Applying Macroeconomics to the Real World

Symbols Used in This Book

Preface

Part 1: Introduction

Chapter 1. Introduction to Macroeconomics

1.1 What Macroeconomics Is About

Long-Run Economic Growth

Business Cycles

Unemployment

Inflation

The International Economy

Macroeconomic Policy

Aggregation

1.2 What Macroeconomists Do

Macroeconomic Forecasting

Macroeconomic Analysis

Macroeconomic Research

Data Development

In Touch with Data and Research: Developing and Testing an Economic Theory

1.3 Why Macroeconomists Disagree

Classicals Versus Keynesians

Table of Contents

A Unified Approach to Macroeconomics

Chapter Summary And Problems

Chapter 2. The Measurement and Structure of the National Economy

2.1 National Income Accounting: The Measurement of Production, Income, and Expenditure

In Touch with Data and Research: The National Income and Product Accounts in Malaysia

Why the Three Approaches Are Equivalent

2.2 Gross Domestic Product

The Product Approach to Measuring GDP

In Touch with Data and Research: Natural Resources, the Environment, and the National Income Accounts

The Expenditure Approach to Measuring GDP

The Income Approach to Measuring GDP

2.3 Saving and Wealth

Measures of Aggregate Saving

The Uses of Private Saving

Relating Saving and Wealth

2.4 Real GDP, Price Indexes, and Inflation

Real GDP

Price Indexes

In Touch with Data and Research: The Computer Revolution and Chain-Weighted GDP

In Touch with Data and Research: Does CPI Inflation Overstate Increases in the Cost of Living?

Application: The Federal Reserves Preferred Inflation Measures

2.5 Interest Rates

Chapter Summary And Problems

Part 2: Long-Run Economic Performance

Chapter 3. Productivity, Output, and Employment

3.1 How Much Does the Economy Produce? The Production Function

Application: The Production Function and Changes in Productivity in the European Union

The Shape of the Production Function

The Marginal Product of Capital

The Marginal Product of Labor

Supply Shocks

3.2 The Demand for Labor

The Marginal Product of Labor and Labor Demand: An Example

A Change in the Wage

Table of Contents

The Marginal Product of Labor and the Labor Demand Curve

Factors That Shift the Labor Demand Curve

Aggregate Labor Demand

3.3 The Supply of Labor

The Income-Leisure Trade-Off

Real Wages and Labor Supply

Application: The Gig Economy in the ASEAN Nations

The Labor Supply Curve

Aggregate Labor Supply

3.4 Labor Market Equilibrium

Full-Employment Output

Application: Output, Employment, and the Real Wage During Oil Price Shocks

3.5 Unemployment

Measuring Unemployment

Changes in Employment Status

In Touch with Data and Research: Labor Market Data in Kazakhstan

How Long Are People Unemployed?

