Planning, controlling and recording

Evaluation of the internal control systems

Evidence

Reporting and follow-up

The image and marketing of internal audit

Performance indicators for internal audit

External audit reviews of internal audit

Summary

Practice question

## **Chapter 3: Auditing standards**

Objectives

Introduction

Background to the adoption of international auditing standards

History and development

The IAPC becomes the IAASB

The International Auditing and Assurance Standards Board

International Standards on Auditing

Accounting and auditing regulation in the UK

The Financial Reporting Council

The Professional Oversight Board

The Auditing Practices Board

International Standards on Auditing: an introduction

International Standard on Quality Control (UK and Ireland)

Practice notes and bulletins

# **Table of Contents**

Summary

Practice question

## **Chapter 4: Professional ethics and code of conduct**

Objectives

Introduction

Why is there a code of professional ethics?

Why is there a need for an ethics guideline for professional auditors?

Background

Professional ethics and codes

Reasons for adopting ethical standards

APB Ethical Standard 1 Integrity, objectivity and independence

Integrity

Objectivity and independence

APB Ethical Standard 2 Financial, business, employment and personal relationships

APB Ethical Standard 3 Long association with the audit engagement

APB Ethical Standard 4 Fees, remuneration and evaluation policies, litigation, gifts and hospitality

APB Ethical Standard 5 Non-audit services provided to audit clients

Audit firms as advisory companies

Differences between independence in fact and independence in appearance

Proper conduct

Ethical Standard: Provisions Available for Small Entities 2005, revised 2008

Revised Ethical Standards 2008

Internal audit ethics

Standards and quality of audit

International Federation of Accountants (IFAC) ethics guidelines

European Union

United States

# **Table of Contents**

Summary

Practice question

## **Chapter 5: Corporate governance**

Objectives

Introduction

Corporate governance codes

Corporate governance developments

Cadbury Report (1992)

Audit interest in the Cadbury Report

Greenbury Report (1995)

Hampel Report (1997)

Turnbull Report (1999) (Turnbull 1)

Smith and Higgs reports (2003)

FRC Combined Code (2003)

Recommended committees in the Combined Code (2003)

Tyson Report (2003)

Flint Report (2005) (Turnbull 2)

FRC Combined Code (2006) amendments

Audit and corporate governance

Audit and risk management

Relationship between external and internal audit

US legislation on corporate governance the Sarbanes-Oxley Act (2002)

Sarbanes-Oxley, internal auditing and corporate governance

An internationally accepted format for corporate governance

Limitations to the international acceptance of global corporate governance

Summary

Practice question

## **Chapter 6: Different approaches to investigation**

# **Table of Contents**

Objectives

Introduction

Statutory audits

Voluntary audits

Social audits

Value-for-money (VFM) reviews

- Performance indicators

- Different approaches to VFM

Financial investigations

- Fraud

- Evidence

Summary

Practice question

## **Chapter 7: Planning the audit**

Objectives

Introduction

- The planning cycle

- Preliminary arrangements and two important ISAs

The overall planning strategy

The audit plan

- The value of the audit plan to the audit manager/senior partner

- Post-audit review

- Additional work

Considerations for initial audit engagements

Direction, supervision and review

- Direction

- Supervision

- Review

Documentation

- Working papers

# **Table of Contents**

Recording the audit work

## **Performance assessment**

Controlling the audit

Quality of audit

## **Audit risk**

Can it be eliminated?

## **Materiality**

The importance of materiality

Assessing materiality

Qualitative considerations

## **Summary**

## **Practice question**

# **Chapter 8: Co-operative working between auditors and other professionals**

## **Objectives**

## **Introduction**

## **The letter of engagement**

Content of the engagement letter

## **Importance of information technology in the audit work plan**

Computer-assisted audit techniques

Structured audit documentation

## **Using the work of others**

Using the work of an expert

Using the work of another auditor

Use of internal audit work by the external auditor

## **Working effectively with other review and assurance agencies (external and internal)**

## **Outsourcing internal audit**

Advantages

Disadvantages

# **Table of Contents**

Summary

Practice question

## **Chapter 9: Internal control and systems audit**

Objectives

Introduction

Risk

Internal control

Systems-based auditing

Planning

Evaluating a system

Testing

Compliance testing

Walkthrough tests

Substantive testing

Weakness testing

Evaluation and closure

Example of control evaluation: a staff restaurant

Summary

Practice question

## **Chapter 10: Key systems audits**

Objectives

Introduction

Stock and procurement

Potential risks

Systems control objectives

Questions about the system

Substantive tests

Payroll

Potential risks

Systems control objectives (SCOs) and key controls

# **Table of Contents**

## **Payments to suppliers**

- Potential risks

- Systems control objectives (SCOs) and key controls

- Substantive tests

## **Sales and receipts**

- Potential risks

- Systems control objectives (SCOs) and key controls

## **Computer systems**

- Potential risks

- Input controls

- Processing controls

- Storage controls

- Output controls

- Access controls

## **Summary**

## **Practice question**

## **Chapter 11: Revenue and capital expenditure**

### **Objectives**

### **Introduction**

### **Asset security**

### **Safety of employees and members of the public**

### **Control of revenue expenditure**

### **Questionnaires**

- Internal control questionnaires (ICQs)

