Contents

Preface

About the Authors

Chapter 1: Introduction to Abnormal Behavior

Overview

Recognizing the Presence of a Disorder

Defining Abnormal Behavior

Harmful Dysfunction

Mental Health Versus Absence of Disorder

Culture and Diagnostic Practice

Thinking Critically about DSM-5: Revising an Imperfect Manual

Critical Thinking matters: Is Sexual Addiction a Meaningful Concept?

Who Experiences Abnormal Behavior?

Frequency in and Impact on Community Populations

Cross-Cultural Comparisons

The Mental Health Professions

Psychopathology in Historical Context

The Greek Tradition in Medicine

The Creation of the Asylum

Worcester Lunatic Hospital: A Model Institution

Lessons from the History of Psychopathology

Methods for the Scientific Study of Mental Disorders

The Uses and Limitations of Case Studies

Research methods: Who Must Provide Scientific Evidence?

Clinical Research Methods

Getting Help

Summary

The Big Picture

# **Table of Contents**

Key Terms

## **Chapter 2: Paradigms and Etiology of Abnormal Behavior**

Overview

Brief Historical Perspective

The Biological Paradigm

The Psychodynamic Paradigm

Thinking Critically about DSM-5: Diagnosis and Causes of Mental Disorders

The Cognitive-Behavioral Paradigm

The Humanistic Paradigm

The Problem with Paradigms

Systems Theory

Holism

Causality

Research methods: Correlations: Does a Psychology Major Make You Smarter?

Developmental Psychopathology

Biological Factors

Neuron and Neurotransmitters

Neurotransmitters and Psychopathology

MindBody Dualism

Major Brain Structures

Cerebral Hemispheres

Psychophysiology

Behavior Genetics

Psychological Factors

Human Nature

Critical Thinking matters: Do Vaccinations Cause Autism?

Temperament

Emotions

Learning and Cognition

The Sense of Self

Stages of Development

Social Factors

Close Relationships

Gender and Gender Roles

Prejudice, Poverty, and Society

Getting Help

# **Table of Contents**

Summary

The Big Picture

Key Terms

## **Chapter 3: Therapeutic Techniques for Psychological Disorders**

### **Overview**

Four Views of Frances

### **Biological Treatments**

Psychopharmacology

Thinking Critically about DSM-5: Diagnosis and Treatment

Electroconvulsive Therapy

Psychosurgery

### **Psychodynamic Psychotherapies**

Freudian Psychoanalysis

Ego Analysis

Psychodynamic Psychotherapy

### **Cognitive-Behavior Therapy**

Systematic Desensitization

Other Exposure Therapies

Aversion Therapy

Contingency Management

Research methods: The Experiment: Does Treatment Cause Improvement?

Social Skills Training

Cognitive Techniques

Beck's Cognitive Therapy

RationalEmotive Therapy

"Third-Wave" CBT

### **Humanistic Therapies**

Client-Centered Therapy

A Means, Not an End?

### **Research on Psychotherapy**

Does Psychotherapy Work?

Critical Thinking matters: Are All Therapies Created Equal?

The Allegiance Effect

Psychotherapy Process Research

Ethnic Minorities in Psychotherapy

### **Couple, Family, and Group Therapy**

# **Table of Contents**

Couple Therapy

Family Therapy

Group Therapy

Prevention

Specific Treatments for Specific Disorders

Getting Help

Summary

The Big Picture

Key Terms

## **Chapter 4: Classification, Diagnosis and Clinical Assessment of Abnormal Behavior**

Overview

Basic Issues in Classification

Categories Versus Dimensions

From Description to Theory

Classifying Abnormal Behavior

The DSM-5 System

Labels and Stigma

Criteria for Obsessive-Compulsive Disorder

Culture and Classification

Evaluating Classification Systems

Reliability

Research methods: Reliability: Agreement Regarding Diagnostic Decisions

Validity

Thinking Critically about DSM-5: Scientific Progress or Diagnostic Fads?

