About the Authors

Chapter Contributors

Preface

Acknowledgments

Brief Contents

Contents

PART 1: Introduction and Basic Concepts

1 Definition and Characteristics of Applied Behavior Analysis

Science: Basic Characteristics and a Definition

A Brief History of Behavior Analysis

Characteristics of Applied Behavior Analysis

A Definition of Applied Behavior Analysis

Summary

2 Basic Concepts and Principles

Behavior

Environment

Respondent Behavior

Operant Behavior

Recognizing the Complexity of Human Behavior

Summary

PART 2: Selecting, Defining, and Measuring Behavior

3 Selecting and Defining Target Behaviors

Role of Assessment in Applied Behavior Analysis

Assessment Methods Used by Behavior Analysts

Assessing the Social Significance of Potential Target Behaviors

Prioritizing Target Behaviors

Defining Target Behaviors

Table of Contents

Setting Criteria for Behavior Change

Summary

4 Measuring Behavior

Definition and Functions of Measurement in Applied Behavior Analysis

Measurable Dimensions of Behavior

Methods for Measuring Behavior

Measuring Behavior by Permanent Products

Measurement Tools

Selecting a Measurement Method

Summary

5 Improving and Assessing the Quality of Behavioral Measurement

Indicators of Trustworthy Measurement

Threats to Valid Measurement

Threats to Accurate and Reliable Measurement

Assessing the Accuracy and Reliability of Behavioral Measurement

Using Interobserver Agreement to Assess Behavioral Measurement

Summary

PART 3: Evaluating and Analyzing Behavior Change

6 Constructing and Interpreting Graphic Displays of Behavioral Data

Purpose and Benefits of Graphic Displays of Behavioral Data

Graphs Used by Applied Behavior Analysts

Constructing Line Graphs

Interpreting Graphically Displayed Behavioral Data

Summary

7 Analyzing Behavior Change: Basic Assumptions and Strategies

Concepts and Assumptions Underlying the Analysis of Behavior

Components of Applied Behavior Analysis Experiments

Steady State Strategy and Baseline Logic

Summary

8 Reversal and Multielement Designs

Reversal Design

Multielement Design

Summary

9 Multiple Baseline and Changing Criterion Designs

Multiple Baseline Design

Changing Criterion Design

Summary

Table of Contents

10 Planning and Evaluating Applied Behavior Analysis Research

Importance of the Individual Subject in Behavior Analysis Research

Importance of Flexibility in Experimental Design

Internal Validity: Controlling Potential Sources of Confounding in Experimental Design

Social Validity: Assessing the Applied Value of Behavior Changes and the Treatments That Accomplish Them

External Validity: Replicating Experiments to Determine the Generality of Research Findings

Evaluating Applied Behavior Analysis Research

Summary

PART 4: Reinforcement

11 Positive Reinforcement

Positive Reinforcement Defined

Classifying Reinforcers

Identifying Potential Reinforcers

Control Procedures for Positive Reinforcement

Using Reinforcement Effectively

Summary

12 Negative Reinforcement

Definition of Negative Reinforcement

Escape and Avoidance Contingencies

Characteristics of Negative Reinforcement

Applications of Negative Reinforcement

Changes in Teacher and Caregiver Responding as a Function of Negative Reinforcement

Ethical Considerations in Using Negative Reinforcement

Summary

13 Schedules of Reinforcement

Intermittent Reinforcement

Defining Basic Intermittent Schedules of Reinforcement

Schedule Effects and Consistency of Performance

Thinning Intermittent Reinforcement

Variations on Basic Intermittent Schedules of Reinforcement

Compound Schedules of Reinforcement

Perspectives on Using Schedules of Reinforcement in Applied Settings

Summary

PART 5: Punishment

14 Positive Punishment

Definition and Characteristics of Punishment

Table of Contents

Factors That Influence the Effectiveness of Punishment
Possible Side Effects and Problems with Punishment
Positive Punishment Interventions
Guidelines for Using Punishment
Ethical Considerations Regarding the use of Punishment
Concluding Perspectives
Summary

15 Negative Punishment

Time-Out from Positive Reinforcement Defined
Time-Out Tactics for Applied Settings
Using Time-Out Effectively
Response Cost Defined
Response Cost Methods
Using Response Cost Effectively
Response Cost Considerations
Summary

