Engaging Videos explore a variety of business topics related to the theory students are learning in class. **Exercise Quizzes** assess students' comprehension of the concepts in each video.

Personal Inventory Assessments is a collection of online exercises designed to promote **self-reflection** and engagement in students, enhancing their ability to connect with management concepts.

"I most liked the Personal Inventory Assessments because they gave me a deeper understanding of the chapters. I would read about personalities and then find out which category I fit into using the assessment."

— Student, Kean University

Dynamic Study Modules use the latest developments in cognitive science and help students study chapter topics by adapting to their performance in real time.
