# Cisco IP Telephony (CIPT) (Authorized Self-Study Guide)

## Table of Contents

Contents

Foreword

Introduction

### Part I: Cisco CallManager Fundamentals

#### Chapter 1 Introduction to Cisco Unified Communications and Cisco Unified CallManager

Cisco Unified Communications

Understanding Cisco Unified CallManager

Summary

Review Questions

#### Chapter 2 Cisco Unified CallManager Clustering and Deployment Options

The Two Sides of the Cisco Unified CallManager Cluster

Cluster Redundancy Designs

Call-Processing Deployment Models

Summary

Review Questions

#### Chapter 3 Cisco Unified CallManager Installation and Upgrades

Cisco Unified CallManager 4.x Clean Installation Process

Upgrading Prior Cisco Unified CallManager Versions

Summary

Review Questions

### Part II: IPT Devices and Users

# Table of Contents

## Chapter 4 Cisco IP Phones and Other User Devices

- Cisco IP Phones
- IP Phone Startup Process
- Cisco IP Phone Codec Support
- Summary
- Review Questions

## Chapter 5 Configuring Cisco Unified CallManager to Support IP Phones

- Configuring Intracluster IP Phone Communication
- IP Phone Configuration
- Case Study: Device Pool Design
- Summary
- Review Questions

## Chapter 6 Cisco IP Telephony Users

- Cisco CallManager User Database
- Cisco CallManager User Configuration
- User Logon and Device Configuration
- Summary
- Review Questions

## Chapter 7 Cisco Bulk Administration Tool

- The Cisco Bulk Administration Tool
- Using the Tool for Auto-Registered Phone Support
- Summary
- Review Questions

## Part III: IPT Network Integration and Route Plan

### Chapter 8 Cisco Catalyst Switches

- Catalyst Switch Role in IP Telephony
- Powering the Cisco IP Phone
- Data and Voice VLANs

# Table of Contents

Configuring Class of Service

Summary

Review Questions

## Chapter 9 Configuring Cisco Gateways and Trunks

Cisco Gateway Concepts

Configuring Access Gateways

Cisco Trunk Concepts

Configuring Intercluster Trunks

SIP and Cisco CallManager

Summary

Review Questions

## Chapter 10 Cisco Unified CallManager Route Plan Basics

External Call Routing

Route Plan Configuration Process

Summary

Review Questions

## Chapter 11 Cisco Unified CallManager Advanced Route Plans

Route Filters

Discard Digit Instructions

Transformation Masks

Translation Patterns

Route Plan Report

Summary

Review Questions

## Chapter 12 Configuring Hunt Groups and Call Coverage

Call Distribution Components

Configuring Line Groups, Hunt Lists, and Hunt Pilots

Summary

Review Questions

# Table of Contents

## Chapter 13 Implementing Telephony Call Restrictions and Control

- Class of Service Overview
- Partitions and Calling Search Spaces Overview
- Time-of-Day Routing Overview
- Configuring Time-of-Day Routing
- Time-of-Day Routing Usage Scenario
- Summary
- Review Questions

## Chapter 14 Implementing Multiple-Site Deployments

- Call Admission Control
- Survivable Remote Site Telephony
- Summary
- Review Questions

## Part IV: VoIP Features

### Chapter 15 Media Resources

- Introduction to Media Resources
- Conference Bridge Resources
- Media Termination Point Resources
- Annunciator Resources
- Transcoder Resources
- Music on Hold Resources
- Media Resource Management
- Summary
- Review Questions

### Chapter 16 Configuring User Features, Part 1

- Basic IP Phone Features
- Softkey Templates
- Enhanced IP Phone Features

# Table of Contents

Barge and Privacy

IP Phone Services

Summary

Review Questions

## Chapter 17 Configuring User Features, Part 2

Cisco CallManager Extension Mobility

Client Matter Codes and Forced Authentication Codes

Call Display Restrictions

Malicious Call Identification

Multilevel Precedence and Preemption

Summary

Review Questions

## Chapter 18 Configuring Cisco Unified CallManager Attendant Console

Introduction to Cisco CallManager Attendant Console

Call Routing and Call Queuing

Server and Administration Configuration

Cisco Attendant Console Features

Summary

Review Questions

## Chapter 19 Configuring Cisco IP Manager Assistant

Cisco IP Manager Assistant Overview

Cisco IP Manager Assistant Architecture

Configuring Cisco IPMA for Shared-Line Support

Summary

Review Questions

## Part V: IPT Security

### Chapter 20 Securing the Windows Operating System

Threats Targeting the Operating System

# Table of Contents

- Security and Hot Fix Policy
- Operating System Hardening
- Antivirus Protection
- Cisco Security Agent
- Administrator Password Policy
- Common Windows Exploits
- Security Taboos
- Summary
- Review Questions