Problems and Limitations of the DSM-5 System

Basic Issues in Assessment

Purposes of Clinical Assessment

Assumptions About Consistency of Behavior

Evaluating the Usefulness of Assessment Procedures

Critical Thinking matters: The Barnum Effect and Assessment Feedback

Psychological Assessment Procedures

Interviews

Observational Procedures

Personality Tests and Self-Report Inventories

Projective Personality Tests

Biological Assessment Procedures

# **Table of Contents**

Brain Imaging Techniques

Getting Help

Summary

The Big Picture

Key Terms

## **Chapter 5: Causes of Mood Disorders and Suicide**

Overview

Symptoms

Emotional Symptoms

Cognitive Symptoms

Somatic Symptoms

Behavioral Symptoms

Other Problems Commonly Associated with Depression

Diagnosis

Thinking Critically about DSM-5: Depression or Grief Following a Major Loss?

Criteria for Major Depressive Episode

Criteria for Diagnosis of Manic Episode

Course and Outcome

Depressive Disorders

Bipolar Disorders

Frequency

Incidence and Prevalence

Risk for Mood Disorders Across the Life Span

Gender Differences

Cross-Cultural Differences

Causes

Social Factors

Psychological Factors

Biological Factors

Integration of Social, Psychological, and Biological Factors

Research methods: Analogue Studies: Do Rats Get Depressed, and Why?

Treatment

Depressive Disorders

Cognitive Therapy

Bipolar Disorders

Critical Thinking matters: Do Antidepressant Drugs Cause Violent Behavior?

# **Table of Contents**

Electroconvulsive Therapy

Seasonal Mood Disorders

## **Suicide**

Classification of Suicide

Frequency of Suicide

Causes of Suicide

Common Elements of Suicide

Treatment of Suicidal People

## **Getting Help**

## **Summary**

## **The Big Picture**

## **Key Terms**

# **Chapter 6: Anxiety Disorders and Obsessive-Compulsive Disorder**

## **Overview**

## **Symptoms of Anxiety Disorders**

Anxiety

Excessive Worry

Panic Attacks

Phobias

## **Diagnosis of Anxiety Disorders**

Criteria for Panic Disorder

Thinking Critically about DSM-5: Splitting Up the Anxiety Disorders

Course and Outcome

## **Frequency of Anxiety Disorders**

Prevalence

Comorbidity

Gender Differences

Anxiety Disorders Across the Life Span

Cross-Cultural Comparisons

## **Causes of Anxiety Disorders**

Adaptive and Maladaptive Fears

Social Factors

Psychological Factors

Biological Factors

## **Treatment of Anxiety Disorders**

# **Table of Contents**

Psychological Interventions

Biological Interventions

Research methods: Statistical Significance: When Differences Matter

## **Obsessive-Compulsive and Related Disorders**

Symptoms of OCD

Diagnosis of OCD and Related Disorders

Course and Outcome of OCD

Frequency of OCD and Related Disorders

Causes of OCD

Treatment of OCD

Critical Thinking matters: Can a Strep Infection Trigger OCD in Children?

## **Getting Help**

Summary

The Big Picture

Key Terms

## **Chapter 7: Diagnosis and Treatment of Acute and Posttraumatic Stress Disorders, Dissociative Disorders, and Somatic Symptom Disorders**

### **Overview**

### **Acute and Posttraumatic Stress Disorders**

Symptoms of ASD and PTSD

Diagnosis of ASD and PTSD

Criteria for Posttraumatic Stress Disorder

Criteria for Acute Stress Disorder

The Trauma of Sexual Assault

Frequency of Trauma, PTSD, and ASD

Causes of PTSD and ASD

Prevention and Treatment of ASD and PTSD

### **Dissociative Disorders**

Hysteria and the Unconscious

Critical Thinking matters: Recovered Memories?

Symptoms of Dissociative Disorders

Diagnosis of Dissociative Disorders

Frequency of Dissociative Disorders

Thinking Critically about DSM-5: More on Diagnostic Fads

Causes of Dissociative Disorders

Research methods: Retrospective Reports: Remembering the Past

# **Table of Contents**

Treatment of Dissociative Disorders

## **Somatic Symptom Disorders**

Symptoms of Somatic Symptom Disorders

Diagnosis of Somatic Symptom Disorders

Criteria for Illness Anxiety Disorder

Frequency of Somatic Symptom Disorders

Causes of Somatic Symptom Disorders

Treatment of Somatic Symptom Disorders

## **Getting Help**

### **Summary**

### **The Big Picture**

### **Key Terms**

## **Chapter 8: Stress, Health and Coping**

### **Overview**

### **Defining Stress**

Stress as a Life Event

Stress as Appraisal of Life Events

### **Symptoms of Stress**

Tend and Befriend: The Female Stress Response?

