Brief Contents

Contents

Preface

Chapter 1. Introduction

1.1 Microeconomics: The Allocation of Scarce Resources

Trade-Offs

Who Makes the Decisions

Prices Determine Allocations

Application: Twinkie Tax

1.2 Models

Application: Income Threshold Model and China

Simplifications by Assumption

Testing Theories

Maximizing Subject to Constraints

Positive Versus Normative

1.3 Uses of Microeconomic Models in Your Life and Career

How Individuals, Firms, and Government Agencies Use Microeconomics

What You Will Learn

Career Skills

Key Terms

Summary

Table of Contents

Chapter 2. Supply and Demand

Challenge: Quantities and Prices of Genetically Modified Foods

2.1 Demand

The Demand Curve

The Demand Function

Solved Problem 2.1

Summing Demand Curves

Application: Aggregating Corn Demand Curves

2.2 Supply

The Supply Curve

The Supply Function

Summing Supply Curves

How Government Import Policies Affect Supply Curves

Solved Problem 2.2

2.3 Market Equilibrium

Using a Graph to Determine the Equilibrium

Using Math to Determine the Equilibrium

Forces That Drive the Market to Equilibrium

Application: Speed of Adjustment to New Information

2.4 Shocking the Equilibrium

Effects of a Shock to the Supply Curve

Solved Problem 2.3

Application: The Opioid Epidemic Reduces Labor-Market Participation

Effects of a Shock to the Demand Curve

2.5 Effects of Government Interventions

Policies That Shift Supply Curves

Application: Occupational Licensing

Solved Problem 2.4

Policies That Cause the Quantity Demanded to Differ from the Quantity Supplied

Application: Venezuelan Price Ceilings and Shortages

Solved Problem 2.5

Why the Quantity Supplied Need Not Equal the Quantity Demanded

2.6 When to Use the Supply-and-Demand Model

Table of Contents

Challenge Solution: Quantities and Prices of Genetically Modified Foods

Key Terms

Summary

Questions

Chapter 3. Applying the Supply-and- Demand Model

Challenge: Who Pays the Gasoline Tax?

3.1 How Shapes of Supply and Demand Curves Matter

3.2 Sensitivity of the Quantity Demanded to Price

Price Elasticity of Demand

Solved Problem 3.1

Application: The Demand Elasticities for Google Play and Apple Apps

Elasticity Along the Demand Curve

Demand Elasticity and Revenue

Solved Problem 3.2

Application: Amazon Prime

Demand Elasticities over Time

Other Demand Elasticities

Application: Anti-Smoking Policies May Reduce Drunk Driving

3.3 Sensitivity of the Quantity Supplied to Price

Elasticity of Supply

Elasticity Along the Supply Curve

Supply Elasticities over Time

Application: Oil Drilling in the Arctic National Wildlife Refuge

Solved Problem 3.3

3.4 Effects of a Sales Tax

Effects of a Specific Tax on the Equilibrium

The Equilibrium Is the Same No Matter Whom the Government Taxes

Solved Problem 3.4

Firms and Customers Share the Burden of the Tax

Application: Taxes to Prevent Obesity

Solved Problem 3.5

Ad Valorem and Specific Taxes Have Similar Effects

Table of Contents

Solved Problem 3.6

Subsidies

Application: Subsidizing Ethanol

Challenge Solution: Who Pays the Gasoline Tax?

Key Terms

Summary

Questions

Chapter 4. Consumer Choice

Challenge: Why Americans Buy More Ebooks Than Do Germans

4.1 Preferences

Application: Testosterone and Luxury Goods

Properties of Consumer Preferences

Preference Maps

Solved Problem 4.1

Application: Indifference Curves Between Food and Clothing

4.2 Utility

Utility Function

Ordinal Preferences

Utility and Indifference Curves

Marginal Utility

Utility and Marginal Rates of Substitution

4.3 Budget Constraint

Slope of the Budget Constraint

Application: Droughts

Solved Problem 4.2

Effect of a Change in Price on the Opportunity Set

Effect of a Change in Income on the Opportunity Set

Solved Problem 4.3

4.4 Constrained Consumer Choice

The Consumers Optimal Bundle

Application: The Trade-Off Between Alcohol and Marijuana

Solved Problem 4.4

Table of Contents

Solved Problem 4.5

Optimal Bundles on Convex Sections of Indifference Curves

Buying Where More Is Better

Application: Can Money Buy Happiness?

