About the Authors

Contents

Preface

PART 1 Introduction and Key Principles

1 Introduction: What Is Economics?

What Is Economics?

Positive versus Normative Analysis

The Three Key Economic Questions: What, How, and Who?

Economic Models

Economic Analysis and Modern Problems

Economic View of Traffic Congestion

Economic View of Poverty in Africa

Economic View of the Current World Recession

The Economic Way of Thinking

Use Assumptions to Simplify

Isolate VariablesCeteris Paribus

Think at the Margin

Rational People Respond to Incentives

APPLICATION 1 Incentives to Buy Hybrid Vehicles

Example: London Addresses Its Congestion Problem

APPLICATION 2 Housing Prices in Cuba

Preview of Coming Attractions: Macroeconomics

Using Macroeconomics to Understand Why Economies Grow

Using Macroeconomics to Understand Economic Fluctuations

Using Macroeconomics to Make Informed Business Decisions

Preview of Coming Attractions: Microeconomics

Using Microeconomics to Understand Markets and Predict Changes

Using Microeconomics to Make Personal and Managerial Decisions

Using Microeconomics to Evaluate Public Policies

Table of Contents

SUMMARY

KEY TERMS

EXERCISES

APPENDIX: Using Graphs and Percentages

USING GRAPHS

COMPUTING PERCENTAGE CHANGES AND USING EQUATIONS

APPLICATION 3 The Perils of Percentages

2 The Key Principles of Economics

The Principle of Opportunity Cost

The Cost of College

The Cost of Military Spending

Opportunity Cost and the Production Possibilities Curve

APPLICATION 1 Don't Forget the Costs of Time and Invested Funds

The Marginal Principle

How Many Movie Sequels?

Renting College Facilities

Automobile Emissions Standards

Driving Speed and Safety

APPLICATION 2 How Fast to Sail?

The Principle of Voluntary Exchange

Exchange and Markets

Online Games and Market Exchange

APPLICATION 3 Rory McIlroy and Weed-Wacking

The Principle of Diminishing Returns

APPLICATION 4 Fertilizer and Crop Yields

The Real-Nominal Principle

The Design of Public Programs

The Value of the Minimum Wage

APPLICATION 5 Repaying Student Loans

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

3 Exchange and Markets

Comparative Advantage and Exchange

Specialization and the Gains from Trade

Comparative Advantage versus Absolute Advantage

The Division of Labor and Exchange

Comparative Advantage and International Trade

Table of Contents

Outsourcing

APPLICATION 1 Absolute Disadvantage and Comparative Advantage in Latvia

Markets

Virtues of Markets

The Role of Entrepreneurs

Example of the Emergence of Markets: POW Camps

APPLICATION 2 The Market for Meteorites

Market Failure and the Role of Government

Government Enforces the Rules of Exchange

Government Can Reduce Economic Uncertainty

APPLICATION 3 Property Rights and Urban Slums

SUMMARY

KEY TERMS

EXERCISES 88

4 Demand, Supply, and Market Equilibrium

The Demand Curve

The Individual Demand Curve and the Law of Demand

From Individual Demand to Market Demand

APPLICATION 1 The Law of Demand for Young Smokers

The Supply Curve

The Individual Supply Curve and the Law of Supply

Why Is the Individual Supply Curve Positively Sloped?

From Individual Supply to Market Supply

Why Is the Market Supply Curve Positively Sloped?

APPLICATION 2 Law of Supply and Woolympics

Market Equilibrium: Bringing Demand and Supply Together

Excess Demand Causes the Price to Rise

Excess Supply Causes the Price to Drop

APPLICATION 3 Shrinking Wine Lakes

Market Effects of Changes in Demand

Change in Quantity Demanded versus Change in Demand

Increases in Demand Shift the Demand Curve

Decreases in Demand Shift the Demand Curve

A Decrease in Demand Decreases the Equilibrium Price

APPLICATION 4 Chinese Demand and Pecan Prices

Market Effects of Changes in Supply

Change in Quantity Supplied versus Change in Supply

Increases in Supply Shift the Supply Curve

An Increase in Supply Decreases the Equilibrium Price

Decreases in Supply Shift the Supply Curve

Table of Contents

A Decrease in Supply Increases the Equilibrium Price
Simultaneous Changes in Demand and Supply
APPLICATION 5 The Harmattan and the Price of Chocolate

Predicting and Explaining Market Changes

APPLICATION 6 Why Lower Drug Prices?

