

GLOBAL
EDITION

Campbell Essential Biology with Physiology

SIXTH EDITION

Simon • Dickey • Reece

Brief Contents

1 Learning About Life 36

Unit 1 Cells 55

2 Essential Chemistry for Biology 56

3 The Molecules of Life 70

4 A Tour of the Cell 88

5 The Working Cell 108

6 Cellular Respiration: Obtaining Energy from Food 124

7 Photosynthesis: Using Light to Make Food 140

Unit 2 Genetics 153

8 Cellular Reproduction: Cells from Cells 154

9 Patterns of Inheritance 178

10 The Structure and Function of DNA 204

11 How Genes Are Controlled 230

12 DNA Technology 250

Unit 3 Evolution and Diversity 275

13 How Populations Evolve 276

14 How Biological Diversity Evolves 302

15 The Evolution of Microbial Life 326

16 The Evolution of Plants and Fungi 348

17 The Evolution of Animals 370

Unit 4 Ecology 405

18 An Introduction to Ecology and the Biosphere 406

19 Population Ecology 436

20 Communities and Ecosystems 458

Unit 5 Animal Structure and Function 487

21 Unifying Concepts of Animal Structure and Function 488

22 Nutrition and Digestion 508

23 Circulation and Respiration 528

24 The Body's Defenses 550

25 Hormones 568

26 Reproduction and Development 584

27 Nervous, Sensory, and Locomotor Systems 608

Unit 6 Plant Structure and Function 637

28 The Life of a Flowering Plant 638

29 The Working Plant 658

Campbell Essential Biology with Physiology, Global Edition

About the Authors

Preface

Acknowledgments

Detailed Contents

Chapter 1 Learning About Life

Chapter Thread Swimming with the Turtles

Biology and Society A Passion for Life

The Scientific Study of Life

An Overview of the Process of Science

Hypotheses, Theories, and Facts

Controlled Experiments

The Process of Science Do Baby Turtles Swim?

Evaluating Scientific Claims

The Properties of Life

Major Themes in Biology

The Relationship of Structure to Function

Information Flow

Pathways That Transform Energy and Matter

Interactions within Biological Systems

Evolution

Evolution Connection Turtles in the Tree of Life

Unit 1 Cells

Chapter 2 Essential Chemistry for Biology

Chapter Thread Helpful Radiation

Biology and Society Nuclear Medicine

Some Basic Chemistry

Matter: Elements and Compounds

Table of Contents

Atoms

The process of science How Effective Is Radiation in Treating Prostate Cancer?

Chemical Bonding and Molecules

Chemical Reactions

Water and Life

Water

Acids, Bases, and pH

Evolution Connection Radioactivity as an Evolutionary Clock

Chapter 3 The Molecules of Life

Chapter Thread Lactose Intolerance

Biology and Society Got Lactose?

Organic Compounds

Carbon Chemistry

Giant Molecules from Smaller Building Blocks

Large Biological Molecules

Carbohydrates

Lipids

Proteins

Nucleic Acids

The Process of Science Does Lactose Intolerance Have a Genetic Basis?

Evolution Connection The Evolution of Lactose Intolerance in Humans

Chapter 4 A Tour of the Cell

Chapter Thread Humans Versus Bacteria

Biology and Society Antibiotics: Drugs That Target Bacterial Cells

The Microscopic World of Cells

The Two Major Categories of Cells

An Overview of Eukaryotic Cells

Membrane Structure

The Plasma Membrane

Cell Surfaces

The Process of Science How Was the First 21st-Century Antibiotic Discovered?

The Nucleus and Ribosomes: Genetic Control of the Cell

The Nucleus

Ribosomes

How DNA Directs Protein Production

The Endomembrane System: Manufacturing and Distributing Cellular Products

The Endoplasmic Reticulum

The Golgi Apparatus

Lysosomes

Table of Contents

Vacuoles

Chloroplasts and Mitochondria: Providing Cellular Energy

Chloroplasts

Mitochondria

The Cytoskeleton: Cell Shape and Movement

Maintaining Cell Shape

Flagella and Cilia

Evolution Connection The Evolution of Bacterial Resistance in Humans

Chapter 5 The Working Cell

Chapter Thread Nanotechnology

Biology and Society Harnessing Cellular Structures

Some Basic Energy Concepts

Conservation of Energy

Chemical Energy

Heat

Food Calories

ATP and Cellular Work

The Structure of ATP

Phosphate Transfer

The ATP Cycle

Enzymes

Activation Energy

The Process of Science Can Enzymes Be Engineered?