Application: Unemployment During the European Debt Crisis

Why There Always Are Unemployed People

In Touch with Data and Research: Alternative Measures of the Unemployment Rate

Application: Recent Trends in Labor Supply

3.6 Relating Output and Unemployment: Okuns Law

Chapter Summary And Problems

Appendix 3.A: The Growth Rate Form of Okuns Law

Chapter 4. Consumption, Saving, and Investment

4.1 Consumption and Saving

The Consumption and Saving Decision of an Individual

Effect of Changes in Current Income

Effect of Changes in Expected Future Income

Application: The Impact of the Pandemic Recession of 2020 on Consumption

Effect of Changes in Wealth

Effect of Changes in the Real Interest Rate

Fiscal Policy

In Touch with Data and Research: Interest Rates

Application: How Investors Respond to Tax Incentives

4.2 Investment

Table of Contents

The Desired Capital Stock

Changes in the Desired Capital Stock

Application: Measuring the Effects of Taxes on Investment

From the Desired Capital Stock to Investment

Investment in Inventories and Housing

In Touch with Data and Research: Investment and the Stock Market

4.3 Goods Market Equilibrium

The Saving/Investment Diagram

Application: Macroeconomic Consequences of the Boom and Bust in Stock Prices

Chapter Summary And Problems

Appendix 4.A: A Formal Model of Consumption and Saving

Chapter 5. Saving and Investment in the Open Economy

5.1 Balance of Payments Accounting

The Current Account

In Touch with Data and Research: The Balance of Payments Accounts in Malaysia

The Financial Account

The Relationship Between the Current Account and the Financial Account

Net Foreign Assets and the Balance of Payments Accounts

Application: The United States as International Debtor

5.2 Goods Market Equilibrium in an Open Economy

5.3 Saving and Investment in a Small Open Economy

The Effects of Economic Shocks in a Small Open Economy

5.4 Saving and Investment in Large Open Economies

Application: The Impact of Globalization on the U.S. Economy

Application: Recent Trends in the U.S. Current Account Deficit

5.5 Fiscal Policy and the Current Account

The Critical Factor: The Response of National Saving

The Government Budget Deficit and National Saving

Application: The Twin Deficits

Chapter Summary And Problems

Chapter 6. Long-Run Economic Growth

6.1 The Sources of Economic Growth

Growth Accounting

Application: Waves of Productivity Growth over Time

Application: The Rebound in U.S. Productivity Growth

6.2 Long-Run Growth: The Solow Model

Table of Contents

Setup of the Solow Model

The Fundamental Determinants of Long-Run Living Standards

Economic Models, Endogenous Variables, and Exogenous Variables

Application: The Growth of China

6.3 Endogenous Growth Theory

6.4 Government Policies to Raise Long-Run Living Standards

Policies to Affect the Saving Rate

Policies to Raise the Rate of Productivity Growth

Application: Trends in Income Distribution in South Africa

Chapter Summary And Problems

Chapter 7. The Asset Market, Money, and Prices

7.1 What Is Money?

In Touch with Data and Research: Money in a Prisoner-of-War Camp

The Functions of Money

In Touch with Data and Research: The Monetary Aggregates

In Touch with Data and Research: Where Have All the Dollars Gone?

7.2 Portfolio Allocation and the Demand for Assets

Expected Return

Risk

Liquidity

Time to Maturity

Types of Assets and Their Characteristics

In Touch with Data and Research: The Housing Crisis of 2007 to 2011

Asset Demands

7.3 The Demand for Money

The Price Level

Real Income

Interest Rates

The Money Demand Function

Other Factors Affecting Money Demand

Application: Bitcoin and Cryptocurrencies

Velocity and the Quantity Theory of Money

7.4 Asset Market Equilibrium

Asset Market Equilibrium: An Aggregation Assumption

The Asset Market Equilibrium Condition

7.5 Money Growth and Inflation

Table of Contents

Application: Money Growth and Inflation in European Countries in Transition

The Inflation Rate and the Nominal Interest Rate

Application: Measuring Inflation Expectations

Chapter Summary And Problems

Part 3: Business Cycles and Macroeconomic Policy

Chapter 8. Business Cycles

8.1 What Is a Business Cycle?

8.2 The American Business Cycle: The Historical Record

The PreWorld War I Period

The Great Depression and World War II

PostWorld War II U.S. Business Cycles

The Long Boom

The Great Recession

Have American Business Cycles Become Less Severe?

Application: Do Economic Expansions Die of Old Age?