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

PART 2 The Basic Concepts in Macroeconomics

5 Measuring a Nations Production and Income

The Flip Sides of Macroeconomic Activity: Production and Income

The Circular Flow of Production and Income

APPLICATION 1 Using Value Added to Measure the True Size of Walmart

The Production Approach: Measuring a Nations Macroeconomic Activity Using Gross Domestic Product

The Components of GDP

Putting It All Together: The GDP Equation

APPLICATION 2 Comparing Recoveries From Recessions

The Income Approach: Measuring a Nations Macroeconomic Activity Using National Income

Measuring National Income

Measuring National Income through Value Added

An Expanded Circular Flow

APPLICATION 3 The Links Between Self-Reported Happiness and GDP

A Closer Examination of Nominal and Real GDP

Measuring Real versus Nominal GDP

How to Use the GDP Deflator

Fluctuations in GDP

GDP as a Measure of Welfare

Shortcomings of GDP as a Measure of Welfare

SUMMARY

KEY TERMS

EXERCISES

6 Unemployment and Inflation

Examining Unemployment

How Is Unemployment Defined and Measured?

Alternative Measures of Unemployment and Why They Are Important

Who Are the Unemployed?

APPLICATION 1 Declining Labor Force Participation

Table of Contents

Categories of Unemployment

Types of Unemployment: Cyclical, Frictional, and Structural

The Natural Rate of Unemployment

APPLICATION 2 Less Unemployment Insurance, More Employment?

The Costs of Unemployment

APPLICATION 3 Social Norms, Unemployment, And Perceived Happiness

The Consumer Price Index and the Cost of Living

The CPI versus the Chain Index for GDP

APPLICATION 4 The Introduction of Cell Phones and the Bias in the CPI

Problems in Measuring Changes in Prices

Inflation

Historical U.S. Inflation Rates

The Perils of Deflation

The Costs of Inflation

Anticipated Inflation

Unanticipated Inflation

SUMMARY

KEY TERMS

EXERCISES

PART 3 The Economy in the Long Run

7 The Economy at Full Employment

Wage and Price Flexibility and Full Employment

The Production Function

Wages and the Demand and Supply for Labor

Labor Market Equilibrium

Changes in Demand and Supply

APPLICATION 1 The Black Death and Living Standards in Old England

Labor Market Equilibrium and Full Employment

Using the Full-Employment Model

Taxes and Potential Output

Real Business Cycle Theory

APPLICATION 2 Do European Soccer Stars Change Clubs to Reduce Their Tax-es?

APPLICATION 3 Government Policies and Savings Rates

Dividing Output among Competing Demands for GDP at Full Employment

International Comparisons

Crowding Out in a Closed Economy

Crowding Out in an Open Economy

Crowding In

SUMMARY

Table of Contents

KEY TERMS

EXERCISES

8 Why Do Economies Grow?

Economic Growth Rates

Measuring Economic Growth

Comparing the Growth Rates of Various Countries

Are Poor Countries Catching Up?

APPLICATION 1 Global Warming, Rich Countries, and Poor Countries

APPLICATION 2 Behavioral Incentives in Development

Capital Deepening

Saving and Investment

How Do Population Growth, Government, and Trade Affect Capital Deepening?

The Key Role of Technological Progress

How Do We Measure Technological Progress?

Using Growth Accounting

APPLICATION 3 Sources of Growth in China and India

APPLICATION 4 The End of Growth?

What Causes Technological Progress?

