Principles of Managerial Finance Brief

EIGHTH EDITION

Chad J. Zutter • Scott B. Smart

Using proven, field-tested technology, auto-graded **Excel Projects** allow instructors to seamlessly integrate Microsoft Excel® content into their course without having to manually grade spreadsheets. Students have the opportunity to practice important **finance skills** in Excel, helping them to master key concepts and gain proficiency with the program.

% of students who found learning tool helpful

Dynamic Study Modules help students study chapter topics effectively on their own by continuously assessing their **knowledge application** and performance in real time. These are available as graded assignments prior to class, and accessible on smartphones, tablets, and computers.

Pearson eText enhances student learning—both in and outside the classroom. Take notes, highlight, and bookmark important content, or engage with interactive lecture and example videos that bring learning to life (available with select titles). Accessible anytime, anywhere via MyLab or the app.

The **MyLab Gradebook** offers an easy way for students and instructors to view course performance. Item Analysis allows instructors to quickly see trends by analyzing details like the number of students who answered correctly/incorrectly, time on task, and median time spend on a question by question basis. And because it's correlated with the AACSB Standards, instructors can track students' progress toward outcomes that the organization has deemed important in preparing students to be **leaders**.

88% 

of students would tell their instructor to keep using MyLab Finance

3. Financial Statements and Ratio Analysis

3.1. The Stockholders Report

The Letter to Stockholders

The Four Key Financial Statements

In Practice: Focus on Ethics: Earnings Shenanigans

Notes to the Financial Statements

Consolidating International Financial Statements

Review Questions

3.2. Using Financial Ratios

Interested Parties

Types of Ratio Comparisons

Cautions About Using Ratio Analysis

Review Questions

3.3. Liquidity Ratios

Current Ratio

Quick (Acid-Test) Ratio

Review Questions

3.4. Activity Ratios

Inventory Turnover

Average Collection Period

Average Payment Period

Total Asset Turnover

Review Question

3.5. Debt Ratios

Debt Ratio

Debt-to-Equity Ratio

Times Interest Earned Ratio

Fixed-Payment Coverage Ratio

Table of Contents

Review Questions

3.6. Profitability Ratios

Common-Size Income Statements

Gross Profit Margin

Operating Profit Margin

Net Profit Margin

Earnings Per Share (EPS)

Return on Total Assets (ROA)

Return on Equity (ROE)

Review Questions

3.7. Market Ratios

Price/Earnings (P/E) Ratio

Market/Book (M/B) Ratio

Review Question

3.8. A Complete Ratio Analysis

Summary of Whole Foods Financial Condition

DuPont System of Analysis

Review Questions

Summary

Self-Test Problems

Warm-Up Exercises

Problems

Spreadsheet Exercise

4. Long- and Short- Term Financial Planning

4.1. The Financial Planning Process

Long-Term (Strategic) Financial Plans

Short-Term (Operating) Financial Plans

Review Questions

4.2. Measuring the Firms Cash Flow

Depreciation

Depreciation Methods

Developing the Statement of Cash Flows

Free Cash Flow

In Practice: Focus on Ethics: Is Excess Cash Always a Good Thing?

Review Questions

Table of Contents

4.3. Cash Planning: Cash Budgets

The Sales Forecast

Preparing the Cash Budget

Evaluating the Cash Budget

Coping with Uncertainty in the Cash Budget

Cash Flow within the Month

Review Questions

4.4. Profit Planning: Pro Forma Statements

Preceding Years Financial Statements

Sales Forecast

Review Question

4.5. Preparing the Pro Forma Income Statement

Considering Types of Costs and Expenses

Review Questions

4.6. Preparing the Pro Forma Balance Sheet

Review Questions

4.7. Evaluation of Pro Forma Statements

Review Questions

Summary