Food Stamps

Application: Benefiting from Food Stamps

4.5 Behavioral Economics

Tests of Transitivity

Endowment Effect

Application: How You Ask a Question Matters

Salience and Bounded Rationality

Application: Unaware of Taxes

Challenge Solution: Why Americans Buy More Ebooks Than Do Germans

Key Terms

Summary

Questions

Chapter 5. Applying Consumer Theory

Challenge: Per-Hour Versus Lump-Sum Childcare Subsidies

5.1 Deriving Demand Curves

Indifference Curves and a Rotating Budget Line

Price-Consumption Curve

Application: Cigarettes Versus E-Cigarettes

The Demand Curve Corresponds to the Price-Consumption Curve

Solved Problem 5.1

5.2 How Changes in Income Shift Demand Curves

Effects of a Rise in Income

Solved Problem 5.2

Consumer Theory and Income Elasticities

Application: Fast-Food Engel Curve

5.3 Effects of a Price Change

Income and Substitution Effects with a Normal Good

Solved Problem 5.3

Table of Contents

Solved Problem 5.4

Income and Substitution Effects with an Inferior Good

Solved Problem 5.5

Compensating Variation and Equivalent Variation

Application: Compensating Variation and Equivalent Variation for Smartphones and Facebook

5.4 Cost-of-Living Adjustments

Inflation Indexes

Effects of Inflation Adjustments

Application: Paying Employees to Relocate

5.5 Deriving Labor Supply Curves

Labor-Leisure Choice

Income and Substitution Effects

Solved Problem 5.6

Application: Fracking Causes Students to Drop Out

Solved Problem 5.7

The Shape of the Labor Supply Curve

Application: Working After Winning the Lottery

Income Tax Rates and Labor Supply

Challenge Solution: Per-Hour Versus Lump-Sum Childcare Subsidies

Key Terms

Summary

Questions

Chapter 6. Firms and Production

Challenge: More Productive Workers During Downturns

6.1 The Ownership and Management of Firms

Private, Public, and Nonprofit Firms

Application: Chinese State-Owned Enterprises

The Ownership of For-Profit Firms

The Management of Firms

What Owners Want

6.2 Production

Table of Contents

Production Functions

Time and the Variability of Inputs

6.3 Short-Run Production

Total Product

Marginal Product of Labor

Solved Problem 6.1

Average Product of Labor

Graphing the Product Curves

Law of Diminishing Marginal Returns

Application: Malthus and the Green Revolution

6.4 Long-Run Production

Isoquants

Application: Self-Driving Trucks

Substituting Inputs

Solved Problem 6.2

6.5 Returns to Scale

Constant, Increasing, and Decreasing Returns to Scale

Solved Problem 6.3

Application: Returns to Scale in Various Industries

Varying Returns to Scale

6.6 Productivity and Technical Change

Relative Productivity

Innovations

Application: Restaurant Robots

Application: A Good Boss Raises Productivity

Challenge Solution: More Productive Workers During Downturns

Key Terms

Summary

Questions

Chapter 7. Costs

Challenge: Technology Choice at Home Versus Abroad

7.1 The Nature of Costs

Table of Contents

Opportunity Costs

Application: The Opportunity Cost of an MBA

Solved Problem 7.1

Opportunity Cost of Capital

Sunk Costs

7.2 Short-Run Costs

Short-Run Cost Measures

Application: The Sharing Economy and the Short Run

Short-Run Cost Curves

Production Functions and the Shape of Cost Curves

Application: A Beer Manufacturer's Short-Run Cost Curves

Effects of Taxes on Costs

Solved Problem 7.2

Short-Run Cost Summary

7.3 Long-Run Costs

All Costs Are Avoidable in the Long Run

Minimizing Cost

Isocost Line

Combining Cost and Production Information

Solved Problem 7.3

Factor Price Changes

Solved Problem 7.4

The Long-Run Expansion Path and the Long-Run Cost Function

Solved Problem 7.5

The Shape of Long-Run Cost Curves

Application: 3D Printing

Estimating Cost Curves Versus Introspection

7.4 Lower Costs in the Long Run

Long-Run Average Cost as the Envelope of Short-Run Average Cost Curves

Application: A Beer Manufacturer's Long-Run Cost Curves

Application: Should You Buy an Inkjet or a Laser Printer?