Research and Development Funding

Monopolies That Spur Innovation

The Scale of the Market

Induced Innovations

Education, Human Capital, and the Accumulation of Knowledge

New Growth Theory

APPLICATION 5 The Role of Political Factors in Economic Growth

APPLICATION 6 Culture, Evolution, and Economic Growth

A Key Governmental Role: Providing the Correct Incentives and Property Rights

APPLICATION 7 Lack of Property Rights Hinders Growth In Peru

SUMMARY

KEY TERMS

EXERCISES 203

APPENDIX: A Model of Capital Deepening

PART 4 Economic Fluctuations and Fiscal Policy

9 Aggregate Demand and Aggregate Supply

Sticky Prices and Their Macroeconomic Consequences

Flexible and Sticky Prices

How Demand Determines Output in the Short Run

APPLICATION 1 Measuring Price Stickiness in Consumer Markets

Understanding Aggregate Demand

Table of Contents

What Is the Aggregate Demand Curve?

The Components of Aggregate Demand

Why the Aggregate Demand Curve Slopes Downward

Shifts in the Aggregate Demand Curve

How the Multiplier Makes the Shift Bigger

APPLICATION 2 Two Approaches to Determining the Causes of Reces-sions

Understanding Aggregate Supply

The Long-Run Aggregate Supply Curve

The Short-Run Aggregate Supply Curve

Supply Shocks

APPLICATION 3 Oil Price Declines and the U.S. Economy

From the Short Run to the Long Run

SUMMARY

KEY TERMS

EXERCISES

10 Fiscal Policy

The Role of Fiscal Policy

Fiscal Policy and Aggregate Demand

The Fiscal Multiplier

The Limits to Stabilization Policy

APPLICATION 1 Increasing Life Expectancy and Aging Populations Spur Costs of Entitlement Programs

The Federal Budget

Federal Spending

Federal Revenues

The Federal Deficit and Fiscal Policy

Automatic Stabilizers

Are Deficits Bad?

APPLICATION 2 The Confucius Curve?

Fiscal Policy in U.S. History

The Depression Era

The Kennedy Administration

The Vietnam War Era

The Reagan Administration

The Clinton and George W. Bush Administrations

APPLICATION 3 How Effective was the 2009 Stimulus?

SUMMARY

KEY TERMS

EXERCISES

11 The Income-Expenditure Model

A Simple Income-Expenditure Model

Table of Contents

Equilibrium Output

Adjusting to Equilibrium Output

The Consumption Function

Consumer Spending and Income

Changes in the Consumption Function

APPLICATION 1 Falling Home Prices, the Wealth Effect, and Decreased Consumer Spending

Equilibrium Output and the Consumption Function

Saving and Investment

Understanding the Multiplier

APPLICATION 2 Multipliers in Good Times and Bad

Government Spending and Taxation

Fiscal Multipliers

Using Fiscal Multipliers

Understanding Automatic Stabilizers

APPLICATION 3 The Broken Window Fallacy and Keynesian Economics

Exports and Imports

APPLICATION 4 The Locomotive Effect: How Foreign Demand Affects a Country's Output

The Income-Expenditure Model and the Aggregate Demand Curve

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

APPENDIX: Formulas for Equilibrium Income and the Multiplier

12 Investment and Financial Markets

An Investment: A Plunge into the Unknown

APPLICATION 1 Energy Price Uncertainty Reduces Investment Spending

Evaluating the Future

Understanding Present Value

Real and Nominal Interest Rates

APPLICATION 2 The Value of an Annuity

Understanding Investment Decisions

Investment and the Stock Market

APPLICATION 3 Underwater Homeowners and Debt Forgiveness

How Financial Intermediaries Facilitate Investment

When Financial Intermediaries Malfunction

APPLICATION 4 Securitization: The Good, The Bad, and The Ugly

SUMMARY

KEY TERMS

EXERCISES

Table of Contents

ECONOMIC EXPERIMENT

PART 5 Money, Banking, and Monetary Policy

13 Money and the Banking System

What Is Money?

