.2 Market Interest Rates and the Demand and Supply for Bonds

A Demand and Supply Graph of the Bond Market

Explaining Changes in Equilibrium Interest Rates

Factors That Shift the Demand Curve for Bonds

Factors That Shift the Supply Curve for Bonds

Making the Connection: Why Are Bond Interest Rates So Low?

4.3 The Bond Market Model and Changes in Interest Rates

Why Do Interest Rates Fall During Recessions?

How Do Changes in Expected Inflation Affect Interest Rates? The Fisher Effect

Solved Problem 4.3: Should You Worry About Falling Bond Prices When the Inflation Rate Is Low?

4.4 The Loanable Funds Model and the International Capital Market

The Demand and Supply for Loanable Funds

Equilibrium in the Bond Market from the Loanable Funds Perspective

The International Capital Market and the Interest Rate

Small Open Economy

Large Open Economy

Making the Connection: Did a Global Saving Glut Cause the U.S. Housing Boom?

Answering the Key Question

***Key Terms and Problems**

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 5 The Risk Structure and Term Structure of Interest Rates

Searching for Yield

Table of Contents

Key Issue and Question

5.1 The Risk Structure of Interest Rates

Default Risk

Making the Connection: Do Credit Rating Agencies Have a Conflict of Interest?

Liquidity and Information Costs

Tax Treatment

Solved Problem 5.1: How Would a VAT Affect Interest Rates?

Making the Connection: Should You Invest in Junk Bonds?

5.2 The Term Structure of Interest Rates

Making the Connection: Negative Interest Rates on Treasury Bills?

Explaining the Term Structure

The Expectations Theory of the Term Structure

Solved Problem 5.2A: Can You Make Easy Money from the Term Structure?

The Segmented Markets Theory of the Term Structure

The Liquidity Premium Theory

Solved Problem 5.2B: Using the Liquidity Premium Theory to Calculate Expected
Interest Rates

Can the Term Structure Predict Recessions?

Answering the Key Question

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 6 The Stock Market, Information, and Financial Market Efficiency

Are You Willing to Invest in the Stock Market?

Key Issue and Question

6.1 Stocks and the Stock Market

Common Stock Versus Preferred Stock

How and Where Stocks Are Bought and Sold

Measuring the Performance of the Stock Market

Does the Performance of the Stock Market Matter to the Economy?

Making the Connection: Should You Invest in the U.S. Stock Market?

6.2 How Stock Prices Are Determined

Investing in Stock for One Year

Table of Contents

The Rate of Return on a One-Year Investment in a Stock

Making the Connection: How Should the Government Tax Your Investment in Stocks?

The Fundamental Value of Stock

The Gordon Growth Model

Solved Problem 6.2: Using the Gordon Growth Model to Evaluate GE Stock

6.3 Rational Expectations and Efficient Markets

Adaptive Expectations Versus Rational Expectations

The Efficient Markets Hypothesis

Are Stock Prices Predictable?

Efficient Markets and Investment Strategies

Making the Connection: What if You Invest in the Stock Market by Picking Stocks Randomly?

Solved Problem 6.3: Should You Pay Attention to the Advice of Investment Analysts?

6.4 Actual Efficiency in Financial Markets

Pricing Anomalies

Mean Reversion

Excess Volatility

Making the Connection: Does the Financial Crisis of 2007-2009 Disprove the Efficient Markets Theory?

6.5 Behavioral Finance

Noise Trading and Bubbles

How Great a Challenge Is Behavioral Finance to the Efficient Markets Hypothesis?

Answering the Key Question

*Key Terms and Problems

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 7 Derivatives and Derivative Markets

Using Financial Derivatives to Reduce Risk

Key Issue and Question

7.1 Derivatives, Hedging, and Speculating

7.2 Forward Contracts

7.3 Futures Contracts

Table of Contents

Hedging with Commodity Futures

Making the Connection: Should Farmers Be Afraid of the Dodd-Frank Act?

Speculating with Commodity Futures

Hedging and Speculating with Financial Futures

Making the Connection: How to Follow the Futures Market: Reading the Financial
Futures Listings

Solved Problem 7.3: How Can You Hedge an Investment in Treasury Notes When Interest
Rates Are Low?

Trading in the Futures Market

7.4 Options

Why Would You Buy or Sell an Option?

Option Pricing and the Rise of the Quants

Making the Connection: How to Follow the Options Market: Reading the Options
Listings

Solved Problem 7.4: Interpreting the Options Listings for Amazon.com

Using Options to Manage Risk

Making the Connection: How Much Volatility Should You Expect in the Stock Market?