Short-Run and Long-Run Expansion Paths

The Learning Curve

Table of Contents

Application: Solar Power Learning Curves

7.5 Cost of Producing Multiple Goods

Challenge Solution: Technology Choice at Home Versus Abroad

Key Terms

Summary

Questions

Chapter 8. Competitive Firms and Markets

Challenge: The Rising Cost of Keeping On Truckin

8.1 Perfect Competition

Price Taking

Why the Firms Demand Curve Is Horizontal

Deviations from Perfect Competition

Derivation of a Competitive Firms Demand Curve

Solved Problem 8.1

Why We Study Perfect Competition

8.2 Profit Maximization

Profit

Two Decisions for Maximizing Profit

8.3 Competition in the Short Run

Short-Run Output Decision

Solved Problem 8.2

Short-Run Shutdown Decision

Application: Fracking and Shutdowns

Solved Problem 8.3

Short-Run Firm Supply Curve

Short-Run Market Supply Curve

Short-Run Competitive Equilibrium

Solved Problem 8.4

8.4 Competition in the Long Run

Long-Run Competitive Profit Maximization

Long-Run Firm Supply Curve

Application: The Size of Ethanol Processing Plants

Table of Contents

Long-Run Market Supply Curve

Application: Industries with High Entry and Exit Rates

Application: Upward-Sloping Long-Run Supply Curve for Cotton

Application: Reformulated Gasoline Supply Curves

Solved Problem 8.5

Long-Run Competitive Equilibrium

Challenge Solution: The Rising Cost of Keeping On Truckin

Key Terms

Summary

Questions

Chapter 9. Applying the Competitive Model

Challenge: Liquor Licenses

9.1 Zero Profit for Competitive Firms in the Long Run

Zero Long-Run Profit with Free Entry

Zero Long-Run Profit When Entry Is Limited

Application: The Value of a Celebrity's Name

The Need to Maximize Profit

9.2 Consumer Welfare

Measuring Consumer Welfare Using a Demand Curve

Application: Willingness to Pay on eBay

Effect of a Price Change on Consumer Surplus

Application: Goods with a Large Consumer Surplus Loss from Price Increases

Solved Problem 9.1

9.3 Producer Welfare

Measuring Producer Surplus Using a Supply Curve

Using Producer Surplus

Solved Problem 9.2

9.4 Competition Maximizes Welfare

Measuring Welfare

Why Producing Less Than the Competitive Output Lowers Welfare

Solved Problem 9.3

Application: Deadweight Loss of Christmas Presents

Table of Contents

9.5 Policies That Shift Supply and Demand Curves

Entry Barrier

Application: Welfare Effects of Allowing Fracking

9.6 Policies That Create a Wedge Between Supply and Demand Curves

Welfare Effects of a Sales Tax

Application: The Deadweight Loss from Gas Taxes

Solved Problem 9.4

Welfare Effects of a Subsidy

Solved Problem 9.5

Welfare Effects of a Price Floor

Solved Problem 9.6

Application: Who Gets Farm Subsidies?