Enzyme Activity

Enzyme Inhibitors

Membrane Function

Passive Transport: Diffusion across Membranes

Osmosis and Water Balance

Active Transport: The Pumping of Molecules across Membranes

Exocytosis and Endocytosis: Traffic of Large Molecules

Evolution Connection The Origin of Membranes

Chapter 6 Cellular Respiration: Obtaining Energy from Food

Chapter Thread Exercise Science

Biology and Society Getting the Most Out of Your Muscles

Energy Flow and Chemical Cycling in the Biosphere

Producers and Consumers

Chemical Cycling between Photosynthesis and Cellular Respiration

Cellular Respiration: Aerobic Harvest of Food Energy

An Overview of Cellular Respiration

Table of Contents

The Three Stages of Cellular Respiration

The Results of Cellular Respiration

Fermentation: Anaerobic Harvest of Food Energy

Fermentation in Human Muscle Cells

The Process of Science What Causes Muscle Burn?

Fermentation in Microorganisms

Evolution Connection The Importance of Oxygen

Chapter 7 Photosynthesis: Using Light to make Food

Chapter Thread Solar Energy

Biology and Society A Solar Revolution

The Basics of Photosynthesis

Chloroplasts: Sites of Photosynthesis

An Overview of Photosynthesis

The Light Reactions: Converting Solar Energy to Chemical Energy

The Nature of Sunlight

The Process of Science What Colors of Light Drive Photosynthesis?

Chloroplast Pigments

How Photosystems Harvest Light Energy

How the Light Reactions Generate ATP and NADPH

The Calvin Cycle: Making Sugar from Carbon Dioxide

Evolution Connection Creating a Better Biofuel Factory

Unit 2 Genetics

Chapter 8 Cellular Reproduction: Cells from Cells

Chapter Thread Life with and without Sex

Biology and Society Virgin Birth of a Shark

What Cell Reproduction Accomplishes

The Cell Cycle and Mitosis

Eukaryotic Chromosomes

Duplicating Chromosomes

The Cell Cycle

Mitosis and Cytokinesis

Cancer Cells: Dividing Out of Control

Meiosis, the Basis of Sexual Reproduction

Homologous Chromosomes

Gametes and the Life Cycle of a Sexual Organism

The Process of Meiosis

Review: Comparing Mitosis and Meiosis

The Origins of Genetic Variation

The process of Science Do All Animals Have Sex?

Table of Contents

When Meiosis Goes Wrong

Evolution Connection The Advantages of Sex

Chapter 9 Patterns of Inheritance

Chapter Thread Dog Breeding

Biology and Society Darwins Dogs

Genetics and Heredity

In an Abbey Garden

Mendels Law of Segregation

Mendels Law of Independent Assortment

Using a Testcross to Determine an Unknown Genotype

The Rules of Probability

Family Pedigrees

Human Traits Controlled by a Single Gene

The Process of Science What Is the Genetic Basis of Short Legs in Dogs?

Variations on Mendels Laws

Incomplete Dominance in Plants and People

ABO Blood Groups: An Example of Multiple Alleles and Codominance

Pleiotropy and Sickle-Cell Disease

Polygenic Inheritance

Epigenetics and the Role of Environment

The Chromosomal Basis of Inheritance

Linked Genes

Sex-Linked Genes

Sex Determination in Humans

Evolution Connection Barking Up the Evolutionary Tree

Chapter 10 The Structure and Function of DNA

Chapter Thread Deadly Viruses

Biology and Society The Global Threat of Zika Virus

DNA: Structure and Replication

DNA and RNA Structure

Watson and Cricks Discovery of the Double Helix

DNA Replication

From DNA to RNA to Protein

How an Organisms Genotype Determines Its Phenotype

From Nucleotides to Amino Acids: An Overview

The Genetic Code

Transcription: From DNA to RNA

The Processing of Eukaryotic RNA

Translation: The Players

Translation: The Process

Table of Contents

Review: DNA S RNA S Protein

Mutations

Viruses and Other Noncellular Infectious Agents

Bacteriophages

Plant Viruses

Animal Viruses

The Process of Science Can DNA and RNA Vaccines Protect Against Viruses?

HIV, the AIDS Virus

Prions

Evolution Connection Emerging Viruses

Chapter 11 How Genes Are Controlled

Chapter Thread Cancer

Biology and Society Breast Cancer and Chemotherapy

How and Why Genes Are Regulated

Gene Regulation in Bacteria

Gene Regulation in Eukaryotic Cells

Cell Signaling

Homeotic Genes

Visualizing Gene Expression

Cloning Plants and Animals

The Genetic Potential of Cells

Reproductive Cloning of Animals

Therapeutic Cloning and Stem Cells

The Genetic Basis of Cancer

Genes That Cause Cancer

The Process of Science Can Avatars Improve Cancer Treatment?