## Chapter 21 Securing Cisco Unified CallManager Administration

- Threats Targeting Remote Administration
- Securing CallManager Communications Using HTTPS
- Multilevel Administration
- Summary
- Review Questions

## Chapter 22 Preventing Toll Fraud

- Toll Fraud Exploits
- Preventing Call Forward and Voice-Mail Toll Fraud Using Calling Search Spaces
- Blocking Commonly Exploited Area Codes
- Using Time-of-Day Routing
- Using FAC and CMC
- Restricting External Transfers
- Dropping Conference Calls
- Summary
- Review Questions

## Chapter 23 Hardening the IP Phone

- Threats Targeting Endpoints
- Blocking Endpoint Attacks

# Table of Contents

Summary

Review Questions

## Chapter 24 Understanding Cryptographic Fundamentals

What Is Cryptography?

Symmetric Encryption

Asymmetric Encryption

Hash Functions

Digital Signatures

Summary

Review Questions

## Chapter 25 Understanding the Public Key Infrastructure

The Need for a PKI

PKI as a Trusted Third-Party Protocol

PKI Entities

PKI Enrollment

PKI Revocation and Key Storage

PKI Example

Summary

Review Questions

## Chapter 26 Understanding Cisco IP Telephony Authentication and Encryption Fundamentals

Threats Targeting the IP Telephony System

How CallManager Protects Against Threats

PKI Topologies in Cisco IP Telephony

PKI Enrollment in Cisco IP Telephony

Keys and Certificate Storage in Cisco IP Telephony

Authentication and Integrity

Encryption

Summary

# Table of Contents

Review Questions

## Chapter 27 Configuring Cisco IP Telephony Authentication and Encryption

Authentication and Encryption Configuration Overview

Enabling Services Required for Security

Using the CTL Client

Working with Locally Significant Certificates

Configuring the Device Security Mode

Negotiating Device Security Mode

Generating a CAPF Report

Summary

Review Questions

## Part VI: IP Video

### Chapter 28 Introducing IP Video Telephony

IP Video Telephony Solution Components

Video Call Concepts

Video Protocols Supported in Cisco CallManager

Bandwidth Management

Call Admission Control Within a Cluster

Call Admission Control Between Clusters

Summary

Review Questions

### Chapter 29 Configuring Cisco VT Advantage

Cisco VT Advantage Overview

How Calls Work with Cisco VT Advantage

Configuring Cisco CallManager for Video

Configuring Cisco IP Phones for Cisco VT Advantage

Installing Cisco VT Advantage on a Client

Summary

# Table of Contents

Review Questions

## Part VII: IPT Management

### Chapter 30 Introducing Database Tools and Cisco Unified CallManager Serviceability

Database Management Tools

Cisco CallManager Serviceability Overview

Tools Overview

Summary

Review Questions

### Chapter 31 Monitoring Performance

Performance Counters

Microsoft Event Viewer

Microsoft Performance Monitor

Real-Time Monitoring Tool Overview

Summary

Review Questions

### Chapter 32 Configuring Alarms and Traces

Alarm Overview

Alarm Configuration

Trace Configuration

Trace Analysis

Trace Collection

Bulk Trace Analysis

Additional Trace Tools

Summary

Review Questions

### Chapter 33 Configuring CAR

CAR Overview

CAR Configuration

# Table of Contents

Report Scheduling

System Database Configuration

User Report Configuration

Summary

Review Questions

## Chapter 34 Using Additional Management and Monitoring Tools

Remote Management Tools

Dependency Records

Password Changer Tool

Cisco Dialed Number Analyzer

Quality Report Tool

Summary

Review Questions

## Part VIII: Appendix

Appendix A: Answers to Review Questions

Index
