Macroeconomics: Flexibility Chart

Part I: Introduction to Economics

Chapter 1: The Principles and Practice of Economics

1.1 The Scope of Economics

Economic Agents and Economic Resources

Definition of Economics

Positive Economics and Normative Economics

Microeconomics and Macroeconomics

1.2 Three Principles of Economics

1.3 The First Principle of Economics: Optimization

Trade-offs and Budget Constraints

Opportunity Cost

Cost-Benefit Analysis

Evidence-Based Economics: Is Facebook free?

1.4 The Second Principle of Economics: Equilibrium

The Free-Rider Problem

1.5 The Third Principle of Economics: Empiricism

1.6 Is Economics Good for You?

Summary

Key Terms

Questions

# Table of Contents

Evidence-Based Economics Problems

Problems

## Chapter 2: Economic Science: Using Data and Models to Understand the World

### 2.1 The Scientific Method

Models and Data

An Economic Model

Evidence-Based Economics: How much more does a worker with a 4-year college degree earn compared to a worker with a high school degree?

Means and Medians

Argument by Anecdote

### 2.2 Causation and Correlation

The Red Ad Blues

Causation Versus Correlation

Choice & Consequence: Spend Now and Pay Later?

Experimental Economics and Natural Experiments

Evidence-Based Economics: What is the return to education?

### 2.3 Economic Questions and Answers

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

### Appendix: Constructing and Interpreting Charts and Graphs

A Study about Incentives

Experimental Design

Describing Variables

Cause and Effect

Appendix Key Terms

Appendix Problems

## Chapter 3: Optimization: Trying to Do the Best You Can

### 3.1 Optimization: Trying to Choose the Best Feasible Option

Choice & Consequence: Do People Actually Choose the Best Feasible Option?

### 3.2 Optimization Application: Renting the Optimal Apartment

Before and After Comparisons

### 3.3 Optimization Using Marginal Analysis

Marginal Cost

Evidence-Based Economics: How does location affect the rental cost of housing?

Summary

Key Terms

# **Table of Contents**

Questions

Evidence-Based Economics Problems

Problems

## **Chapter 4: Demand, Supply, and Equilibrium**

### **4.1 Markets**

Competitive Markets

### **4.2 How Do Buyers Behave?**

Demand Curves

Willingness to Pay

From Individual Demand Curves to Aggregated Demand Curves

Building the Market Demand Curve

Shifting the Demand Curve

Evidence-Based Economics: How much more gasoline would people buy if its price were lower?

### **4.3 How Do Sellers Behave?**

Supply Curves

Willingness to Accept

From the Individual Supply Curve to the Market Supply Curve

Shifting the Supply Curve

### **4.4 Supply and Demand in Equilibrium**

Curve Shifting in Competitive Equilibrium

Letting the Data Speak: Technological Breakthroughs Drive Down the Equilibrium Price of Oil

Letting the Data Speak: The Day Oil Became Garbage

### **4.5 What Would Happen If the Government Tried to Dictate the Price of Gasoline?**

Choice & Consequence: The Unintended Consequences of Fixing Market Prices

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## **Part II: Introduction to Macroeconomics**

### **Chapter 5: The Wealth of Nations: Defining and Measuring Macroeconomic Aggregates**

#### **5.1 Macroeconomic Questions**

#### **5.2 National Income Accounts: Production = Expenditure = Income**

Production

Expenditure

Income

Circular Flows

National Income Accounts: Production

# Table of Contents

National Income Accounts: Expenditure

Evidence-Based Economics: In the United States, what is the total market value of annual economic production?

Letting the Data Speak: Saving versus Investment

National Income Accounting: Income

## 5.3 What Isn't Measured by GDP?

Physical Capital Depreciation

Home Production

The Underground Economy

Externalities

Gross Domestic Product versus Gross National Product

The Increase in Income Inequality

Leisure

Does GDP Buy Happiness?

## 5.4 Real versus Nominal

The GDP Deflator

The Consumer Price Index

Inflation

Adjusting Nominal Variables

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## Chapter 6: Aggregate Incomes

### 6.1 Inequality Around the World

Measuring Differences in GDP per Capita

Letting the Data Speak: The Big Mac Index

Cross-Country Differences in GDP per capita

GDP per Worker

Productivity

Incomes and the Standard of Living

Choice & Consequence: Dangers of Just Focusing on GDP per Capita

### 6.2 Productivity and the Aggregate Production Function

Productivity Differences

The Aggregate Production Function

Labor

Physical Capital and Land

Technology

Representing the Aggregate Production Function

### 6.3 The Role and Determinants of Technology

# Table of Contents

Technology

Dimensions of Technology

Letting the Data Speak: Moores Law

Choice & Consequence: Academic Misallocation in Nazi Germany

Letting the Data Speak: Efficiency of Production and Productivity at the Company Level

Entrepreneurship

Letting the Data Speak: Monopoly and GDP

Evidence-Based Economics: Why is the average American so much richer than the average Indian?