Cancer Risk and Prevention

Evolution Connection The Evolution of Cancer in the Body

Chapter 12 DNA Technology

Chapter Thread DNA Profiling

Biology and Society Using DNA to Establish Guilt and Innocence

Genetic Engineering

Recombinant DNA Techniques

Gene Editing

Medical Applications

Genetically Modified Organisms in Agriculture

Human Gene Therapy

DNA Profiling and Forensic Science

DNA Profiling Techniques

Investigating Murder, Paternity, and Ancient DNA

Table of Contents

Bioinformatics

- DNA Sequencing

- Genomics

- Genome-Mapping Techniques

- The Human Genome

The Process of Science Did Nic Have a Deadly Gene?

- Applied Genomics

- Systems Biology

Safety and Ethical Issues

- The Controversy over Genetically Modified Foods

- Ethical Questions Raised by Human DNA Technologies

Evolution Connection The Y Chromosome as a Window on History

Unit 3 EvolutionandDiversity

Chapter 13 How Populations Evolve

- Chapter Thread Evolution in Action

- Biology and Society Mosquitoes and Evolution

The Diversity of Life

- Naming and Classifying the Diversity of Life

- Explaining the Diversity of Life

Charles Darwin and The Origin of Species

- Darwins Journey

- Darwins Theory

Evidence of Evolution

- Evidence from Fossils

- Evidence from Homologies

- Evolutionary Trees

Natural Selection as the Mechanism for Evolution

- Natural Selection in Action

- Key Points about Natural Selection

The Evolution of Populations

- Sources of Genetic Variation

- Populations as the Units of Evolution

- Analyzing Gene Pools

- Population Genetics and Health Science

- Microevolution as Change in a Gene Pool

Mechanisms of Evolution

- Natural Selection

- Genetic Drift

- Gene Flow

- Natural Selection: A Closer Look

Table of Contents

The Process of Science Did Natural Selection Shape the Beaks of Darwins Finches?

Evolution Connection The Rising Threat of Antibiotic Resistance

Chapter 14 How Biological Diversity Evolves

Chapter Thread Evolution in the Human-Dominated World

Biology and Society Humanity's Footprint

The Origin of Species

What is a Species?

Reproductive Barriers between Species

Mechanisms of Speciation

The Process of Science Do Human Activities Facilitate Speciation?

Earth History and Macroevolution

The Fossil Record

Plate Tectonics and Biogeography

Mass Extinctions and Explosive Diversifications of Life

Mechanisms of Macroevolution

Large Effects from Small Genetic Changes

The Evolution of Biological Novelty

Classifying the Diversity of Life

Classification and Phylogeny

Classification: A Work in Progress

Evolution Connection Evolution in the Anthropocene

Chapter 15 The Evolution of Microbial Life

Chapter Thread Human Microbiota

Biology and Society Our Invisible Inhabitants

Major Episodes in the History of Life

The Origin of Life

A Four-Stage Hypothesis for the Origin of Life

From Chemical Evolution to Darwinian Evolution

Prokaryotes

They're Everywhere!

The Structure and Function of Prokaryotes

The Ecological Impact of Prokaryotes

The Two Main Branches of Prokaryotic Evolution: Bacteria and Archaea

The Process of Science Are Intestinal Microbiota to Blame for Obesity?

Protists

Protozoans

Slime Molds

Unicellular and Colonial Algae

Seaweeds

Evolution Connection The Sweet Life of *Streptococcus mutans*

Table of Contents

Chapter 16 The Evolution of Plants and Fungi

Chapter Thread Plant-Fungus Interactions

Biology and Society The Diamond of the Kitchen

Colonizing Land

Terrestrial Adaptations of Plants

The Origin of Plants from Green Algae

Plant Diversity

Highlights of Plant Evolution

Bryophytes

Ferns

Gymnosperms

Angiosperms

Plant Diversity as a Nonrenewable Resource

Fungi

Characteristics of Fungi

The Process of Science What Killed the Pines?

The Ecological Impact of Fungi

Commercial Uses of Fungi

Evolution Connection A Pioneering Partnership

Chapter 17 The Evolution of Animals

Chapter Thread Human Evolution

Biology and Society Evolving Adaptability

The Origins of Animal Diversity

What is an Animal?