8.3 Business Cycle Facts

The Cyclical Behavior of Economic Variables: Direction and Timing

Production

Expenditure

Employment and Unemployment

Application: The Job Finding Rate and the Job Loss Rate

Average Labor Productivity and the Real Wage

Money Growth and Inflation

Financial Variables

International Aspects of the Business Cycle

In Touch with Data and Research: Coincident and Leading Indexes

8.4 Business Cycle Analysis: A Preview

In Touch with Data and Research: The Seasonal Cycle and the Business Cycle

Aggregate Demand and Aggregate Supply: A Brief Introduction

Chapter Summary And Problems

Chapter 9. The ISLM/ADAS Model: A General Framework for Macroeconomic Analysis

9.1 The FE Line: Equilibrium in the Labor Market

Factors That Shift the FE Line

9.2 The IS Curve: Equilibrium in the Goods Market

Factors That Shift the IS Curve

Table of Contents

9.3 The LM Curve: Asset Market Equilibrium

The Interest Rate and the Price of a Nonmonetary Asset

The Equality of Money Demanded and Money Supplied

Factors That Shift the LM Curve

9.4 General Equilibrium in the Complete ISLM Model

Applying the ISLM Framework: A Temporary Adverse Supply Shock

Application: The Oil Price Shock of 2008

In Touch with Data and Research: Econometric Models and Macroeconomic Forecasts for Monetary Policy Analysis

9.5 Price Adjustment and the Attainment of General Equilibrium

The Effects of a Monetary Expansion

Classical Versus Keynesian Versions of the ISLM Model

9.6 Aggregate Demand and Aggregate Supply

The Aggregate Demand Curve

The Aggregate Supply Curve

Equilibrium in the ADAS Model

Monetary Neutrality in the ADAS Model

Chapter Summary And Problems

Appendix 9.A: Worked-Out Numerical Exercise for Solving the ISLM/ADAS Mode

Appendix 9.B: Algebraic Versions of the ISLM/ADAS Model

Chapter 10. Classical Business Cycle Analysis: Market-Clearing Macroeconomics

10.1 The Real Business Cycle Theory

Application: Calibrating the Business Cycle

10.2 Fiscal Policy Shocks in the Classical Model

10.3 Unemployment in the Classical Model

Jobless Recoveries

10.4 Money in the Classical Model

Monetary Policy and the Economy

Monetary Nonneutrality and Reverse Causation

The Nonneutrality of Money: Additional Evidence

10.5 The Misperceptions Theory and the Nonneutrality of Money

Monetary Policy and the Misperceptions Theory

Rational Expectations and the Role of Monetary Policy

In Touch with Data and Research: Are Price Forecasts Rational?

Chapter Summary And Problems

Table of Contents

Appendix 10.A: Worked-Out Numerical Exercise for Solving the Classical ADAS Model with Misperceptions

Appendix 10.B: An Algebraic Version of the Classical ADAS Model with Misperceptions

Chapter 11. Keynesianism: The Macroeconomics of Wage and Price Rigidity

11.1 Real-Wage Rigidity

Some Reasons for Real-Wage Rigidity

The Efficiency Wage Model

Wage Determination in the Efficiency Wage Model

Employment and Unemployment in the Efficiency Wage Model

Efficiency Wages and the FE Line

In Touch with Data and Research: Henry Fords Efficiency Wage

11.2 Price Stickiness

Sources of Price Stickiness: Monopolistic Competition and Menu Costs

11.3 Monetary and Fiscal Policy in the Keynesian Model

Monetary Policy

Fiscal Policy

11.4 The Keynesian Theory of Business Cycles and Macroeconomic Stabilization

Keynesian Business Cycle Theory

Macroeconomic Stabilization

Supply Shocks in the Keynesian Model

In Touch with Data and Research: DSGE Models and the ClassicalKeynesian Debate

Chapter Summary And Problems

Appendix 11.A: Labor Contracts and Nominal-Wage Rigidity

Appendix 11.B: Worked-Out Numerical Exercise for Calculating the Multiplier in a Keynesian Model

Appendix 11.C: The Multiplier in the Keynesian Model

Part 4: Macroeconomic Policy: Its Environment and Institutions

Chapter 12. Unemployment and Inflation

12.1 Unemployment and Inflation: Is There a Trade-Off?

The Expectations-Augmented Phillips Curve

The Shifting Phillips Curve

12.2 Macroeconomic Policy and the Phillips Curve

In Touch with Data and Research: The Lucas Critique

The Long-Run Phillips Curve

Table of Contents

12.3 The Problem of Unemployment

The Costs of Unemployment

The Long-Term Behavior of the Unemployment Rate

12.4 The Problem of Inflation

The Costs of Inflation

In Touch with Data and Research: Indexed Contracts

12.5 Fighting Inflation: The Role of Inflationary Expectations

In Touch with Data and Research: The Sacrifice Ratio

The U.S. Disinflation of the 1980s and 1990s

Chapter Summary And Problems

Chapter 13. Exchange Rates, Business Cycles, and Macroeconomic Policy in the Open Economy