- Internal control evaluation questionnaires (ICEQs)

### **Flowcharting**

### **Capital construction contracts**

- Need and feasibility study

- Option appraisals

- Capital programme (or capital budget)

# **Table of Contents**

- Design stage
- Construction of the bill of quantities
- Contract stage
- Construction phase
- Final account stage
- Post-project appraisal

Service contracts

Summary

Practice question

## **Chapter 12: Audit risk assessment and sampling**

Objectives

Introduction

Risk management

- Identification of risk

- Risk measurement

- Avoidance of risk

- Reduction of risk

- Accommodation of risk

Audit risk

- Inherent risk

- Control risk

- Detection risk

- Overall audit risk

Sampling

- Sample selection

Summary

Practice question

## **Chapter 13: Financial statement audit**

Objectives

Introduction

# **Table of Contents**

Financial

Non-audit services

The interim audit

Auditing of accounting estimates

Uncertainty and risk

Summary

Practice question

## **Chapter 14: Asset verification**

Objectives

Introduction

Pre-audit preparation

Verification of tangible fixed assets

Land and buildings

Plant and machinery

Vehicles

Furniture, fitting and equipment

Investments

Goodwill

Certification of current assets

Debtors

Bank and cash balances

Analytical procedures

Computer-assisted audit techniques (CAATs)

Summary

Practice question

## **Chapter 15: Liabilities and accruals**

Objectives

Introduction

Long-term liabilities

# **Table of Contents**

Share capital

Provisions and reserves

Loans and debentures

## **Current liabilities**

Creditors

Dividends

Taxation

Overdraft

Analytical review

Summary

Practice question

## **Chapter 16: Going concern**

Objectives

Introduction

The going concern assumption

Managements assessment of the going concern assumption

Risk to the going concern of an entity

Auditors responsibility

Period beyond managements assessment

Procedures when events are identified

Management assessments

Disclosure requirement relating to going concern issues

Additional procedures when events or conditions are identified

Subsequent events review

The overall review

Auditing Practices Board Bulletin 2008/1

Audit evidence issues

The Companies Act 2006 and going concern issues

Summary

Practice question

# **Table of Contents**

## **Chapter 17: Audit reporting**

Objectives

Introduction

The audit report

The unqualified audit report

Introductory paragraphs

Scope paragraph

Opinion paragraph

Date, address and signature

Sample unqualified statutory auditors report

The modified (qualified) audit report

Matters that affect the auditors opinion

Matters that do not affect the auditors opinion

Inherent uncertainty and the auditors report

Disclaimer of responsibility

Comparison between SAS 600 and ISA 700

Management reports, internal audit and review reports

Summary

Practice question

## **Chapter 18: Public sector auditing**

Objectives

Introduction

What are the public sector organisations?

Accountability in the public sector

Parliamentary accountability

Other forms of accountability

Key points of accountability in the public sector

Accountability feedback

Public sector auditors

National Audit Office (NAO)

# **Table of Contents**

The Audit Commission

Devolved audit

External audit in the public sector

Internal audit in the public sector

External and internal audit relationships

Developments impacting on current auditing practices in the public sector

Local authority accountability issues reports in the public interest

Report in the public interest versus the qualified audit report

Housing associations and charities

Summary

Practice question

## **Chapter 19: Value-for-money audit and performance indicators in not-for-profit organisations**

Objectives

Introduction

The role of audit

External audit, internal audit and managements responsibilities for VFM

Statutory requirement for a VFM audit

VFM focus

Undertaking a VFM audit

Categories of VFM studies

### **Performance targets, measures and indicators**

The value of performance measurement

Internal and external performance measures that are used to enhance accountability

Evaluation of performance indicators

Setting of targets and measures

Limitations of performance indicators

Summary

Practice question

# **Table of Contents**

## Chapter 20: Emerging issues in auditing

- Objectives

- Introduction

- Forensic audit

  - Working with others

  - Forensic auditing and IT

  - The expert witness

- The development of the added value audit

- Changes in the nature of auditing

  - Globalisation

  - Wider use of technology

- The growth of audit assurance services

  - Management of risk

  - Risk management and audit

- Environmental audit

  - Auditor skills

  - Environmental issues that auditors may encounter

- Social audit

- Summary

- Practice question

- Index