Three Properties of Money

Measuring Money in the U.S. Economy

APPLICATION 1 Cash as a Sign of Trust

How Banks Create Money

A Banks Balance Sheet: Where the Money Comes from and Where It Goes

How Banks Create Money

How the Money Multiplier Works

How the Money Multiplier Works in Reverse

APPLICATION 2 The Growth In Excess Reserves

A Bankers Bank: The Federal Reserve

Functions of the Federal Reserve

The Structure of the Federal Reserve

The Independence of the Federal Reserve

What the Federal Reserve Does during a Financial Crisis

APPLICATION 3 Stress Tests for the Financial System

APPLICATION 4 Coping with the Financial Chaos Caused by the Mortgage Crisis

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

APPENDIX: Formula For Deposit Creation

14 The Federal Reserve and Monetary Policy

The Money Market

The Demand for Money

APPLICATION 1 Quantitative Easing and the Feds Balance Sheet

How the Federal Reserve Can Change the Money Supply

Open Market Operations

Other Tools of the Fed

APPLICATION 2 Did Fed Policy Cause the Commodity Boom?

How Interest Rates Are Determined: Combining the Demand and Supply of Money

Interest Rates and Bond Prices

APPLICATION 3 The Effectiveness of Committees

Interest Rates and How They Change Investment and Output (GDP)

Monetary Policy and International Trade

Monetary Policy Challenges for the Fed

Table of Contents

Lags in Monetary Policy

Influencing Market Expectations: From the Federal Funds Rate to Interest Rates on Long-Term Bonds

SUMMARY

KEY TERMS

EXERCISES

PART 6 INFLATION, UNEMPLOYMENT, AND ECONOMIC POLICY

15 Modern Macroeconomics: From the Short Run to the Long Run

Linking the Short Run and the Long Run

The Difference between the Short and Long Run

Wages and Prices and Their Adjustment over Time

APPLICATION 1 Secular Stagnation?

How Wage and Price Changes Move the Economy Naturally Back to Full Employment

Returning to Full Employment from a Recession

Returning to Full Employment from a Boom

Economic Policy and the Speed of Adjustment

Liquidity Traps or Zero Lower Bound

Political Business Cycles

APPLICATION 2 Elections, Political Parties, and Voter Expectations

The Economics Behind the Adjustment Process

The Long-Run Neutrality of Money

Crowding Out in the Long Run

APPLICATION 3 Increasing Health-Care Expenditures and Crowding Out

Classical Economics in Historical Perspective

Says Law

Keynesian and Classical Debates

SUMMARY

KEY TERMS

EXERCISES

16 The Dynamics of Inflation and Unemployment

Money Growth, Inflation, and Interest Rates

Inflation in a Steady State

How Changes in the Growth Rate of Money Affect the Steady State

APPLICATION 1 Shifts in the Natural Rate of Unemployment

Understanding the Expectations Phillips Curve: The Relationship between Unemployment and Inflation

Are the Public's Expectations about Inflation Rational?

U.S. Inflation and Unemployment in the 1980s

Shifts in the Natural Rate of Unemployment in the 1990s

APPLICATION 2 Estimating the Natural Real Interest Rate

Table of Contents

How the Credibility of a Nations Central Bank Affects Inflation

APPLICATION 3 The Ends of Hyperinflations

Inflation and the Velocity of Money

Hyperinflation

How Budget Deficits Lead to Hyperinflation

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

17 Macroeconomic Policy Debates

Should We Balance the Federal Budget?

The Budget in Recent Decades

Five Debates about Deficits

APPLICATION 1 Creating The U.S. Federal Fiscal System Through Debt Policy

Should the Fed Target Both Inflation and Employment?

Two Debates about Targeting

APPLICATION 2 Would a Policy Rule Have Prevented the Housing Boom?

Should We Tax Consumption Rather than Income?

Two Debates about Consumption Taxation

APPLICATION 3 Is A Vat in Our Future?

SUMMARY

KEY TERMS

EXERCISES

PART 7 The International Economy

18 International Trade and Public Policy

Benefits from Specialization and Trade

Production Possibilities Curve

Comparative Advantage and the Terms of Trade

The Consumption Possibilities Curve

How Free Trade Affects Employment

Protectionist Policies

Import Bans

Quotas and Voluntary Export Restraints

Responses to Protectionist Policies

APPLICATION 1 The Impact of Tariffs on the Poor

What Are the Rationales for Protectionist Policies?