Psychophysiological Responses to Stress

Coping

Health Behavior

Critical Thinking matters: Resilience

Illness as a Cause of Stress

### **Diagnosis of Stress and Physical Illness**

Thinking Critically about DSM-5: Is the Descriptive Approach Too Literal Sometimes?

### **Psychological Factors and Some Familiar Illnesses**

Cancer

Criteria for Psychological Factors Affecting Other Medical Conditions

Acquired Immune Deficiency Syndrome (AIDS)

Pain Disorder

Sleep-Wake Disorders

### **Cardiovascular Disease**

Symptoms of CVD

Diagnosis of CVD

Frequency of CVD

# **Table of Contents**

Causes of CVD

Research methods: Longitudinal Studies: Lives over Time

Prevention and Treatment of CVD

Getting Help

Summary

The Big Picture

Key Terms

## **Chapter 9: Personality Disorders: Types, Causes and Treatment**

Overview

Symptoms

Social Motivation

Cognitive Perspectives Regarding Self and Others

Temperament and Personality Traits

Context and Personality

Diagnosis

Cluster A: Paranoid, Schizoid, and Schizotypal Personality Disorders

Critical Thinking matters: Can Personality Disorders Be Adaptive?

Cluster B: Antisocial, Borderline, Histrionic, and Narcissistic Personality Disorders

Cluster C: Avoidant, Dependent, and Obsessive-Compulsive Personality Disorders

A Dimensional Perspective on Personality Disorders

Thinking Critically about DSM-5: Is a Dimensional Model Too Complicated?

Frequency

Prevalence in Community and Clinical Samples

Gender Differences

Stability of Personality Disorders over Time

Culture and Personality

Research methods: Cross-Cultural Comparisons: The Importance of Context

**Schizotypal Personality Disorder (SPD)**

Symptoms

Criteria for Schizotypal Personality Disorder

Causes

Treatment

**Borderline Personality Disorder (BPD)**

Impulse Control Disorders

Symptoms

Criteria for Borderline Personality Disorder

# **Table of Contents**

Causes

Treatment

## **Antisocial Personality Disorder (ASPD)**

Symptoms

Criteria for Antisocial Personality Disorder

Causes

Treatment

## **Getting Help**

## **Summary**

## **The Big Picture**

## **Key Terms**

## **Chapter 10: Diagnosis, Symptoms and Treatment of Eating Disorders**

### **Overview**

### **Eating Disorders in Males**

### **Symptoms of Anorexia**

Significantly Low Weight

Fear of Gaining Weight

Disturbance in Experiencing Weight or Shape

Amenorrhea

Medical Complications

Struggle for Control

Comorbid Psychological Disorders

### **Symptoms of Bulimia**

Binge Eating

Inappropriate Compensatory Behavior

Excessive Emphasis on Weight and Shape

Comorbid Psychological Disorders

Medical Complications

### **Diagnosis of Feeding and Eating Disorders**

Thinking Critically about DSM-5: Is Binge Eating a Mental Disorder? Is Obesity?