Welfare Effects of a Price Ceiling

Solved Problem 9.7

Application: The Social Cost of a Natural Gas Price Ceiling

9.7 Comparing Both Types of Policies: Imports

Free Trade Versus a Ban on Imports

Application: Russian Food Ban

Free Trade Versus a Tariff

A Tariff Versus a Quota

Rent Seeking

Challenge Solution: Liquor Licenses

Key Terms

Summary

Questions

Chapter 10. General Equilibrium and Economic Welfare

Challenge: Natural Disasters and Anti-Price Gouging Laws

10.1 General Equilibrium

Feedback Between Competitive Markets

Solved Problem 10.1

Minimum Wages with Incomplete Coverage

Solved Problem 10.2

Table of Contents

Application: Urban Flight

10.2 Trading Between Two People

Endowments

Mutually Beneficial Trades

Solved Problem 10.3

Bargaining Ability

10.3 Competitive Exchange

Competitive Equilibrium

The Efficiency of Competition

Obtaining Any Efficient Allocation Using Competition

10.4 Production and Trading

Comparative Advantage

Solved Problem 10.4

Efficient Product Mix

Competition

10.5 Efficiency and Equity

Role of the Government

Application: Extremely Unequal Wealth

Efficiency

Equity

Application: How You Vote Matters

Efficiency Versus Equity

Challenge Solution Natural Disasters and Anti-Price Gouging Laws

Key Terms

Summary

Questions

Chapter 11. Monopoly

Challenge: Brand-Name and Generic Drugs

11.1 Monopoly Profit Maximization

Marginal Revenue

Solved Problem 11.1

Choosing Price or Quantity

Table of Contents

Graphical Approach

Application: Taylor Swift Concert Pricing

Solved Problem 11.2

Mathematical Approach

Application: Apples iPad

Solved Problem 11.3

Effects of a Shift of the Demand Curve

11.2 Market Power

Market Power and the Shape of the Demand Curve

Application: Cable Cars and Profit Maximization

Lerner Index

Solved Problem 11.4

Sources of Market Power

11.3 Market Failure Due to Monopoly Pricing

Solved Problem 11.5

11.4 Causes of Monopoly

Cost-Based Monopoly

Solved Problem 11.6

Government Creation of a Monopoly

Application: Botox Patent Monopoly

11.5 Government Actions That Reduce Market Power

Regulating Monopolies

Solved Problem 11.7

Application: Natural Gas Regulation

Increasing Competition

Application: Movie Studios Attacked by 3D Printers!

Solved Problem 11.8

11.6 Internet Monopolies: Network Effects, Behavioral Economics, and Economies of Scale

Network Externalities

Application: Critical Mass and eBay

Introductory Prices: A Two-Period Monopoly Model

Two-Sided Markets

Table of Contents

Economies of Scale on the Internet

Disruptive Technologies

Challenge Solution Brand-Name and Generic Drugs

Key Terms

Summary

Questions

Chapter 12. Pricing and Advertising

Challenge: Sale Prices

12.1 Conditions for Price Discrimination

Why Price Discrimination Pays

Application: Disneyland Pricing

Which Firms Can Price Discriminate

Preventing Resale

Application: Preventing Resale of Designer Bags

Not All Price Differences Are Price Discrimination

Types of Price Discrimination

12.2 Perfect Price Discrimination

How a Firm Perfectly Price Discriminates

Perfect Price Discrimination Is Efficient but Harms Some Consumers

Application: Botox and Price Discrimination

Solved Problem 12.1

Application: Google Uses Bidding for Ads to Price Discriminate

Transaction Costs and Perfect Price Discrimination

12.3 Group Price Discrimination

Application: Tesla Price Discriminates

Solved Problem 12.2

Prices and Elasticities

Solved Problem 12.3

Preventing Resale

Application: Age Discrimination

Solved Problem 12.4

Identifying Groups

Table of Contents

Application: Buying Discounts

Welfare Effects of Group Price Discrimination

12.4 Nonlinear Price Discrimination

12.5 Two-Part Pricing

Two-Part Pricing with Identical Customers

Two-Part Pricing with Nonidentical Consumers

Application: iTunes for a Song

12.6 Tie-In Sales

Requirement Tie-In Sale

Application: Ties That Bind

Bundling

Solved Problem 12.5

12.7 Advertising

The Decision Whether to Advertise

How Much to Advertise

Application: Super Bowl Commercials

Challenge Solution: Sale Prices

Key Terms

Summary

Questions

Chapter 13. Oligopoly and Monopolistic Competition

Challenge: Government Aircraft Subsidies

13.1 Market Structures

13.2 Cartels

Why Cartels Form

Why Cartels Fail

Laws Against Cartels

Application: Signaling Drug Price Increases

Maintaining Cartels

Application: The Apple-Google-Intel-Adobe- Intuit-Lucasfilm-Pixar Wage Cartel

Mergers

Application: Airline Mergers

Table of Contents

13.3 Cournot Oligopoly

The Duopoly Nash-Cournot Equilibrium

Equilibrium, Elasticity, and the Number of Firms

Application: Mobile Number Portability

Nonidentical Firms

Solved Problem 13.1

Application: How Do Costs, Price Markups, and Profits Vary Across Airlines?