To Shield Workers from Foreign Competition

To Nurture Infant Industries until They Mature

To Help Domestic Firms Establish Monopolies in World Markets

Table of Contents

APPLICATION 2 Chinese Imports and Local Economies

A Brief History of International Tariff and Trade Agreements

Recent Policy Debates and Trade Agreements

Are Foreign Producers Dumping Their Products?

APPLICATION 3 Does Losing in the WTO Really Matter?

Do Trade Laws Inhibit Environmental Protection?

APPLICATION 4 How American are American Cars?

Do Outsourcing and Trade Cause Income Inequality?

Why Do People Protest Free Trade?

SUMMARY

KEY TERMS

EXERCISES

19 The World of International Finance

How Exchange Rates Are Determined

What Are Exchange Rates?

How Demand and Supply Determine Exchange Rates

Changes in Demand or Supply

Real Exchange Rates and Purchasing Power Parity

APPLICATION 1 Big Macs in Switzerland

The Current Account, the Financial Account, and the Capital Account

Rules for Calculating the Current, Financial, and Capital Accounts

APPLICATION 2 Tax Havens and Global Imbalances

Fixed and Flexible Exchange Rates

Fixing the Exchange Rate

Fixed versus Flexible Exchange Rates

The U.S. Experience with Fixed and Flexible Exchange Rates

Exchange Rate Systems Today

Managing Financial Crises

APPLICATION 3 A Troubled Euro

APPLICATION 4 The Argentine Financial Crisis

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

PART 8 A Closer Look at Demand and Supply

20 Elasticity: A Measure of Responsiveness

The Price Elasticity of Demand

Computing Percentage Changes and Elasticities

Price Elasticity and the Demand Curve

Table of Contents

Elasticity and the Availability of Substitutes

Other Determinants of the Price Elasticity of Demand

APPLICATION 1 A Closer Look at the Elasticity of Demand for Gasoline

Using Price Elasticity

Predicting Changes in Quantity

Price Elasticity and Total Revenue

Using Elasticity to Predict the Revenue Effects of Price Changes

APPLICATION 2 Vanity Plates and the Elasticity of Demand

Elasticity and Total Revenue for a Linear Demand Curve

Price Elasticity along a Linear Demand Curve

APPLICATION 3 Drones and the Lower Half of a Linear Demand Curve

Elasticity and Total Revenue for a Linear Demand Curve

Other Elasticities of Demand

Income Elasticity of Demand

Cross-Price Elasticity of Demand

APPLICATION 4 I can Find that Elasticity in Four Clicks!

The Price Elasticity of Supply

What Determines the Price Elasticity of Supply?

The Role of Time: Short-Run versus Long-Run Supply Elasticity

Extreme Cases: Perfectly Inelastic Supply and Perfectly Elastic Supply

APPLICATION 5 The Short-Run and Long-Run Elasticity of Supply of Coffee

Predicting Changes in Quantity Supplied

Using Elasticities to Predict Changes in Prices

The Price Effects of a Change in Demand

The Price Effects of a Change in Supply

APPLICATION 6 A Broken Pipeline and the Price of Gasoline

SUMMARY

KEY TERMS

EXERCISES

21 Market Efficiency and Government Intervention

Consumer Surplus and Producer Surplus

The Demand Curve and Consumer Surplus

The Supply Curve and Producer Surplus

APPLICATION 1 Consumer Surplus of Internet Service

Market Equilibrium and Efficiency

Total Surplus Is Lower with a Price below the Equilibrium Price

Total Surplus Is Lower with a Price above the Equilibrium Price

Efficiency and the Invisible Hand

Government Intervention in Efficient Markets

APPLICATION 2 Rent Control and Mismatches

Table of Contents

Controlling PricesMaximum and Minimum Prices

Setting Maximum Prices

Rent Control

APPLICATION 3 Price Controls and the Shrinking Candy Bar

Setting Minimum Prices

Controlling QuantitiesLicensing and Import Restrictions

Taxi Medallions

Licensing and Market Efficiency

Winners and Losers from Licensing

Import Restrictions

APPLICATION 4 The Cost of Protecting a Lumber Job

Who Really Pays Taxes?