PART 6: Antecedent Variables

16 Motivating Operations

Definition and Characteristics of Motivating Operations
Distinguishing Between MOs and SDs
Unconditioned Motivating Operations (UMOs)
MOs for Punishment
Multiple Effects of MOs
Conditioned Motivating Operations (CMOs)
Relevance of MOs to the Generality of Treatment Effects
Relevance of MOs to Applied Behavior Analysis
Summary

17 Stimulus Control

Stimulus Control: Basic Concepts and Processes
Developing Stimulus Control
Transferring Stimulus Control
Summary

PART 7: Verbal Behavior

18 Verbal Behavior

Skinner's (1957) Analysis of Verbal Behavior
The Verbal Operants and Listener Behavior in More Detail
Listener Behavior

Table of Contents

Autoclitic Verbal Behavior
Applications of Skinners (1957) Analysis of Verbal Behavior
Applications to Language Assessment and Intervention
The Loss of Verbal Behavior
Summary

PART 8: Developing New Behavior

19 Equivalence-based Instruction

Research Foundations and Core Concepts
Designing Equivalence-Based Instruction
Applications and Generality
Applications Stemming from Alternative Theoretical Approaches to Relational Responding
Concluding Remarks
Summary

20 Engineering Emergent Learning with Nonequivalence Relations

What are Nonequivalence Relations? Why do They Matter?
The Vocabulary of Nonequivalence Relations
Some Types of Nonequivalence Relations
Theoretical Foundations
Nonequivalence Relations and Big-Picture Psychological Constructs
Derived Stimulus Relations and General Well-Being
A Final Comment
Summary

21 Imitation, Modeling, and Observational Learning

Imitation
Modeling
Observational Learning
Summary

22 Shaping

Shaping Defined
Shaping Across and Within Response Topographies
Increasing Shaping Efficiency
Clicker Training
Emerging Applications of Shaping
Shaping Guidelines
Learning to Shape
Summary

23 Chaining

Table of Contents

- Behavior Chain Defined
- Rationale for Chaining
- Establishing Behavior Chains with Task Analysis
- Behavior Chaining Methods
- Choosing a Chaining Method
- Disrupting and Breaking Behavior Chains
- Troubleshooting Chains
- Factors Affecting the Performance of Behavior Chains
- Summary

PART 9: Decreasing Behavior with Nonpunishment Procedures

24 Extinction

- Extinction Defined
- Extinction Procedures
- Secondary Effects of Extinction
- Variables Affecting Resistance to Extinction
- Using Extinction Effectively
- When Not to Use Extinction
- Summary

25 Differential Reinforcement

- Differential Reinforcement Defined
- Differential Reinforcement of Alternative Behavior (DRA)
- Differential Reinforcement of Other Behavior (DRO)
- Differential Reinforcement of Low Rates of Responding (DRL)
- Summary

26 Antecedent Interventions

- Defining and Classifying Antecedent Interventions
- Noncontingent Reinforcement
- High-Probability Instructional Sequence
- Functional Communication Training
- Default Interventions
- Summary

PART 10: Functional Assessment

27 Functional Behavior Assessment

- Functions of Behavior
- Role of Functional Behavior Assessment in Intervention and Prevention
- Overview of FBA Methods
- Conducting a Functional Behavior Assessment

Table of Contents

Case Examples Illustrating the FBA Process

Summary

PART 11: Special Applications

28 Token Economy, Group Contingencies, and Contingency Contracting

Token Economy

Group Contingencies

Contingency Contracting

Summary

29 Self-Management

The Self as Behavior Controller

Self-Management Defined

Applications, Advantages, and Benefits of Self-Management

Antecedent-Based Self-Management Tactics

Self-Monitoring

Self-Administered Consequences

Other Self-Management Tactics

Suggestions for Effective Self-Management Programs

Behavior Changes Behavior

Summary

PART 12: Promoting Generalized Behavior Change

30 Generalization and Maintenance of Behavior Change

Generalized Behavior Change: Definitions and Key Concepts

Planning for Generalized Behavior Change

Strategies and Tactics for Promoting Generalized Behavior Change

Modifying and Terminating Successful Interventions

Guiding Principles for Promoting Generalized Outcomes

Summary

PART 13: Ethics

31 Ethical and Professional Responsibilities of Applied Behavior Analysts

What Is Ethics and Why Is It Important?

Standards of Professional Practice for Applied Behavior Analysts

Ensuring Professional Competence

Ethical Issues in Client Services

Coordinating with Other Professionals

Social Media and New Technologies

Advocating for the Client

Table of Contents

Conflict of Interest

Creating a Culture of Ethical Practice

Conclusion

Summary