7.5 Swaps

Interest-Rate Swaps

Currency Swaps and Credit Swaps

Credit Default Swaps

Making the Connection: Are Derivatives Financial Weapons of Mass Destruction?

Answering the Key Question

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 8 The Market for Foreign Exchange

Is Ben Bernanke Responsible for Japanese Firms Moving to the United
States?

Key Issue and Question

8.1 Exchange Rates and Trade

Making the Connection: What's the Most Important Factor in Determining Sony's
Profits?

Is It Dollars per Yen or Yen per Dollar?

Table of Contents

Nominal Exchange Rates Versus Real Exchange Rates

8.2 Foreign-Exchange Markets

Forward and Futures Contracts in Foreign Exchange

Exchange-Rate Risk, Hedging, and Speculating

Making the Connection: Can Speculators Drive Down the Value of a Currency?

8.3 Exchange Rates in the Long Run

The Law of One Price and the Theory of Purchasing Power Parity

Is PPP a Complete Theory of Exchange Rates?

Solved Problem 8.3: Should Big Macs Have the Same Price Everywhere?

8.4 A Demand and Supply Model of Short-Run Movements in Exchange Rates

A Demand and Supply Model of Exchange Rates

Shifts in the Demand and Supply for Foreign Exchange

The Flight to Quality During the Financial Crisis

The Interest-Rate Parity Condition

Solved Problem 8.4: Can You Make Money Investing in Japanese Bonds?

Making the Connection: Should You Invest in Emerging Markets?

Answering the Key Question

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 9 Transactions Costs, Asymmetric Information, and the Structure of the Financial System

Should You Crowd-Fund Your Startup?

Key Issue and Question

9.1 Obstacles to Matching Savers and Borrowers

The Problems Facing Small Investors

How Financial Intermediaries Reduce Transactions Costs

9.2 The Problems of Adverse Selection and Moral Hazard

Adverse Selection

Making the Connection: Has Securitization Increased Adverse Selection Problems in the Financial System?

Solved Problem 9.2: Why Do Banks Ration Credit to Small Businesses?

Moral Hazard

Table of Contents

Making the Connection: Is It Safe to Invest Through Crowd-funding?

9.3 Conclusions About the Structure of the U.S. Financial System

Making the Connection: Corporations Are Issuing More Bonds; Should You Buy Them?

Answering the Key Question

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 10 The Economics of Banking

To Buy a House, You Need a Loan

Key Issue and Question

10.1 The Basics of Commercial Banking: The Bank Balance Sheet

Bank Liabilities

Making the Connection: The Rise and Fall and (Partial) Rise of the Checking Account

Bank Assets

Bank Capital

Solved Problem 10.1: Constructing a Bank Balance Sheet

10.2 The Basic Operations of a Commercial Bank

Making the Connection: Your Banks Message to You: Please Go Away!

Bank Capital and Bank Profits

10.3 Managing Bank Risk

Managing Liquidity Risk

Managing Credit Risk

Managing Interest-Rate Risk

10.4 Trends in the U.S. Commercial Banking Industry

The Early History of U.S. Banking

Bank Panics, the Federal Reserve, and the Federal Deposit Insurance Corporation

The Rise of Nationwide Banking

Expanding the Boundaries of Banking

Making the Connection: Is Your Neighborhood ATM About to Disappear?

The Financial Crisis, TARP, and Partial Government Ownership of Banks

Answering the Key Question

*Key Terms and Problems

Key Terms, Review Questions

Table of Contents

Problems and Applications, Data Exercises

Chapter 11 Investment Banks, Mutual Funds, Hedge Funds, and the Shadow Banking System

When Is A Bank Not A Bank? When Its A Shadow Bank!

Key Issue and Question

11.1 Investment Banking

What Is an Investment Bank?

Repo Financing, Leverage, and Funding Risk in Investment Banking

Solved Problem 11.1: The Perils of Leverage

Making the Connection: Did Moral Hazard Derail Investment Banks?

The Investment Banking Industry

Where Did All the Investment Banks Go?

Making the Connection: So, You Want to Be an Investment Banker?

11.2 Investment Institutions: Mutual Funds, Hedge Funds, and Finance Companies

Mutual Funds

Hedge Funds

Making the Connection: Would You Invest in a Hedge Fund if You Could?