Tax Shifting: Forward and Backward

Tax Shifting and the Price Elasticity of Demand

Cigarette Taxes and Tobacco Land

The Luxury Boat Tax and Boat Workers

Tax Burden and Deadweight Loss

APPLICATION 5 Response to a Luxury Tax

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

22 Consumer Choice: Utility Theory and Insights from Neuroscience

Traditional Consumer Choice: Utility Theory

Consumer Constraints: The Budget Line

Total and Marginal Utility

The Marginal Principle and the Equimarginal Rule

Conditions for Utility Maximization

APPLICATION 1 Measuring Diminishing Marginal Utility

The Law of Demand and the Individual Demand Curve

Effect of a Decrease in Price

Income and Substitution Effects of a Decrease in Price

The Individual Demand Curve

The Neuroscience of Consumer Choice

APPLICATION 2 A Revenue-Neutral Gasoline Tax

The Neuroscience of Benefit Valuation

The Neuroscience of Cost Valuation

The Wisdom of Gut Feelings

Cognition and Choice

Predicting Consumer Choice

Table of Contents

Fuel for Cognition

APPLICATION 3 Coke versus Pepsi in the Prefrontal Cortex

Consumer Decisions: Insights from Neuroscience

Dietary Choice: Donut versus Apple

Present Bias: Spending versus Saving

Present Bias and Credit Cards

Present Bias and Smoking

Gambling as a Consumer Good

APPLICATION 4 Taxing Cigarettes to Offset Present Bias

SUMMARY

EXERCISES

APPENDIX: Mental Shortcuts and Consumer Puzzles

MENTAL ACCOUNTING AND BUNDLING

ANCHORING

THE DECOY EFFECT

THE APPEAL OF PERCENTAGE CHANGES

SUMMARY

PART 9 Market Structures and Pricing

23 Production Technology and Cost

Economic Cost and Economic Profit

APPLICATION 1 Opportunity Cost and Entrepreneurship

A Firm with a Fixed Production Facility: Short-Run Costs

Production and Marginal Product

Short-Run Total Cost

Short-Run Average Costs

Short-Run Marginal Cost

The Relationship between Marginal Cost and Average Cost

APPLICATION 2 The Rising Marginal Cost of Crude Oil

Production and Cost in the Long Run

Expansion and Replication

Reducing Output with Indivisible Inputs

Scaling Down and Labor Specialization

Economies of Scale

Diseconomies of Scale

Actual Long-Run Average-Cost Curves

Short-Run versus Long-Run Average Cost

APPLICATION 3 Indivisible Inputs and the Cost of Fake Killer Whales

Examples of Production Cost

Scale Economies in Wind Power

The Average Cost of a Music Video

Table of Contents

Solar versus Nuclear: The Crossover

SUMMARY

KEY TERMS

EXERCISES

24 Perfect Competition

Preview of the Four Market Structures

APPLICATION 1 Wireless Women in Pakistan

The Firms Short-Run Output Decision

The Total Approach: Computing Total Revenue and Total Cost

The Marginal Approach

Economic Profit and the Break-Even Price

APPLICATION 2 The Break-Even Price for Switchgrass, a Feedstock For Biofuel

The Firms Shut-Down Decision

Total Revenue, Variable Cost, and the Shut-Down Decision

The Shut-Down Price

Fixed Costs and Sunk Costs

APPLICATION 3 Straddling the Zinc Cost Curve

Short-Run Supply Curves

The Firms Short-Run Supply Curve

The Short-Run Market Supply Curve

Market Equilibrium

APPLICATION 4 Short-Run Supply Curve for Cargo

The Long-Run Supply Curve for an Increasing-Cost Industry

Production Cost and Industry Size

Drawing the Long-Run Market Supply Curve

Examples of Increasing-Cost Industries: Sugar and Apartments

APPLICATION 5 Chinese Coffee Growers Obey the Law of Supply

Short-Run and Long-Run Effects of Changes in Demand

The Short-Run Response to an Increase in Demand

The Long-Run Response to an Increase in Demand

APPLICATION 6 The Upward Jump and Downward Slide of Blueberry Prices