Criteria for Anorexia Nervosa

Criteria for Bulimia Nervosa

### **Frequency of Anorexia and Bulimia**

Standards of Beauty

Critical Thinking matters: The Pressure to Be Thin

Age of Onset

# **Table of Contents**

## **Causes of Anorexia and Bulimia**

Social Factors

Psychological Factors

Biological Factors

Integration and Alternative Pathways

## **Treatment of Anorexia**

Course and Outcome of Anorexia Nervosa

## **Treatment of Bulimia**

Cognitive Behavior Therapy

Interpersonal Psychotherapy

Antidepressant Medications

Research methods: Psychotherapy Placebos

Course and Outcome of Bulimia Nervosa

## **Prevention of Eating Disorders**

## **Getting Help**

## **Summary**

## **The Big Picture**

## **Key Terms**

## **Chapter 11: Substance-Related Disorders**

### **Overview**

### **Symptoms**

Alcohol

Tobacco

Amphetamine and Cocaine

Opiates

Sedatives, Hypnotics, and Anxiolytics

Cannabis

Hallucinogens and Related Drugs

### **Diagnosis**

Brief History of Legal and Illegal Substances

DSM-5

Course and Outcome

Criteria for Alcohol Use Disorder

Other Disorders Commonly Associated with Addictions

### **Frequency**

# **Table of Contents**

Prevalence of Alcohol Use Disorder

Prevalence of Drug and Nicotine Use Disorders

Risk for Addiction Across the Life Span

Critical Thinking matters: Should Tobacco Products Be Illegal?

## **Causes**

Social Factors

Biological Factors

Psychological Factors

Integrated Systems

Research methods: Studies of People at Risk for Disorders

## **Treatment**

Detoxification

Medications During Remission

Self-Help Groups: Alcoholics Anonymous

Cognitive Behavior Therapy

Outcome Results and General Conclusions

## **Gambling Disorder**

Thinking Critically about DSM-5: Is Pathological Gambling an Addiction?

Symptoms

Diagnosis

Frequency

## **Getting Help**

## **Summary**

## **The Big Picture**

## **Key Terms**

# **Chapter 12: Sexual Dysfunctions and Gender Identity Disorders**

## **Overview**

Brief Historical Perspective

## **Sexual Dysfunctions**

Symptoms

Diagnosis

Research methods: Hypothetical Constructs: What Is Sexual Arousal?

Frequency

Causes

Treatment

Critical Thinking matters: Does Medication Cure Sexual Dysfunction?

# **Table of Contents**

## **Paraphilic Disorders**

Symptoms

Diagnosis

Thinking Critically about DSM-5: Two Sexual Problems That Did Not Become New Mental Disorders

Frequency

Causes

Treatment

## **Gender Dysphoria**

Symptoms

Frequency

Causes

Treatment

## **Getting Help**

### **Summary**

### **The Big Picture**

### **Key Terms**

## **Chapter 13: Schizophrenia and Other Psychotic Disorders: Causes and Treatment**

### **Overview**

### **Symptoms**

Positive Symptoms

Negative Symptoms

First-Person Account of Delusional Beliefs

Disorganization

### **Diagnosis**

DSM-5

Criteria for Schizophrenia

Subtypes

Critical Thinking matters: Why Were the Symptom-Based Subtypes of Schizophrenia Dropped from DSM-5?

Related Psychotic Disorders

Course and Outcome

### **Frequency**

Gender Differences

Cross-Cultural Comparisons

# **Table of Contents**

## **Causes**

Biological Factors

Social Factors

Psychological Factors

Research methods: Comparison Groups: What is Normal?

Interaction of Biological and Environmental Factors

The Search for Markers of Vulnerability

Thinking Critically about DSM-5: Attenuated Psychosis Syndrome Reflects Wishful Rather Than  
Critical Thinking

## **Treatment**

Antipsychotic Medication

Psychosocial Treatment

## **Getting Help**

## **Summary**

## **The Big Picture**

## **Key Terms**

## **Chapter 14: Delirium and Dementia**

### **Overview**

### **Symptoms**

Delirium

Criteria for Delirium

Major Neurocognitive Disorder

Memory Changes in Normal Aging

Diagnosis

Brief Historical Perspective

Specific Types of Neurocognitive Disorder

Criteria for Major Neurocognitive Disorder

Critical Thinking matters: How Can Clinicians Establish an Early Diagnosis of Alzheimer's Disease?

### **Frequency of Delirium and Major Neurocognitive Disorders**

Prevalence of Dementia

Research methods: Finding Genes that Cause Behavioral Problems

Prevalence by Subtypes of Neurocognitive Disorder

Cross-Cultural Comparisons

### **Causes**

Delirium

Neurocognitive Disorder

# **Table of Contents**

## **Treatment and Management**

Medication

Thinking Critically about DSM-5: Will patients and their families understand "mild" neurocognitive disorder?