Solved Problem 13.2

Application: Rising Market Power

13.4 Stackelberg Oligopoly

Graphical Model

Solved Problem 13.3

Why Moving Sequentially Is Essential

Comparison of Competitive, Stackelberg, Cournot, and Collusive Equilibria

13.5 Bertrand Oligopoly

Identical Products

Differentiated Products

Application: Differentiating Bottled Water Through Marketing

13.6 Monopolistic Competition

Application: Monopolistically Competitive Food Truck Market

Equilibrium

Solved Problem 13.4

Fixed Costs and the Number of Firms

Solved Problem 13.5

Application: Entry Cost and the Number of Dentists

Challenge Solution: Government Aircraft Subsidies

Key Terms

Summary

Questions

Chapter 14. Game Theory

Challenge: Intels and AMDs Advertising Strategies

14.1 Static Games

Table of Contents

Normal-Form Games

Failure to Maximize Joint Profits

Application: Strategic Advertising

Multiple Equilibria

Solved Problem 14.1

Mixed Strategies

Application: Boomerang Generation

Solved Problem 14.2

14.2 Repeated Dynamic Games

Strategies and Actions in Dynamic Games

Cooperation in a Repeated Prisoners Dilemma Game

Solved Problem 14.3

14.3 Sequential Dynamic Games

Game Tree

Subgame Perfect Nash Equilibrium

Credibility

Dynamic Entry Game

Solved Problem 14.4

Application: Keeping Out Casinos

Solved Problem 14.5

Disadvantages of Moving First

Application: Venezuelan Nationalization

Too-Early Product Innovation

Application: Advantages and Disadvantages of Moving First

14.4 Auctions

Elements of Auctions

Bidding Strategies in Private-Value Auctions

Winners Curse

14.5 Behavioral Game Theory

Application: GMs Ultimatum

An Experiment

Reciprocity

Challenge Solution: Intels and AMDs Advertising Strategies

Table of Contents

Key Terms

Summary

Questions

Chapter 15. Factor Markets

Challenge: Athletes Salaries and Ticket Prices

15.1 Competitive Factor Market

Short-Run Factor Demand of a Firm

Solved Problem 15.1

Solved Problem 15.2

Application: The Black Death Increased Wages

Long-Run Factor Demand

Factor Market Demand

Competitive Factor Market Equilibrium

15.2 Effects of Monopolies on Factor Markets

Market Structure and Factor Demands

A Model of Market Power in Input and Output Markets

Solved Problem 15.3

15.3 Monopsony

Monopsony Profit Maximization

Application: Monopsony in U.S. Labor Markets

Welfare Effects of Monopsony

Solved Problem 15.4

Challenge Solution: Athletes Salaries and Ticket Prices

Key Terms

Summary

Questions

Chapter 16. Interest Rates, Investments, and Capital Markets

Challenge: Does Going to College Pay?

16.1 Comparing Money Today to Money in the Future

Interest Rates

Using Interest Rates to Connect the Present and Future

Table of Contents

Application: Power of Compounding

Stream of Payments

Solved Problem 16.1

Application: Saving for Retirement

Inflation and Discounting

Application: Winning the Lottery

16.2 Choices over Time

Investing

Solved Problem 16.2

Solved Problem 16.3

Rate of Return on Bonds

Behavioral Economics: Time-Varying Discounting

Application: Falling Discount Rates and Self-Control

16.3 Exhaustible Resources

When to Sell an Exhaustible Resource

Price of a Scarce Exhaustible Resource

Application: Redwood Trees

Why Price May Be Constant or Fall

16.4 Capital Markets, Interest Rates, and Investments

Solved Problem 16.4

Challenge Solution: Does Going to College Pay?