Long-Run Supply for a Constant-Cost Industry

Long-Run Supply Curve for a Constant-Cost Industry

Hurricane Andrew and the Price of Ice

APPLICATION 7 Economic Detective and the Case of Margarine Prices

SUMMARY

KEY TERMS

EXERCISES

25 Monopoly and Price Discrimination

Table of Contents

The Monopolists Output Decision

Total Revenue and Marginal Revenue

A Formula for Marginal Revenue

Using the Marginal Principle

APPLICATION 1 Marginal Revenue From a Baseball Fan

The Social Cost of Monopoly

Deadweight Loss from Monopoly

Rent Seeking: Using Resources to Get Monopoly Power

Monopoly and Public Policy

APPLICATION 2 Rent Seeking for Tribal Casinos

Patents and Monopoly Power

Incentives for Innovation

Trade-Offs from Patents

APPLICATION 3 Bribing the Makers of Generic Drugs

Price Discrimination

Senior Discounts in Restaurants

Price Discrimination and the Elasticity of Demand

Examples: Movie Admission versus Popcorn, and Hardback versus Paperback Books

APPLICATION 4 Why does Movie Popcorn Cost so Much?

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

26 Market Entry and Monopolistic Competition

The Effects of Market Entry

Entry Squeezes Profits from Three Sides

Examples of Entry: Car Stereos, Trucking, and Tires

APPLICATION 1 Satellite versus Cable

Monopolistic Competition

When Entry Stops: Long-Run Equilibrium

Differentiation by Location

APPLICATION 2 Opening a Motel

Trade-Offs with Entry and Monopolistic Competition

Average Cost and Variety

Monopolistic Competition versus Perfect Competition

APPLICATION 3 Happy Hour Pricing

Advertising for Product Differentiation

APPLICATION 4 Picture of Man versus Picture of Woman

SUMMARY

KEY TERMS

Table of Contents

EXERCISES

ECONOMIC EXPERIMENT

27 Oligopoly and Strategic Behavior

Cartel Pricing and the Duopolists Dilemma

Price Fixing and the Game Tree

Equilibrium of the Price-Fixing Game

Nash Equilibrium

APPLICATION 1 Failure of the Salt Cartel

Overcoming the Duopolists Dilemma

Low-Price Guarantees

Repeated Pricing Games with Retaliation for Underpricing

Price Fixing and the Law

Price Leadership

APPLICATION 2 Low-Price Guarantee Increases Tire Prices

Simultaneous Decision Making and the Payoff Matrix

Simultaneous Price-Fixing Game

The Prisoners Dilemma

APPLICATION 3 Cheating on the Final Exam: The Cheaters Dilemma

The Insecure Monopolist and Entry Deterrence

Entry Deterrence and Limit Pricing

Examples: Aluminum and Campus Bookstores

Entry Deterrence and Contestable Markets

When Is the Passive Approach Better?

APPLICATION 4 Microsoft as an Insecure Monopolist

The Advertisers Dilemma

APPLICATION 5 Got Milk?

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

28 Controlling Market Power: Antitrust and Regulation

Natural Monopoly

Picking an Output Level

Will a Second Firm Enter?

Price Controls for a Natural Monopoly

APPLICATION 1 Public versus Private Waterworks

APPLICATION 2 Satellite Radio as a Natural Monopoly

Antitrust Policy

Breaking Up Monopolies

Blocking Mergers

Table of Contents

Merger Remedy for Wonder Bread
Regulating Business Practices
A Brief History of U.S. Antitrust Policy
APPLICATION 3 Merger of Pennzoil and Quaker State
APPLICATION 4 Merger of Office Depot and OfficeMax

SUMMARY

KEY TERMS

EXERCISES

PART 10 Externalities and Information

29 Imperfect Information: Adverse Selection and Moral Hazard

Adverse Selection for Buyers: The Lemons Problem

Uninformed Buyers and Knowledgeable Sellers
Equilibrium with All Low-Quality Goods
A Thin Market: Equilibrium with Some High-Quality Goods
APPLICATION 1 Are Baseball Pitchers Like Used Cars?
Evidence of the Lemons Problem