Finance Companies

11.3 Contractual Savings Institutions: Pension Funds and Insurance Companies

Pension Funds

Insurance Companies

11.4 Risk, Regulation, and the Shadow Banking System

Systemic Risk and the Shadow Banking System

Regulation and the Shadow Banking System

The Fragility of the Shadow Banking System

Are Shadow Banks Still Vulnerable to Runs Today?

Answering the Key Question

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 12 Financial Crises and Financial Regulation

Table of Contents

A Cloudy Crystal Ball on the Financial Crisis

Key Issue and Question

12.1 The Origins of Financial Crises

The Underlying Fragility of Commercial Banking

Bank Runs, Contagion, and Bank Panics

Government Intervention to Stop Bank Panics

Solved Problem 12.1: Would Requiring Banks to Hold 100% Reserves Eliminate Bank Runs?

Bank Panics and Recessions

Making the Connection: Why Was the Severity of the 20072009 Recession So Difficult to Predict?

Exchange-Rate Crises

Sovereign Debt Crises

Making the Connection: Greece Experiences a Bank Jog

12.2 The Financial Crisis of the Great Depression

The Start of the Great Depression

The Bank Panics of the Early 1930s

The Failure of Federal Reserve Policy During the Great Depression

Making the Connection: Did the Failure of the Bank of United States Cause the Great Depression?

12.3 The Financial Crisis of 20072009

The Housing Bubble Bursts

Bank Runs at Bear Stearns and Lehman Brothers

The Federal Governments Extraordinary Response to the Financial Crisis

12.4 Financial Crises and Financial Regulation

Lender of Last Resort

Making the Connection: The Consumer Financial Protection Bureau: The New Sheriff of Financial Town

Reducing Bank Instability

Capital Requirements

The 20072009 Financial Crisis and the Pattern of Crisis and Response

Answering the Key Question

Problems and Applications, Data Exercises

Table of Contents

Key Terms, Review Questions

Chapter 13 The Federal Reserve and Central Banking

Has the Fed Become Too Powerful?

Key Issue and Question

13.1 The Structure of the Federal Reserve System

Creation of the Federal Reserve System

Federal Reserve Banks

Making the Connection: St. Louis and Kansas City? What Explains the Locations of the District Banks?

Member Banks

Solved Problem 13.1: How Costly Are Reserve Requirements to Banks?

Board of Governors

The Federal Open Market Committee

Making the Connection: On the Board of Governors, Four Can Be a Crowd

Power and Authority Within the Fed

Changes to the Fed Under the Dodd-Frank Act

13.2 How the Fed Operates

Handling External Pressure

Making the Connection: Fedspeak vs. Transparency

Examples of Conflict between the Fed and the Treasury

Factors That Motivate the Fed

Fed Independence

Making the Connection: End the Fed?

13.3 Central Bank Independence Outside the United States

The European Central Bank

The European Central Bank and the Sovereign Debt Crisis

Answering the Key Question

*Key Terms and Problems

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 14 The Federal Reserves Balance Sheet and the Money

Supply Process

Table of Contents

High Times for Gold Bugs

Key Issue and Question

14.1 The Federal Reserves Balance Sheet and the Monetary Base

The Federal Reserves Balance Sheet

The Monetary Base

How the Fed Changes the Monetary Base

Comparing Open Market Operations and Discount Loans

Making the Connection: Explaining the Explosion in the Monetary Base

14.2 The Simple Deposit Multiplier

Multiple Deposit Expansion

Calculating the Simple Deposit Multiplier

14.3 Banks, the Nonbank Public, and the Money Multiplier

The Effect of Increases in Currency Holdings and Increases in Excess Reserves

Deriving a Realistic Money Multiplier

Solved Problem 14.3: Using the Expression for the Money Multiplier

The Money Supply, the Money Multiplier, and the Monetary Base During and After the
20072009 Financial Crisis

Making the Connection: Did the Feds Worry over Excess Reserves Cause the
Recession of 19371938?

Making the Connection: If You Are Worried About Inflation, Should You Invest in
Gold?

Answering the Key Question

*Key Terms and Problems

Key Terms, Review Questions

Problems and Applications, Data Exercises

Appendix: The Money Supply Process for M2

Chapter 15 Monetary Policy

Bernankes Dilemma

Key Issue and Question

15.1 The Goals of Monetary Policy

Price Stability

High Employment

Table of Contents

Economic Growth

Stability of Financial Markets and Institutions

Interest Rate Stability

Foreign-Exchange Market Stability

The Feds Dual Mandate

15.2 Monetary Policy Tools and the Federal Funds Rate

The Federal Funds Market and the Feds Target Federal Funds Rate

Open Market Operations and the Feds Target for the Federal Funds Rate

The Effect of Changes in the Discount Rate and in Reserve Requirements

Solved Problem 15.2: Analyzing the Federal Funds Market

15.3 More on the Feds Monetary Policy Tools

Open Market Operations

Making the Connection: A Mornings Work at the Open Market Trading Desk

Making the Connection: Why Cant the Fed Always Hit Its Federal Funds Target?