Environmental and Behavioral Management

Support for Caregivers

## **Getting Help**

Summary

The Big Picture

Key Terms

## **Chapter 15: Intellectual Disabilities and Autism: Causes and Treatment**

### **Overview**

### **Intellectual Disabilities**

Symptoms of Intellectual Disabilities

Criteria for Intellectual Disability (Intellectual Developmental Disorder)

Research methods: Central Tendency and Variability: What Do IQ Scores Mean?

Diagnosis of Intellectual Disabilities

Frequency of Intellectual Disabilities

Causes of Intellectual Disabilities

Treatment: Prevention and Normalization

Eugenics: Our History of Shame

### **Autism Spectrum Disorder**

Symptoms of ASD

Diagnosis of ASD

Frequency of ASD

Criteria for Autism Spectrum Disorder

Thinking Critically about DSM-5: How Far Out on the Autism Spectrum?

Causes of ASD

Treatment of ASD

Critical Thinking matters: The Bogus Treatment Called Facilitated Communication

## **Getting Help**

Summary

The Big Picture

Key Terms

## **Chapter 16: Disorders of Childhood**

### **Overview**

# **Table of Contents**

## **Externalizing Disorders**

- Symptoms of Externalizing
- Diagnosis of Externalizing Disorders
- Criteria for Attention-Deficit/Hyperactivity Disorder
- What Are Learning Disabilities?
- Criteria for Oppositional Defiant Disorder
- Frequency of Externalizing
- Criteria for Conduct Disorder
- Causes of Externalizing
- Research methods: Samples: How to Select the People We Study
- Treatment of Externalizing Disorders
- Critical Thinking matters: ADHD's False Causes and Cures

## **Internalizing and Other Disorders**

- Symptoms of Internalizing Disorders
- Diagnosis of Internalizing and Other Childhood Disorders
- Thinking Critically about DSM-5: Disruptive Mood Dysregulation Disorder
- Frequency of Internalizing Disorders
- Treatment of Internalizing Disorders

## **Getting Help**

### **Summary**

### **The Big Picture**

### **Key Terms**

## **Chapter 17: adjustment disorders**

### **Overview**

### **Symptoms**

- Diagnosis
- Criteria for Adjustment Disorder

### **The Transition to Adulthood**

- Symptoms of the Adult Transition
- Diagnosis of Identity Conflicts
- Frequency of Identity Conflicts
- Causes of Identity Conflicts
- Treatment During the Transition to Adult Life

### **Family Transitions**

- Symptoms of Family Transitions
- Diagnosis of Troubled Family Relationships

# **Table of Contents**

Thinking Critically about DSM-5: Do Psychological Problems Reside within Individuals?

Frequency of Family Transitions

Causes of Difficulty in Family Transitions

Research methods: Genes and the Environment

Treatment During Family Transitions

Critical Thinking matters: A Divorce Gene?

## **The Transition to Later Life**

Symptoms

Reliving the Past

Diagnosis of Aging

Frequency of Aging

Causes of Psychological Problems in Later Life

Treatment of Psychological Problems in Later Life

## **Getting Help**

### **Summary**

### **The Big Picture**

### **Key Terms**

## **Chapter 18: Mental Health: Legal Perspectives**

### **Overview**

Expert Witnesses

Free Will Versus Determinism

Rights and Responsibilities

### **Mental Illness and Criminal Responsibility**

The Insanity Defense

Competence to Stand Trial

The "Battered Woman Syndrome" Defense

Sentencing and Mental Health

Thinking Critically about DSM-5: Thresholds Can Be a Matter of Life or Death

### **Civil Commitment**

A Brief History of U.S. Mental Hospitals

Libertarianism Versus Paternalism

Involuntary Hospitalization

Critical Thinking matters: Violence and Mental Illness

Research methods: Base Rates and Prediction: Justice Blackmun's Error

The Rights of Mental Patients

Deinstitutionalization

# **Table of Contents**

## Mental Health and Family Law

Child Custody Disputes

Child Abuse

## Professional Responsibilities and the Law

Professional Negligence and Malpractice

Confidentiality
