Preface

PART I Foundations for Systems Development

Chapter 1 The Systems Development Environment

What Is Information Systems Analysis and Design?

Systems Analysis and Design: Core Concepts

Systems

Definition of a System and Its Parts

Important System Concepts

A Modern Approach to Systems Analysis and Design

Your Role in Systems Development

Developing Information Systems and the Systems Development Life Cycle

Phase 1: Systems Planning and Selection

Phase 2: Systems Analysis

Phase 3: Systems Design

Phase 4: Systems Implementation and Operation

Alternative Approaches to Development

Prototyping

Computer-Aided Software Engineering (CASE) Tools

Joint Application Design

Rapid Application Development

Participatory Design

Agile Methodologies

Key Points Review

Key Terms Checkpoint

Review Questions

Problems and Exercises

Discussion Questions

Case Problems

Table of Contents

References

Chapter 2 The Sources of Software

Introduction

Systems Acquisition

Outsourcing

Sources of Software

Choosing Off-the-Shelf Software

Reuse

Key Points Review

Key Terms Checkpoint

Review Questions

Problems and Exercises

Field Exercises

Case: Petrie Electronics

References

Chapter 3 Managing the Information Systems Project

Pine Valley Furniture Company Background

Managing the Information Systems Project

Initiating the Project

Planning the Project

Executing the Project

Closing Down the Project

Representing and Scheduling Project Plans

Representing Project Plans

Calculating Expected Time Durations Using PERT

Constructing a Gantt Chart and Network Diagram at Pine Valley Furniture

Using Project Management Software

Establishing a Project Starting Date

Entering Tasks and Assigning Task Relationships

Selecting a Scheduling Method to Review Project Reports

Key Points Review

Key Terms Checkpoint

Review Questions

Problems and Exercises

Discussion Questions

Case Problems

Case: Petrie Electronics

References

PART II Systems Planning and Selection

Chapter 4 Systems Planning and Selection

Table of Contents

Identifying and Selecting Projects

The Process of Identifying and Selecting Information Systems Development Projects
Deliverables and Outcomes

Initiating and Planning Systems Development Projects

The Process of Initiating and Planning Systems Development Projects
Deliverables and Outcomes

Assessing Project Feasibility

Assessing Economic Feasibility
Assessing Other Feasibility Concerns

Building the Baseline Project Plan

Reviewing the Baseline Project Plan

Pine Valley Furniture WebStore: Systems Planning and Selection

Pine Valley Furniture WebStore
Key Points Review
Key Terms Checkpoint
Review Questions
Problems and Exercises
Discussion Questions
Case Problems
Case: Petrie Electronics
References

PART III Systems Analysis

Chapter 5 Determining System Requirements

Performing Requirements Determination

The Process of Determining Requirements
Deliverables and Outcomes
Requirements Structuring

Traditional Methods for Determining Requirements

Interviewing and Listening
Directly Observing Users
Analyzing Procedures and Other Documents

Modern Methods for Determining System Requirements

Joint Application Design
Using Prototyping During Requirements Determination

Radical Methods for Determining System Requirements

Identifying Processes to Reengineer
Disruptive Technologies

Pine Valley Furniture WebStore: Determining System Requirements

Website Layout and Navigation Characteristics
WebStore and Site Management System Capabilities

Table of Contents

Customer and Inventory Information

Website Prototype Evolution

Smartphone App Requirements

Key Points Review

Key Terms Checkpoint

Review Questions

Problems and Exercises

Discussion Questions

Case Problems

Case: Petrie Electronics

References

Chapter 6 Structuring System Requirements: Process Modeling

Process Modeling

Modeling a Systems Process

Deliverables and Outcomes

Data-Flow Diagramming Mechanics

Definitions and Symbols

Developing DFDs: An Example

Data-Flow Diagramming Rules

Decomposition of DFDs

Balancing DFDs

Using Data-Flow Diagramming in the Analysis Process

Guidelines for Drawing DFDs

Using DFDs as Analysis Tools

Using DFDs in Business Process Reengineering

Logic Modeling

Modeling Logic with Decision Tables

Pine Valley Furniture WebStore: Process Modeling

Process Modeling for Pine Valley Furnitures WebStore

Key Points Review

Key Terms Checkpoint

Review Questions

Problems and Exercises

Discussion Questions

Case Problems

Case: Petrie Electronics

References

Chapter 7 Structuring System Requirements: Conceptual Data Modeling

Conceptual Data Modeling

The Process of Conceptual Data Modeling

Deliverables and Outcomes

Gathering Information for Conceptual Data Modeling

Introduction to Entity-Relationship Modeling

Entities

Attributes

Table of Contents

- Candidate Keys and Identifiers
- Multivalued Attributes
- Relationships
- Conceptual Data Modeling and the E-R Model
 - Degree of a Relationship
 - Cardinalities in Relationships
- An Example of Conceptual Data Modeling at Hoosier Burger
- PVF WebStore: Conceptual Data Modeling
 - Conceptual Data Modeling for Pine Valley Furnitures WebStore
- Selecting the Best Alternative Design Strategy
 - The Process of Selecting the Best Alternative Design Strategy
- Generating Alternative Design Strategies
- Developing Design Strategies for Hoosier Burgers New Inventory Control System
- Selecting the Most Likely Alternative
 - Key Points Review
 - Key Terms Checkpoint
 - Review Questions
 - Problems and Exercises
 - Discussion Questions
 - Case Problems
 - Case: Petrie Electronics
 - References

