Prepare, Apply, Confirm and Develop Employability Skills with MyLab Finance

MyLab™ Finance is an online homework, tutorial, and assessment program constructed to work with this text to engage students and improve results. It was designed to help students develop and assess the skills and applicable knowledge that they will need to succeed in their courses and their future careers.

85% 

of students said MyLab Finance helped them earn higher grades on homework, exams, or the course

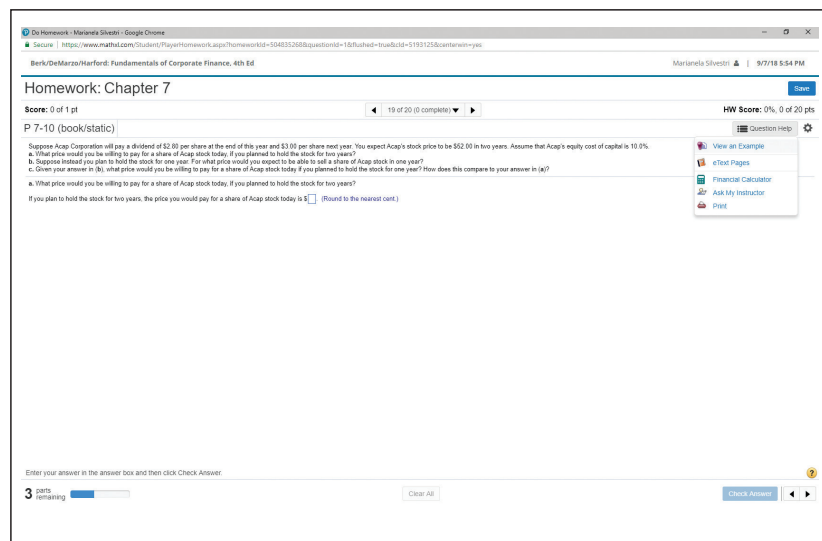

See what more than 30,000 students had to say about MyLab Finance:

"MyLab Finance's primary benefit was that it helped me to learn how to solve problems and not just memorize information."

— Student,
Southern New Hampshire University

*Source: 2017 Student Survey, n 4703

Question Help consists of homework and practice questions to give students unlimited opportunities to master concepts. **Learning aids** walk students through the problem—giving them assistance when they need it most.