Responding to the Lemons Problem

Buyers Invest in Information
Consumer Satisfaction Scores from ValueStar and eBay
Guarantees and Lemons Laws
APPLICATION 2 Regulation of the California Kiwifruit Market

Adverse Selection for Sellers: Insurance

Health Insurance
Equilibrium with All High-Cost Consumers
Responding to Adverse Selection in Insurance: Group Insurance
The Uninsured
Other Types of Insurance
APPLICATION 3 Genetic Discrimination

Insurance and Moral Hazard

Insurance Companies and Moral Hazard
Deposit Insurance for Savings and Loans
APPLICATION 4 Car Insurance and Risky Driving

The Economics of Consumer Search

Search and the Marginal Principle
Reservation Prices and Searching Strategy
The Effects of Opportunity Cost and Product Prices on Search Effort
APPLICATION 5 Income and Consumer Search

SUMMARY

KEY TERMS

EXERCISES

Table of Contents

ECONOMIC EXPERIMENT

30 Public Goods and Public Choice

External Benefits and Public Goods

Public Goods and the Free-Rider Problem

Overcoming the Free-Rider Problem

APPLICATION 1 Clearing Space Debris

APPLICATION 2 Global Weather Observation

Private Goods with External Benefits

External Benefits from Education

External Benefits and the Marginal Principle

Other Private Goods That Generate External Benefits

APPLICATION 3 External Benefits from Lojack

APPLICATION 4 The Private and External Benefit of Trees

Public Choice and the Median Voter

Voting and the Median-Voter Rule

The Median Voter and the Median Location

Alternative Models of Government: Self-Interest and Special Interests

Which Theory Is Correct?

APPLICATION 5 The Median Voter in the NBA

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

31 External Costs and Environmental Policy

The Optimal Level of Pollution

Using the Marginal Principle

Example: The Optimal Level of Water Pollution

Coase Bargaining

APPLICATION 1 Reducing Methane Emissions

Taxing Pollution

A Firms Response to a Pollution Tax

The Market Effects of a Pollution Tax

Example: A Carbon Tax

APPLICATION 2 Washing Carbon Out of the Air

Traditional Regulation

Uniform Abatement with Permits

Command and Control

Market Effects of Pollution Regulations

Lesson from Dear Abby: Options for Pollution Abatement

APPLICATION 3 Options for Reducing CO₂ Emissions From International Shipping

Table of Contents

Marketable Pollution Permits

Voluntary Exchange and Marketable Permits

Supply, Demand, and the Price of Marketable Permits

APPLICATION 4 Weather and the Price of Pollution Permits

External Costs from Automobiles

External Costs from Pollution

External Costs from Congestion

External Costs from Collisions

APPLICATION 5 Young Drivers and Collisions

SUMMARY

KEY TERMS

EXERCISES

ECONOMIC EXPERIMENT

PART 11 The Labor Market and Income Distribution

32 The Labor Market and the Distribution of Income

The Demand for Labor

Labor Demand by an Individual Firm in the Short Run

Market Demand for Labor in the Short Run

Labor Demand in the Long Run

Short-Run versus Long-Run Demand

APPLICATION 1 Marginal Revenue Product in Major League Baseball

The Supply of Labor

The Individual Labor-Supply Decision: How Many Hours?

An Example of Income and Substitution Effects

The Market Supply Curve for Labor

APPLICATION 2 Cabbies Respond to an Increase in the Wage

Labor Market Equilibrium

Changes in Demand and Supply

The Market Effects of the Minimum Wage

Why Do Wages Differ across Occupations?

The Gender Pay Gap

Racial Discrimination

Why Do College Graduates Earn Higher Wages?

Labor Unions and Wages

APPLICATION 3 The Beauty Premium

The Distribution of Income

Income Distribution in 2007

Recent Changes in the Distribution of Income

APPLICATION 4 Trade-Offs From Immigration

Public Policy and the Distribution of Income

Table of Contents

Effects of Tax and Transfer Policies on the Distribution of Income

Poverty and Public Policy

The Earned Income Tax Credit

APPLICATION 5 Expanding the EITC

SUMMARY