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

Appendix: The Mathematics of Aggregate Production Functions

## Part III: Long-Run Growth and Development

### Chapter 7: Economic Growth

#### 7.1 The Power of Economic Growth

A First Look at U.S. Growth

Exponential Growth

Choice & Consequence: The Power of Exponential Growth

Patterns of Growth

Letting the Data Speak: Levels versus Growth

#### 7.2 How Does a Nations Economy Grow?

Optimization: The Choice Between Saving and Consumption

What Brings Sustained Growth?

Choice & Consequence: Is Increasing the Saving Rate Always a Good Idea?

Knowledge, Technological Change, and Growth

Letting the Data Speak: Technology and Life Expectancy

#### 7.3 The History of Growth and Technology

Growth Before Modern Times

Letting the Data Speak: The Great Productivity Puzzle

Evidence-Based Economics: Why are you so much more prosperous than your great-great-grandparents were?

Malthusian Limits to Growth

The Industrial Revolution

Growth and Technology Since the Industrial Revolution

#### 7.4 Growth, Inequality, and Poverty

Growth and Inequality

Growth and Poverty

Letting the Data Speak: Income Inequality in the United States

Choice & Consequence: Inequality versus Poverty

# Table of Contents

How Can We Reduce Poverty?

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

Appendix: The Solow Growth Model

The Three Building Blocks of the Solow Model

Steady-State Equilibrium in the Solow Model

Determinants of GDP

Dynamic Equilibrium in the Solow Model

Sources of Growth in the Solow Model

Calculating Average (Compound) Growth Rates

Appendix Key Terms

Appendix Problems

## Chapter 8: Why Isn't the Whole World Developed?

### 8.1 Proximate Versus Fundamental Causes of Prosperity

Geography

Culture

Institutions

A Natural Experiment of History

### 8.2 Institutions and Economic Development

Inclusive and Extractive Economic Institutions

How Economic Institutions Affect Economic Outcomes

Letting the Data Speak: Democracy and Growth

Letting the Data Speak: Divergence and Convergence in Eastern Europe

The Logic of Extractive Economic Institutions

Inclusive Economic Institutions and the Industrial Revolution

Letting the Data Speak: Blocking the Railways

Evidence-Based Economics: Are tropical and semitropical areas condemned to poverty by their geographies?

### 8.3 Is Foreign Aid the Solution to World Poverty?

Choice & Consequence: Foreign Aid and Corruption

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## Part VI: Equilibrium in the Macroeconomy

# **Table of Contents**

## **Chapter 9: Employment and Unemployment**

### **9.1 Measuring Employment and Unemployment**

Classifying Potential Workers

Calculating the Unemployment Rate

Trends in the Unemployment Rate

### **9.2 Equilibrium in the Labor Market**

The Demand for Labor

Shifts in the Labor Demand Curve

The Supply of Labor

Shifts in the Labor Supply Curve

Letting the Data Speak: Who Is Unemployed?

Letting the Data Speak: Racial Disparities in Unemployment and the Existence of Racial Discrimination

Equilibrium in a Competitive Labor Market

### **9.3 Why Is There Unemployment?**

Voluntary Unemployment

Job Search and Frictional Unemployment

### **9.4 Wage Rigidity and Structural Unemployment**

Minimum Wage Laws

Choice & Consequence: Luddites and Robots

Labor Unions and Collective Bargaining

Efficiency Wages

Choice & Consequence: Minimum Wage Laws and Employment

Downward Wage Rigidity

### **9.5 Cyclical Unemployment and the Natural Rate of Unemployment**

Evidence-Based Economics: How did unemployment and wages respond to the COVID-19 pandemic in the United States?

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## **Chapter 10: Credit Markets**

### **10.1 What Is the Credit Market?**

Borrowers and the Demand for Loans

Real and Nominal Interest Rates

The Credit Demand Curve

Saving Decisions

The Credit Supply Curve

Choice & Consequence: Why Do People Save?

Equilibrium in the Credit Market

# Table of Contents

Credit Markets and the Efficient Allocation of Resources

## 10.2 Banks and Financial Intermediation: Putting Supply and Demand Together

Letting the Data Speak: Financing Start-ups

Assets and Liabilities on the Balance Sheet of a Bank

## 10.3 What Banks Do

Identifying Profitable Lending Opportunities

Maturity Transformation

Management of Risk

Bank Runs

Bank Regulation and Bank Solvency

Evidence-based Economics: How often do banks fail?

Choice & Consequence: Too Big to Fail

Choice & Consequence: Asset Price Fluctuations and Bank Failures

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## Chapter 11: The Monetary System

### 11.1 Money

The Functions of Money

Types of Money

The Money Supply

Choice & Consequence: Non-Convertible Currencies in U.S. History

### 11.2 Money, Prices, and GDP

Nominal GDP, Real GDP, and Inflation

The Quantity Theory of Money

### 11.3 Inflation

What Causes Inflation?