Early Animals and the Cambrian Explosion

Animal Phylogeny

Major Invertebrate Phyla

Sponges

Cnidarians

Molluscs

Flatworms

Annelids

Roundworms

Arthropods

Echinoderms

Vertebrate Evolution and Diversity

Characteristics of Chordates

Fishes

Amphibians

Reptiles

Table of Contents

Mammals

The Human Ancestry

The Evolution of Primates

The Emergence of Humankind

The Process of Science What Can Lice Tell Us About Ancient Humans?

Evolution Connection Are We Still Evolving?

Unit 4 Ecology

Chapter 18 An Introduction to Ecology and the Biosphere

Chapter Thread Climate Change

Biology and Society Penguins, Polar Bears, and People in Peril

An Overview of Ecology

Ecology and Environmentalism

A Hierarchy of Interactions

Living in Earth's Diverse Environments

Abiotic Factors of the Biosphere

The Evolutionary Adaptations of Organisms

Adjusting to Environmental Variability

Biomes

Freshwater Biomes

Marine Biomes

How Climate Affects Terrestrial Biome Distribution

Terrestrial Biomes

The Water Cycle

Human Impact on Biomes

Climate Change

The Greenhouse Effect and Global Warming

The Accumulation of Greenhouse Gases

Effects of Climate Change on Ecosystems

The Process of Science How Does Climate Change Affect Species Distribution?

Looking to Our Future

Evolution Connection Climate Change as an Agent of Natural Selection

Chapter 19 Population Ecology

Chapter Thread Biological Invasions

Biology and Society Invasion of the Lionfish

An Overview of Population Ecology

Population Age Structure

Population Density

Life Tables and Survivorship Curves

Life History Traits as Adaptations

Population Growth Models

Table of Contents

The Exponential Population Growth Model: The Ideal of an Unlimited Environment

The Logistic Population Growth Model: The Reality of a Limited Environment

Regulation of Population Growth

Applications of Population Ecology

Conservation of Endangered Species

Sustainable Resource Management

Invasive Species

Biological Control of Pests

The Process of Science Can Fences Stop Cane Toads?

Integrated Pest Management

Human Population Growth

The History of Human Population Growth

Age Structures

Our Ecological Footprint

Evolution Connection Humans as an Invasive Species

Chapter 20 Communities and Ecosystems

Chapter Thread Importance of Biodiversity

Biology and Society Why Biodiversity Matters

Biodiversity

Genetic Diversity

Species Diversity

Ecosystem Diversity

Causes of Declining Biodiversity

Community Ecology

Interspecific Interactions

Trophic Structure

Species Diversity in Communities

Disturbances and Succession in Communities

Ecological Succession

Ecosystem Ecology

Energy Flow in Ecosystems

Chemical Cycling in Ecosystems

Conservation and Restoration Biology

Biodiversity Hot Spots

Conservation at the Ecosystem Level

The Process of Science Does Biodiversity Protect Human Health?

Restoring Ecosystems

The Goal of Sustainable Development

Evloution Connection Saving the Hot Spots

Unit 5 Animal Structure and Function

21 Unifying Concepts Of Animal Structure And Function

Chapter Thread Controlling Body Temperature

Table of Contents

Biology and Society An Avoidable Tragedy

The Structural Organization Of Animals

Anatomy and Physiology

Tissues

Organs and Organ Systems

Exchanges With the External Environment

Regulating The Internal Environment

Homeostasis

Negative and Positive Feedback

Thermoregulation

The Process of Science How Does a Python Warm Her Eggs?

Osmoregulation

Homeostasis In The Urinary System

Evolution Connection Adaptations for Thermoregulation

22 Nutrition and Digestion

Chapter Thread Controlling Your Weight

Biology and Society The Secret To Shedding Pounds

An Overview of Animal Nutrition

Animal Diets

The Four Stages of Food Processing

Digestive Compartments

A Tour of the Human Digestive System

System Map

The Mouth

The Pharynx

The Esophagus

The Stomach

The Small Intestine

The Human Microbiome

The Large Intestine

Human Nutritional Requirements

Food as Fuel

Food as Building Material

Decoding Food Labels

Nutritional Disorders

Malnutrition

Eating Disorders

Obesity

The Process of Science Can a Gene Make You Fat?

Evolution Connection Fat and Sugar Cravings

23 Circulation and Respiration

Chapter Thread Athletic Endurance

Biology and Society Avoiding The Wall

Table of Contents

Unifying Concepts of Animal Circulation

The Human Cardiovascular System

- The Path of Blood

- How the Heart Works

- Blood Vessels

- Blood

The Process of Science Live High, Train Low?