PART IV Systems Design

Chapter 8 Designing the Human Interface

Designing Forms and Reports

- The Process of Designing Forms and Reports
- Deliverables and Outcomes
- Formatting Forms and Reports

Designing Interfaces and Dialogues

- The Process of Designing Interfaces and Dialogues
- Deliverables and Outcomes
- Designing Interfaces
- Designing Dialogues

Pine Valley Furniture WebStore: Designing the Human Interface

- General Guidelines for Designing Web Interfaces
- General Guidelines for Web Layouts
- Designing the Human Interface at Pine Valley Furniture
- Menu-Driven Navigation with Cookie Crumbs
- Lightweight Graphics
- Forms and Data Integrity
- Style SheetBased HTML
- Custom Interface for Mobile Application
- Key Points Review

Table of Contents

- Key Terms Checkpoint
- Review Questions
- Problems and Exercises
- Discussion Questions
- Case Problems
- Case: Petrie Electronics
- References

Chapter 9 Designing Databases

Database Design

- The Process of Database Design
- Deliverables and Outcomes

Relational Database Model

- Well-Structured Relations

Normalization

- Rules of Normalization
- Functional Dependence and Primary Keys
- Second Normal Form
- Third Normal Form

Transforming E-R Diagrams Into Relations

- Represent Entities
- Represent Relationships
- Summary of Transforming E-R Diagrams to Relations

Merging Relations

- An Example of Merging Relations
- View Integration Problems

Logical Database Design for Hoosier Burger

Physical File and Database Design

Designing Fields

- Choosing Data Types
- Controlling Data Integrity

Designing Physical Tables

- Arranging Table Rows
- Designing Controls for Files

Physical Database Design for Hoosier Burger

Pine Valley Furniture WebStore: Designing Databases

- Designing Databases for Pine Valley Furnitures WebStore
- Key Points Review
- Key Terms Checkpoint
- Review Questions
- Problems and Exercises

Table of Contents

Discussion Questions
Case Problems
Case: Petrie Electronics
References

PART V Systems Implementation and Operation

Chapter 10 Systems Implementation and Operation

Systems Implementation and Operation

The Processes of Coding, Testing, and Installation
Deliverables and Outcomes from Coding, Testing, and Installation
The Processes of Documenting the System, Training Users, and Supporting Users
Deliverables and Outcomes from Documenting the System, Training Users, and Supporting Users
The Process of Maintaining Information Systems
Deliverables and Outcomes from Maintaining Information Systems

Software Application Testing

Seven Different Types of Tests
The Testing Process
Acceptance Testing by Users

Installation

Planning Installation

Documenting the System

User Documentation
Preparing User Documentation

Training and Supporting Users

Training Information System Users
Supporting Information System Users
Support Issues for the Analyst to Consider

Why Implementation Sometimes Fails

Project Closedown

Conducting Systems Maintenance

Types of Maintenance
The Cost of Maintenance
Measuring Maintenance Effectiveness
Controlling Maintenance Requests
Configuration Management
Role of Automated Development Tools in Maintenance
Website Maintenance

Maintaining an Information System at Pine Valley Furniture

Pine Valley Furniture WebStore: Systems Implementation and Operation

Systems Implementation and Operation for Pine Valley Furniture's WebStore
Key Points Review

Table of Contents

- Key Terms Checkpoint
- Review Questions
- Problems and Exercises
- Discussion Questions
- Case Problems
- Case: Petrie Electronics
- References

Appendix A Object-Oriented Analysis and Design

- The Object-Oriented Modeling Approach
- Use-Case Modeling
- Object Modeling: Class Diagrams
- Representing Associations
- Representing Generalization
- Representing Aggregation
- Dynamic Modeling: State Diagrams
- Dynamic Modeling: Sequence Diagrams
- Designing a Use Case with a Sequence Diagram
- Moving to Design
 - Key Points Review
 - Key Terms Checkpoint
 - Review Questions
 - Problems and Exercises
 - References

Appendix B Agile Methodologies

- The Trend to Agile Methodologies
- Agile Methodologies
- eXtreme Programming
- The Heart of the Systems Development Process
 - Requirements Determination
 - Design Specifications
 - Implementation
- What Weve Learned About Agile Methodologies
 - Key Points Review
 - Key Terms Checkpoint
 - Review Questions

Table of Contents

Problems and Exercises