The Consequences of Inflation

The Social Costs of Inflation

The Social Benefits of Inflation

Evidence-Based Economics: What caused the German hyperinflation of 1922-1923?

### 11.4 The Federal Reserve

The Central Bank and the Objectives of Monetary Policy

What Does the Central Bank Do?

### 11.5 Bank Reserves and the Plumbing of the Monetary System

Bank Reserves and Liquidity

The Demand Side of the Federal Funds Market

The Supply Side of the Federal Funds Market and Equilibrium in the Federal Funds Market

# **Table of Contents**

Two Ways That the Fed Controls the Federal Funds Rate  
Choice & Consequence: Obtaining Reserves Outside the Federal Funds Market  
The Fed's Influence on the Money Supply and the Inflation Rate  
The Relationship Between the Federal Funds Rate and the Long-Term Real Interest Rate  
Letting the Data Speak: Two Models of Inflation Expectations

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## **Part V: Short-Run Fluctuations and Macroeconomic Policy**

### **Chapter 12: Short-Run Fluctuations**

#### **12.1 Economic Fluctuations and Business Cycles**

Patterns of Economic Fluctuations  
The Great Depression

#### **12.2 Macroeconomic Equilibrium and Economic Fluctuations**

Labor Demand and Fluctuations  
Sources of Fluctuations  
Letting the Data Speak: Unemployment and the Growth Rate of Real GDP: Okun's Law  
Multipliers and Economic Fluctuations  
Equilibrium in the Medium Run: Partial Recovery and Full Recovery

#### **12.3 Modeling Expansions**

Evidence-Based Economics: What caused the recession of 2007-2009?  
Evidence-Based Economics: What caused the recession of 2020?

Summary

Key Terms

Questions

Evidence-Based Economics Questions

Problems

### **Chapter 13: Countercyclical Macroeconomic Policy**

#### **13.1 The Role of Countercyclical Policies in Economic Fluctuations**

#### **13.2 Countercyclical Monetary Policy**

Controlling the Federal Funds Rate  
Other Tools of the Fed  
Expectations, Inflation, and Monetary Policy  
Zero Lower Bound  
Letting the Data Speak: Managing Expectations in Monetary Policy  
Contractionary Monetary Policy: Reducing Inflation  
Policy Trade-Offs

# **Table of Contents**

Choice & Consequence: Policy Mistakes

## **13.3 Countercyclical Fiscal Policy**

Fiscal Policy over the Business Cycle: Automatic and Discretionary Components

Analysis of Expenditure-Based Fiscal Policy

Analysis of Taxation-Based Fiscal Policy

Letting the Data Speak: The Response of Consumption to Tax Cuts

Fiscal Policies That Directly Target the Labor Market

Policy Waste and Policy Lags

Letting the Data Speak: Hybrid Policies That Involve Cooperation Between Fiscal and Monetary Policymakers

Evidence-Based Economics: How much does government expenditure stimulate GDP?

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

## **Part VI: Macroeconomics in a Global Economy**

### **Chapter 14: Macroeconomics and International Trade**

#### **14.1 Why and How We Trade**

Absolute Advantage and Comparative Advantage

Comparative Advantage and International Trade

Efficiency and Winners and Losers from Trade

How We Trade

Letting the Data Speak: Living in an Interconnected World

Choice & Consequence: Trade Policy and Politics

Trade Barriers: Tariffs

#### **14.2 The Current Account and the Financial Account**

Trade Surpluses and Trade Deficits

International Financial Flows

The Workings of the Current Account and the Financial Account

#### **14.3 International Trade, Technology Transfer, and Economic Growth**

Letting the Data Speak: From IBM to Lenovo

Evidence-Based Economics: Are companies like Nike harming workers in Vietnam?

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems

### **Chapter 15: Open Economy Macroeconomics**

# **Table of Contents**

## **15.1 Exchange Rates**

Nominal Exchange Rates

Flexible, Managed, and Fixed Exchange Rates

## **15.2 The Foreign Exchange Market**

How Do Governments Intervene in the Foreign Exchange Market?

Defending an Overvalued Exchange Rate

Choice & Consequence: Fixed Exchange Rates and Corruption

Evidence-Based Economics: How did George Soros make \$1 billion?

## **15.3 The Real Exchange Rate and Exports**

From the Nominal to the Real Exchange Rate

Co-Movement Between the Nominal and the Real Exchange Rates

The Real Exchange Rate and Net Exports

Letting the Data Speak: Why Did the Chinese Authorities Keep the Yuan Undervalued?

## **15.4 GDP in the Open Economy**

Revisiting Black Wednesday

Interest Rates, Exchange Rates, and Net Exports

Letting the Data Speak: The Costs of Fixed Exchange Rates

Summary

Key Terms

Questions

Evidence-Based Economics Problems

Problems