Cardiovascular Disease

Unifying Concepts of Animal Respiration

The Human Respiratory System

- The Path of Air

- The Brains Control over Breathing

- The Role of Hemoglobin in Gas Transport

- The Toll of Smoking on the Lungs

Evolution Connection Evolving Endurance

24 The Bodys Defenses

Chapter Thread Vaccines

Biology and Society Herd Immunity

- An Overview of the Immune System

- Innate Immunity

 - External Innate Defenses

 - Internal Innate Defenses

- The Lymphatic System

 - Circulatory Function

 - Immune Function

- Adaptive Immunity

 - Step 1: Recognizing the Invaders

 - Step 2: Cloning the Responders

 - Step 3: Responding to Invaders

 - Step 4: Remembering Invaders

The Process of Science How Do We Know Vaccines Work?

- Immune Disorders

 - Allergies

 - Autoimmune Diseases

 - Immuno Deficiency Diseases

 - AIDS

Evolution Connection Viral Evolution Versus The Flu Vaccine

25 Hormones

Chapter Thread Steroid Abuse

Biology and Society Baseballs Ongoing Steroid Problem

- Hormones: An Overview

- The Human Endocrine System

Table of Contents

The Hypothalamus and Pituitary Gland

The Thyroid and Metabolism

The Pancreas and Blood Glucose

The Adrenal Glands and Stress

The Gonads and Sex Hormones

Mimicking Sex Hormones

The Process of Science Do Roids Cause Rage?

Evolution Connection Steroids and Male Aggression

26 Reproduction and Development

Chapter Thread High-Tech Babies

Biology and Society New Ways of Making Babies

Unifying Concepts of Animal Reproduction

Asexual Reproduction

Sexual Reproduction

Human Reproduction

Male Reproductive Anatomy

Female Reproductive Anatomy

Gametogenesis

The Female Reproductive Cycle

Reproductive Health

Contraception

Sexually Transmitted Infections

Human Development

Fertilization By Sperm

Basic Concepts of Embryonic Development

Pregnancy and Early Development

The Stages of Pregnancy

Childbirth

Reproductive Technologies

Infertility

In Vitro Fertilization

The Process of Science Are Babies Conceived Through In Vitro Fertilization As Healthy As Babies

Conceived Naturally?

The Ethics of IVF

Evolution Connection The Grandmother Hypothesis

27 Nervous, Sensory, And Locomotor Systems

Chapter Thread Neurotoxins

Biology and Society Medicinal Poisons

An Overview of Animal Nervous Systems

Neurons

Organization of Nervous Systems

Sending a Signal Through a Neuron

Passing a Signal From a Neuron to a Receiving Cell

The Human Nervous System: A Closer Look

Table of Contents

The Central Nervous System
The Peripheral Nervous System
The Human Brain

The Senses

Sensory Input
Vision
Hearing

Locomotor Systems

The Skeletal System
The Muscular System

The Process of Science Can Botulism Toxin Prevent Headaches?

Stimulus and Response: Putting It All Together

Evolution Connection A Neurotoxin Arms Race

Unit 6 Plant Structure and Function

28 The Life of a Flowering Plant

Chapter Thread Agriculture

Biology and Society The Buzz on Coffee Plants

The Structure and Function of a Flowering Plant

Monocots and Eudicots
Roots, Stems, and Leaves
Plant Tissues and Tissue Systems
Plant Cells

Plant Growth

Primary Growth: Lengthening
Secondary Growth: Thickening

The Process of Science What Happened to the Lost Colony of Roanoke?

The Life Cycle of a Flowering Plant

The Flower
Overview of the Flowering Plant Life Cycle
Pollination and Fertilization
Seed Formation
Fruit Formation
Seed Germination

Evlolution Connection The Problem of The Disappearing Bees

29 The Working Plant

Chapter Thread The Interdependence of Organisms

Biology and Society Planting Hope In The Wake of Disaster

How Plants Acquire and Transport Nutrients

Plant Nutrition
From The Soil Into the Roots
The Role of Bacteria in Nitrogen Nutrition
The Transport of Water
The Transport of Sugars

Table of Contents

The Process of Science Can The Pressure Flow Mechanism Be Directly Measured?

Economic Uses of Plant Transport Products

Plant Hormones

Auxins

Cytokinins

Ethylene

Gibberellins

Absciscic Acid

Response to Stimuli

Tropisms

Photoperiodism

Evolution Connection Plants, Bugs, and People

Appendices

A Metric Conversion Table

B The Periodic Table

C Credits

D Selected Answers

Glossary