Discount Policy

Interest on Reserve Balances

15.4 Monetary Targeting and Monetary Policy

Using Targets to Meet Goals

Making the Connection: What Happened to the Link Between Money and Prices?

The Choice Between Targeting Reserves and Targeting the Federal Funds Rate

The Taylor Rule: A Summary Measure of Fed Policy

Inflation Targeting

International Comparisons of Monetary Policy

Answering the Key Question

***Key Terms and Problems**

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 16 The International Financial System and Monetary Policy

Can the Euro Survive?

Key Issue and Question

16.1 Foreign Exchange Intervention and the Monetary Base

16.2 Foreign Exchange Interventions and the Exchange Rate

Table of Contents

Unsterilized Intervention

Sterilized Intervention

Solved Problem 16.2: The Bank of Japan Counters the Rising Yen

Capital Controls

16.3 The Balance of Payments

The Current Account

The Financial Account

Official Settlements

The Relationship Among the Accounts

16.4 Exchange Rate Regimes and the International Financial System

Fixed Exchange Rates and the Gold Standard

Making the Connection: Did the Gold Standard Make the Great Depression Worse?

Adapting Fixed Exchange Rates: The Bretton Woods System

Central Bank Interventions After Bretton Woods

Fixed Exchange Rates in Europe

Making the Connection: If You Were Greek, Would You Prefer the Euro or the Drachma?

Currency Pegging

China and the Dollar Peg

Answering the Key Question

***Key Terms and Problems**

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 17 Monetary Theory I: The Aggregate Demand and Aggregate Supply Model

Why Was Unemployment So High for So Long?

Key Issue and Question

17.1 The Aggregate Demand Curve

The Money market and the Aggregate Demand Curve

Shifts of the Aggregate Demand Curve

17.2 The Aggregate Supply Curve

The Short-Run Aggregate Supply (SRAS) Curve

The Long-Run Aggregate Supply (LRAS) Curve

Table of Contents

Shifts in the Short-Run Aggregate Supply Curve

Making the Connection: Fracking Transforms Energy Markets in the United States

Shifts in the Long-Run Aggregate Supply (LRAS) Curve

17.3 Equilibrium in the Aggregate Demand and Aggregate Supply Model

Short-Run Equilibrium

Long-Run Equilibrium

Economic Fluctuations in the United States

17.4 The Effects of Monetary Policy

An Expansionary Monetary Policy

Solved Problem 17.4: Dealing with Shocks to Aggregate Demand and Aggregate Supply

Was Monetary Policy Ineffective During the 2007-2009 Recession?

Making the Connection: Have Recent Years Been Like the 1930s?

Answering the Key Question

***Key Terms and Problems**

Key Terms, Review Questions

Problems and Applications, Data Exercises

Chapter 18 Monetary Theory II: The ISMP Model

The Fed Forecasts the Economy

Key Issue and Question

18.1 The IS Curve

Equilibrium in the Goods Market

Potential GDP and the Multiplier Effect

Solved Problem 18.1: Calculating Equilibrium Real GDP

Constructing the IS Curve

The Output Gap

Shifts of the IS Curve

18.2 The MP Curve and the Phillips Curve

The MP Curve

The Phillips Curve

Okun's Law and an Output Gap Phillips Curve

Making the Connection: Did the Aftermath of the 2007-2009 Recession Break Okun's Law?

Table of Contents

18.3 Equilibrium in the ISMP Model

Making the Connection: Where Did the ISMP Model Come From?

Using Monetary Policy to Fight a Recession

Complications Fighting the Recession of 2007-2009

Making the Connection: Trying to Hit a Moving Target: Forecasting with Real-Time Data

Solved Problem 18.3: Using Monetary Policy to Fight Inflation

18.4 Are Interest Rates All That Matter for Monetary Policy?

The Bank Lending Channel

The Balance Sheet Channel: Monetary Policy and Net Worth

Answering the Key Question

***Key Terms and Problems**

Key Terms, Review Questions

Problems and Applications, Data Exercises

Appendix: The ISLM Model

Deriving the LM Curve

Shifting the LM Curve

Monetary Policy in the ISLM Model

Glossary

Index
