## Chapter 19 Technology Roadmap: Benefits, Elements, and Practical Steps

What is a Technology Roadmap?

The Benefits of a Technology Roadmap

External Benefits (Effectiveness)

Internal Benefits (Efficiency)

Elements of the Technology Roadmap

Activity #1: Guiding Principles

Activity #2: Assess Current Technology

Activity #3: Analyze Gaps

Activity #4: Evaluate Technology Landscape

Activity #5: Describe Future Technology

Activity #6: Outline Migration Strategy

Activity #7: Establish Governance

Practical Steps for Developing a Technology Roadmap

Conclusion

References

Appendix A Principles to Guide a Migration Strategy

## Chapter 20 Emerging Development Practices

# Table of Contents

The Problem with System Development

Trends in System Development

Obstacles to Improving System Development Productivity

Improving System Development Productivity: What we know that Works

Next Steps to Improving System Development Productivity

Conclusion

References

## Chapter 21 Information Delivery: Past, Present, and Future

Information and IT: Why Now?

Delivering Value Through Information

Effective Information Delivery

- New Information Skills

- New Information Roles

- New Information Practices

- New Information Strategies

The Future of Information Delivery

Conclusion