Key Terms

Summary

Questions

Chapter 17. Uncertainty

Challenge BP and Limited Liability

17.1 Assessing Risk

Probability

Application: Risk of a Cyberattack

Expected Value

Solved Problem 17.1

Variance and Standard Deviation

Table of Contents

17.2 Attitudes Toward Risk

Expected Utility

Risk Aversion

Solved Problem 17.2

Application: Stocks Risk Premium

Risk Neutrality

Risk Preference

Application: Gambling

17.3 Reducing Risk

Just Say No

Obtain and Use Information

Diversify

Application: Failing to Diversify

Buy Insurance

Solved Problem 17.3

Application: Flight Insurance

Application: Flooded by Insurance Claims

17.4 Investing Under Uncertainty

Risk-Neutral Investing

Risk-Averse Investing

Solved Problem 17.4

17.5 Behavioral Economics of Uncertainty

Biased Assessment of Probabilities

Application: Biased Estimates

Violations of Expected Utility Theory

Prospect Theory

Application: Loss Aversion Contracts

Challenge Solution: BP and Limited Liability

Key Terms

Summary

Questions

Chapter 18. Externalities, Open-Access, and Public Goods

Table of Contents

Challenge: Trade and Pollution

18.1 Externalities

Application: Negative Externalities from Spam

18.2 The Inefficiency of Competition with Externalities

Application: Global Warming

18.3 Regulating Externalities

Emissions Standard

Emissions Fee

Solved Problem 18.1

Application: Taxing Driving

Benefits Versus Costs from Controlling Pollution

Application: Protecting Babies and Grandparents

18.4 Market Structure and Externalities

Monopoly and Externalities

Monopoly Versus Competitive Welfare with Externalities

Taxing Externalities in Noncompetitive Markets

Solved Problem 18.2

18.5 Allocating Property Rights to Reduce Externalities

Coase Theorem

Application: Buying a Town

Markets for Pollution

Application: Acid Rain Cap-and-Trade Program

Markets for Positive Externalities

18.6 Rivalry and Exclusion

Open-Access Common Property

Application: Road Congestion

Club Goods

Application: Software Piracy

Public Goods

Solved Problem 18.3

Application: Free Riding on Measles and COVID-19 Vaccinations

Application: Ending Disney's Positive Externality

Challenge Solution: Trade and Pollution

Table of Contents

Key Terms

Summary

Questions

Chapter 19. Asymmetric Information

Challenge: Dying to Work

19.1 Adverse Selection

Insurance Markets

Products of Unknown Quality

Solved Problem 19.1

Solved Problem 19.2

19.2 Reducing Adverse Selection

Equalizing Information

Application: Discounts for Data

Application: Adverse Selection and Remanufactured Goods

Restricting Opportunistic Behavior

19.3 Price Discrimination Due to False Beliefs About Quality

Application: Reducing Consumers Information

19.4 Market Power from Price Ignorance

Tourist-Trap Model

Solved Problem 19.3

Advertising and Prices

19.5 Problems Arising from Ignorance When Hiring

Cheap Talk

Application: Cheap Talk in eBay's Best Offer Market

Education as a Signal

Solved Problem 19.4

Screening in Hiring

Challenge Solution: Dying to Work

Key Terms

Summary

Questions

Chapter 20. Contracts and Moral Hazards

Table of Contents

Challenge: Clawing Back Bonuses

20.1 The Principal-Agent Problem

- Efficiency

- Symmetric Information

- Asymmetric Information

- Solved Problem 20.1

- Application: Honest Cabbie?

20.2 Using Contracts to Reduce Moral Hazard

- Fixed-Fee Contracts

- Contingent Contracts

- Application: Health Insurance and Moral Hazard

- Solved Problem 20.2

- Solved Problem 20.3

- Application: Sing for Your Supper

- Solved Problem 20.4

- Choosing the Best Contract

20.3 Monitoring to Reduce Moral Hazard

- Bonding

- Solved Problem 20.5

- Application: Capping Oil and Gas Bankruptcies

- Deferred Payments

- Efficiency Wages

- Application: Walmarks Efficiency Wages

- Monitoring Outcomes

20.4 Checks on Principals

- Application: Layoffs Versus Pay Cuts

20.5 Contract Choice

Challenge Solution: Clawing Back Bonuses

Key Terms

Summary