13.1 Exchange Rates

Nominal Exchange Rates

In Touch with Data and Research: Exchange Rates

Real Exchange Rates

Appreciation and Depreciation

Purchasing Power Parity

In Touch with Data and Research: McParity

The Real Exchange Rate and Net Exports

Application: The Value of the Dollar and U.S. Net Exports

13.2 How Exchange Rates Are Determined: A Supply-and-Demand Analysis

Macroeconomic Determinants of the Exchange Rate and Net Export Demand

13.3 The ISLM Model for an Open Economy

The Open-Economy IS Curve

Factors That Shift the Open-Economy IS Curve

The International Transmission of Business Cycles

13.4 Macroeconomic Policy in an Open Economy with Flexible Exchange Rates

A Fiscal Expansion

A Monetary Contraction

13.5 Fixed Exchange Rates

Fixing the Exchange Rate

Monetary Policy and the Fixed Exchange Rate

Fixed Versus Flexible Exchange Rates

Currency Unions

Application: Is Either the United States or Europe an Optimum Currency Area

Table of Contents

Application: European Monetary Unification

Chapter Summary And Problems

Appendix 13.A: Worked-Out Numerical Exercise for the Open-Economy ISLM Model

Appendix 13.B: An Algebraic Version of the Open-Economy ISLM Model

Chapter 14. Monetary Policy and the Federal Reserve System

14.1 Principles of Money Supply Determination

Open-Market Transactions

Bank Runs

14.2 Monetary Control in the United States

The Federal Reserve System

The Federal Reserves Balance Sheet

Open-Market Operations

Reserve Requirements

Discount Window Lending

Application: The Lender of Last Resort

Interest Rate on Reserves

New Monetary Policy Tools Developed in the Great Recession

Application: Is There Really a Zero Lower Bound?

Application: The Financial Crisis of 2008: Some Implications for the Global Economy

Monetary Policy in Response to the Pandemic of 2020

14.3 Setting Monetary Policy Targets

Targeting the Federal Funds Rate

Monetary Policy with Abundant Reserves

14.4 Making Monetary Policy in Practice

Lags in the Effects of Monetary Policy

Conducting Monetary Policy Under Uncertainty

14.5 The Conduct of Monetary Policy: Rules Versus Discretion

The Monetarist Case for Rules

Rules and Central Bank Credibility

The Taylor Rule

Other Ways to Achieve Central Bank Credibility

Application: Inflation Targeting

Chapter Summary And Problems

Chapter 15. Government Spending and Its Financing

15.1 The Government Budget: Some Facts and Figures

Government Outlays

Table of Contents

Taxes

Deficits and Surpluses

15.2 Government Spending, Taxes, and the Macroeconomy

Fiscal Policy and Aggregate Demand

Government Capital Formation

Incentive Effects of Fiscal Policy

Application: Supply-Side Economics

15.3 Government Deficits and Debt

The Growth of the Government Debt

Application: Social Security in the United Kingdom: How Can It Be Fixed?

The Burden of the Government Debt on Future Generations

Budget Deficits and National Saving: Ricardian Equivalence Revisited

Departures from Ricardian Equivalence

In Touch with Data and Research: Measuring the Impact of Government Purchases on the Economy

15.4 Deficits and Inflation

The Deficit and the Money Supply

Real Seignorage Collection and Inflation

Chapter Summary And Problems

Appendix 15.A: The DebtGDP Ratio

Appendix A: Some Useful Analytical Tools

A.1 Functions and Graphs

A.2 Slopes of Functions

A.3 Elasticities

A.4 Functions of Several Variables

A.5 Shifts of a Curve

A.6 Exponents

A.7 Growth Rate Formulas

Problems
